THEODORE CUYLER, ESQ."

Americans are proverbial for the avidity and commendable zeal with which they participate in enterprises having for their object the development of our national resources; At one time "Railroads"—at another "Coal"—then "Railroads"—at another scending to their investments.

In all these saveral exterprises, as will be recollected, those who first took hold of them made money; some larger amounts than others according to their investments.

Mining operations in the fields of Colorado and elsowhere now mainly engross the public attention. Considering that several such companies have been already organized—that they need not not another according to their investments.

Mining operations in the fields of Colorado numerous "bars of silver" and "bricks of gold," it is believed that the onthusiasmalready manifested on the subject will, in a littletime, be so greatly inneased on the receipt and exhibit of these "returns," that innumerable companies will spring up, whose seek, being based at the then greatly inflated rices of ledges, will necessarily be foss desirable than that now to be had—theredly giving to those who avail themselves of the occasion now presented, of securing "original interests," an opportunity of the disposing of the large amount of stock each holder receives, at a handsome advance.

With those preliminary remarks the following Paospacytus is respectfully presented.

The property of the Company proposed to be organized by the saile of these "original interests," consists of the following Ledges, all situated within a radius of five miles of Contral City, Colorado. THEMENSE SACRIFICE!!! GREAT SALES OF JEWELRY!!! GREAT SALES OF JEWELRY!!!

As all are aware, the usual plan adopted for the development of such a property is to form a company and issue certificates of stock. The plan here proposed may be considered prelimi-nary to the formation of two or more Companies on these properties, which are subject to no royalty, leases or mortgages.

The Subscribers can then upon this solid and substantial basis, elect officers from among themselves, each subscriber being eligible to the nostion of an officer of the Campair. The Subscribers can then upon this solid and substantial basis, elect officers from among themselves, each subscriber being eligible to the position of an officer of the Company.

In order that handsome returns may be specify realized, these subscriptions are based upon the proposition that the subscribers immediately on receipt of the Deeds (now ready for delivery, and which may be examined at the office of the undersigned before subscribing,) may lease their lands on heavy royalties, or at once organize Companies in the usual way for which there is an ample basis.

To accommodate those of moderate means, hese "interests" are put at \$100 cach, in order to get the list filled at once, and to prevent any delay in the organization of the Company.

Considering the numerous valuable "Ledges" which constitute the basis of this enterprise—the fair and equitable features—the low prices at which "interests" in it are offered, and that each interest entitles the holder to his pro rata share of stock in all the Companies that may be organized upon them—also recollecting that in all, there are only 1,000 interests to be sold, and it would only require one hundred gentlemen each to take (ga 11,000) to absorb the whole, it is presumed that it is hardly necessary to suggest to those desiring to secure one or more of these original interests, to at once send in their subscriptions.

From Rev. W. D. Seigring, Pastor of Awening Baptist Church, Pilitadelphia,
Gentlemen:—I have recently been laboring pader the distressing effects of indigestion, accompanied by a prostration of the norvous system. Numerous remedies were recommended by friends, and some of them tested, but without relief. Your Hoofiand's German Bitters were recommended by persons who had tried them, and whose favorable mention of these Bitters induced me to try them. I must confess that I ned an aversion to Patent Medicines from the "thousand and one" quack "Bitters," whose only aim seems to be to pain off sweetened and drugged liquor upon the community in a sly way, and the tendency of which, I fear, is to make many a confirmed decembers them learning that yours was munity in a siy way, and which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a modelnal preparation I took it with happy effect. Its action, not only upon the stomach, but upon the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles.

Very respectfully yours,

From the Rev. E. D. Fendali, Assistant Editor Christian Chronicle, Philadelphia.

I have derived decided benefit from the use of Hooland's German Bitters, and isel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver.

Your Struly,
E. D. FENDALL.

From Rev. D. Merrige, Pastor of the Passyunk Buptist Church, Philadelphia. From the many respectable recommenda-tions given to Dr. Hoofland's German Bitters. I was induced to give them a trial. After using several bottles I found them to bb a good remedy for debillty, and a most excellent tonic for the stomach.

Having used in my family a number of bottles of your Hooliand's German Bitters, I have to say that I regard them as an excellent medicine, specially adapted to remove the discussion and invigorate the system when deblittated and are useful in disorders of the liver, loss of appointer &c. I have also recommended them to several of my friends, who have tried them and found them greatly bonefield in the restoration of health.

that they have operated in a strikingly beneficial manner. I take great pleasure in thus

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, Lyet know of no sufficiell reasons why a man may not tostify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend, Robert Shoemaker, Eaq., for the removal, of this prejudice by propor tests and for encouragement to try them when stiffering from great and long continued debility. The use of three bottles of these Bitters at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and mental vigor which I had not felt for six monts before, and had almost despaired of regaining. I therefore thank God and my friend directing me to the use of them.

Dear Sir: I feel it due to your excellent preparation, Hoofland's German Bitters, to add my testimony to the deserved reputation it has obtained. I have for years, at times, been troubled with great disorder in my head and nervous system. I was advised by a friend to try a bottle of your German Bitters, I did so, and have experienced great and unexpected relief; my health has been very materially benefitted, I confidently recommend the article where I meet with eases similar to my own, and have been assured by many of their good effects. one or two exceptions, may all be traced to impurity of the blood. In many persons this impurity is born in the system; while others acquire it through improper treatment of scores of diseaces. Under this head may be classed—

lat, Scrofula,—This disease is hereditary and is trunsmitted from generation to generation. It is caused by a transgression of the laws of nature, both moral and physical; in other words, it is caused by vice. Acting as a latent poison, it reduces the vitality of the blood, and weakens the depurating organs, so that they fall to discharge or cast out the impurities that are continually generating in the system. A person physically pure acquires genorhous, or some other secret disease; he undergoes a course of mercury, the disease is dried up, and the patient pronounced well. Vain delusion. The complaint is not cured, its channel is only diverted. Instead of making its appearance outwardly, it sets on the internal organs, and scrofula, which is bequeathed from father to son, is the result. Many persons who are perfectly free from all immorality and vice are affilieded with scrofula. They are suffering for the sins of their fathers and laboring under the curse inscribed in the 80 k of Books. "I will visit the iniquities of the fathers upon their children."

To cure this dreadful complaint it is necessary that the blood should be thoroughly purified, all the organs of the body brought into a healthy state of saction, and the system braced up and strengthened by invigorating tonics,—Look at the articles used in compounding Mishler's Bitters; see the array of purifying and invigorating mendicaments, and say whother there is an article in the whole list of medicines that equals it. We here emphatically sawor, without fear of contradiction, that MISHLERY BITTERES WILL CUIRE ALL KINDS OF SCROFULOUS DISEASES.
