A Defence of the Crow. The crow in many parts of the world is considered a marauder of the farm, and the gun is perseveringly used for his extermination. The most able writers on ornithology, and others who studied his habits, agree that instead of being a robber and a pest to the farmer, he is one of his most faithful friends, and greatest benefactors. He consume: in the course of the year vast quantities of grubs, worms and noxious vermin he is a valuable scavenger, and clears the land of offensive masses of decaying animal substance; he hunts the grass field, and pulls out and devours the underground caterpillars, wherever he perceives the sign of their operations as evinced by the wilted stalks; he des troys mice, young rats, lizards and snakes, lastly he is a volunteer sentinel about the farm, and drives the hawk from its inclosures, thus preventing greater mischief than that of which he is himself 'guilty. It is chiefly during seed time and harvest that the depredations of the crow are committed, during the remainder of the year we witness only his services, and so highly are those services appreciated by those who have written of birds, that we cannot name an ornithologist who doesnot

plead in his behalf.—Spirit of the Times In the historical collection of Dresder is an object of great interest-a perfect revolving pistol, more than two hun dred years old; no antiquated, halfmade, rough, rudimentary affair, but as thoroughly finished a pistol as were the Toledo and Damascus blades of older date. It is of the same size as a Colt's revolver, and not only were the revolving barrels of precisely the same structure, size and shape, but they were six in number. The only point of inferiority was, that in this there is no spring to bring up the next barrel when one is fired. It must be done with the hand. Col. Colt was shown this pistol when in Europe, shortly before his death. His face was very expressive when he saw his own invention applied more than two centuries since. Of course the lock was flint, and yet, being a revolving lock, it was packed away in a very small space, and the whole aspect of the pistol was as neat and attractive as any modern ievolver. There is also another firearn still more interesting. It is a Wintworth gun, perfect in every respect, excepting that the bore is square instead of six-sided. Truly there is nothing new under the sun I

SEND FOR A CHRGULAR.

SEND FOR A CIRCULAR.

The ingredients used in compounding Mishler's Herb Bitters are not kept secret by the Proprietor. Send for a Circular and you will learn the medical properties of all the articles used in its preparation; also in the maner in which they operate on the system, and much other valuable information. If you are safficted with disease send for one of Mishler's Herb Bitters Circulars; read it carefully, profit by the hints it contains, and you will be placed on the sure road of recovery.

MISHLER'S BITTERS WILL CURE ALL DISEASES OF THE SKIN!

Diseases of the skin are numerous and, with out one or two exceptions, may all be traced to mpurity of the blood. In many persons thi impurity is born in the system; while other scores of diseases. Under this head may be classed—
lst, Scroula,—This disease is hereditary and is transmitted from generation to generation. It is caused by a transgression of the laws of nature, both moral and physical; in other words, it is caused by vice. Acting as a latent poison, it reduces the vitality of the blood, and weakens the depurating organs, so that hey fail to discharge or cast out the impurities that are continually generating in the system. A person physically pure acquires gonorhous, or some other secret disease; he undergoes a course of mercury, the disease is dried up, and the patient pronounced well. Vain delusion. The complaint is not cured, its channel is only diverted. Instead of making its appearance outwardly, it acts on the internal organs, and scrottila, which is bequeathed from father to son, is the result. Many persons who are perfectly free from all immorality and vice are afficted with scrottila. They are suffering for the sins of their fathers and laboring under the curse inscribed in the Book of Books. "I will visit the injudities of the fathers upon their children."

To cure this dreadful complaint it is neces-

meter with scrottin. They are suffering for the sins of their fathers and laboring under the curse in-cribed in the Book of Books. "I will visit the infiquities of the fathers upon their children."

To cure this dreadful complaint it is necessary that the blood should be thoroughly purified, all the organs of the body brought into a healthy state of action, and the system braced up and strengthened by invigorating tonics.—Look at the articles used in compounding Mishler's litters; see the array of purifying and invigorating mendicaments, and say whether there is an article in the whole list of medicines that equals it. We here emphatically assert, without fear of contradiction, that MISHLER'S BITTLES WILL CURE ALL KINDS OF SCROFULOUS DISEABES. It purifies the blood, it strengthens the internal organs and aids them to perform their natural functions, it is a stimulant and a tonic and it will cure Scrolla.

2d., Running Sores and Ulcers—Running sores and ulcers invariably indicate a scrofulous taint. They are caused by the efforts of nature to discharge the impurities of the blood, Many persons afflicted with running sores and uncers succeeded in drying them up and think they are cured when the skin grows over the sore. They are, nowever, "but making bad worse," for the impurities that were discharged from the system through the medium of the sore now act internally and cause innumerable diseases and often death. The only true and sure cure for all running sores and ulcers is Mishler's Bitters, a continued and persevering use of which will most certainly effect a permanent care.

3d. Sait Rheum—Sait Rheum is a vague, indefinite, though, popular term given to almost all the non-febrile eruptions of the skin which afflict adults. It is generally an eruption of vestices in small, distinct ulcers, accompanies with a smarting, thighing sensation, with a tendency to creep or spread over the adioning surface. Mishler's Bitters are a surc cure for this disease.

4th. Pinpies and Blotches.—P. Des and Blotches on the skin

through the medium of the skin. The use of Mishler's Bitters, will force these corruptions to be discharged through the natural channels, and thus cures all kinds of pimplesand blotches. Ladles who desire a fair completion, free from pimples should bear this fact in mind.

DR. MAGGIEL'S PILLS AND SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and reinvigorates the lailing system. To the aged will prove to be

will prove to be

A VERY FOUNTAIN OF YOUTH,
for in every case they add new life and vitality
and restore the waning energies to their pristine state. To the young and middle-aged,
they will prove most invaluable, as a ready,
specific, and sterling medicine. Here is a
dream realized, that Fonce-de-Leon sought for
three hundred years ago, and never found. He
looked for a fountain that would restore the
old to vigor and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.

THESE FAMOUS REMEDIES

cannot stay the flight of years, but they can force back, and hold sloot, disease that night triumph over the aged and the young, Let none hesitate then, but selze the favorable opportunity that offers. When taken as prescribed—

FOR BILIOUS DISORDERS FOR BILLIOUS DISORDERS
nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest VICTOPA BUT COMPAUNITY.

I take great pleasure in that publicly proclaiming this fact, and calling the attention of those afflicted with the diseases for which they are recommended, to these Bittors, knowing from experience that my recommendation will be sublained. I do this more cheerful as Hoofland's Bitters is intended to benefit the afflicted, and is "not a rum drink."

AND A DEPARTMENT OF THE PARTMENT OF THE PARTME From Rev. J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge and Carlstian Chronicle, Philadelphic.
Although not disposed to favor or recommend Patent Medicinos in general, through distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the binoffs he believes himself to have received from any simple preparation, in the hope that he may thus c atribute to the benefit of others.

I do this the more readily in regard to Hoofland's German littlers, propared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend, Robert Shoemaker, Esq., for the removal of this prejudice by proper tests and for encouragement to try them when suffering from great and long continued debility. The use of three bottles of these Bitters at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend directing me to the use of them.
