THE CENTENARY OF METHODISM-AN INTERESTING OCCASION.—This is a year of jubilee among the Methodists of this country. In the month of October, 1766, the first Methodist class, consisting of five per sons, was organized in the city of New York, and from that small beginning it has flourished and progressed until it is now one of the great powers among religious de nominations. Methodists, of course, feel jubilant, and all over the country are comemorating their 100th anniversary. Last evening there was a Centenary Fam-

ily Gathering in the First M. E. Church, on Duke street, and the occasion proved a very joyous and interesting one to the large congregation present. The church was most appropriately and handsomely decorated for the occasion. From the centre of the ceiling an arch of evergreens was hung in graceful folds, connecting with the galleries t different points, and from the centre of this arch was suspended a large air basket of flowers. Clear round the galleries in large letters of evergreen work were the words "Centenary of American Methodism." In loops from this evergreen work were suspended small baskets of flowers. In the recess of the pulpit there were a number of mottoes in evergreen very appropriately and beautifully arranged. We give them in their order: "1766-1866;" 'Christianity in Earnest;" "100-100; The Best of All is, God is with us." The letter "C," intended to represent the centennial number; "Strawbridge, Embury, Heck." Below these mottoes was a fine portrait of John Wesley, the founder of Methodism, surrounded by a wreath. On the walls under the galleries were four crayon sketches, the work of Master Willie Barr, son of Mr. Elias Barr, Bookseller, No. 6 East King, which reflected great credit on one so young. They represented the Old John Street M. E. Church of New York, the new and elegant Tremont Street M. E. Church of Boston, Embury's House in New York, where the first Methodist sermon was preached, and the Old Rigging Loft in New York, where the first Methodist Class Meeting was held. The festooning and decorations of the church were the prettiest we have ever seen. They were done by the younger members of the church, under the personal supervision of the talent. ed and esteemed pastor, Rev. C. I. Thomp-

son.
At 7 o'clock the following clergymen took seats upon the platform: Bishop Simpson and Rev. Messrs. Thompson, Major and Barr, of the Methodist, and Rosenmiller and Reimensnyder, of the Lutheran Church. The services were opened with the singing of the anthem, "Peace be within thy walls," by a full choir, under the direc tion of Mr. David Hartman, leader. Prof. Joseph Steinhauser, presided at the Meceon. The hymn, "Love for Zion," was then sung, after which a prayerwas offered by Lev. Mr. Rosenmiller. Another hymn, "Goo is in the Midst of Her," was then sung by the choir, and Bishop Simpson was introduced, and spoke for about three-quarters of an hour. He commenced by tracing the rise and progress of American Metho dism. From a small and obscure beginning it had grown, he said, to be the first church in point of numbers and influence in the country. The reason for the great success of Methodism was that God had been with them. He then very eloquently and earnestly pointed out the duty of Methodists, speaking of their past success and the bright future opening up before them. He concluded with a thrilling appeal to make the hundredth year of Methodism a great beneficial season, in a pecuniary sense, to the different causes and objects the church had in charge. The Bishop was listened to very altentively throughout.

The hymn, "A Hundred Years Ago," was sung, and contribution cards were then passed around the congregation for their signatures and amounts. Whilst this was progressing, warm coffee and cakes were given to each one in the congregation. This proved a pleasing feature, and was what hymn "Great God of Israel, lo, to Thee," was sung, and the result of the contribution was then announced. The amount realized was \$1,136.

The services lasted until about 10} o'clock. when the Doxology was sung, and the benediction pronounced by Rev. Mr. Reimensnyder.

OUR PHILADELPHIA VISITORS, -- On Tues day the United States Hose of Philadelphia ciceroned by a number of their fast friends of the Union, visited a number of places in and about the city, and were cordially received and handsomely treated everywhere they went. VISIT TO WHEATLAND.

At 3 c'clock p. m., accompanied by a number of citizens of Lancastor, they proceeded in a body to Wheatland, to pay their respects to Lancaster's most distinguished and most honored citizen. Arriving on the grounds, they drew up in order around the portico of the venerable ex-President's mansion, and when Mr. Buchanan made his appearance, they greeted him with hearty cheers. The character of his visitors and the motive of their call having been stated by Mr. J. M. Cooper, a contributing member of the Union, Mr. Buchanan thanked them for their friendly call, and tendered them the hospitalities of his house Repeating their cheers several times over they then passed in, each taking Mr. B. by the hand, and many of them expressing to him the great respect they entertained for him. After an hour spent in partaking of the refreshments set before them, and in conversing with the ex-President, and examining objects of interest in and around the house, the visitors returned to the city. much pleased with their trip to Wheatland THE FRIENDSHIP BANQUET.

