Mishler's Bitters, a continued and persevering use of which will most certainly effect a per-manent cure. 3d, Sait Rheum.-Sait Rheum is a vague, in-definite, though, popular term given to al-most all the non-febrile eruptions of the skin which afflict adults. It is generally an erup-tion of vesicles in small, distinct uleers, ac-companied with a smarting, tingling sensation, with a tendency to creep or spread over the ad-toining surface. Mishler's Bitters are a sure care for this discuse. - ith. Fimples and Biotches.-Pimples and Biotches on the skin are always a sure sign of impure blood. A though never dangerous, ex-cept in easy of carbuncies, they are very dis-agreeeote. Often we will see the most hand-some features rendered hideous by great blotches and pimples, and histend of the piens-ing look which should irradiate the duman face we see nothing but disgust in corruption ; for pimples and blotches are notaing but the cor-rupt accumulations of the system expelled through the incidum of the system is for the form pimples should bear this fact in minot. apr 23
