horse thieves, and they are making clean work. KNOXVILLE, Tenn., May 2,-10 P. M. -Information from Stoneman's cavalry has been received that Jeff. Davis was at Yorkville, S. C., on the 28th ult., and that Stoneman's forces came in the fol-

lowing day.

Jeff. has one day's start of Stoneman and is escorted by two thousand cavalry. well mounted, and commanded by Gen.
Dibbrell. He is accompanied by Benjamin, Breckinridge, and other infamous characters, and will probably be joined by all the desperadoes fleeing from justice and from the vengeance of the United States Government. It is besed United States Government. It is hoped United States Governments forces will overtake and capture Davis, as he is burdened with eleven wagons, suppo to be loaded with specie.

Lieutenant General Grant's Philadel-

phia Residence.

The handsome furnished mansion on West Chestnut street, purchased and fitted up at a cost of \$50,000, by the citizens of Philadelphia, as a present to our Lieutenant General, was opened on Saturday last for inspection, and in the course of the day was visited by a large number of ladies and gentlemen. The mansion is twenty two ieet front, one hundred and five feet deep, and four stories in height. The from of sandstone, and has a balcony under the first story windows. In the interior the arrangements combine elegance and convenience. There is a spacious hall, and a handsome staircase ascending from it to the fourth story, lighted by a window on the roof. There is also a private staircase

leading to the dining-room and kitchen. Back of the chambers on the second and third floors are bath rooms, which are elegantly fitted up. The parlor, about seventeen by forty feet, is superbly furnished, the carpets being of velvet, the furniture of walnut, and the curtains of the richest lace .-The piano and all the articles of furniture in the room are in the highest style of mechanical art. Vases of an antique pattern decorate the richly carved marble mantel; and an elegant clock, surmounted by a figare representing the historian is in the centre of it. On the centre table is a magniflicent copy of the Bible.

Passing on to the dining room are exposed to view, on an extension table, a silver tea-set and and a china dinner and tea-set, together with pearl-handled knives and silver forks. A prominent figure on it is a large silver candelabra and flower stand combined. In the dining-room is a very beautiful sideboard.

The chambers on the second floor are finished in almost as costly style as the parlors. Velvet carpets on the floors, a splendid Jenny Lind bedstead is in each room, with beautiful dressing bureaus and wardrobes. The reception room, on the second floor back, is also richly furnished. In the third story chambers the floors are covered with Brussels carpeting, and the furniture is of a superior kind. All portions of the house are furnished in the most complete manner. The residence was formally presented to the General in person yesterday afternoon. Several speeches were made.

LANCASTER AND VENANGO MUTUAL
PETROLEUM ASSOCIATION.
The property of the Lancaster and Venango
Mutual Petroleum Association consists of
Ninety-One Acres of Land, in fee simple, situated on the eastern bank of Big Sandy Creek,
and on either side of Stony Run, which flows
through the middle of it, in French Creek
township, Venango county. It presents a large
proportion of boring ground, amounting to at
least sixty acres.
Part of the land is covered with fee least sixty acres.

Part of the land is covered with fine oak timber, well calculated for the manufacture of coal oil barrels, this alone is of great value in that locality where thousands of barrels are wanted daily to hold the rich products of surganding wells.

that locality where thousands of barrels are wanted daily to hold the rich products of surrounding wells.

It is evident also that large deposits of bituminous coal exist in the elevated portions of this tract; they are however undeveloped. Within one mile east and west coal mines are worked on an extensive scale.

Recent experiments demonstrate that the "Big Sandy " is not second to Oil Creek in oil wealth as to quantity, who le the quality is far superior, and worthly, who let the price of the illuminating oil upon Oil Creek; the Big Sandy producing the heavy lubricating oil. The excitement is now in that direction. Numbers of wells are now down and being bored all along the waters of the Big Sandy. Oil was struck ¾ of a mile above this tract on the 7th of February. It is a mount of the Big Sandy, this is about a life off.

The land of this company lies due south of the property of the Sugar Creek Oil Company in the same both, about 1½ miles; said Sugar Creek Company the Sugar Creek Oil Teem of the stock up from one to twenty-four dollars (\$24.00) in a few days.

latier part of February, 1815, which sent the stock up from one to twenty-four dollars (\$24.00) in a few days.

It is the determination of this company to fully develop their whole territory. Subscribers to stock can feel satisfied that no effort will be spared on the part of the officers and managers to bring out the oil, which must be within reach of faithful labor. We invite a carell examination of our prospectus by all. We have every confidence in our oil prospects, and every assurance that the stock of the company-will soon advance in price.

