Last week it was our good fortune to b present at the last soirce of the season given by these worthy gentlemen, at the Odd Fel lows' Hall. The party, though not so large as the others which preceded it during the winter, was, nevertheless, a most happy and enjoyable affair. Our old friends 'Squire Young and Mr. D. F. LA FAYETTE COLLEGE, -- Dr. T. C. Porter, Professor of Natural Sciences in Franklin and Marshall College of this city, has been elected to the chair of Botany and Zoology in La Fayette College, Easton Pa. The Professor thus returns to his Alma Mater after an absence of twenty-six years spent in useful and deep study. The institution with which he is now connected, has re-cently increased its endowment fund to more than \$200,000, this was effected through the untiring exertions of its patrons, the most noble of whom Mr. Pardee, of Hazleion, has indicated his interest by a pres ent of \$100,000. The Institution is now destined to rank with the leading schools of our Country. Already the curriculum of studies has been rearranged and modeled on the most modern and scientific plan many new studies have been introduced, soveral new Professorships have been crea ted, and tilled with gentlemen of approved earning and reputation; in fact the educational basis of the institution has been so adjusted as to secure the greatest amount of good to the student, so as to most enhance the welfare of the College, and so as to best carry out the designs of her noble

THE LATE RAILROAD ACCIDENT.-The Coroner's inquest on the bodies of Daniel Finfrock and Robert Bingaman, engineer and fireman, who were killed by the accilent on the Pennsylvania Railroad, at Havorford street. West Philadelphia, on the morning of the 4th inst., was continued on Saturday. Two witnesses, employees of the Pennsylvania Railroad Company, testified that they considered Wm. G. Young, tomporary switch-tender, competent for any duty on the road to which he might ve been assigned. At a former meeting, witnesses had testified differently. The jury rendered the following verdict:

"That Robert Bingaman and Daniel Fin-Trock came to their deaths from the effect of injuries received by the breaking down of the bridge on the Pennsylvania Railroad at the crossing of Haverford street, on the morning of April 4th, 1866. From the evidence elicited, we are of the opinion that the switch was not in its proper place, and also that the switch-tender, Wm. G. Young, who was temporarily on duty at that time was entirely incompetent for the duty assigned him; and we censure the Pennsylvania Railroad Company for intrusting him

THE IMMORTAL J. N .- Many of our read ers have a lively recollection of the "Immortal J. N." Free, who has several times visited our city and furnished a good deal of amusement by his queerities, his" philosophy" and his view of things "from his stand points." Well J. N. has reached the fruition of his desires and has been made a "martyr." The people of Montgomery, Alabama, with a pitiable lack of appreciation, have turned the cold shoulder on him, and, worse. An exchange says: The wellknown, irrepressible, and always ready-tobe-martyred J. N. Free some weeks since departed for the South, with the declaration that we should hear of him through the Southern papers; and lo the sunny clime whispers the important news of his martyrdom. J. N. assumed the pressure at Montgomery, Ala.; it was too heavy on the people: they couldn't see it from that standpoint, and pelted the 'immortal' with rotten eggs, forcing him to leave town.

AN UNDENIABLE FACT.-When a man gets a few dollars worth of goods, puts them in a room, and sits down by the side of them waiting for customers, he follows pretty closely the style of some of our merchants for past years. He don't advertise-he don't send out circulars—he merely waits. Now, if a customer comes, he must pay a large price for what he gets, because the sales are ew, and the tradesman must live out of his profits. The goods get old and stale, and customers always lose money by dealing with men who do the mud-road, slow-coach business. Consult our advertising columns if you desire to know who the live merchants me at this day.

PROMPT PAYMENT .-- The American Life Insurance Company of Philadelphia, of which H. S. Gara, Esq., of this city is the agent, have already paid the amount of the nsurance, \$6,265, upon the life of John Sheaffer, Esq., deceased, to his widow, without awaiting the expiration of the 60 days stipulated. This institution stands in the front rank of first-class Life Insurance Companies, and of course is perfectly reliable in every respect.

