THE THING NEW!

THE PATENT STAMP-SEALING AND POST-MARE PRESERVING ENVELOPE.

The preservation on the letter itself of the POST-MARE and POSTAGE-STAMP, generally destroyed with the detached cover, has long been deemed a matter of the first importance. This desideratum is now triumphantly secured by this ingenious invention. Many obvious advantages must arise from the general use of this envelope.

First—Increased Safety by additional scaling; the stamp connecting the suvelope and letter securely together; and this is never liable to be omitted, though the sticking of the flap is frequently neglected or imperfectly done.

Second—Security against Impertinent Intrusion; the letter and envelope being firmly attached by the stamp, and inclosure cannot be inspected even if the flap be clandestinely opened.

destinely opened.

Third—Safety against Abstraction of Valuable Inclosures. If the flap be left unsealed, or opened with felouiunit total, it will be impossible to open the letter and take
thence bank notes and drafts without so mutilating the nesses that notes and drains without so industing the needings to insure detection.

Frustle—Security for the free payment of the Postage; sethe stamp, when once properly placed in this window, annot be removed without its destruction.

Fifth—Advantage therefore to the Government; by the effectual destruction of every stamp in its first use.

Sixth—Facility to the Post Office Operations; by a uniform location of the stamp in the upper right hand corner, which is the most convenient position for the Post Office mark.

mark.

Beauth.—Verification of the Mailing; by securing on the letter itself the legal evidence of the time and place of it being mailed. This has long been esteemed so desirable, that many prudent persons are constrained to dispense with the use of enrelopes, that they may have the post mark on the letter; and others take the precaution to pin the enrelope again on the letter for identification. Eighth.—Certainty of the Date and Place on the Letter, which are so frequently omitted by writers in carelessness or hurry.

r hurry.

Ninth-Ornamentation; which, though some may think
f small importance, certainly meets the approval of all
sersons of tasts.

Tenth-Cost. Notwithstanding the many and unrivaled

AND DISTANTS OF THE KIDNEYS AND BLADDER

THE CURATIVE properties of the medicine direct themselves to the organic of secretion, and by so altering the condition of the stomach and liver that the starchy principle of the food is not con-verted into sugar so long as the system is under the influ-CONSTITUTION WATER,

which gives those organs time to recover their healthy tone and vigor. We are able to state that the Constitution Water has cured every case of Diabetee in which it has been given.

STONE IN THE BLADDER, CALCULUS, GRA BRICK DUST DEPOSIT, AND MUCOUS OR MILKY PISCHARGES AFTER URINATING. Disease occurring from one and the same cause will be entirely cured by the Constitution Water, if taken for any length of time. The dose should vary with the severity of the disease, from twenty drops to a teaspoonful three times a day, in water. During the passage of the Calculus, the pain and urgent eymptoms should be combated with the proper remedies, then followed up with the Constitution Water, as above directed.

DYSMENORRHŒA, OR PAINFUL MENSTRUA-TION, AND IN MENORRHAGIA OR PROFUSE FLOWING,

Both diseases arising from a faulty secretion of the men-strual fluid—in the one case being too little, and accom-panied by severe pair; and the other a too profuse secre-tion, which will be speedily cured by the Constitution tion, which will be speedily cured by the Constitution Wator.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging palms in the back and sides, and at times accompanied by sharp lacinating or shooting pains through the parts, will, in all cases, be removed by the nuclicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor Lassitude, and Dimness of Vision.

SUPPRESSED MENSTRUATION,

which in the unmarried female is a constant: rring disease, and through neglect the seeds of more grave and dangerous maladies are the result; and as month after month passes without an effort being made to assist nature, the suppression becomes chronic, the patient gradually loses her appetite, the lowest are constituted, night sweats come on, and consumption finally ends her career. PHILABELPHIA, May 27th. 1863.

Priend Mishler—Dear Sir: I wish you to send me immediately, one or two cases of your Bitters. I gave a bottle to Mrs. Neavin, a lady that had been troubled with the Dumb Ague, and had taken so much quinine that her appetite had left, and was so much troubled with pain in all the joints that she was not able to be about. She has used one bottle, and she can now attend to the duties, of her household; in fact she can not give it praise enough. Yours, respectfully,

LANCASTER, May 27th, 1863.

