MANY KILLED AND A LARGE NUMBER WOUNDED. Over two hundred accidents from kicking and running away of horses occurred during the past year, in Lancaster county alonenearly all of which resulted in injuring the drivers, killing some, mainting and wounding others, and in most cases, breaking costly carriages and hurting the hors s

Of the above, nine-tenths were tame family horses. The Safety Bridte will put an end to all such needless accidents, and with the Safety Lines the speed of ever: horse is easily much increas: d Increas: d.
At a special meeting of the Saddlers of Lancaster county, Pa., held in Lancaster city, Nov.
Z7, 1865, the following resolutions were unani 77, 1865, the following resolutions were unani-miously adop ed: Whereas, The u-efulness, power and safety ofDr. [Hartman's Safety Bridle and Lines have WHEREAS. The usefulness, power and safety offDr.Hartman's Safety Bridle and Lines have been publicly demonstrated in the presence of from one thousand to fif een hundred persons to their entire satisfaction; and since it was proven at the Mi lersville horse exhibition on four of the most victous and confirmed kickers and runsways, that with the Safety Bridle and Lines it is utterly impossible for a horse either to kicker or run away; therefore Resolved, That we, the Saddlers of Lancaster county, Pa., believe that the Safety Bridle and Lines accomplish all, and even more, than iclaimed by the patentee, in preventing horses from kicking and running away.

Resolved, That in view of the above facts, we deem it our legitimate duty, both individually and collectively, to exert all honorable means to at once introduce the Bridle and Lines, because in doing so we in a very great measure prevent all accidents with horse, while with the old and defective bridle we put in great jeopardy both lite and limb.

Resolved, That hereafter we manufacture no other but Safety Bridles, unle s especially ordered.

Succeeded.

County Rights, from Stou. 60 to \$300.00, according to population—those containing arge cities excepted.

No other investment before the public presents such inducements of making money. In ever county there are at least twenty townships, and in each township at least one hundred persons who drive ho ses—which a five dollars for an individual right will amount to \$500 per township, and ten thousand dol ars \$(510,000) for each county at the rate of twenty townships at five hundred dollars each! I have not the least doubt but that amount of money can be made out of a county with proper business tact and energy. The price of counties is so small as to pace the investment in the hands of every one, for few are so poor as to be unable to raise one hundred dollars.

Another feature about this invention is that the proprietor of territory need not manufacture the bridles and lines, as the ordinary bridle can be easily alt-red into a Safety. The lines only require to be made to order, and these can be made by any saddler for a trifle more than the ordinary lines. Hence, unlike other patents, the right to use it only is sold.

No man need wish for a greater f r-une than right of a State. To show the confidence the patence has in as invention, he offers to pay one thousand dollars for any horse that can either kick or run away when under the influence of the Safety Brid e and Lines. For County and State rights address for circular, and for Individual Rights, enclose \$5 to \$5. B. Hartman, Millersville, Lancaster Co. Pa.

I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, ot this city, because I was prejudiced against them for many years, under the impression that they were chief an accoholic mixture. I am indebted to my friend, Robert Shoemaker, Esq. for the removal of this prejudice by proper tesis and for encouragement to try them when suffering from great and long continued debility. The use of three bottles of these Bitters at the beginning of the present year, was followed by evident rellefand restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regalning. I therefore thank 60d and my friend directing me to the use of them.

Dear Sir: I feel tidue to your excellent preparation, Hoofland's German Bitters, to add my testimony to the deserved reputation it has obtained. I have for years, at times, been troubled with great disorder in my head and nervous system. I was advised by a friend to try a bottle of your German Bitters. I did so, and have experienced great and unexpected relief; my health nas been very materially benefitted. I confiden ly recommend the article where I meet with cases similar to my own, and have been assured by many of their good effects. Respectfully yours,

Where he is prepared to treat successfully all diseases of the human system with his OXYGENIZED MEDICATED INFALATION.

The inhalations are breathed directly into the lungs, and through them carried into the blood, expelling all impurities from the system and healing any and every disease with which it may come in contact. A few inhalations will change the color of the blood from a dark to a bright red. In case of paralysis the circulation can be restored immediately, in almost every instance. In cases of consumption this method has been attended with the best results; its action upon the lungs being direct and in-mediate, it gives the patient just what he wants, viz: oxygen, of which he cannot get enough from the atmosphere, owing to the clogged and congested condition of the lungs. Of course there are fundreds that have been given up as incurable, who have only to breathe oxygen to have new life infused into them. This is a compound medicated inhalation. It is perfectly harmless, having been administered to thousands of patients with the happiest rever given for remedial purposes, and can be obtained only at the offices which we have established in every city in the State.