The managers of this association, while they do not wish to misrepresent, at the same time beg leave to bring the stern fact before the public, that after all that is said about this, that and the other tract of oil land and oil wells, in nine out of ten times there is no oil there, outside of Venango county. Venango county is the oil county. Remember that! Examine the list of producing wells. We point to it with pride: Cherry Run, Sugar Creek, Cognette Well, Reed Well, Auburn Well, Big Sandy, Dalzell, McClintock, etc., etc., all in Venango county, in close proximity to the "Lancaster and Venango County, under Oil Creek, Cherry Run, Sugar Creek, Big Sandy Creek, and the adjacent parts of the Allegheny river.

There are now only 50,000 shares of the stock of this company offered for saie, the rest is all taken.

The properties of the Company consist of FOUR HUNDRED and THIRTY-ONE ACRES of land in separate tracts.

No. 1. A lease for the term of ninety-nine years of a tract of land, containing ninety-one Acres, situated in Jefferson county, Pennsylvinia, on the south bank of the Clarion river, near Clarington, and is subject to only one-tenth royalty. There is a subject to only one-tenth royalty. There has the clarious period of Bituminous Coal on the ract, and the greater part is covered with very vary Timber. The use of all the Coal and Timber has been secured by the Company. There is also, a Salt Spring and a Gas Spring on the premises, which with the dark color, and light seeing gravity of the Oil found in the vicinity are considered sure indications of Oil in very large quantities. The surface indications are of the most reliable character. Oil and Gas Springs are numerous, and the oil in many laces is found percolating through the surface of the ground. About 20 Acres is low bottom de extending along the edge of the river, about three-fourths of a mile, effording excellent facilities for sinking; a number of wells, and of shipping the oil by water, without resorting to any conveyance by land, which is alwa s at the or with the convergence.

affording excellent facilities for sinking a number of wells, and of shipping the oil by water, without resorting to any conveyance by land, which is alway as an item of very grater-pense. The Clarion river is a large stream navigable for fatboats and raits expande of carrying on each boat one thousand arrels of oil, westwardly, direct to Pittsburg and the Ohio river, and enstwardly to Ridgway on the Philadelphia and Eric Raliroad, on a few miles distant. The completion on his great thoroughfare through our State to the great West, which has been opened within the last few months will, by affording facilities of communication and travel, insure the rapid development of this whole region. Proposuls for running a new Raliroad directly through this locality to Venango county are now being made. The valley of the Clarion river is fast becoming the most popular and valuable Oil Territory in the United States.

A number of years ago a few experienced and practical oil men noticed the great deposits of Asphaltum, and beds of Bituminous Coal and Bituminous Limestone, which abound in Jefferson, Elk and Forrest declination of the slopes of the strata, became convinced that Jefferson county was the great oil basin of Pennsylvania, they accordingly purchased large quantities of land, and are now disposing of it at fabulous prices.

We cannot point out a number of wells yield-integrate them must feel that no efforts have bithered here must feel that no efforts have

at fabulous prices.

We cannot point out a number of wells yielding great quantities of oil in this immediate vicinity, from the fact that no efforts have hitherto been made to develop it; but a little further down the river a large number of the most valuable wells in the country have been obtained, with more flattering results the most valuable wells in the country have been obtained, with more flattering results the most valuable wells in the country have been paring the geological formation of the country with that of the best oil-producing territory, with that of the best oil-producing territory, no doubt exists in the minds of scientific men that it will be at least equal to the best.

No. 2. A lease for twenty years of a tract of land known as the "Patton Farm," containing eighty acres in Hocking country. Ohio, on the west side of Hocking river. Risaccoon creek and two other sreams that amply into the river runsthrough this tract. This river is navigable for Flat boats patt of the year. The property fronts on the river, about one-third of a mile and is distant only one-fourth of a mile from the Hocking Canal, which intersects the Marietta and Cincinnati Raffroad, at Athens. There is an abundance of bituminous coal on this tract; the land is, hilly and has deep ravines with every indication of an abundance of oil. There is a spring on the farm which cannot be used for watering stock on account of being so strongly impregnated with oil.

No. 3. A lease for twenty years of a tract of land known as the "Henderson Farm," containining seventy-five acres in Hocking county, Ohio, on the Big Raccoon Creek, distant about two and a half miles from the Canal.—The Newark Railroad runsthrough it. A large portion of this tract is bottom land and the balance hills with plenty of coal in them and good indications of oil.

No. 4. A lease for twenty years of a tract of land known as the "Crosby Farm," containing seventy-nine acres, in Hocking county, Ohio, about one and a quarter miles from the Canal. This tract lying on Big Raccoon Creek is mountaineous, and has deep ravines with good prospects for oil.

