Bocal Intelligence.

THE CENTENARY OF METHODISM.—The Episcopal Methodists throughout the United States will celebrate their first centenary anniversary during the month of October in the present year—the first society of five rs having been organized in the City of New York by Philip Embury, an Irishman, in the year 1766. Mr. E. was the first class leader and local preacher of Washington on Thursday to see after the Methodism on the American continent. This small society of humble and obscure individuals was the seed or germ from which has grown the immense religious Episcopal Church of the United States; a Church which has now, more or less, under three story brick one, with a fine lot, situits influence about seven millions of the germinant mind of this new and teeming emisphere, and which is destined, if nothing interrupts its progress, long before Mr. Witwer intends to keep the house, and another century shall pass around, to overtop all the other Protestant denominations of the country, especially if we take into tions which sprung from its bosom and still hold to the denominational name of Methodist.

In its gigantic efforts to "spread gospel holiness throughout the land," the Methodist Episcopal Church has always appreciated the importance of a well educated ministry. It began its march, to use the language of one of its ablest historians. from the gates of a University. Its great founder, Wesley, labored incessantly, by his pen, for the elevation of the popular mind, and American Methodism has always been true to the example set by this eminent christian scholar. Its "Book Concern," in New York, is now the largest religious publishing house in the world, and has a capital of \$837,000. Its periodicals are a mighty agency, including one Quarterly Review four monthlies one semi-monthly and eight weeklies, with an aggregate cir cula ion of over one million of copies per month. Its sales in the valley of the Mississippi alone, in the quadrennial period ending with January 31, 1864, amounted to thout \$1,200,000.

The Sunday School enterprise owes its origin to the suggestion of a Methodist young lady made to Robert Raikes, in England, in 1781, and the Sunday School Unior is one of the institutions of American Methodism which wields an immense power for good all over the United States, The Methodist Episcopal Church is em phatically a great missionary enterprise. The annual receipts of the Missionary So ziety now amount to over half a million of dollars. In addition to the domestic work of the organization, which embraces the entire northern part of the Continent of America, the Church has, at the present time, pros perous missions in China, India, Africa, Bulgaria, Germany, Switzerland, Den mark, Norway, Sweden, and South Ameriea, and has become the great pioneer in the glorious work of evangelizing the world. Such, then, is Methodism in North America, historically but briefly reviewed. Embury's little congregation of five persons, in his own house, has multiplied to thousands of Societies, from the northernmost settle ments of Canada to the Rio Grande, and from Nova Scotia to the shores of the Pacific, The first Conference, held in 1773, reported 10 preachers and 1,160 members. The Church now numbers 60 Conferences 6.821 itinerant and 8.205 local preachers and nearly 1,000,000 of communicants—and this is exclusive of the Southern, Canadian, the Methodist Protestant, and other minor branches, all the offspring of the parent stem founded a century ago.

It has property in churches and parson ares valued at \$27,000,000. It has 25 colleges and theological schools, with property amounting to over \$3,000,000. It also supports 77 academies of learning, and give struction to over 23,000 students. The Methodist Episcopal Church South reports about 700,000 members and 3,100 cachers, itinerant and local. It has 12 colleges and 77 academies, and educates

According to these figures the two great Episcopal divisions of the denomination members; 9,421 travelling and 13,205 local preachers, with 191 colleges and academies and over 31,000 students. The other Methodist bodies in the United States number nearly or quite 300,000 members and 3,500 preachers-thus making a grand total of 2,000,000 members and over 10,000 traveling preachers.

The influence of this vast ecclesiastical force on the moral, intellectual and social progress of this Continent is incalculable Methodism is progressive and aggressive To adopt the language of a celebrated Di vine, belonging to another Church, it is "Christianity in earnest." It stands now on the treshhold of its second century mightier than ever, in all the elements and resources requisite for a still greater history, Such is the Methodist Episcopal Church in the United States, whose centenary is be ing celebrated all over the land. The services in the First M. E. Church, of this city, will be held on Thursday evening, the 25th inst., when an address suitable to the interesting occasion of this family gathering will be delivered by Bishop Simpson, of Philadelphia, one of the ablest and most eloquent of modern Divines. The Church will be handsomely decorated with evergreens, &c. The public are cordially invited to be present. Tickets of admission can be procured of the Pastor, Rev. C. I. Thompson, P.

