DEATH OF JOHN SHEAFFER, Esq.-John Sheaffer, Esq., seĥior partner of the well-known firm of John Sheaffer & Son, Booksellers and Publishers, No. 32 North Queen street, died suddenly in the borough of Manheim on Friday last. He was seated in his carriage and was about returning home when he was struck with apoplexy. His remains have been brought home, and the funeral will take place on Monday afternoon, at 2 o'clock, from his late residence, corned of East Chestnut and Lime streets. Mr. Slicaffer was one of the best-known citizens in the county. For many years he was engaged in the dry goods business at Manheim, but for the past twelve or fifteen vears has occupied a prominent position as bookseller and publisher in this city, and at the time of his death was engaged in several other business enterprises. Howas a man of generous impulses, a good neighbor and citizen, and his loss will be deeply lamented by a large circle of friends and

THE REYNOLDS MONUMENT.-The con tract has just been closed, on behalf of the Gettysburg Battle field Memorial Associa tion, for the purchase of about five acres, the eastern portion of the grove in which Major General John F. Reynolds fell. The board of directors of the association author ized the purchase of the grove and the tender to the committee of the old 1st Corps of the spot on which the brave and lament ed Reynolds fell as the site for the erection of the historical column which it proposes to build to his memory. The offer has been communicated to the committee acting on behalf of the corps, and there can be no doubt that the commendable purpose, common to both organizations, will soon be site of a suitable monument to the memory of General Reynolds. His old command have done their share in: raising the handsome fund, now in the hands of the committee for the monument. The citizens, and particularly those of them who served der Reynolds in the militia, will be enabled to do their share in perpetuating his memory by aiding in raising the fund required by the Battle-field Association for the purpose of purchasing and properly securing this site. Of all the plans for honoring the brave dead and the cause for which they fell, none comes home so closely to us as Lancasterians as this, and there ought to be no fear for the successful execu tion of all its details,

ROBBERY.-On Thursday night last, the carpenter shop of Mr. Jacob Romig, on the Lancaster and Ephrata Turnpike, in Clay township, this county, was broken into and between \$75 and \$100 worth of tools stoler therefrom. The thief or thieves effected their entrance and exit through a fron window. Several bundles of matches, and some lying loose and burnt, were found scattered around on the benches, among the chips, shavings, etc. The tools taken consisted of several sets of chisels, braces 50 bits, hand-saws, etc.

CLEAN UP .- This is the season to clear up. Clean up the streets, lanes and alleys -remove all the rubbish and deposit it is some out of the way place. Clean up your houses and cellars, and prepare for the coming warm weather. In this way you will save much annoyance, trouble, and i many cases, remove that which may cause use and breed pestilence. Let the city authorities make up their minds to hav clean streets and clean gutters, and they will secure the health of the city and secur the blessings of the citizens.

A CHEAP BAROMETER. -A. German has recently invented a very cheap and easily made barometer. Take a common glass wide-mouthed pickle bottle and fill it to within 3 inches of the mouth with the water. Then take a common sweet oil flask, cleanse it thoroughly and plunge the neck into the pickle bottle as far as it will go. This completes the barometer, and in fine weathe the water will rise in the neck of the flask, descending again in wet, windy weather Before a heavy gale of wind the water has been seen to leave the flask altogether, at east eight hours before the gale was at its

SWINDLING OPERATION:-Within the past few weeks, a firm in New York city, by the name of Charles K. Park & Co., have een forwarding to the address (which they have in some unaccountable manner obtained) of many persons in this city, letters containing certificates, which promise the esentation of watches, jewelry, etc., upon the return of the same, and \$1.72 in money for each certificate. A gentleman in this city received four of these certificates, a few days ago from the firm, and suspecting the onesty of the concern, in order to test it, returned them by mail, together with a draft on the 1st National Bank of Lancaster, for the amount specified. \$6.88, which would have been paid upon the receipt of the articles promised-two gold hunting-case watches, worth \$65 each, a diamond ring worth \$30, and a revolver worth \$28. The letter, as he expected, was returned this norning, stating that they could not send the articles, because he had neglected to forward the amount in money. If the gentle man had endorsed the draft this set of swindlers would have drawn the money and be would never have received the article promised. Our citizens should be on their guard, as the country is flooded with these windling certificates.

It appeared that she had gone to the creek, which passed at the rear of her garden, to wash out a doughtray, which slipped from her grasp and floated away. She, it is supposed, attempted to recover it by wading into the water after it, but being very weak and feeble fell and was drowned. Deputy Coroner Sndyer held an inquest over the body this morning, and a verdict was renlered in accordance with the above facts.

