10 o'clock A. M. The Convention was called to order by the President, David Evans, after which a prayer was delivered by Luther C. Oberlin. The President then made some appropriate remarks, in which he referred to the favorable auspices under which the Convention had convened. He congratulated the teachers upon the happy condition in which the country was, compared with that when they had met one year ago, while the nation was then still engaged in the great contest which was agitating our people, and the final result of the issue, the all-absorbing topic, to-day, after a struggle of over four years, the rebellion is numbered among the things that were. He also referred to the happycircumstance in which we are in, that Providence has so bountifully blessed us with an abundant harvest, all of which has been gathered into our garners, and which is a source of gratitude to an over-

Mr. Evans having concluded his remarks on motion, Messrs. Oberlin, Shuman, Tripple, Misses David and Powers were appoint ed a Committee on nominations, who re ported the following, and were unanimou ly elected:

President-David Evans. Vice President—A. O. Newpher. Chief Secretary—A. W. Shuman. Assistant Secretaries—Samuel Z. Tripple, J. B. Eshleman and J. H. Good. Reporters—J. H. Witmer, J. H. Fritz, H. V. Miller and B. F. Hills.

After which the following committee were appointed: Auditing Committee—H. F. Pierce, E. Stetzen, Rebecca McComsey.
Committee on Reception—W. Riddle, John Shirk and Francis Houck.
Finance Committee—Ed. Greene, J. M. Souders, Ruth Simmons.

On motion of J. P. McCaskev the follow ing committee were appointed to make arrangements for Prof. Kidd's lecture on Thursday evening:

J. P. McCaskey, A. O. Newpher, J. B. Kremer, Ed. Hoffman and J. M. Fulton. Committee on Resolutions—B. F. Shaub, J. Shirk, J. P. McCaskey, Misses Housekeeper and Watson. Adjourned to meet at 2 P. M.

AFTERNOON SESSION. The Institute was called to order by the President at 2 P. M. The roll was called and the absentees marked. The Institute agreed to meet during the

week at 9 A. M., 2 P. M., and 7 in the evening. The discussion of the subject, "Assistance to Pupils," was next in order, and was par-

ticipated in by Messrs. Pierce, Newpher, Altorf and Brosius. Prof. Brooks, of the State Normal School at Millersville, then proceeded to deliver a very practical lecture on the methods of g "Common Fractions," explaining

very lucidly the difference between the In ductive and the Deductive methods and impressing upon the teachers the importance of correct definitions and carefully worded Dr. Cutter was expected to open the after-

noon session with a lecture on Physiology, but for some cause or other, failed to be EVENING SESSION.

The first exercise of the evening was an essay, by Mr. Hoffman, on "School Discipline." By practice and study all may learn to govern well. Advancement knowledge is the aim of the school, and this cannot be secured without good order. A disorderly school cannot be a good one. The scholar who is controlled by good school laws is very likely to become a good citizen. Advocated the use of the rod, but admitted that it was frequently appealed to too often. Over all the efforts of the teacher the light of the cross should be streaming, and thus he may be able to discipline for time, and, also, for eternity,

Essay by Mr. Green. Subject—"Cultivating True Patriotism." Hethought that the study of the Constitution of the United States and of the State should form a part of the education of every pupil. The study our own country, was also an important means conducive to patriotism. The singing of patriotic and national songs, adorning the school-room with appropriate patriotic pictures, and with the American flag, were also alluded to by the essayist, who, having served his country during the recent rebellion, and been a prisoner in the cells of Libby, referred to many very interesting and affecting circumstances connected with his experience while in the army, and paid a merited tribute to the labors of the Patriotic Daughters of Lan-

Prof. Kidd was then introduced and lectured on Elecution. He spoke upon the importance of modulation of the voice, of variety in manner, and changes in the facial expression to suit the character of the subt matter under consideration. To interest was the first point to be aimed at. The manner of reading and declaiming of different persons was then illustrated in a very umorous manner, and several selections of prose and poetry recited by the Professor in the style deemed by him appropriate.

