Mr. Deaner presented the monthly statement of the City Treasurer and Receiver to date, showing a balance on hand for city purposes of \$8,044.42. The Treasurer suggesting advantages that would accrue in a financial point of view, from having the Duplicates of City Taxes and Water Rents prepared during the month of Noin each year, and placed in the hands of that official by the 1st day of January ensuing for collection, with proper abatements for payment—decreased in rate each month of the year, while allowed. The report was read. Read in Common Council. Mr. Zahm, Chairman of the Finance Com mittee, presented a report of that body, of their examination of the duplicate of water rent for 1866 at the office of the Receiver, to ascertain the payments made to the 1st inst. which appeared to be \$10,776.57. Paid deorresponding period lust year-\$9,468,92. Excess in present year \$1,306,65. The report

was read-read in Common Council. Mr. Curie, of the Water Committee, presented for the information of Council. a statement of the Superintendent of Water Works of different stages of water in the eservoirs, from the 17th day of May last, to the present day-which was read. Read n Common Council.

Mr. Lechler, chairman of the Street Com mittee, presented the following report of To the Honorable the Select and Common

Councils of the City of Lancaster:
The Street Committee; of your bodies, present the following report, in relation to potitions referred to them, for street im-

provements:

In the North East Ward. They recommend the paying of a gutter on the north side of East King street from Duke to Lime streets, at an estimated cost of \$150. Also, the paving of a gutter on the same side of East King street, from Plum to Ann street, at a like cost of \$150. They also recom-mend the construction of a crossing over mond the construction of a crossing over Fast Grange street, at the west side of Ann street. The cost of which can be estimated from \$15 to \$60, according to the character of the material used.

To turnpike East King street, between

Ann street and the county prison, were required, would involve an expenditure of from \$400 to \$500, which in the judgment of the committee, it would not be advisable to incur out of the small sum appropriated for street work. The cost of turnpiking the for street work. The cost of turnplking the square of Duke street, from East King to Orango streets would be at least \$1000, independent of repaying the gutter on both sides of the street, which is as necessary as the stoning of the roadway, and would require about \$300 additional to accomplish, making the total estimated outlay for both, \$1300.

Harring the total estimates during to solution would have to be made, and the amount raised by a temporary loan; hence the deferring of the work until next year, when no doubt the expense can be defrayed from the regular street appropriation. It is worthy of the consideration of Councils.

In the North West Ward. The repairs asked in Mulberry street between Walnut and Lemon streets, received the examination of the Committee. The only matter solicited or urged at the time of their visit, was the repairing of the gutter on an al-

was the repaying of the gutter on an al-tered grade, across Lemon street on the west side of Mulberry street, and the makwest side of Mulberry street, and the making of a new crossing at that point, with repairs of the rondway near Walnut street. This work the Committee recommend to be done; the expense of which would be triffing, not exceeding very probably \$50.

In the South West Ward. The paving of a gutter asked in Beaver street, would cost about \$75; and if the state of the street appropriation will allow, after doing other

propriation will allow, after doing other work apparently more needed, the Committee recommend that the wants of the pe-Thoughteen the time the water of the per-tioners in Beaver street, be granted.

They recommend the paving of a gutter on the south side of Vine street from the on the south side of Vine street from the fourteen feet alley west of Water street to Strawberry street, at an estimated cost of \$60. Also, the construction of a crossing at Vine and Water streets,

A. LECHLER,

JACOR L. FREY,

A. REPLANTER

Street Committee. Lancaster, June 5, 1866. Which was read and on motion approved, and the Committee directed to have executed the several jobs which they recom-

Common Council concurred. Mr. Lechler also presented a petition o Thomas E. Franklin, Esq., and other citizens and property holders on the north side of East King street, between Duke street and Penn Square, praying for the construction of a sewer in E. King street-extending from the sewer at Duke street to the 14 feet alley--one half square westward. The petitioners subscribing in the aggregate \$425 for the right of connection from their premises with the sewer. The petition was read and on motion referred to the Street Committee to report the probable cost of the work to Councils at their next meeting.

Common Council concurred. A delegation of the Sun Fire Company appeared in the Chamber, with a petition asking for an allowance of \$1,000 for the purchase of new 'hose. The petition was presented and read.

By permission, Philip D. Baker, Esq., one of the delegates, addressed Council, forcibly urging the necessity of the grant to enable the company to do service, which, with their present hose in its worn out condition, would be impossible to render. Mr. Zahm replied, that, as a Councilman no one was more willing to assist the Fire Companies than himself, when the condition of the finances justified it. But in the present situation he would be compelled to vote against this application and all others of a similar character. The fruits of the system pursued for the past few years of voting money outside of the annual appro priations-obtained by loan to be repaid the next year-can be seen in the necessity of increased taxation in this year, from 90 cents to \$1 per \$100-and the provision for the payment of temporary loans created last year, exceeding \$9,000 in amount. In his judgment, the policy recommended by Finance Committee in their annual report, of making each year provide for itself, is the true one, and should not be deviated from, if it can be avoided with pru-

dence or safety. Mr. Fitzpatrick moved that a committee be appointed to examine the condition of the Sun hose, and report the result of their investigation to the next meeting of Councils, which was not agreed to.

