Letter from fildom. PIT HOLE, July 22, 1865.

DEAR SIRS: It was thought that with the terrible lessons the speculative world had experienced in the last six months by the bursting of the various bubbles that de signing knaves had made to entrap the unwary that a repetition of like designs would be impossible; that no glittering prize though seemingly within the grasp, could allure capitalists from their legitimate pursuits into the disastrous investments of the recently excited period. Experience is sometimes a slow, though eventually a sure teacher, and though the lesson of yesterday may be forgotten its repeated inculcation will make a lasting and ineffaceable impression. The oil region of Venango county, Pa., to-day, in its speculative phase will justify the verity of these prefaratory lines, and it is to be hoped serve as a warning to many against the wild and ruinous excite ment into which the speculative portion of our people may again be thrown by the recent oil developments on Pit Hole Creek. Already the surrounding neighborhood is nfested by the desire to obtain interests in the new region. After leaving Meadville, Crawford county, at every stopping place and cross-road the eager, anxious adventurers are met pushing on toward the new 'diggings." French, Sugar, and Oil Creeks the Allegheny river and Cherry run are all comparatively abandoned. Every highway and by-way have their individuals and groups on foot, on horse-back and in wagons, urrying on to the focal point on Pit Hole From the direction of Titusville the stream is rushing in from New York State and incredulous of the magnitude of the new wells, then ocularly convinced, and then as a certain consequence an investor to the extent of his "pile" in a "sixteenth." "twenty-fourth," "thirty-second," "fortyeighth," "ninety-sixth," or a "hundred and ninety-second" land interest in a prospective well. From forty to one hundred thousand dollars is the price paid per half acre for the land immediately surrounding the United States Oil Company's Wells. Men have made fabulous fortunes here in a few days, and these stories industriously

part of the credulous. anxious to escape the heated term in Philadelphia, I thought the time might be profitably employed in prospecting the favorite oil localities of this county. I was anxious, too, to inform myself whether the recent disastrous decline in Oil securities was a consequence of a falling off in the production and decline in the price of Crude petroleum, or whether it sprang from one of those panics in the financial world often the result of overtrading induced by a superabundant and inflated currency.-With these objects I joined the constant stream of travelers leaving Rouseville, at the mouth of Cherry Run, at "gray dawn," and wended my way up the Run amid numberless derricks and engine houses.-This little stream, whose glory is eclipsed in the more recently discovered oil region. one year ago received the visits of as eager if not quite so numerous a crowd as that which hurried along its banks to-day to Pit Hole. Along its course for four miles Creek will again bear on its bosom its valmillions on millions of money have been expended in one short year, and only in ex-ceptional instances have investments proved profitable, save to those who originally sold he land or original working interests in incredulous that such may be the case, but the wells. The uncertainties of mining for I am thoroughly convinced that the oil the wells. The uncertainties of mining for oil are more apparent on this stream than anywhere in the whole of the oil region. From the point at which Cherry Run joins Oil Creek for two miles up the former stream, for the first six or eight months' boring, there was scarcely an instance in which oil was not obtained in paying quan-tities, but immediately after ascending above what is known as the Smith farm, all efforts to obtain it have hitherto proved fruitless. The Cherry Run Petroleum Com-