HEARING OF DR. E. OSBORN BEFORE COMMISSIONER SMITH .- On Friday afternorn-Dr. E. Osborn had a hearing before U. S. Commissioner Smith charged with having in his possession, and concealing cer-States fractional notes, with the intent to utter publish and sell the same. J. M. Hess, the Postmaster at Safe Harbor, had for sometime suspected the accused, for being engaged in some unlawful business, as he had kept up an extensive correspondence by mail, receiving a large number of letters, and sending off a great many legal packages in let-

The postmaster finally discovered a package, which was opened, and on examination found to contain several sheets of spurious United States postal currency notes of the denomination of twenty-five cents. Mr. Hess informed the authorities, after which the arrest was made Officer Starkey testified that in company

Defendant was about going down stairs to get the drinks when they made the arrest. They then searched the drawer in the bar-room, and in the back part of the drawer eight United States frac tional notes of the denomination of twentyfive cents were found. The house was then searched, but they could find no circulars in it. The defendant had a fit in the depot at Lancaster, and when he recovered he told me he had received the money found

He received word from Phila, where to direct the letters, but he did not know what they contained. He also alluded to some bottles of hair dye, and said a man had come to his house about three months since who told him he had a patent right, which had disposed of to a gentleman in the West, and asked him how he would like to enter into a light business for the purpose

of disposing of the same.

At this juncture the defendant was seized with a fit and fell to the floor. His wife sprang to his rescue, and further proceedings in the case were stayed. After recover ing from the spasm, the Commissioner held the defendant to answer in the sum of \$1,500.

SHOOTING STARS .- Those persons who are in the habit of observing the starry heavens on these clear evenings have doubtless noticed the recurrence of the phenomena usual at this season of the year. The constellations now culminating, from eight to twelve o'clock in the evening are the very brightest in the whole heavens. The Hyades, and the Pleiades, in the constellation Taurus; the Elland Yard and other bright stars in Orion, may be nightly seen, but the latter constellation does not culmi nate till a late hour. By and by, it will come to the meridian at early bed time. "When chilling winter spreads his azure skies Behold Orion's glant form arise; His golden girdle glitters in the night, And the broad falchion beams with splendor bright,"

COUNCIL PROCEEDINGS .- The City Couneils met statedly in their Chambers, City Hall on Tuesday evening last. In the Select branch Mr. Zahm presented

the following communication from th Mayor, which was read: MAYOR'S OFFICE, LANCASTER, Nov. 7, 1865.

To the Select and Common Councils: GENTLEMEN: I herewith transmit a com munication received on the 1st instant from A. Herr Smith, Esq., counsel for the parties named, claiming damages for injuries received at the new sewer in East King street owing to alleged peoplest in pat her. street, owing to alleged neglect in not he ing a guard or fence to prevent accidents. Mr. S., at my request, will delay adverse legal proceedings until to-morrow, so as to egal proceedings until to-morrow, so as we give Councils an opportunity of acting upon his proposition at their meeting this evening. I therefore request your prompt attention to the matter, so that he may be admired for your decision without delay.

vised of your decision without delay. By direction of the Water Committee, also invite your attention to an obstruction in the current of the Conestoga, alleged to have been erected at the Old Factory Dam have been erected at the Old Factory Dam by Messrs. Boardman & Co., the present proprietors. It is stated that within the last two or three years, a natural sluice at the east end of the Dam, which had been previously thereto kept open from time im-memorial, has been closed up to the height of some six or seven inches above the other parton of the structure—the consequence portion of the structure—the consequence of which is, that, upon the slightest freshet in the stream, the natural flow of the water in the stream, the natural now of the water is impeded above said point, dammed back to the City Mill, and, as a result, the operation of the wheels at the Water Works is seriously retarded. Should this, upon further examination by a committee of Councils, turn out to be the case, it will then be necessary to take such steps as will remove the obstruction and protect the rights of the the obstruction and protect the rights of th

corporation.