A San Stony .- The death of Mr. Charles Fox, a man who was almost an entire stranger to most of the citizens of Lancaster, took place, at the hospital, on Monday morning last.

The record of this human life is one which is of touching sadness. At the beginning of last winter he came to this city as an applicant for the position of principal in the Male High Schoot, a post which was advertised as being vacant. That he was a fin scholar there was no doubt. He failed, how ever, to secure the situation, and continued to board at Sprecher's Hotel for some time. All his means being exhausted, he left his boarding place after a while, and Mr. Sprecher did not know what had become of him." It was afterwards ascertained that he was in the habit of sleeping in an outhouse in the suburbs or the city. Without money or means of making a living, and in feeble health, he was reduced t a state of almost actual starvation, and the opinion of the physicians is that his death was superinduced by the effect upor his system of long continued abstinence from food during the period when he lived a houseless and homeless stranger in this city. For some weeks past he has bee employed as a teacher in a school at Wash ington Borough, but his system was unabl to resist the deleterious influences to which it had been subjected for months previous and he died, not of actual starvation in thi land of plenty, but from the after effects of

long deprivation of proper food. He was a quiet scholarly man, and would spend day after day in Barr's book store, reading such works as only attract the educated. If his own story be true, and there is no reason to doubt it, he was the only son of an English curate, and born at Newcastle. His mother was a woman of great intelligence, but of rank in life much below that of his father, whose marriage with her cut him of from chances preferment which were bright before. The subject of our sketch had one sister, a gifted girl, who was much afflicted in body. On her all little means the family could spare were spent, and she was taken to London at one time and but under the treatment of one of the mos eminent physicians in the Metropolis. Com pelled to provide for himself the subject of this sketch, sought the new world. For a number of years previous to his coming to Lancaster, he had been engaged in teach ing in Canada. The few who knew hin there, felt no little interest in him, being touched by his manners and compelled to touched by his minimers and compelled to recognize him as a scholar and a gentleman. This story, which we caught up hurriedly on the street, from the fips of a gentleman who knew the subject of it, proves that intellect and culture are sometimes of little use to the possessor in this materialistic age of ours. The deceased was unmarried, and is represented to have been free from vices. He was past middle age. Truly this story is a said one.

Aggreent -Wm. Long, of Columbia met with an accident near Penningtonville on Saturday last, while engaged in coup-ling cars, causing him to lose the end of the fore-finger of the left hand; besides having the hand otherwise injured. having the hand otherwise injured. His wounds were dressed by Dr. Craig of Columbia.

A LANCASTER COUNTY MAN IN LUCK .-It was announced in our city papers of last week that Isaac Witwer, of New Holland, Lancaster county, had been so fortunate as to draw the second prize, a house and lot in Washington city, valued at \$8000, in the grand National Concert Gift Distribution for the benefit of the Soldiers and Sailors Orphan Home fund. We are are informed that Mr. Witwer, accompanied by his counsel, E. H. Yundt, Esq., went on to property, and found not only that the statement in the papers was correct, but that the managers of the enterprise were ready to pass over the title, and give possession superstructure known as the Methodist of the property at once, and give every satisfaction as to its validity. The house is a ate on Tenth street, between M and N streets, a very desirable location, in a portion of the city which is rapidly improving. rent it. From all the information they could gain in Washington, they are satis fied that the distribution was conducted the account the several Church organiza- with fairness, and acknowledge themselves especially indebted to Major Alberger, one of the managers, for his courtesy and promptness.

There is some poetic justice in this turn of the wheel of fortune, Mr. Witwer having served in the Army himself. He is an ho est, upright, industrious man, to whom such a windfall will be a real benefit. He made the boy who drew the ticket, the son of a poor widow in Washington, a handsome present in money.

PERSONAL.-Mr. Richard McGregor, Jr., Agent for "The Turf, Field, and Farm," American gentleman's newspaper, published in New York city, called upon us this morning. The paper which he represents stands at the very head of its class in the country. Its typographical appearance is the neatest imaginable, and its editorial and other columns are conducted with firstclass ability. The paper is well worthy the patronage of the public, and we trust that Mr. McGregor will meet with the greatest success in his efforts to increase its sub scription list.

