man who seemed to be yet wedded, body and soul, to slavery; and who seemed to have learned nothing what-ever from the astoanding lessons of the bet four years. This man said deliber-ately, in my hearing, and that of several others, that he was going to sell out if he could and go to Brazil; because he hoped to die, as he had lived, with the institution around him, and because he could have a menarchy instead of the

could have a monarchy, instead of the bastard despotism which we call a re-public. It did not take me long to de-cide that this man belonged precisely to that class which could, just now, leave their country for their country's good. But this individual cannot be taken as a type. The violence of the contraston, made the solid and true character of all I had met shine to greater advantage. toothes an ex-officer of the He was, besides, an ex-officer of the confederate government, and as such, very lately gained far more than he lost by the late terrible convulsion. It is not to such men that we must look for the future of Virginia.

The negroes-such of them as are to be found yet among the estates-are behaving themselves very well and quietly, but seem to have no great fond-ness for work. Indeed there is very little work for them to go at, for nobody bas any monow to new thems with has any money to pay them with. It is curious to think where all these hands have gone to. I did not find them, in any quantity among the plantations; they are not allowed to congregate in the cities, and so I don't know where they have all gone to. They have left their masters and migrated tono one knows where-leaving behind them, in many cases, their children and helpless old women, whom the masters have not the heart to turn adrift upon have not the neart to turn agent upon the world. Considering that there are so many useless bands, and additional mouths to feed, at a period when many a man is puzzled how to keep his own families in the ordinary magnetizes of family in the ordinary necessaries of life, you will understand how many dif-ficulties the lateslave-owner has at pres-gent to contend with. The veriest Le-gree among them has already undergone an amount of purgatory that few in the North are aware of; but I have latterly been thrown among so many men who lately owned slaves, but who are not Legrees, on the contrary, just as humane and good men as ever breathed the breath of life, and I think some of my most vindictive Northern friends would, after a little closer investigation, conclude, as I have, that they have already suffered about enough for the past.
