One day last week the rebels assaulted our works One day last week the receis assaulted our works at Plymouth and were twice repulsed.

On Monday morning the gunboat Bombshell ran up the Roanoke river to look out for the iron-clad ram reported to be coming down. Soon after passing our works she was fired into by a rebel battery.

About 3 o'clock a rebel ram came down, ran our batteries, and sunk the gunboat Southfield by running into her.

The gunboat Miami, a very strong vessel, lay

THE COST OF COAL -We have before

report of the Ashburton Coal Company, whose mines are located in Schuylkill and Luzerne counties, Pa. The report says that each colliery when worked to the best advantage will produce 75,000 tons of marketable al annually, making the aggregate yield of the mines 450 000 tons. The cost of mining will be about \$1 30 per ton, and the transpor-tation to the New York market about \$2,90, making its cost per ton in New York at \$4 20. The selling price of coal in New York to-day is \$950 per ton, showing, if this report can be relied on, a clear profit of \$5.30 per ton. We have never believed that the coal companies were warranted in charging such extrav agant prices for coal, and here we have published proof of the correctness of our views. To maintain the present exorbitant price of coal in face of these facts is an imposition, and we trust that some measure can be adopted to put a stop to the continuance of this extertion upon the necessities of the people. - Scientific American.

GREAT CENTRAL FAIR

FOR THE SANITARY COMMISSION.

Office of the Com. of Large, Incomes and Revebue Bo. 118 South Seventh Steert, Philadelpaia, April 4th, 1884. The Committee on "Labor, Incomes, and Revenues" invite co-operation with them in the purificular work for which they have been appointed. As no portion of the people are more patriotic than the working men and "women of the country, it is but just and proper that they should slike have an opportunity to contribute to the objects of the Fair. The most equable plan for accomplishing this, and, at the same time the susiest one, is to sak for the contribution of a SINGHE DAY'S LABOR from all classes in the community. Many will contribute a day of their labor willingly, who would not subscribe their money. To reach every department of industry and art will be a work of great labor, but, if attained, will be productive of immense results. The success of the plan will depend upon the heard cooperation of every element of influence within our limits, and we invite all the guardians of two industrial interests, and all others, to take hold with us in furthering this great work of patriotism and humanity. The Committee is charged with the following duty, to wit:

Prest.—To obtain the contribution of "one day's The Committee on "Labor, Incomes, and Revenue

The Committee is charged with the following duty, to wit:

FIRST.—To obtain the contribution of "one day's labor" or earnings from every artisan and laborar, foreman, operative or employee; president, cashier, teller, and clerk of every incorporated and unincorporated company, railroad, and express company, employing firm, bank, manufactory, iron works, oil works, mill, mine, and public office; from every private backer and broker, importer, auctioneer, and merchant; clerk, agent, and salessman; designer, faisher, and artist; publisher, printer and mechanic; from every Government officer, contractor, and employee; grocer, butcher, baker, and dealer; farmer, horticulturist, and producer; from every manunamaker, milliner, and female operative; every individual engaged in turning the soil, tending the loom, or in any way earning a livelihood, or building a fortune within the States of Pannsylvania, New Jersey, and Belaware.

and Delaware.
SECORD.—To obtain the contribution of one day's
"Evenue" from all the great employing establishments, firms, corporations, companies, railroads, and

ments, firms, corporations, companies, railroads, and works.

Thipp—To obtain the contribution of one days's "Income" from every reitred person, and person of fortune—male and femile—living upon their means, and from all clergymen, lawyers, physicians, deutists, editors, authors, and professoris; all other persons engaged in the learned or other professions.

Much of this work must be performed by the personal influence and efforts of ladles and gentlemen associated, or to be associated with the Committee in earrying out this plan.