ECLIPSE OF THE MOON.-A total eclipse of the moon will take place on the night of Friday next, March 30th, which will be visi-ble in the United States. At Philadelphia, the eclipse will begin at 37 minutes past nine on Friday evening and end at 29 minutes oast one on Saturday morning. The eclipse will be total from 44 minutes past 10, until 23 minutes past 12. A total eclipse of the moon is a sufficiently rare thing to make it an interesting phenomenon.

MAIL ROBBER ARRESTED .- On Saturday afternoon last, a young man named Mellinger, of Elizabethtown, this county, acting Mail Agent on the Reading and Columbia Railroad, was arrested by a Post Office Detective and committed to Prison at Reading on the charge of robbing the U.S. Mail, I appears that for some time past letters conaining money and other valuables, had not cached their destination by this route, and steps were accordingly taken to ferret out the matter. The detective deposited a leter containing a sum of money marked, in the Post Office at Litiz to a person at Read ing, and followed the same there. When he eached that city, finding that the letter had not arrived, he arrested the Mail Agent ipon whose person was found the market noney.

THE SUSQUEHANNA FISHERIES RESTOR ATION BILL .- The bill providing for the estoration of the fisheries in the Susquehanna river and its tributaries, says the Harrisburg Telegraph, and which passed the Senate. No measure of this session in volves a more important principle of right, or is fraught with greater blessing to the people than that proposing to restore these fisheries. The discussion of this bill in the House established the ease with which the Susquehanna could be once more made to abound with all the varieties o fish, by which cheap and healthy food would be provided for the people, and that the corporations whose duty it would become to alter the dams to allow the passage of fish in these streams could accomtheir work at little expense. With this clear understanding of the subject, a bill was passed as will be remembered, by the House, and this bill is now before th enate. That it will pass that body we have no doubt. Nevertheless, much anxiety is felt on this subject, and until the bill has been adopted and approved, the people will watch its progress with jealous inter-

USED UP POSTAGE STAMPS.—It is grati fying to hear that the bureau for mutilated currency is shortly to be in operation .-Twenty thousand dollars of new currency have been sent out to the National Banks for the redemption of the old notes. Onehalf of the fractional notes in circulation are so defaced, discolored and disguised by filth, in handling, that the denomination can scarcely be detected, and it is impossi ble to tell the counterfeit from the genuine, One-fourth of the amount is so torn and mutilated that it is with great difficulty they can be passed. The quantity de stroyed-actually worn out and lost-must be large. All this is clear gain to the Treasury. It is due to the public that re lief be afforded. We have always thought it would be worth while for the Government, as it was thought proper to issue fractional currency, to get it up in a respec table style—on stout, durable paper, o neat shape, and not so well calculated to gather and hold dirt as the present kind.— But we suppose we are bound to have such as we have had; the next best thing is to have the old stock changed frequently for new. orn (new)......do

The political campaign in Connecticut has grown to be one of the most interesting and exciting ever witnessed in this country. The New York World has the following account of what transpired at an immense mass meeting in New Haven on last Saturday night. It says:

says:

One of the most magnificent meetings ever held in this city convened last evening in and around Music Hall to listen to Hon. Washington Hunt and others in behalf of the President's policy and the election of James E. English. It was just after the reception of the news in yesterday's World—which carries the State for the Democrats by a majority increasing with every day by a majority increasing with every day from this to the election—of the President's approval of Postmaster Cleveland's course approval of Postmaster Cleveland's course in stumping the State in opposition to the disunion ticket; and the people flocked together with a common impulse, crowding the hall and organizing a rousing outside meeting to cheer with vociferous enthusinsm at every mention of Johnson's name. The distinguished speakers announced called together an audience of the solid men of the community, and the meeting with undivided attention, and, with frequent demonstrations of approval, listened quent demonstrations of approval, listened to the remarks from the platform until nearly 12 o'clock and then seemed loth to go, and before they left, making the hall resound with cheers for the President, for the speakers, and for Mr. English, the next Governor of Connecticut, surv.

Hon. Washington Hunt first adlressed the huge meeting assembled in the Hall in a speech of great power. At the conclusion of his speech

The chairman said that a gentleman was on his way from Washington to this meeting, bringing a message which he will announce to you. He sends, however, a brief synopsis of what he brings.

Hon. Richard Vaux of Philadelphia followed Mr. Hunt in a speech which elicited a constant outburst of applause At the conclusion of his speech, Mr.

Ingersoll appeared on the stand and spoke as follows: response to what I am about to state to you, "God bless Andrew Johnson!" (Great cheering.) It was my pleasure at this very hour last night to meet with His Excellency the President, in connection with a distinguished gentleman from Hartford, in regard to this all-important election that is upon us. We were confident of his views, and the more so, because, on entering his room, we saw that the only picture which hung there, displacing one that had previously occupied the place, was the portrait of Andrew Jackson, and we could not but think that the mantle of Andrew Jackson think that the mantle of Andrew Jackson had fallen upon the living man before us. (Cheers.) We were there to say to the President that representations had been made by the Radicals in this State that he was opposed to the election of James E. English. We read to him the statement of Mr. Owen and Mr. Grisworld, that has appeared in the public prints. in which they state. the public prints, in which they state in substance, that the President desired

in substance, that the President desired whatever battles he had to fight should be fought within the Union party. He said.