RECEPTION OF THE U. S. HOSE COM-ANY OF PHILADELPHIA.—The U.S. Hose ompany, No. 14, of Philadelphia, accomoanied by the splendid Liberty Cornet Band, arrived in this city on Monday last. They were met at the Pennsylvania Railroad depot by the Union Steamer No. 1, whose guests they are, and delegations from a number of the other companies of he Fire Department. The Company having lebarked from the train, and everything eing in readiness, the route of the proces sion was taken up as follows: Chief Marshal-II, E. Slaymaker,

 Chief Marshal—H. E. Slaymaker.
 Aids—Charles Jefferies, Friendship; S.
 Rathvon, American, Captain Thomas
 Dinan, Shiffler; Anthony Lechler, Empire.
 Lancaster Drum Corps.
 Friendship—Lewis Haldy, Marshal; John H. Baumgardner, Assistant.
 Washington—R. L. Eicholtz, Marshal.
 Keystone Drum Corps. Keystone Drum Corps. American—Walter G. Evans, Marshal. Shiftler-John Fritz, Marshal. mpire-Dr. William N. Amer, Marshal

Empire—Dr. William N. Amer, Marshall, Liberty Cornet Band, U. S. Hose Company, No. 14, of Philadelphia, United States Hose Carriage, Union Steamer No. 1—Capt. Jas. P. Dysart, Marshal,

All the companies of the Fire Departmen vere represented, except the Sun and Hu mane. The Companies made a very fine display. The Union, Friendship and U. . Hose Companies only appeared in un orm, the others in citizens' dress. Each company in line carried a handsome Siik lag. The dress of the U.S. Hose are the New York Fire bats, red shirts, white neck ies, black pantaloons and heavy black vercoats. They are a very fine-looking ody of men. When they passed the In elligencer office they were covered with wreaths and bouquets. A very interesting ature was the appearance in the line of the old Fire Dog of the United States. He walked along as proudly as any member of the Company.

The route of procession, as previously designated in the Intelligencer, was gone over, and the United States Hose was corted to Sprecher's Leopard Hotel, which will be their head-quarters during their stay in this city. They have created a very favorable impression, and doubtless then visit will be an exceedingly pleasant affair o all parties concerned.

OUR PHILADELPHIA VISITORS, - Th members of the U. S. Hose, No. 14, of Philidelphia, are having a delightful visit, at least they so express themselves. Take them all in all, they are as noble a body of liremenus have ever visited Liancaster. They are, as we said yesterday, a very fine-looking body of men, and are full of life and gatety. They will remain with us until o-morrow afternoon, when they will leave or Reading.

- In our hurried notice of their reception yesterday, we neglected to notice that David M. Lyle, Esq., one of Philaderphia's veteran and most efficient firemen, and Chief Engineer of the Philadelphia Fire Department, is also visiting our city ompany with the members of the U.S. Hose. Many of our citizens have called to pay their respects to him. The Marshal of he U. S. Hose is John L. McGinnis, and the Assistants are A. H. Lightner and

Timothy McCarty,

—To-day the Company, escorted by elegation from the Union, and accom panied by the Band, are visiting various bjects of interest about the city. To-night collation will be given them in one of the upper saloons of Fulton Hall by the Friendhip Fire Company, No. 2. The entertainient will be prepared by Mr. W. C. F. Sheer confectioner, who has hardly a superior as enterer. There will be a jolly good time n store for the participants.

THE UNION-U. S. HOSE BALL.-The pall last night at Fulton Hall, given by the members of the Union Steamer, No. 1, in nonor of the U. S. Hose of Philadelphia was the grandest affair of the season. members of the U.S. Hose, accompanied by their splendid Band, marched to the Hall, where they were received by the Union The music for the promenade march was furnished by the Liberty Cornet Band, and was rendered in eloquent style. The lancing music was Keffer's choicest, and every one was delighted. The police arangements were under the charge of Offi cer Gundaker, and were admirably carried out. The refreshments were served up by Royer. The night was one of joyous festive ity and pleasure throughout, and the bright ilver moon had gone far down in the West ern horizon before the participants separa ted to their homes. The youth and beauty of the city were well represented, but