B. Mishler—Dear Sir: This is to cettify that I have been suffering with what the doctors call Chronic Diarrohea for three months, and I suffered so much with pain and grew so weak, that the doctors had almost despaired of my getting well, and indeed I had almost given up myself. I have been at the Lancaster Hospital for six months; I had Khemmatism when I went there, and was unable to do anything. One of the immates of the Hospital give me three doces of your Bitters, and afterwards I felt much better, and I have been taking them ever since, and feel as if I am going to get sound and well. Your Bitters have proved themselves to be a cure for me, and I am thankful for it. I do really think I could not have lived this long had I not got the Bitters I also had Gravel, which has troubled me for a long time, of which I feel nothing of any more. I suppose it must have been the Bitters that took that away, as it works you say in that way. Indeed the Bittershave been a God's blessing to me, and have restored one to pretty good health. Mr. A. Palier can tell all about it, as he is well acquainted with my sofferings since I have been in the Hospital.

Prequea, May 25th, 1863. This disease depends upon an inflammation of muccus lining of the vagina and womb. It is in all cases accom-panied by severe pain in the back, across the bwels and through the hips. DANVILLE, Pa., June 2, 1862, Dr Wm II. Grass-Dear Str: In February, 1861, I was attiteted with the sugar diabetes, and for five months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight. New Priville, June 5, 1863.

Mr. B. Mishler—Sr: About Christmast, my yonngest daughter, a girl of fifteen years of age, was attacked with paralysis, which confined her to her bed, where she lay perfectly helpless and sufforing the greatest pain. I procured the attendance of our medical men in the neighborhood, but, in spite of their best efforts, she grew daily worse and worse. She was so helpless that it was impossible for her to sit up, even when propped by pillows, for when, to ease her, we would raise her up, she would fall over backwards, or lie on one side or the other, and indeed had no strength or power or control over her motions at all. On the 26th of last month, by the advice of Henry Minnich, I came to see you, and from what you told me. I concluded to try your Herb Bitters. I took a bottle out home with me, and my daughter commenced taking it. She has used that, bottle, and the effect is so great that I want to take out some more with me, and I am confident now that what you told me was perfectly true, and that my daughter will shortly be entirely recovered. She is now able to leave her bed, and can sit na common chair, and can stand on her feet, without any pain; she can raise her hands to her head, and remains out of bed meet of the day. I am so pleased with the effects of your medicine that there is nothing I would not give to precure it. You may use this as you please, for I think that so good a medicine should be known everywhere.

Will praiting I remain, Sir, Yours truly, copy.

The work is full of incident, character and great interest, and will have popularity equal to any work that has been issued from the press for many years, and is equal, if not superior to its predecessor, "Camille," by the same ap 21 tf 15

B. Not being a citizen of this place, I just happened to be here selling Patent Pumps, and heard your Bitters recommended so highly by different ones, I concluded to try it, and such are the facts of the benefits I received by using your Bitters. Below we publish another lot of certificates received by B. MISHLER, concerning the great cures effected by his wonderful remedial agent known as HERB BITTERS:

BITTERS:

ALTOONA, Pa., Sept. 2, 1863.

Dr. Whitfield—Sir: I had been afflicted with a very severe cold on the breast for three or four weeks, and had tried different domestic and patent remedies without any benefit. From your recommendation I was induced to try Mishler's Bitters. I am huppy to say they had the desired offect—and I am better than I have been for a long time. I have also used the Bitters for a severe Diarhoz and they completely cared me. No one should be without them. I am determined to have some in the house all the time.

Yours respectfully,

JOSEPH H. BROWN.

Dr. Whitfield—Sir: This is to certify that I have been afflicted with the Rheumatism for many years, and have tried many things said to be curse without any relief. I am employed drying sand for the P. R. R., and having to be in the damp and steam nearly all the time, I was afraid that I never would get well again Otoof my arms has been so bad that I was afraid I would lose the use of it-altiget lever; it was so week and painful that I had to raise it with my other hand whenever I wished to change its position. The bottle of Mishier's Herb Sitters I got from you the other day, has so much relieved me that I cam now raise my arm without difficulty and it is getting as strong as ever.

From the wonderful improvement it has made in my health, I can recommend Mishler's Herb Bitters with the greatest confidence to all those afflicted with the Rhouma-Manbeim, Nov. 5th, 1863.

B. Mishler—Dear Str: I have been selling your Bitters for a long time, and have used it myself for Neuralgh, which has entirely cured me, and my customers use it and think it to be the best Bitters they have ever heard of. Indeed it has given entire satisfaction in every particular. I intend to keep a full supply on hand all the time at my hotel, "Washington House," Manheim. A. H. REIST.