The Banquet given to them on Tuesday by the Friendship Engine Company, No. 2, in one of the upper saloons of Fulton Hall, was a recherche affair. It was gotten up by Mr. W. C. F. Sheer, an old member of the Friendship, and reflected much credit or his artistic skill and ability. Both companies marched to the Hall, at nine o'clock, accompanied by the Liberty Cornet Band, which discoursed the sweet est kind of music. After the gastronomic qualities of the entertainment were suficiently discussed, speeches were made by William R. Wilson, Esq., of the Friend ship, Chief Engineer Lyle, of the Philadel phia Fire Department, Mr. John L. Me linnis, of the United States, and others Various toasts were drank, songs sang, and a good time generally was had. The ban quet was prolonged to a late hour, and after it was over a number of our citizens received the compliment of delightful sere-

THE LOST CAUSE.-Mr. E. P. Smithers of Philadelphia, Agent for the Lost Cause a Southern History of the Late War, written by E. A. Pollard, Esq., editor of the Rich mond Examiner during the war, is now in this city, and in the course of a few day will canvass for subscribers to the work. Mr. Pollard has a high reputation as a writer, and doubtless he has succeeded in making a very interesting and readable book.

DROWNED.—On Thursday afternoon, 25th inst., a colored man, named John Henry Jones, was drowned in the river at Columbia. He was at work on a flat, and was pushing the boat with a pole when he made a misstep, fell overboard, and sunk to rise no more. His body was soon recovered and Deputy Coroner Cully held an inques and the following verdict was render ed: "That the deceased came to his death ,by accidental drowning."

PETERSON'S DETECTOR.-We have recaived Peterson's Monthly Counterfeit De tector for the month of November. It contains a description of 18 new counterfeits, which have made their appearance since October 1st, besides much other valuable information, highly important to every danker merchant and citizen Terms \$1.50 per annum, or single copies 15 cents, and can be obtained at any of the book stores in this city.

THE LAST ONE .- A few days ago w moticed the death of George Yeckly and and his family, of Columbia, consisting of his wife and two children, saying also that the mother of Mrs. Y., who was in the same house, was not expected to live. Since that she has departed this life. She was buried

ANOTHER GONE!-By reference to our hymenial record it will be seen that the ranks of Junior Bachelordom are "growing small by degrees and beautifully Benedicts are becoming as numerous almost as the fall of Autumn leaves. Cupid is aiming his darts with fearful effect, but we trust to be able to bear with Christian fortitude and resignation the loss of those who are rowing faint and weary among our rapidlydecreasing number. Mr. Webb Michael, in old and true friend, has "united his forune in the tenderest of ties" to Miss Debbie F. Strine, and we cannot help but think nd remark, however detrimental to the interests and feelings of those who intend aveling down the future years of life singly and alone, that "our loss is his gain." May the pathway of the happy couple be strewn with roses, and not a cloud appear in the horizon of their matrimonial happiness so

IMPORTANT TO DISTILLERS .- A circula oncerning the connection of stills with receiving cisterns has been issued by the Acting Commissioner of Internal Revenue, nnouncing that information had been received at the Internal Revenue Office that officers of Internal Revenue in various parts of the country are permitting the distillers to continue, under the new law, the old practice of separating the low and high wines, by allowing them to run into separate open tubs placed near the outlet of the still or worm. It is understood that the almost universal custom in grain distilleries has been to place near the outlet of the vorm two open tubs, into one of which the high wines are conveyed, and into the other the low wines—the former connected by pipes with the high wine cistern, and the latter with the still or doubler. This arrangement is not consistent with

the terms of the act of July 13, 1866. Section 34 (par. 125) of that act provides that all the pirits distilled during each day, of twentyfour hours, shall be conveyed on that day nto one of the receiving cisterns prepared for that purpose, and that such cistern shall be connected with the outlet of the still by suitable pipes or other apparatus, so con structed as always to be exposed to the view of the inspector. Distillers must mall cases connect the still or worm with the receiving cistern by pipes or other apparatus, which must be so constructed as to convey the spirits directly to the cistern. As it is necessary for the interest of the distiller to prevent the low wines from running nto the high-wine cistern, and as the ase of the open tubs for this purpose cannot be allowed, it becomes necessary to adopt ome arrangement by which this can be lone. It is deemed entirely feasible to separate the low from the high wines by the use of a glass vessel which shall-be connected with and made a part of the pipes or pparatus connecting the outlet of the still with the receiving cistern. The precise form of this apparatus for separating the low and high wines is not prescribed, but distillers are notified that some such arrangement must be adopted and put in use by the 15th day of November next. Any listillery which, after that date, shall be found without such apparatus, will be closed up and proceeded against according to law