"It is true I statted that; but when I said the Union party, I did not mean the men who are endeavoring to break up this Union, but the men who stand by me." (Tumultuous cheering, long continued.) Said he:

"I believe the maintenance of this Union depends upon the policy which I have indicated to Congress, and those who sustain that policy are my friends, and those who oppose that policy I certainly have no desire to see elected to any office." (Tremendous cheering.) We stated to him that ire to see elected to any office." (Tremen-lous cheering.) We stated to him that Costmuster Cleveland, at Hartford, had hobly come forward in defense of our cannobly come forward in defense of our can-didate for Governor. He said he was aware of it. A letter was then handed to him in which he stated to the President that he had taken this course, and if it was not satis-factory to the President, his resignation was in his hands. The President took that letter and indorsed upon the back of it, as you have already read in the public prints: "Your political action, in upholding my Your political action, in upholding my

The minority report was signed by himself (Mr. Brooks) and Messrs. Stewart. Steele and Dawson. He had a letter read from Mr. Jordan, Solicitor to the Treasury,

to Mr. Chase, stating as the result of an investigation made by him into the charge against S. M. Clark, he had received an er ire conviction that the most part of the tire conviction that the most part of the statements were true.

Mr. Wilson, Iowa, said that he had not concurred in the conclusions of the Committee, and that if the report had been presented to him for his signature he would not have signed it.

Mr. Garfield, Ohio, stated that this was the first time he knew that the gentleman from Iowa dissented from the report of the majority. The majority had authorized him (Mr. Garfield) to make it, and he had made it.

Mr. Wilson, Iowa, said that he had been Mr. Wilson, Iowa, said that he had been asked by Mr. Henry Winter Davis, a member of the Committee, whether he was willing to sign the report, and had replied that he was not, as he did not agree with the Committee in its conclusions asset forth in the report and in the resolution accompanying it. Here the matter dropped and Mr. Moulton addressed the House.

BLE INVESTMENT! REVENUE EXTENSION SILVER MINING COMPANY OF NEVADA. CAPITAL STOCK\$500,000

Divided into 50,000 Shares, at \$10 Each. OFFICERS: OFFICERS:
President—Hon. GEO. P. FISHER, Judge of
the Supreme Court, Washington, D. C.
Vice President—T. S. EMERY, Philadelphia.
Treasurer—E. B. HARPER, of Harper, Durney
& Co., Bankers, Philadelphia. cretary—LOUIS R. McDONOUGH, Phila. Superintendent at the Mines—D. S. CHILDS, Mining Engineer, Austin, Nevada.

OFFICE: No. 55 South Third Street, SILVER MINING PROFITABLE.
That the business of Mining and reducing silver quartz is immfensely profitable, is amply attested by the results which have accrued from the mines of Mexico, Peru, Germany and other silver bearing countries, and that silver lodes are remarkably rich, as well as numerous in Nevada, we have the testimony of such eminent and disinterested men as Bishop Simpson, Prof. Silliman, Prof. James, Hon, Horace Greeley, Speaker Colfax and Senator Nye, who personally visited and inspected the mines, besides hundreds of other individuals who are now engaged in the business of mining in that State. Prof. Silliman, whilst in Nevada, delivered a lecture in the city of Austin, during which he said: "We exanct count upon the lime when mining will cease to be profitable in these bills."

Bishop Simpson, of the Nethoda's church, in a lecture delivered in the City of New York, after his return from Nevada, said: "We re the debt of our nation SO 000 000 000 there is weet in SILVER MINING PROFITABLE. Ispeak of that wealth from observation and actual calculation.
WHAT DIVIDENDS MAY BE EXPECTED.
As to the amount of dividends that may be reasonably expected from a Silver Mining Company, operating in Nevada, it may be set down as ranging from 100 to 1000 per cent, per annum, according to the progress made in the mines, and the quantity of machinery at work.

Harper's Monthly Mayazine for August constained an article on "Nevada," which, with reference to the profits of silver mining, said:
"If the mine be of even average value it can scarcely fall to return from ten to wenty per cent on the per month to the investor; and silver mines are unlike gold mines, in that they are fazzhaustable, and may be worked for generations when opened." nereby repealed.

Ordaine; and enacted into a law at the City
of Lancaster, the 20th day of March, 1869.

able, and may be worked for generations when opened."