But unhappily not every family possesses a stove in which they can place implicit reliance. Too often when things should be "done brown" they are "done black," and when the greatest amount of heat is required there is the least obtained, and all this at a large expenditure of fuel. Every possible objection is overcome in the 'Barley Sheaf," anti-dust, air-tight Stove, lately introduced by Messrs. MUNICIPAL AFFAIRS. The City Councils met statedly in their Chambers, City Hall, on Tuesday evening last, In Select Council Mr. Zahm, Chairm of the Finance Committee, presented the annual report, which is as follows: ANNUAL BEFORT OF THE FINANCE COMMIT

To the Select and Common Councils of the City of Lancaster: Your Committee of Finance and Accounts after a careful examination and considera tion of the resources, liabilities and pros pective wants of the Municipal Govern pective wants of the Municipal Govern-ment during the present fiscal year, re-spectfully submit for the scrutiny and ac-tion of your honorable bodies, the accom-panying detailed estimates in connection with the subject, as an embodiment of their views, in confidence that, after due delib-eration, your conclusions and their own will coincide.

eration, your conclusions and their own will coincide.

The Committee regard the providing of means to liquidate in the present, debts incurred during the past year—and not anticipated at the making of the annual appropriations, as a duty of the first importance for the welfare and credit of the corporation; and accordingly an item for that purpose, in the list of expenditures, will be found under the head to pay temporary loans.

found under the nead to pay temporary loans.

These debts were occasioned by the appointment and service of a special night police under authority of Councils, from the month of September last to the first day of March in the present year, at a disbursement of \$4,403, besides \$558 derived from fund to pay Watchmen; by a necessary outlay of \$792,38-100 on street repairs, after the meagre appropriation to that object was exhausted; by the payment of \$2,503,72-100 for new turbine wheel, erected at the Water chausted; by the payment of \$2,503.72-100 for new turbine wheel, erected at the Water Works during the past Summer and Autumn, and incidental labor and material, for which no appropriation had been made; by an excess paid of \$2,530.07-100 over appropriation to Water Works, owing chiefly to the necessity of running the water pumps by the steam engine, at a cost alone for coal as fuel, of nearly \$1,800; by an allowance of \$498 towards the cost of construction of East King street sewer; by a donation of \$1,000 to Union Steam Fire Engine Company for the purchase of foreing hose; and by an excess of \$788.47-100 paid for contingencies over that appropriation. All aggregating \$12,515.64, of which \$2,865.64 was paid with money in the Treasury, not demanded for other objects, and the balance \$9,550 by the negotiation of temporary loans, which at maturity will amount, with interest, to \$9,915.00.

est, to \$9,915.00.

After calculating and setting apart th absolute appropriations, the present ina bility to correspond the others to the in rease of revenue derivable from taxatic and market rents, demonstrates the fright

ulness of embarrassment, of the reprehe sible custom in vogue for the past fe sible custom in vogue for the past few years of voting money in excess, or outside of the appropriations adopted at the beginning of the year—that can only be had by borrowing, to be repaid in the succeeding year; a custom, that in the judgment of the Committee, should be "more honored in the breach, than in the observance," and be rarely resorted to, and then only when it could not with safety or prudence be avoided. As a consequence of this system the ed. As a consequence of this system, the rate of taxation of 1866 had to be fixed a

rate of taxation of 1866 had to be fixed at one dollar per hundred dollars valuation, which is the extreme limit allowed by law; and notwithstanding the additional revenue that will accrue thereby, no material increase of the amounts of any of this year's appropriations can be made over those of the preceding one; a matter to be regretted, but obviously incapable of remedy in the present financial situation. However, with reasonable economy and judicious application, the means at comidicious application, the means at com and, it is believed, will suffice for all need

mand, it is believed, will suffice for all need ful purposes during the year. A saving in the expenses of the Water Department of some, \$5,000 compared with those of last year, may be expected in this year, from the idea that no outlay of an extraordinary character will be required—such as was wanted for the Turbine Wheel, erected last year; and that the Steam Engine will be needed but a very short period, if at all. Should these expectations be realized and the policy be pursued, of making each year provide for itself, the Councils of next year will be enabled to liberalize their appropriprovide for itself, the Councils of next year will be enabled to liberalize their appropriations, and generally accord them to the wishes and wants of the community; the street appropriation, for instance, can be very considerably enlarged, as it should be, as doubtless it must be admitted, that an appropriation double in amount of that which now can only be allowed, could be expended without reaching the most of the localities, where street improvements are