INTERESTING LAW SUIT .- A suit of mor han ordinary interest was tried last week in the Court of Common Pleas, of this county. We refer to the case of M. G. Wenger vs. The United States Telegraph Company. The questions at issue involve the rights and liabilities of Telegraph Comnanies, the law regulating these cases being somewhat uncertain, inasmuch as there were very few, if any, tried in this State and none, we believe, in this county. The main features of the case were these: On the 10th day of October, 1864, the plaintiff then a dealer in stocks, ordered through his agent, Geo. K. Reed, of the firm of Reed, McGrann & Co., Bankers of this city, the purchase of 50 shares of Northwestern and 50 shares of *Prairie du Chien* Railroad stocke Mr. Reed immediately called at the business office of the Company, then in North Queen street, left the despatch, paid for its trans-Methodists call a General Love Feast. The mission to the firm of Wim, & J. O'Briens Bankers, 58 Wall street, New York, with whom Reed, McGrann & Co. did their business. The latter, according to custom, du dicated the order by letter, in which they referred to the telegram sent. The letter arrived in due course, on the following day, but the telegram never reached New York Mr. Potts, the operator here, testified that ipon inquiry he could only trace it to Phildelphia. It appeared that the Messrs Brien did not act upon the letter, because hey supposed the order had reference to another transaction, and probably required

explanation. During the several days consumed in the effort to buy and to find out where the mistake rested, stocks advanced in price. The order, however, was filled on the 13th of October, in pursuance of another telegram, sent through this or the other Company, but at an advance of about \$462.50 more than the stocks could have been purchased on the 10th, to recover which difference the uit was brought. The court, Judge Hayes, substantially charged the jury that the de fendant was a "Common Chrrier;" that as such it was responsible in damages for the non-delivery in this case of the telegran sent or ordered so; and that the measure of damages was the difference between wha the stocks could have been bought on the 10th of October and what they cost on the 13th, when the purchase was made. The jury found a verdict for plaintiff for \$486.50 and costs. Wm. R. Wilson and Geo. Brubaker appeared for plaintiff, and David G Eshleman and D. W. Patterson appeared or defendant.

FIVE VALUABLE FARMS FOR SALE.-WE would call the especial attention of parties lesiring to purchase farms to the advertise nent of Hugh McAleer, Esq., which appears in another column. These farms are localed near the Maryland line, in Fulton County, Pennsylvania, within from one to three miles of the Baltimore and Ohio Rail Road, and are all valuable and desirable properties. They are well improved, Mr McAleer having spent large sums of money upon them. They will be sold very cheap, nd we do not know a better chance for persons who may desire to secure homes or themselves. Parties wishing to purchase will call on or address H. G. Smith, ntelligencer Office, Lancaster Penna., or Hugh McAleer, Esq., Frederick, Maryland.

Don't be so foolish as to think the invenive genius of Yankeedon has failed in one lirection at least i. e., to produce a faultess "Cooking Stove!" Why the thing has peen done, the Stove is already in operation in hundreds of families, and to Messrs Stuart, Peterson & Co., the well-known Stove Founders of Philadelphia, belongs the credit of this achievement. The trade and all interested parties should inspect the merits of the "Barley Sheaf," the greatest Stove wonder of the 19th century.

EVERGREENS FOR WINTER.—A process has been discovered by which a beautiful show of evergreens may be obtained for the parlor during the winter. We give it for the benefit of our lady readers, who are inseparably associated in our mind with flowers, and all the beautiful objects on earth:

"If geranium branches, taken from luxuriant and healthy trees, just before the winter sets in, be cut as slips and immersed in soap water, they will, after drooping a few days, shed their leaves, put forth fresh ones, and continue in the inest vigor all winter. By placing a number of bottles thus filled in a flower basket, with moss to conceal the bottles, a show of evergreen is ensily secured for the winter. All the different varieties of the plant being used, the various shapes and color of the leaves blend into a beautiful effect. They require no fresh water." "If geranium branches, taken from lux-The plan is simple, easily put into prac-ice, and is said to be successful.

LANCASTER HORSE MARKET, MONDAY OCTOBER 29TH, 1866.—Owing to the depres sing effect upon all kinds of trade and business during the late exciting politica campaign, we have neglected for some time past to furnish our usual weekly report of he Horse Market. The excitement having subsided-we are again prepared to give our regular report each week, and we therefore commence with the week ending yeserday:

Trout's.—The arrivals were 46 head o well selected stock, and the sales 16 head, eaving 30 head yet on hand. Copeland & Cline's.—The arrivals were 50 head of choice young horses, and the sales and shipments to other markets 43 head,

leaving but 7 head on hand.

Visconsin.—We make the following ex tract from a letter dated Beloit, Wisconsin october 17th, 1866, and published in the Chicago Republican of the 22d instant:

Chicago Republican of the 22d instant:

"In order to fully appreciate the beauty of the scenery about this place, one should actually see it as I have. While there are no special points of peculiar interest, the whole, for miles in either direction, is most grand and charming. If you, Messrs. Editors, will leave your sanctum, and go with me to the Northwest three or four miles, to the summit of an elevation on the farm of Mr. S. H. Slaymaker, when the west is nelow with a mellow sunset; the trees, as glow with a mellow sunset; the trees, at this season of the year, tinted with vari gated hues, and ranges of cloud-mountain resting on the horizon, I will show you resting on the horizon, I will snow you as scene not surpassed even in Switzerland. I will show you land and sky and groves glowing for miles and miles in wreathing vapors of loveliest tint and golden sunfoods—a vast expanse of rolling prairie and purple and yellow groves. In this section is a settlement of wealthy farmers, are inly from the famous country of Lancas. mainly from the famous county of Lanca ter, Pa. Here are the fine residences and highly cultivated farms of John Reigart, A. E. Reigart, Jumes H. Reigart, S. H. Slay-naker, H. H. McLenegan, and others. maker, H. H. McLenegan, and other They have all the appointments of first class farmers; large and convenient barn fine residences, and all else that contribute

o comfort and beauty. You will also find here choice full-blooded stock, in which take special pride." The Messrs, Reigart alluded to in the bove extract are the sons, and Messrs. Slaymaker and McLenegan the sons-in aw, of E. C. Reigart, Esq., of this city They are well and favorably known to many of our citizens, and their many friends in Lancaster, where they formerly resided, will be pleased to learn that they have located their new homes in the garden of Wisconsin, where they seem to be pros pering finely in their business.

COFFEE CRUSHED VS. GROUND,-The following is from the Annual of Scientifi

Discovery:

It is not generally known that coffee that has been beaten is better than that which has been ground. Such, however, is the fact, and in this brief article on the subject, Savarian gives what he considers the re son for the difference. As he remarks, mere decoction of green coffee is a most i sinid drink, but carbonization develops th sipid drink, but carbonization develops the aroma, and an oil which is the peculiarity of the coffee we drink. He agrees with other writers that the Turks excel in this. They employ no mills, but beat the berry with wooden pestless in mortars.

When long used, these pestles become precious and bring great prices. He determined, by actual experiment, which of the two methods was the best. He burned carefully a poemd of good Mocha, and separated it into two equal portions. The one was two equal portions. The one wa through the mill, the other wa assed through the mill, the other wa eaten after the Turkish fashion in a mor ar. He made coffee of each. Taking equa tar. He made coffee of each. Taking equal weights of each, and pouring on an equal weight of boiling water, he treated them both precisely alike. He tasted the coffee himself, and caused other competent judges to do so. The unanimous opinion was, that coffee beaten in mortar was far better than that ground in a mill

hat ground in a mill.

HOW TO TAKE CARE OF A PIANO,-It should be remembered that the piano forte s susceptible of the change of temperature, and when tuned in one temperature will be out of tune in another. Good and well made piano fortes will stand in tune if they are tuned at proper periods. Many people as they wish to avoid expense, will let their instruments remain long out of tune. which is a great detriment to them, as they ire less likely to stand well after having peen so left. An exchange offers the folowing hints in reference to the matter; A piano forte ought justly to be tuned twice a year, at least. First, when you commence with a fire in the room; second, when a fire was discontinued. By following this course you have the best guaranty that the instrument will remain in tune for that the instrument will remain in tune for the longest period of time. Again, the instrument should not be suffered to remain below concert pitch; if it is for years tuned below, it will never after stand up to the pitch without a great deal of labor, if, indeed, it ever stands at all. Many otherwise beautiful instruments are nearly or onlice eautiful instruments are nearly or quit uined for want of attention to thes acts. Yet it would not answer for a pro ssional tuner to recommend these things: f he does, the people will suspect him im-nediately of selfish motives, and say that he mediately of selfish motives, and say that he is planning for his own advantage. Owners of piano fortes who are not acquainted with the nature of the instrument ought to beat these facts in mind, when by a yearly outlay of a trifling sum they may save to themselves infinitely more than they expend, by the preservation of their instru-

nent, in which they have invested so much. SOLD OUT.-We learn from the Reading Daily Times that Messrs. Keller & Yoder have sold out their lease of the Schmucker House, in that city, to Messrs. Eitner & Fry, of this county.

SILVERINE .- We would call attention to SILVERINE.—We would call attention to this new and valuable article, for the benefit of our readers, as we have tested it and find it to be all the manufactuaer claims for it. It really works wonders with all articles of brass, copper, bronze, &c., giving them instantly a coating of pure bright silver which can be made permanent by an occasional application. It is also the bestcleaner of silver rnd silver plated ware we have ever seen.—civing the beautiful lustre found of silver rind silver had been tiful lustre found on new ware. It is a great saver of time and labor, and we think after one trial no house keeper will be without it. We know by experience, and have the testimony of scientific men and prominent chemists, among them, Profs. Thurber and Meyer,

the contains no ingredients injurious to metals or the hands.

Believing it to be one of the most useful inventions of modern times, we reocommend it to our friends.—N. York Farmer. A REVOLUTIONARY RELIC.-We were

shown this morning an interesting revolutionary relic. It was found buried four feet pelow the surface of the earth by workmen engaged in digging a cellar in the suburbs of this city. It resembles an Indian tomahawk, having a poll like an ordinary hatchet and a long blade. The handle and the whole instrument proved on examination to be of the best steel. For some time no one could imagine its use. It looked as if it might have been the toy of some heir of an Indian Chief. An old gentleman from Valley Forge, to whom it was at length shown, solved the mystery. It was part and parcel of the equipment of a soldier in the days when the old flint lock muskets were in use. The poll of this miniature hatchet was used to break the flint when the surface grew too smooth, the blade answered the purpose of a screw driver and the handle, which was originally considera bly longer than at present, was tapered to a fine point to pick the dirt out of the touch a nine point to pick the dirt out of the total hole. What revolutionary sire carried this as part of his warlike outlit we may never know, but in these days of needle guns and revolving arms this old relic takes the mind back into the more primitive past. It is now in the possession of Mr. I. J. Steel.