A motion to grant the prayer of the petitioners was lost. A petition of citizens residing in the west-

ern part of the city was received, favoring the application of the Humane Fire Company, of the last meeting, for \$1,000 for repair of their Fire apparatus, which was read.

Mr. Surie said he had examined the Engine of this Company and found it in a

great measure worthless; boxes worn out, Messrs, Fitzpatrick and Deaner moved that the Humane Fire Company be allowed their prayer for \$1,000. The motion was

Mr. Fitzpatrick presented a petition of citizens residing in Frederick street, North East Ward, for a change in the gutter from its present lead to a well and nump of water on the South side of the street. Referred to the Street Committee to examine and report to Councils at their next meeting. Mr. Metzgarstated that George Nauman Esq., City Solicitor, desired to make a verbal communication to this body, and moved that such privilege be accorded him. The

Mr. Nauman stated substantially that at the last session of the State Legislature an act was passed requiring corporations or associations, that received credit of enlistments on draft quotas, without the payment of bounty to the soldier, to pay the same now. That he thought the act would be pronounced unconstitutional by the courts, and supposed the city authorities would be unwilling to pay any demands under it, until the question of liability was determined. That some claims are now about being presented, and if it be the desire to have the law tested, he would suggest the propriety of having "a case stated," prepared and argued with that now.

On conclusion of Mr. Nauman's remarks. Mr. Roberts offered the following resolu-

tion: Resolved. That the Committee of Finance and Accounts, are hereby authorized to take such measures as they may deem expedient with the advice of the City Solicitor, for the determination by proper legal tribunals of the question of liability of the corporation of the city of Lancaster, to pay any bounty fund to persons cred-

- Marine 198

ited or alleged to have been credited to the city on draft quotas, who received no bounty at the time, under a legislative act of this Commonwealth, passed at the last session, or any preceding one. The reso-lution was adopted. Common Council con-

Mr. Zahm offered the following resolution, which was adopted, Common Coun-

cll concurring:

Resolved, That the Water Committee are hereby authorized to lay a water main of proper calibre in Walnut street, before Mulberry and Charlotte streets, to opposite the premises of Samuel Showers, to afford him a supply of city water, and pay the cost of the work and material out of the miscellaneous water appropriation of the cost of the work and material out of the miscellaneous water appropriation of the present year; and that Mr. Showers pay an annual water rent of fifty dollars for the an annual water rent of inty donars for the water is repaid with interest; and that he enter into a proper obligation to carry out such contract binding his property to the extent of such cost.

Mr. Curie desired to call the attention of

Council to an application of Mr. Lawrence Knapp, Brewer, residing on East King street, made to the Water Committee. to lay a 4-inch water pipe in the alley adjoining his Brewery, from Duke to Lime streets, in lieu of one of two-inch calibre now laid and deemed insufficient for the supply of the consumers in that locality. Upon the suggestion of the President and other members, that the Water Committee had full power to act, the matter was withdrawn. DR. MISHLER WANTS TO BUILD A RAILROAD. In Common Council the following com-

munication was received: To the Select and Common Councils of the

City of Lancaster:
Your petitioner respectfully represents to your honorable bodies that his business has increased to such an extent that it becomes necesary for him to secure an easier ode of transit between his place of busimode of transit between his place of busi-ness and the railroad depot.

He therefore respectfully asks of your honorable bedies permission to lay a rail-way track from his laboratory at Centre Square, northward through North Queen street, to connect with the Pennsylvania Railroad, at or near the passenger depot.

Hoping that your honorable bedies will great the prayer of your patitioner.

grant the prayer of your petitioner,
He will over pray, &c.
B. MISHLER. Which was read, and on motion referred to the Street Committee, with instructions

to inquire into the expediency of granting the prayer of the petitioner. Select Council concurred. Mr. Smith of the Market Committee presented a resolution of the Committee, recommending to Council an increase of \$150

to the present salary of the Clerk of the Market. Read, and on motion Resolved, That the salary of the Clerk of the Market beincreased \$50, and the amount aken from the Contingent Fund. Select Council concurred.

Mr. Burns offered the following resolution: Resolved, That the Street Committee be directed to report upon the expediency of repairing Stoney Alley, at the next meeting of Councils. Read and adopted.

Select Council concurred. Dr. Long presented a petition for the repair of an alley, known as "Campbell's Alley," in the South West Ward, running from Mary to Manor streets, which was read, and on motion referred to the Street Committee with favor to act.

Select Council concurred. A petition was received for the repair of Lime street between Chestnut and Walnut streets, in the North East Ward, and for a request of the Pennsylvania Railroad Company to make foot-tracks at the bridge over their road crossing the street, which was read, and on motion referred to the Street Committee to inquire into the probable cost of said repairs and report the same to Coun-

Salact Council concurred. Adjourned.