Of all that did chance 'twere a long tale to tell f all the dances, and dresses, and who was th

belle; But each were so happy, and all were so fair, The night stole away, and the dawn caugh them there." The Ball has added to the friendship ex sting between the Union and United States and it will be long remembered as a bright spot in the visit of the Philadelphia Fire-THE UNION STEAMER HALL.—The hall

of the Union Steamer, No. 1, has recently been refitted and remodeled, and is now the handsomest Firemen's Hall in this city. The walls and ceiling have been repapered with a light-colored paper, with gold and purple mountings and borders; a new Brussels carpet has been laid on the floor; a new bronze chandelier, with ten burners; new cane-seated chairs, and a beautiful marble-top table graces the front of the President's chair. Back of this hangs a fine portrait of Mr. Adam Reigart, Jr., the first President of the Company, and at the west end hangs the portrait of Mr. Adam Reigart, Sr., who was the first Treasurer of the Company. The side walls are adorned with large-sized photographs of Capt. H E. Slaymaker, Charles A. Heinitsh and Geo. K. Reed, Esqs., present officers of the Company. There is also a large show case. in which are displayed the numerous gifts

a visit. FIRE.-The alarm of fire this afternoon was occasioned by the discovery of smoke issuing from the second-story of a hous on the corner of Beaver and Andrew streets, occupied by Adam Moffit, and owned by John Ochs. The fire originated through the children playing with matches. The Shiftler was on hand promptly and extinguished it before much damage was done,

of the Company. The Hall is well worthy

DEATH OF DR. JOHN N. ECKERT.-The dden death of Dr. John N. Eckert, o the Gap, is a subject of much regret amongs his numerous acquaintances. He was young man of fine talents, and his professional career was full of hope, as bright and flattering as could be wished. His warm, friendly manners endeared him to all, and made him a general favorite. His oss will be deeply felt in the community vhere his professional duties called him and where his various manly qualities were the theme of praise. In this afflicting disensation of Providence, we sympathize leeply with his relatives, who have lost n affectionate son and brother, called away ust on the threshold of his usefulness.

SMASH-UP ON THE PENNSYLVANIA RAILROAD.—About two o'clock on Sunday norning a collision between two freight rains took place near Midway station on the Pennsylvania railroad, by which ten freight cars, laden with live stock, were nashed up. The conductor of one of the trains, named John McGinty, was killed and the engineer and a drover were some what injured, but to what extent we have been unable to learn. The name of the engineer was Reuben Resh, and he beonged to this city. The name of the drover is not known.

SIGNS OF A SEVERE WINTER.-From all quarters we hear of phenomena which are generally regarded as presages of a severe vinter. Hives overflowing with honey anusual thickness of corn husks, and the furs of wild beasts; the migration of rate from the west to the south; and as the season advances, we suppose there will be added to this list of signs the extraordinary stores of nuts laid up by squirrels. How ever much we may be disposed to smile at such omens, and leave them to the credence of the ignorant, in view of the vener able antiquity of the faith reposed in them they are in some degree respectable, and i would be well for even the most incredu ous to be prepared for a severe winter. So writes an exchange.

IMPROVEMENTS .- John Q. Denny, re siding on Locust street, Columbia, is making great improvements to the front o his dwelling. His house stands back a few feet and he is placing a beautiful iron lattice work, extending from the house to the pavement and up to the third story, in fron of it. It is a splendid piece of workman ship, and when finished will claim the praise of being the neatest front in the

SERIOUS ACCIDENT AT HOWES' CIRCUS —On Tuesday last a very serious, and what might have proved fatal, accident occurred at Howes' Circus, which was exhibiting on the old Circus lot, on Lime street, this city. Two of the performers, Messrs King and Lazelle, aerobats and gymnasts, were about commencing their performance on the slack rope, and were linked together and entwined within each other, when the bolt loosened in one of the burrs at the upper end of the pole and the rope gave way, precipitating both men headlong to the ground, a distance of 30 feet. Many of the spectators supposed this to be part of the performance and did not pay much attention to it, until the grouns of one of the in jured men and the unsuccessful attempt of the other to keep on his feet told too plainly what had occurred. Mr. King's shoulde blade was fractured, his wrist dislocated nd he besides received some internal inuries. Mr. Lazelle received a severe con ussion of the brain and other injuries Their escape from instant death was mirac alous. Drs. F. G. Albright and Joseph H efevre happened to be present, and prompty rendered all the assistance in their power They had the injured men conveyed to 'rout's Hotel, West Orange street, where their wounds were properly dressed, and heir condition made as comfortable as pos sible by Mr. and Mrs. Trout. Although suffering much pain, both left for their homes this morning.