THE WEATHER. -State of the Thermome ter for the week ending Oct. 28th, 1866, and also for the corresponding week of the previous year, as furnished by Mr. G. T.

It is said that the expenditure of two lollars and a half would probably have aved the Evening Star and the lives of her bassengers; the assertion being based on					

the theory that the sheave in which the rudder chain worked was a cheap one, not guarded with iron, and that therefore the chain alipped out and the vessel became unmanageable.

LANCASTERIANS AND THEIR FARMS IN STARTLING STORY OF RADICAL SCHEMES

MEETING OF JACOBINICAL LEADERS. How the President is to be Impeached Deposed, and who is to Succeed him.

ndence of the New York Herald. WASHINGTON, Oct. 22, 1866. When President Johnson was on his late trip in the West a United States senator and two major generals of the Army, who belonged to his party, were approached at Indianapolis by a proni-nent Conservative Republican, who had been colonel of an Indiana regiment during the war, and who is now a cap-tain in the regular service, and who made the following startling statement He had been making speeches for the Republicans in Indiana in August last, and at the request of Governor Fletcher, of Missouri, visited that State, and made one or two Conservative speeches. He was told by Governor Fletcher that his speeches were too tame; that the most radical of declarations were wanted in Missouri; that the people must be told that the Republicans had decided that the rebels should not vote, and that the State was to be carried by force of arms if necessary. Governor Fletcher also told him that he had thirty thousand muskets in the State in loyal hands, and that they should be used if necessary to carry the State. The Indianian told Governor Fletcher that he was a Benyblican in principle but did not Republican in principle, but did not approve of such measures and would not advocate them. Governor Fletcher thought him merely weak-kneed, and answered him that he would come into the harness after awhile. A few nights subsequently he was present on invita-tion at a secret meeting of radical lead-ers at the Lindell Hotel. About fifty prominent radicals were present, in-cluding Governor Fletcher, of Missouri Governor Oglesby, of Illinois, and Sen-ator Yates and John A. Logan, of Illi-

nois. The whole plan of the impeach ment of the President was discussed ven to the arrangement of filling Washington with an armed force of 'Boys in Blue' to protect Congress, and also to decide who should succeed Johnson in case Vice President Foster, as his successor, should not prove equally positive, and pliable to the will of the Jacobins. Butler, Governor Morton, of Indiana, and others were discussed. Butler was looked upon as lacking in courses. lacking in courage, and Morton was being too ambitious for the purposes of the conspirators. Genera Frant was mentioned as too conservative, and Sherman was scouted as a copperhead. Finally Senator Yates vas decided upon as possessing more stamina and less scruples than any other available man. If President Joh son offered serious resistance, and Fos ter did not act vigorously, Yates was to

be put in to control affairs.

When he was about leaving St. Louis the informant in the case was requested Governor Fletcher to ask Governor Morton, of Indiana, what number arms he could spare to Missouri. Gov. ernor Morton replied, when the message was delivered, that he could not say that he had any to spare; that there were about one hundred thousand stand. with plenty of ammunition, in the arsenal; he would see what could be spared, and confer with Gov. Fletcher. Out of this correspondence grew the conference of the Governors at Philadelphia, which it is now well known was for the purpose, among others, of distributing arms throughout the country. Outside of the statement of this officer, there is indubitable evidence n the hands of President Johnson of the secret distribution of large quanti-ties of arms throughout the Northwest

on various pretexts, all of which, how ever, are legal and plausible enough. While the startling character of this story causes it to be incredously received by many, the character of the officer making the statement, the known lesperate characters of the leaders implicated in the scheme, and much roborative evidence received, cause it to be generally believed among the President's adherents.

Radical Murders in Hagerstown. (Correspondence of the Baltimore Gazette. HAGERSTOWN, Oct. 20.

Our town is at present the scene of great excitement. The Radicals are now holding a large mass meeting, hav-ing gathered together all the roughs from our own and also from the adjoining counties of Pennsylvania, with the full determination of cleaning out the Conservatives in this portion of the Two policemen, Mr. Charles State. Gaul and Robert Sands, in attempting to quell a disturbance, were setupon by the mob and driven with stones some distance, when Gaul turned and fired, checking the crowd for a short time, but immediately upon the engine bell being sounded, a preconcerted signal for them to rush to arms, the streets were soon filled with armed men rushing towards the scene.