LANCASTER, April 3d, 1866. Which was read and on motion adopted. Common Council concurred. Mr. Zahm also offered the following

resolutions, which were adopted, and con curred in by Common Council: at the common Council:

1. Resolved, That no payment of State tax shall be required by the City Treasurer of the holder or holders of any loan or loans of the Corporation of the City of Lancaster, that may be issued during the present year, until maturity or a prior offer of redemption by the City authorities; in either event, the tax shall be demanded and paid as heretofore, if no redomption occurs. And also that no State tax shall be required on loans due and demanded, so long as the holders

due and demanded, so long as the holder due and demanded, so long as the holders permit the same to remain unpaid.

2. Resolved, That section 1st of the ordinance of the 16th day of January, 1857, fixing and prescribing the rates of Water Rents, shall be so construed, that the Water Committee of the Select and Common Councils shall have discretionary power to abate or increase the water rent of any consumer, according to their ideas of a fair and equitable compensation for the water used. Proaccording to their ideas of a fair and equitable compensation for the water used. 3. Resolved, That a joint committee of on member from each Council be appointed. t hold in conjunction with the City Assessor, a Court of Appeal on the assessment of City Taxes. Taxes. Committee of Select Council, Mr Zahm. Committee of Common Council, Mr. Russel.

Mr. Zahm also offered an Ordinance, ennance passed March 26, 1864, repealing Sec-

tion 4th of a Second Supplement to that Ordinance passed January 8d, 1865, which gives the Finance Committee authority to llow the City Receiver additional compensation for collecting bounty taxes, to the commission on the sum received not exeeding \$200; which was read, and under a suspension of the rules, read a second and third time and passed by the necessary vote f two-thirds of the members present. In Common Council such vote not having beer

obtained, the Ordinance was lost. Mr. Metzgar presented a petition to turn oike East King street from Ann street to the county Prison. Read and a motion refer red to the Street Committee, with directions to examine and report the expediency and probable cost of the work to Councils at their next meeting. Common Council concurred. Captains P. I. O'Rourke, W. W. Nevin and A. C. Reinœhl, a Committee of the

Soldiers' and Sailors' Union, appeared in the Chamber with a petition for the right to erect in Centre Square at the intersection of King and Queen streets, a Monument to the Soldiers' of this county who fell in the war of 1861; the space occupied to be not less than 30 nor more than 40 feet square. The petition was received, and on motion of fesses. Zahm and Roberts referred to the Committee on City Property in conjunction with the Presidents of Councils to report upon the expediency of the grant to a special meeting of Councils, so soon as the Comnittee are prepared to do so. Common Council con

The loan bill was then taken up on motion of Mr. Fessenden.
House,—The first business in order was the call of committees for reports to be placed on the calendar. There was no report made under the call.

The next business in order was the reso lution introduced by Mr. Davis, N. Y., or the 10th of January, and since lying over under the rules, declaring that this House cherishes the most entire confidence in the cherishes the most entire confidence in the patriotism and ability of the President of the United States in his desire to restore the Union on the basis of permanent peace and prosperity, and that the co-operation of this House is pledged to him in support of the ground bullet of the construction of the property of the construction of the const general policy of reconstruction, as inaugu-rated by him in the modes authorized by the Constitution and consistent with the security of republican institutions. On which Mr. Raymond, N. Y., was entitled

Mr. Raymond supposed it would meet the sentiment of the House, as it certainly would his, to postpone the consideration for the present. He would therefore move to postpone till two weeks from to-day. The motion to postpone was agreed to.
The next business in order being the call of the States for resolutions, Mr. Boutwell, Mass., offered the following:
Whereas, the President of the United States did on the 3d day of May, 1865, by proclamation declare and make known that it did then appear from the eyidence in the bureau of military justice, that the atrocious one till two weeks from to-day.

