MEETING OF ALABAMIANS. A public meeting of Alabamians now here is called for to-morrow night. The question of reconstruction is its object PARDONS RECEIVED, CONSIDERED, AND

The business of granting pardons is unavoidably slow, as the papers in each case have to be carefully examined before the result is reported to the President for his approval. Hon. Edward Hubbard, of Virginia, is here making application for pardon under the pro-GRANTED. application for pardon under the proclamation of the President, his property exceeding the \$20,000 limit of the am

A number of southerners are here who are worth more than \$20,000, urging special pardons. At the present rate, the whole confederacy will apply for pardon before the 1st of August. Among those pardoned to-day were some who left the loyal states to join the

One of the most mournful among th numerous applications for pardon is that of ex-rebel Senator Henry S. Foote, who writes from the sequestered spot o Montreal, claiming that he is justified in soliciting amnesty on the ground that he is acting with a majority of hi fellow-citizens of the South. It is con sidered very doubtful if he is pardoned for the present at least.
General Ewell, now in Fort Warren and sixteen civilians applied for pardon to-day.

CABINET MEETING President Johnson was this morning able to attend a cabinet meeting, but it was very brief, in consequence of his indisposition. All of the members were present save Secretary Seward, and it is understood that the question of provisional Governor for South Carolina was under discussion. The present candidates for that position are not believed to be very hopeful of success.

THE PRESIDENT'S POLICY.
The views of the President on the estion of reconstruction were elaborately stated to the South Carolina dele gation on Saturday, and have been re-ceived in a most flattering manner by large numbers of loyal southerners in Washington, who almost universally agree with him in his position on negro suffrage, while, at the same time, com mending his determination to act for the best interests of the people of each State in their relation to the general government. Governor Holden writes from North Carolina that the work of construction in that State is progres ing as satisfactorily and rapidly as could be desired. The people all over the State are actively engaged in aiding the restoration of loyal civil rule.
FORD'S THEATER.

Ford's theater is being arranged pre-paratory to being turned over to its new owners. It was injured a good deal by the military occupation, while a large number of articles were taken away by morbid curiosity-seekers. Even the stage carpet, where Booth fell, has been partially cut up for mementoes of the place. On Monday the theater passes into the hands of the Young Men's Christian Association, and will be known as Lincoln Temple after that date argument of judge-advocate bing-

The removal of the restrictions the war imposed upon Southern trade will have a general good effect upon the business of the country. It will release from one to two millions of bales of cotwhich are now lying unproductive, while the Southern people are wanting in many instances the necessaries of life, and by giving them a market for it will enable them to supply their present wants, and provide for future production. Exported to Europe with flour, wheat tobacco, &c., of which purchases are being made for foreign orders, it will lessen the demand for gold, and to that extent tend to lower its price, or at least prevent any embarrassing rise. It will also give employment to American shipping, which has been greatly depressed during the war, and this will find situations for many of our seamen just discharged from the national service, the end of the war requiring them no longer. Ships have been already engaged in New York for the transportation of eight thousand bales of cotton to Liverpool. Orders and ships have been despatched to the Southern ports for shipment directly, and a large degree of business activity will at once spring up in that quarter, increasing the general trade, and commerce The release of cotton from the South where it has been shut up four years, will also give relief to our cotton mills many of which have been doing nothing in the manufacture of goods for the last year or two. The price of cotton has come down in the interior of South Ca olina to twelve cents per pound; the only difficulty purchasers experience is the getting of the cotton to the seaboard where it can be shipped for the Northern markets. This will increase the supply of cotton goods at cheaper rates to the con-sumer, so that the benefit to the public of the removal of those restrictions and the revival of trade is not only large, but extends in many different directions, and will soon be felt all over the country. As the process of restoration goes on politically, trade necessarily improves. Its channels are opened as soon as security to property is given by the terprise follows order and the protection given to the operatives of industry, and all the usual relations of business and

Colonel Moson, the chief of the negro bureau of this city, is fast gathering around him a heterogeneous collection of freed men, women and children vho, by reason of the inestimable boon of freedom, have lost good good homes and been thrown as paupers upon the country. The application of bodied negroes at this establish ment for employment has almost ceased. Colonel Moson told us the number of applications now for laborers was largein excess of the supply.

About twenty-eight hundred rations were issued by the superintendent on Friday to the poor, most of whom were people from the country, who had been left in a state of destitution by the war. The number of rations issued to this class of our people will average two hundred per day, that is, independent of the general issuing days, which occur once a week, or oftener, if the provisions are on hand.