MEETING OF THE SCHOOL BOARD .regular meeting of the Board of Directors of the Public Schools of this city was held yesterday evening. Twenty-four members were present. R. A. Evans, from the Committee on

School Property, submitted the following report: To the Board of School Directors : GENTLEMEN: Your Committee would respectfully report that, under resolution of May, 1866, they purchased a property at

public sale, situated in East Orange street belonging to Miss E. R. Barton, containing a front on Orange street of 40 feet and 7 inches, and extending back two hundred and forty-five feet to a public alley, for \$1. 725, payment to be made and positiven on the first day of July next.

ROBERT A. EVANS. G. ZAHM, A. W. RUSSEL. The action of the Committee was ap

proved. Mr. Jackson, Chairman of the Committee of Finance, read the following report, which was adopted: The undersigned Finance Committee of the Board of Common Schools, Lancaster City School District, respectfully report, that they have audited the Trensurer's report for the year ending June 1st, 1880, and find it correct The following is a statement of the receipt

819,596 9 As an explanation of the seemingly large balance against us, it may be stated that, owing to a new construction of the law on the subject, we have not yet received our appropriation from the State for 1808.

It was formerly held that as our Schools were kept open ten months in the year—our year commencing with the last of reptember the law only required it to be certified that they had been open four months.

It is now held that we cannot be paid until after the close of the State School year, which is the first of June. This, when received, together with the balance due by the collectors being prepared and only awaiting the auditing of their hooks—will still show that our estimate of last year has not been very much reduced,

JOHN W. JACKSON, G. ZAHM.

100

JOHN W. JACKSON, G. ZAHM, Pinance Committee. The School Property Committee were, on motion, authorized to let for Tent, the property recently purchased by the Board, n West Orange street.

The bond of Peter McConomy, as Treasarer of the Board, with sureties in the penal sum of \$30,000, was approved.

Mr. Breneman, from the Committee Soldiers' Orphans, reported favorably on he applications of Clara and Kate Jones, children of John S. Jones, deceased, and George W., William K. and John Fry, and Mary and Elizabeth Hahn, for education and maintenance in the Soldiers' Orphans Schools. The report of the committee was approved.

The petition of Mary Ann Huber for the lischarge of her daughter from one of the Soldiers' Orphans Schools, was granted. The resignations of J. B. Livingston and R. H. Long were accepted. A motion to

fill the vacancies was postponed.

Wm. P. Brinton was unanimously elected President of the Board, in place of Mr. Livingston, resigned. Mr. Patterson, from the committee to

select a suitable site for the erection of one additional school building, submitted the following resolutions: Resolved, That the Building Committee are hereby instructed to proceed forthwith to contract for and secure the erection of a new school building, suitable for a combined primary school, capable of teaching 150 pupils, on the most favorable price to be obtained. Said building to be located in either the North West or South West. Wards, as the Building Committee may

Wards, as the Building Committee may leem best. Resolved, That the Building Committee are hereby instructed at the end of the present school term, to have the two single primary school buildings on South Duke street, in the South East Ward, and one of the buildings on Lemon the fact North street, in the South East Ward, and one of the buildings on Lemon street, in the North East Wurd, altered, and made suitable for combined schools, and, if possible, have,the same completed on the opening of the next

Resolved, That the Board concur in the recommendation of the Committee, viz: That when in the future more room for pupils will be required in the primary schools, it would make our system of graded schools and transfers more uniform and complete, to proceed gradually to change all the remaining single primary schools into combined schools.

Resolved, That the election of a Primary of the prima

for the High Schools be postponed for the Resolved, That the High Schools continue

in their present state of organization, until otherwise ordered, unless the Board should leem it obligatory upon them at the pres ont time to make some change in the teach ng force of the female department of the ign School. On motion, the resolutions were consid-

ered separately.

Mr. Jackson offered the following as ubstitute for the first resolution: Resolved, That the School Property Com Resolved, That the School Property Committee be instructed to report to the Board at the next meeting, the probable cost of restoring the High School Building to its former condition, so as to accommodate a school on each story, the erection of a combined rimary school on Vine street, the alteration of two school houses on Duke street to combined primaries, and one on Lemon street for the same purpose. Mr. Breneman proposed to amend the amendment, by adding one of the schools on

A vote was then taken on Mr. Jackson' mendment which was carried. Pending the consideration of the balance f Mr. Patterson's resolutions the Board djourned to meet on Tuesday, June 12th. The following Standing Committees were announced by the President for the ensuing

East Orange street. This amendment was

ot agreed to.

June, July and August were also an-

THE ATHENEUM AND LINNEAN ROOMS About 10 years since the Honorable Emanuel C. Reigart donated the sum of \$10,000 towards establishing an Athenœum in this city; several other citizens also contributing, the plan was carried out, and the Historical, Mechanical and Horticultural Societies of this city combined under the name of Athenseum. Originally there were two rooms occupied, one containing the Library and the other used for a reading room; but the Committee of Management finding they could not support the latter, they abandoned it, and it is now used by the Linnaan Society.