fruitless. The Cherry Run Petroleum Com-pany own the lands for a mile and a half along the run above the Smith farm, and for a long time was a favorite at the Stock Beard – The Maple Shade is the only one of the six hundred that will pay back the *par* value of its stock in dividends. In the face of all these facts I can caution the public against being entrapped by prospectuses of new companies where lands much being Board. Ten thousand dollars premium were paid over and over again for leases of an acre, from which only half the oil was received by the lessee, but after probably a million of dollars have been expended, the Board. Ten thousand dollars premium property is nearly abandoned. From surace indications, there is not a more desirable spot in all Oildom. Shut in by the same hill that hem the contiguous oil bearing i fore the War Committee in stating his lands, apparently the same breaks in the rocks, the same stream coursing its entire length, what wonder is it that the eye of the speculator should have gloated over it, and that visions of mammoth oil corporacago ('onvention, and would make a speech in Hamilton on the 15th of May. Satisfied that this would be the case, I tions and immense riches should have busied his fancy : but alas no oil rewarded the labor of the operator, and real property sent a stenographic reporter, who obtained a letter of credence from the Chicago Times, and arrived on the ground in stepped in where wealth was so counted on. The engines, boring tools, walking beams, &c., are being nearly all time to receive Mr. Vallandigham and removed now from Upper Cherry Run over the country to Pit Hole, and the Cherry the country to Pit Hole, and the Cherry of which he carried, by my order, to Run Petroleum Company, and the Oil Governor Brough and General Heintzel-Creek and Cherry Run Oil Company, and man. the hundreds of others whose best interests This testimony not only indicates to were supposed to lie on Cherry Run, will what an extent military surveillance have to be counted among the failures, un-States, for party purposes, but shows Major General Rosecrans acting as the stool pigeon of Stanton. It is to be hoped that Mr. Stevens will do something at the of fifteen barrels per day. There was a strike at a new well on he "Mike Gapen farm," just below next session of Congress for the relief of the oil interests of Pennsylvania. He has been the "Mike Gapen farm," just below Maples, within a few days, which proalways vigilant of the iron interests I believe duces fifteen barrels per day. Several indications of oil have been without selfish reasons, and now that he has really to take care of a production worth reached within the past week on Tenmore to Pennsylvania in dollars and cents mile creek-one above Waynesburg, at than the iron produced within her limits in Rogersville, and several 1864, we may rely upon the influence of his point. On this farm there are no wells yet down, and it is just within the range of possibility that it may turn out like the Cherry Run Petroleum Company's land on Cherry Run, which will be unprofitable for those who have invested.

The work of developing is going on with marvelous rapidity. Derricks and engine houses are going up in all directions. THE CHEROKEE PILLS and REJUVINAT-

THE CHEROKEE PHLLS and REJUVINAT-ING ELIAIR are sold by all enterprising drug-gists in the civilized world. Some unprinci-pled dealers, however, try to sell worthless compounds in place of these; those which they can pitrchase at a cheap price, and make more money by selling than they can on these medi-cines. As you value your health—ay, the health of your future offspring—do not be deceived by such imprincipled druggists, ask for these medicines and take no other. If the druggist will not buy them for you, inclose the money in a latter, and we will send them to you by Express, securely sealed and packed, free from observation. Ladies or gentlemen can address us in per-fect confidence, stating fully and plainly their diseases and symptoms, as we treat all diseases of a chrobic nature in male or female. Patients need not hesitate because of their inability to visit us, as we have treated patients successful-ly in all portions of the civilized globe by cor-respondence. Patients addressing us will please state plain-by all the symptoms of their complaints, and write post office, county, State, and mane of write, plan, and inclose postage stamp for reply.

We send our 32 page Pamphlet free to any address. Address all letters to the Proprietors DR. W. R. MERWIN,

The oriental fiction told in that wonder ful book, the Arabian Nights, of the erection of a magnificent palace in a single night re-peats itself (in all but the magnificence) in occidental Pennsylvania in the erection of the City of Pit Hole. City was used to be a super s site of Pit Hole City was a nude hill on which a potato or an ear of corn would have hesitated to grow, and now three hundred houses cover its aspiring top and decorate its slope down nearly to the verge of the

shin-breaking boulders, and through the once favorite haunts of the rattlesnake, wild cat and skunk, your ear catches the sound of the mighty rush of gas forcing up from the bowels of the earth the intermittent streams of oil. I cannot give an idea of the sound produced by the rush of gas and oil save by comparing it to the moaning of the wind on a winter's night. It produces

a feeling akin to awe within you as though some monster were imprisoned far down beneath and struggling to break the shell of earth to escape. Mounting the ladder at the principal well of the U.S. Oil Company you ascend to the platform overlooking the tank into which the oil gushes from the well, and from which blinding and almost suffocating clouds of gas arise.