We know of an old man who believed "that what was to be would be." He lived in a region infested by very savage Indians. He always took his gun with him when going out into the woods: but this time found that some of the family had taken it. As he would not go without it, his friends tantalized him by saying that there was no danger of the Indians; that he would not die till his time came, anyhow. "Yes, yes," said the old fellow; "but suppose I was to meet an Indian, and his time had Department until sold by order of the civil come, it wouldn't do not to have my courts, and is expected to pay a handsome

New York Money, Stock and Merchandise Markets.

The gold market has been steady through out the day at 1421 to 1411. There is a corner in gold, and a large amount has een taken out of the market, and is to be kept out of it and not loaned, under a con tract with a certain banker in Exchange Place, notorious for his Loyal League pro clivities and profitable affiliations with the Treasury Department during Mr. Chase's erm. Cash gold is thus made scarce, and as much as three-eights to one-quarter per cent, a day is paid for the use of it. The bears are, therefore, carrying their short contracts at ruinous com but selling their gold. The foreign ex

The quotations for prime bankers' sixty day sterling bills are 1091 to 1093 but few sale are made direct above 1091, and 1091 has been accepted for a round sum. From second hands, sales have been made at 1091 and the best bid at the close for a round sum was 109. Prime commercial were sold at 1091 in the early part of the day. France are quoted at 5.133, and some prime bankers' have been sold direct at 5.15, less a full brokerage. The shipment of five-twenty bonds by this packet is stated at abou \$500,000. The present quotations for five twenty bonds show a profit on their shipment to Europe.

The ease in the money market is increas ing, and first-class borrowers are offered, a four per cent., more than they can use The rates for call loans ranged from four to five per cent. Prime commercial paper is scarce and in demand at six to seven per cent., and good names at eight to nine per cent.

The stock market was active and buoyant at the morning board, and a heavy business was transacted. There was a general advance throughout the whole list, ranging from one-half to three and a half per cent There was a slight reaction after the first board, owing to sales by parties to realize profits; but the market readily took all that was offered, and at the close was strong.

Stocks are difficult to borrow. Sales of Ouicksilver were made at 52½ to 53§; Cary Improvement at 25½; Mariposa at 14 to 13½, and Atlantic Mail at 151. Illinois Central advanced from 126 to 129 at the morning board, and at the second board reacted to 127. Cleveland and Pittsburg is active and strong; also Michigan Southern and Rock Island. Erie was weak during the latter part of the day; but was made so probably preparatory to another upward turn. The bulls have the market completely under their control, and the number of outside buyers is decidedly increased. After the payment of the July dividends an active speculative market is expected, which may

The markets for merchandise rule, or the whole, very duil. The speculation which was induced by the rise in gold and other favorable circumstances, has wholly subsided, and prices have in some cases, as in pork, materially declined. The same disinclination to buy beyond present wants which we have heretofore noticed, prevails universally this week. The improvemen in cotton based on favorable news from Liverpool is fully supported in face of accounts of large deliveries along the Missis sippi. Although a shipping demand has partially relieved breadstuffs, prices have in most cases declined. Receipts are more liberal. Groceries are very dull. - World,

An Incident for a Novel. Charles Dickens had a very narrow escape from the catastrophe on the Southeastern Railway lately. The carriage in which he was sitting toppled over the edge of the embankmen and hung there for a while, giving him an opportunity to scramble through the window on to the platform, where he found himself without scratch or bruise, greatly to his own gratification This incident is sufficiently sensational for a novel Dickens could vividly de scribe the sensations anticipatory of being smashed in a railroad train, and communicate a lively sense of his own horror to his readers. This is what might be called giving thrilling interest

A Cat Killed by Robins.

A most remarkable instance of the belligerent qualities of the Robin has just come to our notice. It appears that much of her time in climbing trees, to the great annoyance, doubtless, of some robins which had built their nests there. A few days since, when puss was engaged in her favorite amusement, some six or eight robins seem to have combined to close her career. They attacked her in a body, pouncing upon her with great fury and planting their beaks into her head with a severity which caused the cat to indulge in frightcaused the cat to indulge in frightful screams. Upon the inmates of the house coming to her assistance the robins retired from the conflict and the cat escaped under an adjoining kitchen. Not coming out, and or the kilostramble and learn and lear and a rather disagreeable smell begin-ning to issue therefrom in a few days afterwards, the floor was taken up, and afterwards, the moor was the cat found dead, with her eyes ed out, and other evidences head of having been severely dealt with We have never known of a more strik we have never known of a more strik-ing proof of the devotion of the "Red-Breasts" for their young. It has the advantage of making a perfect separation by the Rake, in all kinds of grain, whether tangled or lodged, long or short, by reason of the operation of the Rake in revolving over the reel, and making the separation in the uncut grain, or before the sickel. The certainty of a clear cut apparatus and platform at the making of each sheaf, no matter how tangled or short the grain may be. The grain may hang over the separator to the left and be out of reach of other Rakes and make a trail certain, while ours cannot fail to clear all out every time. The motion of the Rake and Sickel can be stopped at pleasure.