The Committee feel the responsibility of the work they have undertaken, which, to be successful, will require a very perfect ramification of their plan, and they therefore call upon all earnest people to assemble themselves together in every town, township, and county, and form organizations of ladles and gentlemen to co-operate with them in this great work and labor of love. In the manufacturing counties, the coal and oil regions, and in the agricultural districts—especially, let there be organizations in the large towns, so that the young people may have an opportunity thus to render assistance to their relatives and friends fighting the battless of their county in the armies of the antion.

The work of this Committee may be prosecuted where no other effort can be made for the Fair, as in the miner's, and a day's availage of the miner's, and a day's availage of the miner's, and a day's rouder of the miner's, and each of the miner's, and a day's product of the miner's, can be other miner's, and a day's product of the miner's, can be other relatives and friends fighting the day the miner's, and a day's product of the miner's, can be other relatives and friends fighting the day of the miner's, and a day's product of the miner's, can be other relatives and for the miner's, can be other to the miner's, and a day's availage of the miner's and of the miner's and of the miner's a no other effort can be made for the Fair, as in the mines of the coal regions. A day's saraings of the mines's, and a day's product of the mines, can be obtained, where no portable article could be procured for transportation. Indeed, there is no part or section of these States where the day's labor may not be obtained if organizations can be formed to reach them. The Committee cannot close without urging upon all Proprietors of Establishments the duty of taking promp: and energetic action to secure the beneft OF THE DAY OF LABOR from all within their control.

trol.
The Committee deem it unnecessary to do more that thus to present the subject to the people of the threst states named. In the coming campaigns of our armies the labors of the "SANTTARY COMMISSION" will be

the labors of the "SANITARY COMMISSION" will be greatly augmented. By the first of June 700,000 men—one of the largest armies of modern times—will be operating in the field. So large a force, scattered over regions to which the men are unacolimated, must necessarily carry along with it a large amount of sickness, suffering, and death, to say nothing of the gathered horrors of the battle-field.

These suffering, at its our bounden duty, as men and Christians, to relieve. A great and enlightened people, enjoying the blessings of a Government of their own making, cannot refuse assistance to men suffering to maintain its authority, and we will not believe that the "GREAT CENTRAL FAIR," drawing its products from the three States of Pennsylvania, New Jersey, and Delaware, so afficient in all mineral, agricultural, and industrial wealth, shall fall behind any similar effort which has yet been made for the relief of the Nation's children.

effort which has yet been made for the relief of the Nation's children.

As it is desirable not to multiply circulars, no further authority than this circular will be necessary for any employing firm or company, or any respectable committee of ladies and gentlemen, to proceed at once in the work of this committee; and it is hoped that under it, organizations will spring up in all the towns and busy regions of the States of Fennesylvania, New Jersey, and Delaware.

Subscriptions will be thankfully acknowledged in the newspapers of Philadelphia; and it is very desirable that they commence soon, as each fresh acknowledgment will etimulate effort in other localities. All subscriptions should be addressed to JOHN W. CLAGHORN, Treasurer, office of the "Committee on Labor, incomes, and Revenue," No. 118 South Seventh street, Philadelphia.

THE UNION, THE CONSTITUTION, AND THE RN-FORCEMENT OF THE LAWS.

I'me Werkin Acs, is a complete compendium of the Nows of the Week, and contains the chief editorials, the prices current and market reports, stock quotations, correspondence and general news matters published in the Daily Ago. It also contains a great variety of other matter, rendering it in all respects a first-class family journal, particularly adapted to the Politician, the Merchant, the Farmer, the Mechanic, the Literay man, and all classes of readers. It has, in fact every characteristic of a LIVE NEWSPAPER, fitted to the Counting House, the Workshop, the Farmer's Fire

The publishers of The Age conceive that it thus fenders peculiar services and has peculiar claims upon all man by whom its principles are valued, and who, by the proper means, look to promote and secure the Constitutional restoration of the Union. These can best show their sense of the untring efforts of the publishers, in behalf of this great and unparalleled cause, by earnestly sustaining this paper in all its business relations.