I take pleasure in being able to inform the Councils that both the Turbine Wheels are now in operation—the first for about one year, and the second for nearly three weeks—at the Water Works, and that the Water Committee have every reason to be gratified with the success of the experiment thus far. The wheels are performing adhus far. The wheels are performing ac mirably, and we have the strongest ass rance that they will answer the purpose for which they were intended. Should they ome up to public expectation and the anons of the Committee, at low stages of water, a great saving will be effected in the consumption of coal, and we may expect a full supply of water in the Basins with-out the agency of steam as a propelling power. Respectfully, &c., GEO, SANDERSON, Mayor.

LANCASTER, Nov. 1, 1865. DEAR SIR: By way of compromise, I am uthorized to take for the damages sustained by H. S. Hoak, Letitia Hull and Susar Iull on Thursday night, Oct. 26th, ult., in criving into the sewer in East King street, he sum of \$295. If this offer is not accepted ithin five days from this date, suit will be

nstituted Respectfully yours,
A. HERR SMITH. Hon. GEO. SANDERSON, Mayor. The items in the communication were re-

erred as follows: The claim for damages at the sewer in East King street to the Street Committee, with instructions to present said claim to the contractor of the sewer. The item in reference to the obstructions

the current of the Conestoga was referred o the Water Committee. Mr. Trout presented the monthly state ment of the City Treasurer, which was read. The total receipts to November 7th re \$47,950.80, and the total payments \$36, 090.34. leaving a balance in the treasury o \$11,860.46. The Bounty account: nount received, \$23,656.63, and total amount pail out, \$23,656.63.

A communication was received from W. W. Nevin, Esq., in reference to the exempion of soldiers' property from taxation for Bounty purposes. Read and referred to Finance Committee.

A committee from the Union Steam Fire Engine Company were introduced and granted leave to make a statement in refernce to their claims for additional hose from the Councils, or for said bodies to lay an additional tax of one mill on the dollar for the purpose of procuring said company 2,000 feet of ten-inch hose. A petition was also presented from a large number of citizens, asking that the prayer of the company be granted. Action was deferred on the same until next meeting.

In Common Council a resolution was adopted giving the Finance Committee certain instructions. In S. C. laid on the table-A resolution was adopted instructing the Street Committee to notify certain property holders in South Queen street to have their pavements repaired. Concurred in by S.C. This body concurred in the action of Select Council in reference to the items in the Mayor's communication.

The action of Select Council in reference o the petition of the Union Steam Fire Company wasnon-concurred in, and the same was referred to the Finance Committee, with power to act. The action of Select Council in reference to the communication of W. W. Nevin, Esq.,

was concurred in.

There being no further business, both ranches then adjourned.

PETERSON'S MAGAZINE .-- We are in the receipt of this popular Lady's Magazine for December. It is a splendid number. The principal engraving, "Papa, Papa," is one of great beauty. For many years "Peterson's Magazine" has had a larger circula-tion than any other monthly in the United States. In 1866 it will be greatly improved: the reading matter will be increased and each number will contain a double-size fashion plate, elegantly colored, with from four to six tigures, making "Peterson" the heapest in the world. The terms will remain two dollars a year to single subscribers. To clubs it is cheaper still, viz: Five copies for \$8, eight copies for \$12, or fourteen copies for \$20. To every person getting up a club, (at these rates,) the pubtain false, forged and counterfeit United lisher will send an extra copy gratis. Specimens sent (if written for) to those wish ing to get up clubs. Address, post-paid, Charles J. Peterson, 306 Chestnut street,

Philadelphia. A GOOD COMPARISON .- One of the New York papers compares the publisher of a newspaper who has to send to all parts of the country to collect his pay, to a farmer who would sell his wheat on credit, and not more than a single bushel to one person. If any farmer will try the experiment of distributing the proceeds of his labor over two or three counties, with an additional one or two for distant States, for one year, we will guarantee that he will never, after that year's experience, ask a publisher to supply him with a paper a year or two without