It rakes the grain off the side of the Machine, and deposits it in a most excellent shape for binding. Yet so loosely does the gavel lay on the top of the stubble that there can be no heating if it has to lay there a longer time than usual, and the bundles being less compact than others, will dry up after a shower of rain. PULMON ARY CONBUMPTION,
And even where this fearful disease has taken hold it will afford greater relief than any other medicine.

Miss Kate Vanderslice, of Pottsville, says:
"I was benefitted more by using the Phemix Pectoral than any other medicine.

Elias Oberholtzer, of Lionville, Chester county, was cured of a cough of many years' standing by using the Phemix Pectoral.

Joseph Lukens, of Hall street, Phemixville, certifies that he was cured of a cough of two years' standing, when all other medicines had failed, by the use of Phemix Pectoral.

Jacob Powers certifies that he has sold hundreds of bottles of the Phemix Pectoral, and that all who used it bear testimony of its wonderful effects in curing cough.

John Royer, editor of the Independent Phemix, having used it, has no hesitation in pronouncing it a complete remedy for cough, hoarseness and irritation in the throat.

The West Chester Jeffersonian says: "We have known Dr. Oberholtzer personally a number of years, and it gives us the greater pleasure to recommend his medicines, inasmuch as the public rarely have the benefit of family medicines prepared by a physician of his acquirements and experience."

Dr. Oberholtzer is a member of the Alumni of the Medical Department of the University of Pennsylvania, at which institution he graduated in 1854.

The Reading Gazette says: "This cough remedy is made by Dr. L. Oberholtzer, of Pnemixville, Pa., and it has acquired an unsurpassed reputation in curing coughs. It is carefully and skillfully prepared from Wild Cherry Bark and Seneka Snake Root."

Dr. Geo. B. Wood, Professor of the Practice of Medicine in the University of Pennsylvania, Physician to the Pennsylvania Hospiial, and one of the authors of the United States Dispensatory, says of Seneka Snake Root: "Its action is specially directed to the lungs."

The proprietor of this medicine has so much confidence in its curative powers, from the testimony of hundreds who have used it, that the money will be paid back to any purchaser who is not satisfied with

These Bitters are rapidly winning their way to public avor, and before long will be the only one in popular demand. The curve they have effected for years past has induced the proprietor to bring hem more particularly before the people. They are not a new remedy, the recipe for making the "Bitters" having been in the possession of the proprietor for many years. The ingredients are composed of the following medicinal herbs and roots, all possessing well known curative powers, and are warranted not to contain any other article: Elecampane, Burdock, Spikenard, Soapwort, Peruvian Bark, Buchu, Spicewood, Mullein, Slippery Eim, Sassafras, Sarsaparilia, Gentian Root, Juniper, Spirits Nitre, Balsam Copavia, Cubesb, Dandelien, Pure Spirits and Barberry. The Bitters have been used by persons afficted with various diseases for some years past, and such has been their success in curing the most obstinate diseases, that the proprietor is now induced for the first time to offer them to the public, with the full confidence and a willingness to guarantee that if properly used they will effect permanent cures in the most obstinate cases of diseases. They are a certain remedy for Dyspepsia, Liver Complaints, Loss of Appetite, Nervous affections, Intermittent Fever, Fever and Ague, General Deblity, or Weakness caused by exposure, imprudence or excess, Coughs and Colds, Diarrhea, Headachie, Cholera Morbus, Rhemmatism or pains in the limbs, Cramp in the Stomach, Neuralgis, Diseases of the Stin, such as Scrotlas, Ulcers, etc. Also, Piles, Worms, especially Seat Worms, and ali other diseases arising from a disorganized or diseases particularly, and can produce certificates of the most remarkable cures. Those who are suffering with any of these unpleasant complaints, should be without it.

HANOVER, Pa., Feb. 16, 1839.

DEAR SIRS: Having realized in my family important benefits from the use of your valuable preparation—Wistar's Balsam of Wild Cherry—it affords me pleasure to recommend it to the public. Some eight years ago one of my da. uphters seemed to be in a decline, and little hopes of ser ecovery were entertained. I then procured a bottle of your excellent Balsam, and before sie had taken the whole of the contents of the etclic there was a great improvement in her health. I have, in my individual case, made frequent use of your value able medicine, and have also been benefitted by it.