The Library contains over 3,000 volumes of History, Biography, Law, Travels, Poetry, Fiction, Natural Science, Horticulture, Agriculture, Commerce, &c.

Any person who can be trusted with ooks, can become a member of the Library by paying one dollar per year, and is alowed to take them to his or her resilence. The room is open every Saturday for giving out and receiving books. The Linuxan Room .- The room occupied

by the Linniean Society of Lancaster city and county is fitted up with casing and shelving, for the preservation and display of objects of natural history. Casing A is devoted to Ornithology, and contains over two hundred specimens, part of that numper being birds of exceeding beauty and variety, yet found as occasional visitors in this locality and latitude. The Mineralogi cal collection is in easing B. and include nearly all the varieties known to this local ity, besides many from other localities, numbering about 1500 specimens. Casing C is filled with about 500 specimens in Palcontology and Fossilology, being the renains of animals and plants now extinct the collection is respectable. Casing D contains numerous specimens of Reptiles and Fish. Cabinet E contains about 12,000 speimens, including 7,500 distinct Colcopterous Insects or Beetles, collected by S. S. Rathvon, Esq., of this city, and place in the Linnean Room on special deposit,-They are arrayed according to the usual desification in one hundred small portable cases, with glass lids. There is also a boxes, made in book form, containing grasshoppers, cockronches, bees, wasps, locusts, ants, &c. This collection was also made by Mr. Rathvon and placed in the room on

econd cabinet, fitted with one hundred special deposit. The specimens in Entomoogy are from North and South America Europe, Africa, Asia, Australia, West Indies and Sandwich Islands, and must have cost Mr. Rathyon a great deal of time and abor to procure and arrange them. This is certainly a very valuable collection.lasing F is the book case and contains about 165 books and pamphlets. Over 250 specimens of the collateral branch of Archeoogy are contained in casing G. Casings H and K are filled with over 1,400 specinens in Conchology, including most of the species known to the county of Lancaster. lasing I contains 100 specimens of choice

Minorals. Casing J is devoted to Turtle and Terrapins. There is also a cabinet of nementoes of Red Men, containing stone points for arrows, &c., and several small abinets of Entomological specimens from China. Several very fine specimens of stuffed birds, the Canada Lynx, &c., are arrayed around the room on the tops of the casings and cabinets. There is also a very fine specimen of Iron Ore from Chestnut Hill, Lancaster county, weighing about 100 lbs. This ore yields eighty per cent. of iron, beng the purest found in the United States. Rev. T. C. Porter, is the President, Jacob stauffer, Esq., the Secretary, and S. S. Rath-

von, Esq., the Treasurer of the Society.— The number of members is increasing, and we may safely say that the Society is in a flourishing condition. Those of our readers who may visit the Linnean room on any Saturday afternoon, will be fully repaid for their trouble. We are indebted to S. S. Rathvon, Esq.,

and his very able Essay on the origin o the Linnmean Society, for the information we have here imparted to our readers.

DEATH OF MISS CATHARINE YEATES. It is our melancholy duty to have to record the departure from this life of one of the most estimable ladies that ever resided in the city, or, we might add, in the State. Miss Catharine Yeates died on Wednesday morning, at the advanced age of 83 years She was born and resided all her lifetime in this city, and was the youngest daughter of the late Honorable Jasper Yeates, Judge of the Supreme Court of Pennsylvania. She was a lady highly accomplished and educated, and of remarkable intelligence, devoting a great portion of her time to literary pursuits. Her conversational powers were excellent and extremely interesting on religious topics, upon which her mind dwelt to a great extent. She was an active and devoted member of the Episconal church from an early age, and a very liberal contributor to every charity

came under her notice, especially to those

connected with the church to which she Miss Yeates was the founder of and sole contributor to the establishing of the Yeates' Institute in this city, designed for the education of young men for the Episcopal Minstry. For this purpose she devoted a very large legacy bequeathed to her by the late E. S. Burd, Esq., of Philadelphia, the amount exceeding \$26,000; besides which for several years previous to the legacy coming into her possession, the widow of Mr. Burd having a life interest therein, Miss Yeates contributed \$800 a year from her own private means for the same purpose No one can estimate the amount of the charities of this christian lady to individuals; she dealt them out unostentatiously and with a willing hand, not letting "he

deem best. Resolved, That the Building Committee are hereby instructed at the end of the present school term, to have the two single primary school buildings on South Duke street, in the South East Ward, and one of the buildings on Lemon street, in the North East Ward, altered, and made suitable for combined schools, and, if possible, have; the same completed on the opening of the next school term.

Resolved, That the Board concur in the same completed on the opening of the next recommendation of the Committee, viz:

Resolved, That the Board concur in the recommendation of the Committee, viz:

That when in the future more room for pure schools in words and transfers more uniform, and complete, to proceed gradually to change all the remaining single primary schools into combined schools.