Gaul and Sands having taken refuge

in a saloon kept by a Conservative of this place, a returned United States soldier, and a man of sterling qualities the house was soon besieged by the mob, who immediately opened fire, whereupon policeman Gaul fired from the window of the second story in order to check the mob, so that the few per-sons from the inside could make their escape, and having exposed himself too much, was shot through the head by a minnie ball, and fell from the window to the pavement. The mob immediately rushed in the house in a wild scene of confusion, tearing everything within to pieces. Policeman Sands in attemptmake his escape from the ing to make his escape from the house, was stabbed in the right lung, and, after falling, was beaten terribly by the mob. He is still living, but his wound is pronounced fatal. The mob then cut down the Johnson pole that stood near the saloon, with the that stood near the salour, with the stars and stripes floating from it, the bodies of the two policemen still lying on the pavement, unheeded by the mob, the one dead, with his brains oozing out, and the other in a dying start of the part of the part of the salour part of the part of the salour part of the part of t condition, crying for help. Several of the mob were wounded, but I believe slightly, save Joseph Renner, who was shot through the body, and it is supposed his wound will prove fatal.

The two policemen, Gaul and Sands, served in the United States army with

great distinction, and were honorably discharged at the expiration of the war.

Great Fenian Meeting.

A vast concourse of nearly fifty thouand people assembled on Sunday in ones' Wood, for the purposes of listen-Jones' ing to an address by James Stephens

C. O. I. R., on the prospects of the ap proaching culmination of Fenian at fairs. The speaker was greeted with the wildest enthusiasm, and experienced great difficulty in making himself heard to even the small circle of the assemblage who happened to be within the scope of his voice, on account of their eagerness to crowd toward the stand. It was understood to be his last speech previous to departing for Ireland, where he said he will strike a blow for Ireland before the dawning of the new year. He remarked that much had been aleady done in Ireland; an army of fifty thousand men had been organized, the aristocratic tendency of her people re-publicanized, and the nation taught to reject the political dictation of her Catholic clergy. This latter he urged upon the crowd assembled, while ad-vising them to respect their spiritual advisers in all that appertains to their special calling. Efforts in the cause of Ireland had failed heretofore, he said, pecause of a want of sympathy and aid in America. A disturbance occurred at the close of the meeting by the supposed discovery of a British spy, who was badly cut and beaten before he was rescued by policemen and proved to be innocent of the charge.

The Pacific Railroad.

The Eastern branch of the Pacific

The Eastern branch of the Pacinc Railroad is progressing at the rate of about fifty miles per month. The present terminus is Fort Riley, 125 miles West of the Missouri river, and 400 miles from St. Louis. To show the amount of traffic that this road is likely to enjoy, from the start, that the mili-tary freight destined for the Territories alone, in 1865, amounted to 47,500,000 lbs.; the private freight, merchandise, &c., to 35,000,000 lbs,; making a total of 82,000,000 lbs., or 41,000 tons, or reducing the amount to car measurement (ten tons each), sufficient to load 4,100 This amount of freight must has over the railroad in the interest mainly of St. Louis, and which must from her present connection, bestow a corresponding benefit upon her mercantile and manufacturing interests. Thework on the Western end of the road is progressing with equal vigor, our friends on the Pacific side of the Continent being fully alive to the importance of an early completion of this great national highway, Shocking Tragedy.

Boy in Nashville Shoots the Agent o ociated Press for the Seduc-tion of His Mother.

[From the Nashville Dispatch, Oct. 23.] Yesterday afternoon, shortly after one 'clock, Chas. H. W. Bent, who is very generally known in Nashville, and for some eight or nine years past a resident of the city, was shot in Cherry street, near Union, by a young man named Hugh McGavock. renerally known in Nashville, and for The affair was the result of a bit o scandal which transpired in Louisville, and was published in the papers of that city about a week ago, implicating the

nother of the latter in connection with Mr. Bent. The occurrence is one of those sad episodes in society with which the journalist occasionally has to deal Without, however, reproducing the story detailed by the Louisville papers we shall give only the particulars of the melancholy result which trans-pired yesterday. About one o'clock, as abovestated, Mr. Bentcame out of Cone's bookstore, on Cherry street, and in con pany with a young man named E. I Thompson, connected, we believe, with the tax office, turned up towards Union street. He had gone but a few steps, however, before he was confronted by McGavock. That gentleman stepped out of the ice house, just across the alley, pushed Mr. Bent from the pavement, probably to get him clear of Mr. Thompson, with whom he was walking and then drawing his revolver. ing, and then drawing his revolver, fired. Not a word was spoken by either party. Mr. Bent, after receiving the shot, walked leisurely across the stree in an oblique direction, never once looking back, and was continuing his way up Cherry street when McGavock fired again. Mr. Bent then ran to the corner, turned up Union street and continued his accelerated pace until he reached the alley just beyond Curry's undertaking establishment, where he fell dead. McGavock, after firing the second shot, ran up to Union street and was about to shoot again, but was prevented by the cries of several person who called loudly for him to desist. He then turned back down Cherry stree where he was met a moment or two afterwards by officers Conley and Mansfield, who took him into custody.