DISTRESSING CASE.-We are seldom called upon to relate a more distressing case, whereby a whole family have been removed by death, than happened in Coambia during the past few days. The par iculars, as far as we have been able to glean them, are as follows: On Thursday vening a child, aged fourteen months, laughter of George and Elizabeth Yeckley vas taken with cholera infantum, and died luring the night in convulsions. During the same night the mother was seized with ramp and vomiting, and also severe diarrheea. She continued in this condition until Thursday night, when she gave birth to a still-born child. On Sunday morning George Yeckley, the husband and father, was taken sick, and died at 93 p. m. of the same day. He was buried on Monday, at 2 p. m., with the honors of war, being an old soldier and a member of the National Blues of Columbia. At 5 p. m., on the same day, his wife, Elizabeth Yeckley, departed this life, and with her death the family became extinct. The mother of Mrs. Yecker! is lying dangerously ill with

but little prospect of recovery. SOLDIERS' BALL AT COLUMBIA. - We have received an invitation to the First Grand Ball of the National Blues of Columbia, to be given at the Odd Fellows' Hall, in that borough, on Thursday evening next. The Floor Manager is our old friend Grifflth, one of the best we ever saw, not to place

"Squadrons in the field," but sets upon the dancing floor, and he ably assisted by a large number of prominent military names as managers. We know that it will be a pleasant affair, be cause our Columbia friends are proverbial for getting everything up in the right way, If at all possible, we shall endeavor to be present, and help "chase the fleeting hours

with glowing feet," Robbery .- On Saturday last the house of James Bennett, Walnut street, Columbin, was entered by thieves between the hours of eight and nine, and the sum of \$540 taken therefrom. It appears that the radicals were having a "grand illuminaion" and "torch-light fizzle," and said Bennett and family were out on Locust street, witnessing the "triumphal parade," and it was during their absence that the robbery was effected. No clue has yet been obtained that will justify any arrests. That it was done by some person or per sons well acquainted with Mr. B.'s house hold affairs, and his habit of carrying large sums of money with him, is beyond doubt Would it not be doing the fair thing with Mr. Bennett for those who originated the 'grand fizzle," whereby he and his houseold were called to another street, to go to work and out of their well-filled bags replenish his purse to the amount of \$540. in ayment for his team, which they used to

mul the "salt river boat" through the streets of Columbia. BOLD BURGLARY AND ROBBERY .- Yester ay morning, between the hours of 10 and o'clock, a bold burglary and robbery was perpetrated at Reigart's Old Wine Store, 31 East King street. The entrance was effected at one of the rear windows by prying open the shutter. frawer was broken open and some \$6 or \$8 n postage currency and pennies taken out. The burglar or burglars made their exit by the back door, which they first attempted to open but were unsuccessful. The burglary was one of the boldest which has ever

een perpetrated in this city. THE WEATHER. -State of the Thermom er for the week ending Oct. 21st, 1866, and also for the corresponding week of the

" 17th,
" 18th, Monday 15 15 15 Tuesday, Wednesday, Thursday, 19th The Texas Legislature is about to estab-tablish a State University.

THE LATE ROBERT H. LONG.-The following tribute to Robert H. Long, deceased, formerly one of our most estee citizens, we find in the Clinton Democrat. Robert H. Long, Esq., of Lock Haven, formerly of Lancaster city, died in the former place, on Sunday evening, October 7, 1866. His disease was a strongly marked case of Asiatic cholera, which he no doubt

case of Asiatic cholera, which he no doubt contracted in the city of New York, from whence he had returned a few days Defore his decease. Mr. Long was for several years past extensively engaged in the manufacture of lumber in Clinton county, but more recently has devoted most of his time to a general mercantile business. He was more recently has devoted most of his time to a general mercantile business. He was a shrewd, energetic business man, a lively and agreeable companion, and as a citizen possessed the good will and personal respect of all his acquaintances. He was twice married—the last time, but recently, to an amiable and worthy lady of Lock Haven, who is thus suddenly and thexpectedly called upon to change her bridardress and ornaments for the habiliments of mourning. Such rapid mingling of the most joyous period of existence with the mourning. Such rapid mingling of the most joyous period of existence with the most sorrowful rarely falls to the lot of poor humanity, and few instances are more striking than that which gives the subject for these friendly lines.