No. 5. A lease for twenty years of a tract of land known as the "McAllister Farm." containing fifty Acres, in Hocking county, Ohio, half a mile from the Canal. The locality of this Tract is as good as the Patton lease having every indication of a good supply of oil.

The last leases are subject to one fifth royalty and secures to the Company the right to all the foil, Coal, from and other valuable substances found thereon.

6. The fee simple of a tract of land known as the "Moore Farm," containing Fifty-six acres on Five-mile creek, in Hocking county, Ohio, distant three miles from the canal. The Newark railroad runs through the farm. There is a mountain on each side of the tract—the one has an abundance of excellent iron ore, and the other a large quantity of coal, and there is a furnace within half a mile.

This is a valuable investment, independent of the oil we expect to obtain from it, the indications of which are very strong here. There was a well dug on the farm several years ago for the purpose of watering cattle, but there is so much oil in the water that cattle will not drink it. The oil afund on the oliands is

And even where this learni disease has taken hold it will afford greater relief than any other medicine.

Miss Kate Vanderslice, of Pottsville, says:

"I was benefitted more by using the Pheenix Pectoral than any other medicine I ever used."

Elias Oberholtzer, of Lionville, Chester county, was cured of a cough of many years' standing by using the Pheenix Pectoral.

Joseph Lukens, of Hall street, Pheenixville, certifies that he was cured of a cough of two years' standing, when all other medicines had failed, by the use of Pheenix Pectoral.

Jacob Powers certifies that he has sold hundreds of bottles of the Pheenix Pectoral, and that all who used it bear testimony of its wonderful effects in curing cough.

John Royer, editor of the Independent Phonaix, having used it, has no hesitation in pronouncing it a complete remedy for cough, hoarseness and irritation in the throat.

The West Chester Jeffersonian says: "We have known Dr. Oberholtzer personally a number of years, and it gives us the greater pleasure to recommend his medicines, inasmuch as the public rarely have the benefit of family medicines prepared by a physician of his acquirements and experience."

Dr. Oberholtzer is a member of the Alumni of the Medical Department of the University was a well dug on the farm several years ago for the purpose of watering cattle, but there is so much oil in the water that cuttle will not all the purpose of watering cattle, but there is so much oil in the water that cuttle will not drink it. The oil found on the Ohio lands is the "Lubricating Oil." which is much more valuable than that found in Pennsy length in the control of the producing wells in close proximity to all of the above properties; but the regions are only beginning to be developed, and have every indication of being located in the very best oil territory on the Clarico and Hocking rivers and their tributaries, and the fact of the Company caving so largean amount in different location leaves no doubt in the minds of the Directors that the Company will be able, in a short time, to dispose of a portion of its property at prices far exceeding the original cost, thereby eccupy large dividends to the stocatodiers, even before any oil is obtained; as, after disposing of a large portion, the Company will be still have amply sufficient territory for the purpose of development. In calling the attention of capitalists and the public generally on this enterprise, the Directors have determined to spare no efforts to push the sinking of wells to completion as fast as possible, with the riew of realizing permanent business profit to the stockoolders at the earliest moment, and they have no hesitancy in expressing the belief that the return will be more certain and liberal than from any other investment. To give an idea of the immense profit to be derived from earnest and successful working it is a companied. of remsylvania, at which institution he gradunted in 1854.

The Reading Gazette says: "This cough remedy is made by Dr. L. Oberholtzer, of Phemixville, Pa., and it has acquired an unsurpassed
reputation in curing coughs. It is carefully
and skillfully prepared from, Wild Cherry Bark
and Seneka Snake Root."

Dr. Geo. B. Wood, Professor of the Practice
of Medictine in the University of Pennsylvania,
Physician to the Pennsylvania Hospliad, and
one of the authors of the United States Dispensatory, says of seneka Snake Root: "Its action
is specially directed to the lungs."

The proprietor of this medicine has so much
confidence in its curative powers, from the testimony of hundreds who have used it, that the
money will be paide back to any purchaser who
is not satisfied with its effects.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in those cases of Fluor Albus for Whites in females, where all the old nauseous medicines have failed. It is prepared in a highly concentrated form, the dose only being from one to two teaspoonfuls three times per day.

It is diarretic and alternative in its occious.

It is diuretic and alternative in its action purifying and cleansing the blood, causing it to flow in all of its original purity and vigor thus removing from the system all pernicious causes which have induced disease. causes which have induced disease.

(HEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY and should be used in conjunction with that medicine in all cases of Gonorrhea, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demuicent; removing all scalding heat, and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack Injections. By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the lwo medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.