The body of the unfortunate Bent was taken into Mr. Curry's shop, where an examination showed that both shots had taken effect, the first entering the left arm near the shoulder and passing through the chest into the lungs; th the back, and passing out a few inches

below the nipple, severing the left ven tricle of the heart. Either would have tricle of th proved fatal. Much excitement was produced by the occurrence, and a large crowd was collected about the establishment of Mr. Curry, where the body was carried. The Coroner was notified and an inques was held, which resulted in a verdict in accordance with the above facts. An examination of Mr. Bent's person howed that he had two pistols in his showed that he had two pistols in his pockets—one a small Sharp's four-shoot r, the other a Smith & Wesson-an-

why he acted thus passively, under the circumstances, is perfectly unaccount Mr. McGavock, after being arrested, was taken before 'Squire Wilkinson, and there appearing no prosecution, he was releas on S5.000 bail. James Sloa

The SCHENCK'S SEAWEED TONIC.
This medicine, invented by Dr. J. H. Schenck, of Philadelphia, is intended to dissolve the food and make it into chyme, the first process of digestion. By cleansing the stomach with Schenck's Mandrake Pills, the Tonic soon restores the appetite, and food that could not be eaten before using it will be easily digested.
Consumption cannot be cured by Schenck's Pulmore Syrup unless the stomach and liver is made

Consumption cannot be curred by Sciences S running Syrup unless the stomach and liver is made healthy and the appetite restored, hence the Tonic and Pills are required in nearly every case of consumption. A half dozen bottles of the Seaweed Tonic and three or four boxes of the Mandrake Pills will cure any ordinary case of Dyspepsia.

Dr. Schenck makes professional visits in New York, Poston, and at his principal Office in Philadelphia cure any ordinary case of Dyspepsia.

Dr. Schenck makes professional visits in New York,
Boston, and at his principal Office in Philadelphia
every week. See daily papers of each place, or his
pamphlet on consumption for his days for visitation,
Please observe, when purchasing, that the two like
nesses of the Doctor, one when in the last stage of Consumption, and the other as he now is, in perfect health,
accounts of Consenuant charges.

sumption, and the other as he now is, in periect neutri, are on the Government stamps.

Sold by all druggists and dealers, price \$1.50 per bottle, or \$7.56 the half dozen. All letters for advice

Chestanett, Ohio. Walker & Tseutor, Chicago. Encinnati, Ohio; Walker & Taylor, Chicago, Ill Collins Bros., St. Louis, Mo. [oct 16 lstwamlydaw A NEW AND GRAND EPOCH IN MEDICINE Dr. Magglel is the founder of a new Medical System

The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give pre-cedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every boxdepended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every boxful taken creates an absolute necessity for another One or two of Maggiel's Pills suffices to place the lowels in perfect order, tone the stomach, create ar appetite, and render the spirits light and buoyant There is no griping, and no reaction in the form o constitution. If the liver is affected, its functions are received, and It the proving earstern is fashle it is in constipation. If the liver is affected, to appear restored; and if the nervous system is feeble, it is in the liver available makes the medicines very restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate Females. Ulcerous and eruptive diseases are literably artinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that Maggiel's Billous, Dyspeptic and Diarrhea Pills cure where all others fail, While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin Maggiel's Salve is infallible. Sold by J Maggiel, 43 Fulton Street, New York, and all Druggists, at 25 cts. per box.

SCHENCE'S MEDICINES.—To cure Consumption, the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good wholesome food, which by these medicines will be digested properly, and good healthy blood made; thus building up the constitution. Schenck's Mandrake Fills cleanse the stomach of all billous or mucuous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

SCHENCE'S PULMONIO SYRUP is nutritious as well as medicinal, and, by using the three remedies, ell as medicinal, and, by using the three reme il impurities are expelled from the system, and and good

all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption very frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhoa they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic, Syrup to act on the respiratory organs properly and allay any pritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the rooms as much as possible, eat all the richest food-fit meat, game, and, in fact, anything the -fat meat, game, and, in fact, anything th st food—fat meat, game, and, ppetite craves; but be particular and masticate well. 2d w ea mo l yr ALL MAY MARRY HAPPILY.

paid for until you know what you are to receive. After receiving the article, if it does not please you, you can return it and your money will be refunded.

THE STOCK COMPRISES, amonst other articles, Splendid Clocks, Gold and Silver Watches, Rings set with Diamonds, Rubies, Pearls, Garnet and other Stones, (solitaire and in clusters) Ladies' sets of Jeweiry, comprising Pins and Ear Rings of the most fashlonable styles, set in Precious Stones of every variety, together with a large assortment of Gold and Enamelled and Pearl Sets, Gold Stucs and Sieeve Buttons of the most beautiful patterns, Gents Bosom and Scarf Pins, and an endless variety of Bracelets, Chains, Musical Boxes, Head Dresses, Combs, Charms, &c.