Mr. Long was distinguished for his high sense of personal honor, his correct and energetic business habits, his pleasant and agreeable social manners, his frankness and general knowledge, and for his kindness as husband, father, companion, and neighbor. He was stricken from the roll of earthly life with but a moment's warning, previously enjoying a robust constitution. ing, previously enjoying a robust constitu-tion and apparently perfect health. All his acquaintances sincerely mourn his fate, and inite to do honor to his memory.

points, that it cannot fail to speedily become a

For the Intelligencer

The Result in East Lampeter. The Result III East Lampeter.

Editors Express: One cause which constituted to the large Republican majority, colled up in East Lampeter township, yeserday, was the conduct of Messrs, Joel L. Lightner and A. M. Frantz, a self-constitution of the series of the constitution of the series of the se nightier and A. M. Frank, a sort uted committee, in objecting to the votes o old residents of that township. East Lampeter.

Owing to the disloyal character of the Express, thereby not falling into the hands of Democrats except by mere chance, the above extract escaped attention until now. it is too contemptible to deserve any reply on its own account, being evidently the proluction of the editors upon the prompting of some one who tried to cheat at the elec tion, and was foiled by the watchfulness of dessrs. Lightner and Frantz. Now, "East Lampeter" falsified from beginning to end, as I shall show, and while he gives one reason which accounts for the great majority, I shall give another, and let the reader draw his own inferences. Before I proceed, however, I will say that the charge of being a self-constituted committee is false, as the following copy from the records of our Quarter Sessions Court will show :

Filed October 8th, 1866.

Whereupon the Court, after due debberation, appoint Christian Erb, A. M. Frantz, and Joel L. Lightner Watchers at the Elec-Attest, J. D. Wilson, for Clerk. Seal and Stamp of the Court of Quarter By the Court, J. D. Wilson, for Clerk.

"East Lampeter" knew thathe was lying when the charge was made; there was not man at the polls that did not know that the gentlemen were appointed by the court to watch at an election, where there was evidence of an intention to cheat in the election of all; the election officers from one political party. The Democrats have had no representation in the board of officers neither judge, inspector nor clerk, and it my candid impression that if those watchers had not been there the most shameful frauds would have been perpetrated. There was no objection made by the watchers to any old resident regularly living in the township; but when there was cause, voters were challenged, which was their duty. In return for this truthful discharge of duty by these gentlemen, the little pot-house politicians and sausage grinders sent up a terrible howl, and out of pure revenge, they did object to voters who they knew had a much etter right to vote than themselves. It did not surprise me, because I know that honesty and fairness are things unknown to Radical politicians of the black description hence they can not believe that anybody else is honest. I shall now, and indeed reluctantly, give my reason for the increase majority; and I do it solely and entirely beause East Lampeter seems ambitious of exposing her corruption and political mean uess. One reason is that the watchers were too indulgent, permitting a number of yel low tickets to be voted without any shadow of right-you must understand, dear reader that in East Lampeter township, in orde that the Abolition system of white slavery may be the more effectually carried out, th poor man must vote a yellow ticket, lest h

might deceive his lord and master. You cannot find anything in all the annals of Southern negro slavery, so utterly abominable as the regular system of forcing men to vote under the threat of driving them from their houses, or taking the bread from heir mouths. There are in all East Lampeter only three Democratic farmers, 1 be lieve; the poor population of the township consists mostly of day laborers living in small houses on some out of the way corne of the farm, and a few mechanics and mer chants. If these poor tenants presume to enjoy freedom and vote as they please, if unfortunately their pleasure would be to vote the Democratic ticket, they must move