The Lord's Prayer the Institute, sketches its high character as ollows: It is the aim of the Principal and assis

ints to make the Institute the most useful and efficient institutions of the kind in the

country. Moral, mental and physical health and the symmetrical development of every power is their daily study. They strive to make each week an improvement on the preceding. The students are animated by a desire not to excel one another, but to improve their own former successes. They are taught to do well, not through fear, or to please parents and teachers only, but because it is right and because God wills it. No positive rules and because God wills it. No positive rules of behavior are laid down, but each member of the school is thrown upon her own responsibility, and is expected to acknowledge any non-fulfilment of duty. No recitation is marked good unless absolutely perfect. The unsucessful are encouraged, the successful judiciously praised. It is sincerely hoped that none will present themselves for admission unless they are determined to study faithfully and act the themselves for admission unless they are determined to study faithfully and act the part of ladies. No others will be long retained. The new quarter begins Thursday, November 16th. Rev. H. H. Bruning is the Principal, and he is ably supported by Prof. William B. Hall, teacher of music, and others. Parents are invited to call and witness the daily exercises at any time.

To KEEP WORMS OUT OF DRIED FRUIT It is said that a small quantity of sassafras bark mixed with dried fruit will keep it free from worms for years. The remedy is easily obtained in many localities, and is well worthy an experiment, as it will not injure the fruit in any manner, if it does

witness the daily exercises at any time.

not prevent the nuisance, PRUNE GRAPE VINES Now .- The books enerally advise winter pruning, or during the month of February. The objections to that season are, the work is liable to run into March, which does not allow time for the cut to become dry enough to check the flow of sap a little later; the weather is apt to be cold, rendering it cold and uncomortable, besides the wood is frozen much of the time, in which state it ought not to be the vines are pliable and can be handled at will, while the mild weather will dry and harden the cuts so that there will be no danger of bleeding in spring. A pair of pruning sheers will be found very covenient in making the cuts-in fact, they are almost indispensable to the horticulturist in trimming his shrubbery roses, honeymobiles blackbarries &c in addition to the grape vines.

A REMARKABLE CURE.—In company with Dr. A. H. Carpenter, on Saturday morning a week past, we called upon Mrs. A. W. Fairer, residing on the corner of Duke and Chestnut streets, who had been afflicted for a number of months with lotches and sores upon the head, face and

oody, resulting from the very impure state of her blood, and had become almost totally blind. Her sufferings were indescribable, experiencing constant and intense pain frequently praying for death to come to her relief. About three weeks ago her husband picked up a small piece of a newspaper con aining an advertisement of the Doctor's, which he read to her. She had been treat ed by several of our physicians, all of vhom gave her up, not being able to render her any relief. She immediately sent for Dr. Carpenter, and after the daily use for only three weeks of his Medicated Oxygenized Inhalations has rapidly recovered, and will soon be restored to her wonted health. The blotches and sores have all disappeared, and her sight, which was so defective as to render her unable of

listinguishing the members of her own amily, except by the voice, is also rapidly being recovered. We cheerfully make this statement, and can vouch for its correctnes The Execution of Captain Wirz. WASHINGTON, Nov. 10 .- This morning

Father Boyle administered the sacrament to Capt, Wirz, and Father Wigget, also o the Roman Catholic church, then placed upon the former the black cambric robe, remarking as he did so: "I hope the robe will be turned into a white one in the other world " At 10:20 A M Capt. Wirz came rom his cell in the Old Capitol Prison, acompanied by Provost Marshal Russell and other officers, and Fathers Boyle and Wigget, and passing between the lines of the nilitary guard they ascended the scaffold and the prisoner was then seated.