A recent issue of the Philadelphia Evening Telegraph, speaking on this subject says: "the mining statistics of Nevada show us that when ever worked with proper appliances, and under judicious management, these mines have paid from 300 to 800 per cent, per annum upon the capital invested."

WHAT OTHER COMPANIES ARE DOING. There is not a single company now in operation with their own machinery in Nevada, as far as we have learned, that is not a complete success. All are returning not only large, but

success. All are returning not only large, but Enormous Dividends, and the price of their shares have correspondingly advanced. For instance, on March 2d, the stocks of the older Companies were quoted in the city papers as follows: "Gould & Curry, 809; Savage, 895; Choliar Potosi, \$305; Imperial, \$117; Crown Point, \$1,010; Alpha, \$260; Yellow Jacke, \$30." Tee original price of these stocks was less than \$50—some of them only \$10. And the Companies more recently organized are not a whit less prosperous, but as far progressed give every promise of an ultimate success even greater than that achieved by the Gould & Curry.—For example, the stock of the Hale & Norcross Company of Nevada, which a few months ago was worth only \$10, is now quoted at \$1,100. So, also, the Boston and Reese River Mining Company, which commenced work only last fall; its shares, though originally sold at \$10, soon went up to \$105, and on the first of March had advanced to \$5.00.

THE NATURAL CONCLUSION.

THE NATURAL CONCLUSION.
It may therefore be safely asserted that no
other enterprise, requiring the association of
capital, offers so many inducements for investments, with so little risk, as Silver Mining. Every Company that owns a mine and will honestly go to work, MUST HE A SUCCESS! It cannot possi-bly fait. The only difference between compa-nies at work will be in the amounts of their nles at work will be in the amounts of their dividends.

THE REVENUE EXTENSION SILVER MINNO (OMPAN)

Are the owners of NINETEEN (19) valuable silver Ledges, amounting to 41,000 linear test (the chief of which is the Revenue Extension Lead, one of the richest ever discovered in that district,) all of which are situated upon the celebrated Lander Hill, near Austin, Novada. The Hopkins' Tunnel, which commences at the foot of Lander Hill, and will pure the hill from side to side, running at right angles with the Silver Veins, and will cut in the contract upward of one hundred and fifty mines (this number being already located), is also the property of this Company. Work upon this function is the property of this Company. Work upon this function is already reached upward of three hundred feet.

The Superintendent telegraphs from Austin, Nevada, under date of February 22, 1866, as follows:

"At work on Revenue Extension Mine, ore

lows:
"At work on Revenue Extension Mine; ore
taken out to-day assays \$457.45 to the ton. Work
on Hopkins' Tunnel advanced 70 feet since last
dispatch (February 2d)."
And again, under date of March 5th, as foliows:
"Receipts in bullion \$1,900. Tunnel advanced "Receipts in button states. A united Bayanceu 100 teet. Revenue shaft 20 feet."

WHAT OTHERS SAY A BOUT IT.

The Philadelphia Commercial List of March 3d contains a letter from one of its correspondents, dated Austin, Nevada, February 5, 1866, which can be shaded as the contains a letter from one of the correspondents. which says:
"At the lower extremity of the city of Aus-

"At the lower extremity of the city of Austin—quondam Clifton—where Pony Canon debouches into Reese River Valley, a project has been commenced, which, if carried out in accordance with the plan of those who conceived the scheme, will prove one of the most magnificent works of the day, and which cannot iall to handsome y reward those who push it to completion. I allude to the Hopkins' Tunnel. The Revenue Extension Mining Company, byning this tunnel have a series of ledges. to completion. I allude to the Hopkins' Tunnel. The Revenue Extension Mining Company, owning this tunnel, have a series of ledges
lying parallel with each other, located upon
the hill, at the foot of which this work commences, and will cut at nearly a right angle
each lode with which it comes in contact
thr.ughout its entire length, and they can be
numbered by the score—the hill being literally seamed with them. As this great work
progresses, vein after vein of the rock bearing
the precious metal will be crossed, at a depti
sufficient to render their working profitable,
each in succession being at a greater depti
from the surface than the preceding one, owing to the rising of the hill in which they are
crossed, workmen can be engaged in extracting the ores upon either side of the tunnel,
without in any manner hindering its progress.
THESUCESSOF THE COMPANY CERTAIN.

It is thus apparent that the Revenue Extension Silver Mining Company have progressed
so far in their operations that success is not
only certain, but ActUNALLY ATTHE DOOR. Before the close of the coming summer—perhaps
by the middle—it will be ranked amongst the
DIVIDEND-PAYING companies, and its stock
will, in all probability, advance to \$25, \$50, or
perhaps even \$100 per share. Therefore, now is
the time to invest. Only a small portion of the
working capital yet remains unsold, and the
DIVIDEN of shares \$10, free of assessment.