next com April. Well, they can't get a house, because these things are thoroughly sifted in meetings, and if a man wants to be a freeman and chooses to vote the Democratic ticket it is abundant reason why this man cannot get a house to live in; and is also the reason why East Lampeter gave so large a majority. A poor man will from love for his familynot wanting to see them starve, often succumb to the tyranny and lordship of a boss farmer. This system of slavery is gradually crushing out liberty and Democracy in East Lampeter-like the thief, the robber, or the cutthroat escaping undetected, get bolder and bolder, so these boss farmers are doing

their work emboldened by success, stealng one man's liberty after another. As to the characters of the voters at this

amous poll, you can form some idea when tell you that repeated cheers were given for Geary and groans for Clymer, and that this conduct made the gentry of the district iaugh from ear to ear.

AN OUTSIDER. For the Intelligencer. QUARRYVILLE, Oct. 19, 1866.

To the Editors of the Lancaster Intelligencer:
SIR: In the last issue of the Examiner and Herald I observed a communication from Quarryville, in which I see that Andy ohnson's policy has again mortally wound ed one of the web-footed tribe, by taking the Post Office from one of the most con firmed Radicals and Old Constitution haters. The writer says that the" humble head of the P. M. was taken off at this place, and a rank Copperhead appointed in his stead, from the fact, as he says, that they could not find a Republican (a Conservative I suppose he means) in the place to take it. As regards invself being a rank Copper head, I will state that I always had voted the Republican ticket until after Abrahan Lincoln's election. So long as I believed the party to be in favor of the Union and Constitution I was with it; but as soon as learned that its infamous policy was Ne-

A word about the Conservatives of Eder Township. The writer knew he was penning a falsehood, at the time he stated that there were none here, as he himself helped to put the names of such persons on the ommittee of Arrangements for a "Negro Suffrage" meeting held at this place several weeks ago. But they would not take the bait, as you are aware, Colonel, they all voted for Clymer on election day. Again ne notoriously perverted the truth, when he said that the Democracy expected to carry Eden by a majority of fifteen, as we never claimed anything but an even con test, from the very fact that seventeen new Republican voters had moved into the township since the election in March last. We have six Conservatives in this district. You will observe by my statement that it was the more influx of their voting populations, that gave them the meagre majority of which he feels so much co

gro Equality and a general overthrow of

the laws of the land. I forsook the party in

lisgust.

soled. I would have thought, that the "Humble Individual" would have been so highly elated with his recent election to so remunerative an office, as to spurn the idea ef being galled at his removal from the office of Postmaster. He is one of the kind that did not want itany longer. Oh! no, not be One word more in respect to my comnission, and I have done. He saw my paper and knows that it was dated upo the sixth of October, only three days prior to the election, instead of four weeks as he asserts. B. WITMER, Postmaster, Quarryville.

The Federal Offices.

The N. Y. World says: The Tribune, in order to belittle the trength of the Democracy, is represen-ing to its readers that we on our side have, besides the Union men of the Republican party, the weight of the Federal offices.

The statement is false. The Federal offices of the Northern States, 99 per cent, of them, at least, are in the hands of Republicans, Radical-blabant, or Radical-silent. President Johnson has incurred all the odium attached to wholesale transfer of the offices, and has enjoyed none of the advantage, be it much or he it little, which an actual transfer of the offices from his enemie

to his supporters would have given

Not one per cent, of the Federal office have been taken from his enemies and given to his friends. Some changes have been made here and there, bu the Tribune's own columns are the wit ness that these changes have been relied upon to inspire the resentment, and the activity of its friends; and that all it dreads in the matter is the benumbing the fear of future removal upon the great bulk of Republican office-holders.
We have nothing to say as to President Johnson's policy in respect of offices, whether it is wise, or the reverse. We simply assert that, as a matter of fact, the weight of the influence of the ederal offices in the late and the comng elections, has been and will be on the side of the Radicals, with very

slight and inconsiderable exceptions ----What Emancipation has Done for the Negroes. The following, which we clip from the Harrisburg Telegraph, is about the first truthful paragraph we remember to have seen in its editorial columns for months:

In slavery the black man had a sort of protection accorded to him. His life was valuable to his master. There was money in the flesh of his wife and children, and in the fiesh of his wife and children, and therefore they were not suffered to be brutalized unto death. But who now protects the black man, his wife or his children? They have no protectors. There is no money any longer in their flesh and bones. They cannot be bought or sold, and therefore they are not as valuable as dogs.