The scaffold was 12 feet square and 22 feet high to the beam, with a trap 12 feet from the ground. The guard consisted of the 195th Regiment Penn's Volunteers, and three detachments of the Veteran Reserve Corps, under the command of Capt. Walbridge, the Military Superintendent of the old Capitol Prison. There were several hundred person

present besides the military, civilians havng been admitted on special passes. Amid profound silence Proyost-Marshal Russel proceeded to read the order of the War De artment founded on the verdict of the nilitary court which tried the prisoner. He was charged with and convicted of combining, confederating and conspiring with Jefferson Davis, James A. Howell Cobb, John H. Winder. Richard B. Winder, Isaiah White, W. S. Winder, W. Louisville, Nov. 10.—Notwithstanding the season has arrived when the hog slaughtering business should be in full blast, there is as yet little or nothing doing in that here expressed, has not and did not enter oranch of business. Packers decline make ng contracts at present figures and are hold-ng off for concessions on the part of farmers ing off for concessions on the part of farmers and feeders. With present appearances the season will be well advanced before the business will be fairly inaugurated.

NEW ALBANY, Nov. 9.—The prices ruling at present are entirely above the views of packers, and no contracts have yet been made by our packers. The recent heavy declines in the hog product at Cincinnati has had the effect to seriously affect prices, court in the within case are approved, and t is ordered that the sentence be carried has had the effect to seriously affect prices, and a heavy decline in hogs is anticipated. The season will open here about the first of December, by which time it is anticipated will rule from 88 to 88 50 per cental gross.—The heavy corn crop will have the effect to protract the season, as farmers will feed their hogs until their surplus of corn is exhausted. The result of this will be that hogs the precedence of the result of this will be that hogs the precedence of the result of the re Department of Washington, on Friday, 3d. Major-Gen. C. C. Augur, commandthe present season will average much heavier than last, and will probably make up manded to cause the foregoing sentence in the case of Henry Wirz, to be duly exevier than last, and will probably make up in weight what may be lost in number.

CINCINNATI, Nov. 11.—The arrivals of hogs, as reported in the books of the Merchants' Exchange, were 7,900 head. This, however, included the receipts by the Covington and Lexington railroad for the past three days, the arrivals by this read alone footing up 6,350 head. The market is not as strong as it was vesterday and packers. Major-Gen. Lewis Wallace, U. S. Vols., is president, is hereby dissolved by command as strong as it was yesterday, and packers as strong as it was yesterday, and packers are expecting prices to come gradually down to their views of the real value of the animal. Many of them are already busy, and more are prepared to commence whenever they can see their way clear for a remunerative business. Many of the hogs now being slaughtered are those contracted for some time ago at \$11.50 per cental gross, and there is enough of them to keep the packers who have commenced operations busy for some time. A large number of When the reading of the order was completed. Wirz conversed with those on the platform with seeming calmness and selfpossession, and it was remarked that he To his spiritual advisers be said: "I am innocent. I have to die, but I can die like a man. I have hope in the future. I have nothing more to say,"

His legs and hands were then tied, the noose passed around his neck, and the black cap placed over his head. He stood erect, without faltering, evidently having nerved himself for the solemn event. Those on the 1 platform retired to the railing, leaving the doomed man in the centre of the structure.

CHICAGO, Nov. II.—A want of animation or buoyancy has characterized the provision trade for the past week. It has not, however, lacked interest in some of its features. The prices paid for hogs to farmers and speculators in former years has been generally regulated by packers and shippers, based upon the current worth of the product, and, to an extent, by the prospects. This season, however, augurs differently, raisers and holders of hogs, are now in their turn, trying to assume the power of being turn, trying to assume the power of being able to make good their views, as to what the animal should be worth.

Prices are firm and range from 10½@ 12c.
for medium to good. From the 1st of October the receipts to date totals, 124,871, and the shipments 88,359, leaving for packing purposes 36,512; taking corresponding dates last year the receipts were 222,311, and the shipments 90,105, leaving in packers hands 132,206, which shows a decrease of 97,540 in receipts and 95,604 in packing the animal should be worth.