Resolved, That the election of a Principal

Resolved, That the election of a Principal

THE EVANGELICAL LUTHERAN CHURCH. -Yesterday, Sunday, the 10th of June, 1886, he Centennial Anniversary of the Evangelical Lutheran Church of the Holy Trinity was celebrated. At an early hour the peo ple began to flock to attend the festival and hear the annual synodical sermon of the President of the Synod of Pennsylvania and djacent States. The church was beautifully decorated with evergreens and flowers. Over the pulpits, suspended in mid-air by wires, that were imperceptible to the con gregation was the following, in letters and figures of cardboard, covered with evergreen: "1766 Evangelical Lutheran Church of the Holy Trinity 1886." On the right and left of the pulpit were placed the names of all the pastors of the church from the building of the same to the present incum-

ent, viz: Stoever, Kurtz, Handschuk Gerock, Helmuth, Muhlenberg, Enbrass Baker, Krotel, Conrad and Laird. The pul pit and platform were decorated with splen did bouquets, a small cross surrounded by evergreehs being attached to the front of the pulpit cushion. The Communion Table. Saptismal Font, Reading Desk and Altar ailings were also decorated with bouquets and evergreens. Around the walls, windows, pillars, and front of the gallery were wreaths of evergreens, also designs of crosses and the number 100 in ovals, the organ also being decorated in a similar way. In each window was a very pretty bouque of flowers. We have never seen an edific dorned more prettily and with better taste and judgment, and must say that too nuch credit cannot be accorded to the ladies who carried out the beautiful designs of Mr. Robert Elcholtz. At 10.30 A. M., the procession formed

the Lecture Room and entered the church in the following order, viz: The officiating clergymen, the Church Council, Trustees, Wardens, &c., the ministers of Synod in the order of their age in office, the Lay lelegates. The house was crowded to overflowing. The solemn and interesting services were opened with singing the Hymn, "Come, Holy Spirit, God and Lord." &c. The Rev. S. Laird, Pastor Loci, conducted the first part of the Liturgical services, followed by Rev. A. T. Geissonhainer, Treasurer of the Synod, who read the Epistle, 1 John, 3 chap., and the gospel for the day Luke 14, chapter commending at the 16th verse. After the congregation had united in the repetition of the Apostle's creed, the Rev. J. Kobler, English Secretary of the Synod, offered up prayer, Then followed the singing of the 2d Hymn, "All praise and thanks to God most high, &c. After which the Rev. C. W. Schaeffer D. D., President of the Synod, arose and announced his text for the annual Synodical sermon. Luke 14th chapter 6th to 23d verses, being the parable of the great supper. verses, being the parable of the great supper.

He commenced by saying, we have here assembled this morning under circumstances of peculiar and unusual interest and importance. The "Synod of Pennsylvania" has once again come to this city, so given to Christian hospitality and kindness. We are here to commemorate a most interesting event. One hundred years have musual when guarder procession antered passed, when another procession entered this house to consecrate it to the service of the Triune God.—That was an occasion of unusual interest. We read in the 10th chapter of John's Gospel, that Jesus was present at the Temple, and attended at the feast of its dedication. Jesus is still the same. Jesus Christ is here; he has been for one hundred years and preserved nere for one hundred years and preserve this venerable house amidst all the trials calamities and storms of the world. re the same walls, only somewhat enlarged nd beautified. No uncertain sound has gone from this and the old pulpit, as the aged l'athers can testify. Yes, Josus Christ is hore, and on this glorious l'estival let us say—the Lord Jesus Christ is hero.

"Far from my thoughts, vain world, be gone, Let my religious hours alone: Fain would my eyes my Saviour see; I wait a visit, Lord, from thee."

Those who believe in the Lord Jesus Christ—can say—"It is good for us to be here," for we are in the presence of Christ. The mercy of the Lord as seen in the text, is abundant and precious. For, when a man the bundant who is the control of the christ terms of the christ terms. s hungry, what is more pleasing than bread? And when a man is athirst, what bread? And when a man is athrst, what more desirable and acceptable than water? And Christ says—"I am the bread of life: he that cometh to me shall never; hunger; and he that believeth on me shall never thirst." I am the living bread which came down from heaven: If any man eat of this bread, he shall live forever.

A supper where the supply is abundant.

bread, he shall live forever.

A supper where the supply is abundant, is called a Great Supper. Many guests were invited to the "Great Supper" spoken of in the text, and the invitation went for the "Come, for all things are now ready." Coldness and indifference were manifested by some, but the Lord invited other guests, for the house was to be full. I twas a "Great for the house was to be full. It was a "Great