---franc gold piece is secreted in one of every hundred sausages exposed for sale in his shop. The demand for sausages is someshop. The demand for satisfies is some-thing extraordiary. A perfumer having adopted a similar method of increasing the sale of soap, was threatened by the satisfies maker with legal proceedings for imitating his invention, but he soon ascertained that he had no ground of action.

THE GREAT ENGLISH REMEDY

· PROTECTED BY ROYAL LETTERS PATENT, CELEBRATED FEMALE PILLS.

CELEBRATED FEMALE PILLS.

repared from a Prescription of Sir J Clarke, M. D.

Physician Extraordinary to the Queen.

This invaluable medicine is unfailing in the curof those painful and dangerous diseases to which the
male constitution is subject. It moderates all excess
nd removes all obstructions, from whatever cause
nd a speedy cure may be relied on.

TO MARRIED LADIES

It is particularly suited. It will, in a short time, bring

A NEW AND GRAND EPOCH IN MEDICINE Dr. Maggiel is the founder of a new Medical Syste. Dr. Maggiel is the founder of a new Medical System; The quantitarians, whose vast internal doses enfection the stomach and paralyze the bowels, must give predence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every boxdepended. Maggiel's Filis are not of the class that are swallowed by the dozen, and of which every box ful taken creates an absolute necessity for another. One or two of Maggiel's Filis suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant: There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that Maggiel's Billous, Dyspeptic and Diarrhea Filis cure where all others fail, While for Burns, Scalds, Chilbiains, Cuts and all abrasions of the skin Maggiel's Salve is infallible. Sold by J Maggiel, 43 Fulton Street, New York, and all Druggists, at 25 cts. per box.

SNOW POWDER! SNOW POWDER!!

PATENTED MAY 29, 1866.

SNOW POWDER!!!

This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and untike other preparations offered for like purpose, will, nor not the clorites, but will leave them much wither than ordinary methods, without the usual wear and tear.

It removes grease spots as if by magic, and softens the dirt by soaking, so that the rinsing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been following, viz:

It saves all the expense of soap usually used on cotton and dinen goods.

It saves most of the labor of rubbing, and wear and tear.

Also, for exeming windows it is unsurpassed. It saves most of the labor of rubbing, and wear and tear.
Also, for examing windows it is unsurparsed. With one-quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water required except to moisten the powder.
Directions with each package
And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed THE. E CENTS.
The manufacturers of this powder are aware that many uscless compounds have been introduced to the public which have rotted the cioth, or falled in removing the dirt, but knowing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied.

tidaw DUBLIC SALE .-- ON SATURDAY, NO-VEMBER 34, 1868, will be sold at the public house of John Yohn, in the village of jountville, Lancaster county, Pa., the following real estate, viz:
A Tract of Valuable Farming Land in West Compiled twp., by mile east of the village of dountville, on the road leading to the Marietta

Mempheid twp., ½ fille cast of the villate of Mountville, on the road leading to the Marietta Pike.

CONTAINING DES ACRES, more or less, on which is erected a large TWO AND A HALF STORY DWELLING HOUSE, part brick and part frame; a Bank Barn 10 by 45 feet; a Grain Barn 60 by 21 teet; Wagon shed with Corn Cribs, Spring House, Smoke House, Wood House, Pig Sty, with all other necessary out-building.

The land is in a good state of cuitivation, laid off in convenient fields, with easy access to water, and all enclosed with go d fence. There is an Orchard of well-selected Fruit Trees viz. Apples, Pears, Peaches and Cherries in fine bearing order.

Ten Acres of the above tract are covered with Chestnut Sprout Timber sufficient to 6 noe the farm, and in cutting condition. The close ptoximity to Lancaster and Columbia, which are admitted to be among the best ma kets in the State, together with its convenience to schools, mills, &c., makes it well worthy the attention of capitalists.

Persons desirous of viewing the premises can do so by calling on E. Myers, residing thereon, or upon F. S. Bitez, at Columbia. The sale will be positive.

Sale to commence at 2 o'clock, P. M., on said day, when attendence will be given by F. S. BLETZ.
