March winds are the preludes graud and bold To the music of the ye r— To the silvery notes That in summer float When the merry birds are here. Down deep in the restees main, March is the preface that ushers in The story of coming hours, And the varying tales Of the hills and dales,! With the language of the flowers, Look ! as the hurrying blast coes by, How the crocus starts to grow, iow the crocus starts to grow, And the violet blue, And the duises too, 'cep out from their beds of snow March is to summer what earthly life Should be to the life above— A prelade sweet To the loys complete That bloom in the land of love.

North Queen street, AN HONOR WORTHILY BESTOWED,-We congratulate our truly excellent young Democratic friend Albert E. Carpenter, Esq., on his election as Justice of the Peace of Lancaster Township. No man in this great county is more thoroughly qualified for that position. The honor was conferred unso

licited upon his part, and it only shows in what estimation he is held by his fellowcitizens of all parties. The 'Squire is exceedingly modest of the honors being heaped upon him and bears them meekly. May he live long, the duties of his official position sit lightly on his shoulders, and he soon become as rubicund and rotund as one of Punch's famous forty London Aldermen.

FIRE MATTERS A specimen of Clark's Patent Linen Hose, manufactured at Boston Massachusetts, was exhibited to us this morning, by Mr. Henry E. Slaymaker, President of the Union Steam Fire Engine Company, No. 1, of this city, which is an excollent and durable article. It is warranted to stand a pressure of 700 lbs, of steam to the square inch. The Company being in need of some hose, have ordered several hundred feet of the same, and have appropriated the necessary funds from the amount of money received from their yearly contributing members. A number of these, we learn have neglected to pay their contributions and we trust that, when next called upon, all the delinquents will promptly respond, and thereby enable the Company to procure the quantity of hose they require.

THE HINDERPEST, -This is a new disease incidental to ladies who wear short skirts and big hoops. We have not, to our knowledge, witnessed the disease among our ladies, from the fact that those who wen the big hoops have no need of "hinderpests," (pads for the calves,) and those wh do need them trail their skirts. In New York and Philadelphia the "hinderpest prevails awfully. Our dry-goods dealers have not yet struck the new article.

OUR OLD FRIEND J. G. Ripper, Esq., who has for several years past published an excellent Democratic daily and weekly German newspaper at Pittsburg, has disposed of his establishment. We hope his retirement from the editorial chair is only temporary, for we should be sorry to lose so valuable co-worker in the Democratic cause. He is an ardent Democrat and a warm Clymerman, and as he can speak as well as write, we shall expect to hear of his addressing our fellow-citizens of German origin or extraction from the stump. He can do us excellent service in the campaign now opening, and we are sure he has the dispo sition to do so,

MISHLER'S TAX .- Dr. Mishler, the renowned Herb Bitters Manufacturer, must be doing a tremendous business, judging from the amount of revenue tax he pays For the month of February the tax received by the Government on the articles used in the manufacture and in the sale of his Bitters amounted to \$4,899.38, being an increase over the preceding month of \$918.02. This is certified to by H. F. Benedict, Esq., Assistant Assessor of the South East Ward this city, where the Bitters are manufactured. Mishler's Bitters are now the most efficacious of any in use, and no wonder our worthy friend has such large taxes to pay.

PERSONAL.-Surgeon John F. Huber, U. S. Volunteers, a Lancasterian, has received thirty days leave of absence to travel south ward for the benefit of his health. He is now sojourning at St. Augustine, Florida, and will soon go to Cuba for a few weeks. THE PHILOSOPHY OF EXPERIMENTS.—To ew. circumstances are we more indebted or our perfection in science, than to the suc-essful experiments of practical men. This ssful experiments of practical men. This as brought forcibly home to us the other ay by reading over the names of individ uals who received medals and premiums from the American Institute of New York in 1890. We were particularly struck with one article which was awarded a very high prize. In the little memoirs of the success.

one article which was awarded a very high prize. In the little memoirs of the success-ful candidates at the American Institute, we find that Mr. Speer had been for 9 years preparing his celebrated Samburg Port wine, which has since proved so decided a success. Nine years of unwearied labor, close study, heavy outlay, innumerable ex-periments, are a long period to look back on, yet Mr. Speer can look with satisfaction on the years so spent, whon he is conscious that his wish has been consummated. We are glad Mr. Speer has lived to see his Sam-burg Port Wine supersede the abominable imported trash with which Americans are yearly poisoned.—*Scientific American*. For sale by H. E.