Wirz protested his innocence to the last The Overland Telegraph.

Curious as it may seem, there are really but thirty-nine miles of water between the city of Philadelphia and the city of Paris. This fact is evident on the map, and has been realized by the Overland Telegraph expedition now at work. sugar in the world. For that sugar you are now paying the slaveholders of Cuba and Brazil one hundred millions of dollars; and this sum, except a very small amount paid in exports, has to be paid in gold. And of the twenty-five millions our planters used to receive from you for their sugar, your people used to manage to get back the greater portion of it in payment for your corn, your pork, clothing, shoes, machinery, agricultural implements, and a thousand other things which we either had not the means or capacity, or it was not our in-terest to produce. You will find little demand now in the South for any of these: first, because we have not the in the impracticability of cultivating our great staples, by reason of the dis-ordered state of our labor, we have been compelled to devote all our resources to producing the means of subsistance.

co.nvenient and profitable to buy from you. Your corn, pork, manufactured goods, &c., will find the South—once your best—henceforth, at least for some

years, your poorest market Our farmers will have these articles to export. I elieve now there are more hogs in the South than in the Northwest, including Kentucky and Missouri. As soon as the natural state of affairs is restored and the temporary demand produced by the dilapidated condition of the railroads ceases, these truths will be brough and dependence on the revival of the culture of the great staples of the South will be fully comprehended.

The Insurrection in Jamaica. Our latest advices from the island of Hayti bring interesting particulars of the insurrection in Jamaica. The causes which gave rise to armed resistance to the Geffrard Government originated in the high mountainous region of the Surrey, Middlesex and Cornmore districts, lying on the extreme northern side of the island. They are to be found in the general apathy of the negroes in cultivating the immense source tural wealth with which abounds, involving the loss of a large revenue to the Government from lands which, with ordinary industry on the part of the former, would bring plenty of money to pay taxes with. But it seems that beyond the exertion necessary to their sustenance little or no attention is paid to their development. Again, those to whom a change of government would prove intensified their antipathy

peneficial, instilled ideas minds of the negroes which have materially intensified their antipat toward the Geffrard administration These causes have successfully operated in uniting them in bloody resistance, which at last accounts was extendin itself to even the most distant sections of Jamaica. The geographi-cal situation of the rebellious districts, isolated from the seat of govern-ment—Port au Prince—and possessing many natural advantages for the prote tion of the insurgents, has afforded Turin Salnave and his malcontents ample opportunity to hold own against the Geffrard fo The inception of the trouble grew out of an attempt by the Government to force the negroes to cultivate their lands and pay into the national treasury an adequate proportion of the taxes tax collector of St. Thomas-in-the-East parish, ascertained that there were large numbers of people who owed taxes for years. He endeavored to collect those arrearages, but was driven away from

that locality. Reporting the facts to the Revenue Department, he obtained permission to take back a force of soldiers and renew the attempt. Subsequently, however, an appeal was made to the judicial authorities of made the glistrict, to get the taxes abated but a decision against them was rendered. The point at issue was carried to the higher court, and by it sustained. A third effort made proved a signal failure. The excitement then broke out with unusual energy, and deeds of violence hourly occurred court building was fired, Baron Von Kittleholdt, of the Superior Court, Judge Price, of the Magistrates' Cou others, were subjected to horrid tortures and finally killed. Dissatisfaction with the Geffrard Government, which has thus far failed in its efforts to crush the rebels, is rapidly disseminating itself among the people, and the army is fast becoming demoralized. Our latest accounts inform us that no decisive action had taken place, but a simultaneous at-tack against Salnave and his forces was shortly to be made by land and sea which, if successful, will enable Geff rard to hold the reins of Government but if his movement, which has prob the patience of the people will most likely be exhausted, the soldiers demoralized, and Geffrard compelled to seek refuge in a foreign country.