Supper."
A "Great Supper." This shall be our A. "Great Supper." This shall be our theme this morning; this corresponds with the Giver of this Supper, for God is Great, Mighty and Omnipotent. God only is great. His greatness is seen first in the forgiveness of all sin—it is a complete forgiveness. 2nd. God's greatness is seen in the completeness of our salvation. 3rd. God's greatness is seen in its work of sanctification—for by it many are made "to shine as the brightness of the firmanent, and as the stars, for ever and ever" and ever

and ever"
Passing by these elements of greatness he will consider other facts of importance and interest on this holy occasion. For a hundred years the Gospel has been furnished in this house. It is a "Great Suppor," for the gospel was preached not only for ten years or twenty years, but one hundred years. It is a "Great Supper," because it includes all the centuries of the pass and the future. This subject is a fupast and the future. This subject is a fa-miliar sound to all ministers present; like antillar household words. An entertainment for one month, for one city, for one community, would attract most marked attention. But this foast is

most marked attention. But this feast is for all mankind. Christ not only calls it a supper, but a "Great Supper," We are told, "they began to make excuse," The Lord employs men to preach the gospel, and God has shown his goodness in that he continued pastors for one hundred years in this church. And there are many saints the believed on the form on high continued pastors for one numered years in this church. And there are many saints here and in the kingdom of glory on high, who may testify to the purity of the gospel proclaimed here from time to time.

Let us as a Synod thank God that, through the glorious influence of that gospel, many ministers have been raised up in this Synod and in the church, as living instruments to lead men among green pastures and to the living waters of life. Although a minister's joy is sometimes dampened by such experiences like these in the text—that they, like Christ, are compelled "to weep over Jerusalem" yet, they are encouraged to know that if they preach the word of the Lord Jesus Christ faithfully, and set it forth in its purity and simplicity, and apply it to all the poor and needy, the Lord will compel men through the constraining influences of Christ, to come to this great feast of the gospel. There are many in this church who must exclaim "the love of Christ has compelled me," constrained me to come.

compelled me," constrained me to come. What a work to present Jesus and his re-

what a work to present of success consurrection! The great secret of success consists in proclaiming the word of God in its purity, simplicity and faithfulness. Let us unite with this congregation in thanks to God that its flock has always been fed with true and living food.

In conclusion, our most sincere prayer is that peace may ever be within these walls, and prosperity within these palaces. That the word of life may go on conquering and to conquer, that these walls may continue in another century to bear witness to the testimony of the truth of God, that the noble chime of bells—the neighbor to thunder—continue to send forth its inviting peals, and the spires point to Heaven another century.

After prayer, the Lord's Supper was cel-

After prayer, the Lord's Supper was celebrated by the Synod. The morning services closed by singing the well-known hymn of Dr. Martin Luther, "A safe stronghold our God is still," &c, and benediction.

At 21 o'clock, P. M., the Sunday Schools of the different departments connected with the church, numbering between 400 and 500 scholars, assembled in the church which was a most pleasing sight. After opening with singing, repeating the Ten Commandments, the Apostle's Creed, and very appropriate and affecting prayer eing offered by Rev. G. F. Krotel, D. D., the vast assemblage present was addressed by Rev. Prof. F. A. Muhlenberg, of Pennsylvania College, Gettysburg; Rev. J. B. Rath, of Bethlehem, and Rev. W. A. Passa vant, of Pittsburg. The addresses were all of the most interesting and appropriate nature, and no doubt those present went away from so interesting a scene with feel-

ings of joy and gladness. The church, at their evening service, when the congregation celebrated their centenary anniversary, was filled to overflowing, and

consider the years of many generations, ask thy father, and he will show thee, and

To attempt to give even only a synopsis of the Doctor's most admirable, eloquents appropriate and soul stirring effort, would indeed seem in vain: for it surpassed any, and we suppose, we may safely say, every thing of the kind ever before attempted in this city. It decidedly crowned all of the Doctor's most happy pulpit efforts. We might simply mention the Doctor's three general divisions of his discoure: 1st-Hold fast the Faith of the Church.

2d-Hold fast the Life of the Church. 3d-Hold fast the True Unity of the Church. In listening to the Dr. in defending these vital topics of the Church of Jesus Christ t made one feel as though the great and Mighty Champions of the Reformation had

and with might. The services were closed by singing Hymn 967, during which time a collection for Beneficiary Education was taken up as a Thanks Offerering to Almighty God, for is goodness during the past century. Benediction by Rev. J. A. Siess, D. D.

THE CENTENARY OF METHODISM IN

again returned to speak unto us with pow-

AMERICA.—The centenary of American Methodism was commemorated in the Methodist Churches of this city on Sunday morning and evening. In the First M. E. Church, North Duke street, in the morning the preliminary services were conducted by Rev. J. F. Crouch, of St. Paul's Church. They consisted of the singing of the 237th and 590th hymns, prayer, and reading of he 48th Psalm and 20th chapter of Acts.-The sermon was preached by Rev. Joseph Castle, D. D., Presiding Elder of this District. It was prepared and delivered at the last session of the Philadelphia Annual Conference, and was re-delivered on this occasion by special request of the Methodists of this city. The words of the text are in the 6th chapter of Deuteronomy, 6th and part of 7th verses: "And these words, which I command thee this day, shall be in thy heart .-And thou shalt teach them diligently unto thy children." The speaker opened with a fitting and beautiful allusion to the occusior of this commemoration, the Centenary of Methodism in America. He instituted a comparison between Moses, the leader of the Children of Israel, and John Wesley, the father and founder of Methodism. The circumstances of Moses having been taken from the bulrushes and Wesley from a burning building at Hepworth, England, were dwelt upon as the direct intervention of God himself. Both had an important mission to fulfil and both were saved from an early death in a miraculous manner. The sermon in the morning was devoted to a history of Methodism in England, and it proved of rare interest to the large congregation present. The services closed with the singing of the doxology by the choir, and the benediction was pronounced by the pastor, Rev. C. I. Thompson. Our columns are so much crowded that we are necessarily compelled bo thus brief in our notice of the morning's sermon.

