of the oil we expect to obtain from it, the indi-cations of which are very strong here. There was a well dug on the farm several years ago for the purpose of watering cattle, but there is so much oil in the water that cattle will not drink it. The oil found on the Ohio lands is the "Lubricating Oil," which is much more valuable than that found in Pennsylvania. In calling the atten-tion of capitalists and the public generally to this enterprise, the Directors have determined to spitch as fars as possible, with the view of realizing permanent business profit to the stockcolders at the earliest moment, and they have no hesitancy in expressing the bellef that the return will be anore created and they have no hesitancy in expressing the bellef that the return will be more created and they have no hesitancy in cash dividends along the sum of one million dollars per year.