Mr. Stevens, I hope the resolution will be sent to the Judiciary Committee to which the same subject has just been referred.

Mr. Raymond, I understood the resolution referred to be on an entirely different subject relative to the assassination of President Lincoln.

Mr. Wilson, Iowa, it covers this also.

Mr. Raymond, N. Y., reasoned for offer-

Mr. Wilson, Iowa, it covers this also.

Mr. Raymond, N. Y., reasoned for offering the resolution, now, was that there were rumors of a process being commenced to release Davis from imprisonment without his being tried, as I thought it due to Congress to have the subject properly passed upon. After a conversation Mr. Raymond withdrew his motion for the previous question, and the resolution was referred to the Judiciary Committee.

Our relations with the imponderable world are daily becoming more intimate, as we cast aside, one by one, material substances, forces and powers; firdle, Water and Almospheric power have given way to the vaporous element, Steam, which, in turn, must be cast saide for the subite element, ELECTRICITY, which at no distant day must become the utilimate of motive power.

The wonderful electrical direcveries are now creating intense interest, and investigating minds are overywhere turning their attention to the subject and watching the development of every phenomenon-tom the condensation of the electric spart, to the roar of Hoaven's mighty artillery.

As a mechanical agent it has already accomplished wonders; but its crowning excellence scars aloft for nobler purposes, and whispers words of consolation and hope to diseased humanity.

Under its imagic power the ravings of the maniac are quieted; the pulsied mind regains its powers; inflammations subside; tumors are reduced; ulcers are healed; the blind are made to see; cripples to walk; the dumb to speak; the deaf to hear; nervous fritation is allayed; contracted muscles are relaxed; the weak become strong; and every muscle, nerve, gland and tendon of the body is brought into narmony and health.

INCREASE OF RATS.—The Farmer's Gazette (English) asserts and proves by figures that one pair of RATS will have a pregeny and decendants not less than 631,650 in three years. Now AG See "Costar's" advertisement above. 1866.

RATS versus BIRDS.—Whoever engages in shooting small birds is a cruel man; whoever aids in exterminating rats is a benefactor. We should like some one to give us the benefit of their experience in driving out these pests.—We need something besides dogs, cats, and traps for this business.—Scientific American, N. Y. AG See "Costars" advertisement above. 1866."COSTAR'S RAT EXTERMINATOR is imple, safe, and sure—the most perfect RAT-leation meeting we have ever attended— every Rat can get it, properly prepared, will it it, and every one that eats it will die, gen-

1866.HOUSEKEEPERS troubled with vermin need be so no longer, if they use "COSTAR'S' Exterminator. We have used it to our satisfaction; and if a box cost \$5, we would have it. We have tried poisons, but they effected nothing; but "Costar's" article knocks the breath out of Rats, Mice, Roaches, Ants, and Bed-Bugs, quicker than we can write it. It is in great demand all over the country.—Medina, Ohio. Gazette. HOUSEKEEPERS

1866. A VOICE FROM THE FAR WEST,—Speakng of "Costar's" Rat, Roach, Ant, &c., Exerminator—"more grain and provisions are
lestroyed annually in Grant county by vermin
han would pay for tons of Rat and Insect
Killer,"—Lancoster, Wis., Heraid.
AG-See "Costar's" advertisement above.

1866. FARMERS AND HOUSEKEEPERS should recollect that hundreds of dollars' worth of Grain, Provisions, &c., are annually destroyed by Rats, Mice, Ants, and other insects and vermini—all of which can be prevented by a few dollars' worth of "Costan's" Rat, Roach, Ant, &c., Exterminator, bought and used freely,