dism in America was preached in St. Paul's M. E. Church, South Queen street. The preliminary services were conducted by Roy, C. I. Thompson, of the First Church The trials and difficulties of the founders and pioneers of Methodism in this country, Asbury, Embury, Heck, Strawbridge, Capt. Webb and others, were shown to be those which would have crushed ordinary men, or those not specially set apart for the work by their Divine Master. A number of interesting reminiscences concerning the early history of the denomination were given .-We have room to note but a few. The principal founder of American Methodism was Capt. Webb, an officer of the British The Macedonian cry, "Come over army. and help us," caused Mr. Wesley to send to America a number of young ministers, among others Mr. Robert Williams, who was the first man to put the printing press in service to help the cause of Methodism. On the 22d of October, 1769, the first sermon by an itinerant Methodist preacher was delivered by Mr. Boardman. July 14th, 1773, the first Methodist Conference was neld in St. George's Church, Philadelphia. On the occupation of Philadelphia by the British in 1777 this church was used as a riding school by the officers of the British On the occasion of the first General Conference Freeborn Garrison was sent on a horseback ride of 1200 miles through the wilderness to summon the preachers to attend. The ordination and installation of Francis Asbury, as the first Methodist Bishop, took place at Baltimore. The historical part of the sermon, or rather sermons, was exceedingly interesting, and the good that Methodism has done was put forth in the clearest manner and to the evident satisfaction of both congregations.-The peroration as to what Methodism shall and ought to be was very eloquent. The sermon throughout was characterized by that great ability, pure diction, foreible and

In the evening the second part of the dis

o eminent in all Dr. Castle's discourses.-The sermon is to be published in pamphlet form, and doubtless it will be eagerly sought after and read by Methodists overywhere. MR. ADAM TROUT, one of our most popular hotel keepers has again taken his old stand, the Western Hotel West Orange street. This will be good news to his many riends. Adam's reputation as a prince of andlords was long since established, and the mere mention of his getting into his old ousiness once more will be sufficient to prowd the Western with its old habitues.-We wish all possible success to the West-

chaste language, and free and easy delivery

LANCASTER HORSE MARKET, MONDAY, JUNE 11TH, 1866.—The Horse Market has been somewhat dull during the past week. The arrivals and sales have been few, and

are as follows: Trout's.-There were 32 head on hand at last report. The arrivals here were 29 head of very fine, young horses. The sales were 13 head to farmers in this county, leaving 48 head in the stables.

coneau in the stables.

Copeland & Cline's.—There were 18 head on hand at last report. The arrivals were 42 head, bought up in the county. The sales and shipments to Eastern buyers amount to 42 head, leaving 18 head in the stables.

of Beauty is a Joy Forever," sang the poet but when beauty and utility are combined the pleasure is certainly enhanced to the the pleasure is certainly enhanced to the highest degree. As lovers of the useful and ornamental we desire to refer to an article needed by, but not possessed by every regulated 'family, a perfect Cooking Stove, and to express our decided partiality for the "Barley Sheaf," a recent introduction of Messra. Staurt, Peterson & Co., the well known Stove founders of Philadelphia.

In all respects, this Stove is a model of artistic excellence—a Culinary Gem and is artistic excellence—a Culinary Gem and is receiving the enconium of admiring thousands. Its beauties are so apparent—so practical, that we do not wonder at its rapidly increasing popularity.

As WILL be seen by the advertisement in our paper to-day, all the properties of The Virgin Gold Mining Company are in this district, and that "orignal interests" in this Company may now be had at \$100 each. They are offered at this price, not only to afford the man of moderate means a really at the emitalist an opportunity to only to attord the man of moderate means as well as the capitalist an opportunity to secure an interest in this region of inexhaustible wealth, but, also, in order to get the list filled at once and to prevent any delay in the organization of the Company. Those who have not as yet sent in their subscriptions should at once do so.

RELIGIOUS.-The Rev. Dr. Falk, of Lan RELIGIOUS.—The Rev. Dr. Falk, of Lancaster, Pa., delivered a very able, eloquent and impressive sermon at St. Stephen's Episcopal church last evening. Dr. Falk is connectedlywith the Franklin and Marshall College, of Lancaster.—Harrisburg THE MONTE CHRISTO GOLD AND SILVER

MINING COMPANY.—The stock of this com-pany is selling rapidly. Every arrival of news from the mines confirms its value,

MEETING OF THE LUTHERAN SYNOD .-The Synod of Pennsylvania and adjacent States commenced its regular sessions yesterday morning at 8,0'clock. After the usual opening exercises and election of officers was held. The Rev. G. F. Krotel was chosen president of the Synod by an almost unan

nous vote. The other officers were continued. Bishop Bigler, of the Moravian Church was introduced to the Synod and invited to

take a seat. The Synod adjourned until 3 o'clock P. M., the officers in the meantime made out a list of the several Committees. Afternoon Session.-Upon the re-assembling of the Synod, the president announced the

following Committees: on President's Report.—Dr. C. P. Krauth,
A. Seiss, Revernds J. T. Vogelbach, B.
d. Schumacker, H. S. Miller, J. J. Kendig,
d. K. Brobst, and Messrs, H. Lehman, C.
Norton and John G. Gassel. On Minutes of Last Synod—Revs. B. F. Apple, J. B. Roth and P. L. Pfatticher.

On Minutes of other Synods-Revs. H. Windt, F. Waltz, J. R. Focht, L. Grob, G. Windt, F. Waltz, J. R. Focht, L. Groh, G. J. Martz, G. F. W. Gurnish, A. D. Croll and G. F. Struntz.

On President's Account—Revs. G. A. Reichert, F. W. Geissenhainer and E. Prixots.

On Treasurer's Account—Revs. G. A. Gardner, F. J. Shantz and A. W. Potteiger. On Excused—Revs. W. S. Emery, P. M. Rightmyer, W. Weaver, J. P. Boyer, D. Kuntz, and Messrs. David Voght and Henry Nothstein.

Eggers, C. Ouffinger, Jacob Kemper, Frederick Gurnth and D. Trexler.

Evening.—The Boneficiary Education So-

Evening.—The Beneficiary Education Society celebrated its annual anniversary, and the Rev. J. Fry of Reading, preached an appropriate discourse from 2 Kings, 5 chap. 22 verse. Similar services were held at Zion's Church in German, where the Rev. H. Wendt preached. Collections were

taken up at both places.

A large number of clergymen of other Synods and other churches were present, who appeared to take great interest in the proceedings. THE LANCASTER STEAM BOILER WORKS

-We this morning visited the Lancaster Steam Boiler Works on East Chestnu street, opposite the Pennsylvania Railroad Depot, owned by our enterprising citizen Mr. John Best. The premises are very compact, but we find there all the ma chinery requisite for the manufacture of large boilers. There are shears with which one man can cut #th iron, rollers 10 inche in diameter and 7 feet long, for bending and forming the plates. Two large stationery press punches for plercing the plates, and four smaller portable punches used when repairs are done out of the shop. An ap paratus for drilling flue holes for tubula pollers. The smith and flanging shops ar fitted up with all that is required in tha department of boiler making. The engine course on the rise and progress of Metho-

room is also used as a store room and is ad acent to the office. Whilst there, they were loading on truck or wagon, a new patent boiler of 30 horse power, weighing 75 cwt., 17 feet long and 4 feet 2 inches in diameter, with 22 fou and a half inch flues. It has been manufactured for Mussrs, Shalzer & Brush, o Columbia, and will be placed in their Sav Mill. It is estimated that this boiler wil consume one-third less fuel than any other kind in use. The peculiarity of construction, for which Mr. Best claims so much merit, is the gas chamber which is heated from the fire without the loss of heat, the same fire burning the gas that generate the steam. The fire is placed under t boiler and heats fully one half of its exteri surface below, and passes through one po-tion of the flues to the gas burner, and re turns back through the other flues into the stack. This kind of boller has already proved a success, although Mr. Best thinks he may yet possibly improve upon it.

KAUFMAN & CO. jan 15 A NEW AND GRAND EPOCH IN MEDICINE

A NEW AND GRAND EPOCH IN MEDICINE?

Dr. Maggiel is the founder of a new Medical System:
The quantitarians, whose vast internal doses enfeeble
the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite
with from one to two of his extraordinary Pills, and
cures the most virulent sores with a box or so of his
wonderful and all-healing Salve. These two great
specifics of the Doctor are fast superseding all the
stereotyped nostrums of the day. Extraordinary cures
by Maggiel's Pills and Salve have opened the eyes of
the public to the inefficiency of the 'so called) remedie
of others, and upon which people have so long blindly
depended. Maggiel's Pills are not of the class that
are awallowed by the dozen, and of which every boxful taken creates an absolute necessity for another,
one or two of Maggiel's Pills suffices to place the
bowels in perfect order, tone the stomach, create an bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are ilterally extinguished by the disinfectant power of Maggle's Salve. In fact, it is here announced that Maggle's Billous, Dyspeptic and Diarrhea Pills cure where all others fall, While for Burns, Scalds, Chilbiains, Cuts and all abrasions of the skin Maggle's Salve is infallible. Sold by J. Magglel, 43 Fulton Street, New York, and all Druggists, at 25 cts. per box.