Chains, Musical Boxes, Head Dresses, Combs, Charms, &c.
In consequence of the great s agnation of trade in the Manufacturing districts of France and England, a large quantity of valuable Jeweiry, originally intended for the European market, has been sent off for sale in this country, and must be sold at any sacrifice! Under these circumstances the "WATCH & GOLD JEWELRY O." have resolved upon AN APPORTIONMENT! subject to the following regulations:
Certificates of the various articles, without regard to choice or value are first put into envelopes, sealed up and mixed; and, when ordered, are taken out by a Blindfolded boy, and sent by mail, thus giving all a fair chance. On receipt of the Certificate, you will see what you are to have, and then it is at your option to send the dollar and take the article or not. Purchassers may thus obtain a Plano, Melo-

to send the dollar and take the article or not Purchasers may thus obtain a Plano, Melodeon, Sewing Machine, Gold Watch, Diamond Ring, or any set of Jeweiry on our List for One Dollar. NO BLANKS. SEND 25 CENTS FOR A CERTIFICATE.

NALE, IN CECIL COUNTY, MD., ON
SATURDAY, NOVEMBER 17th, 1880.—The
undersigned will seif at public auction, at the
Union Hotel of James Barratt, Esq., situate on
the road leading from Port Deposit, Cecil
county, Md., to Rowlandville, Md., midway
between the former and latter pinces, on Saturday, the 17th day of November, the following
very valuable real estate;
No. I. A convenient and well-built HOTEL,
known as the "Union Hotel," now in the occupancy of James Barratt, Esq. Said hotel is
28x15 feet, two stories high, with a basement,
also with kitchen attached; the entire building
contains 9 rooms; there is a good Barn, and
all the necessary out-bildings; abpring House
with an excellent Spring of Water at the door,
This property is situate on the Susquehanna
River, and on the Port Deposit and Columbia,
Pa., Railroad, which road is now building, and
will be completed within the year 1867. This
hotel has done a "tip top" business, and is
now doing a better business than any other
house on the Tide Water Chana—the old canal
being rebuilt and repaired, a large trade will
be connected with the Cannia and Railroad on
the complete on of both in 1867.
No. 2 A SMALL FARM OF SUSQU'Ebe connected with the Cannil and Railroad on the complet on of both in 1807.

No. 2. A SMALL FARM OF SUSQUE-HANNA LAND, containing ELEVEN ACKES, more or less, suitable for a sing little Truck Farm, where the occupant can attend either the Port Deposit or Rowlandville markets, also, the Conner's Vilia market. There is thereon a good DWELLING HOUSE, containing 5 rooms, a well of good water near the door, and all the buildings essential to a truck farm.

farm.

рикк CALIFORNIA WINES!

GURNER & CO., No. 80 CEDAR STREET, NEW YORK, OFFER FOR SALE

hese valuable Wines, which are gaining put lic favor with astonishing rapidity, and whose unprecedented and unrivalled popularity is not without merit. They have only to be fairly tested to give them the preference overfal others. As a purifier of the blood they excel others. As a painter of the shoot state and all other Wines, and the numerous certificates which have voluntarily been tendered from the most eminent physicians, is well asgentlemen in every position in life, are proof conclusive that these Wines are useful in all cases or which they are recommended.

The following brands are now offered by us They comprise all the varieties now in the state sultable for sale: Same surtable for safe:
WHITE, OR HOCK WINE.
Of a light straw color, very delicate
flavored.

CLARET.
A superior wine for table use. A superior wine for table use.

ANGELICA.

A rich and naturally sweet wine, much admired by ladies, and valuable in the sick chamber, as it makes fine wheys and jelle, It is a fine desser; wine, and well adapted for Communion purposes.

MUSCATEL.

A light colored, highly aromatic wine. Very similar to the celebrated Tokay.

similar to the celebrated Tokay.

PORT.

Deep red color, fine flavor, and in many respects similar to the old wines of Lisbon.

GRAPE BRANDY.

The pure distillation of our wines.

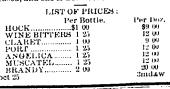

WINE BITTERS.

A very agreeable tonic and a sure remedy for the diarrhoa. This is one of the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold throughout the North during the last four years, and wherever introduced it hus

troduced it has proved a wel-come ad-dition

The invalid table, the family circle and the bachelor's sideboard. Ladies who have lost strength and appetite, and suffer from nausea, vomiting and vertigo entlemen who "don't feel very well" Just before breakfast or dinner, whose stomachs are out of order, and whose systems are generally decorated, mothers weaping children, and deranged; mothers weaning children, and suffering from general debility; children of sickly nature and sour, dyspeptic constitutions; ravellers who have occasion to change their water, and all who live in malarious districts deranged; mothers weaning water, and an who live in materious districts and are subjected to miasmatic influences, will find it one of the most valuable invigorators It was used very extensively in 1861, with

ach general satisfaction that in offering it to the public now we deem it unnecessary to pub-lish any of the many certificates which we have received, testifying in the very strongest terms in its favor. All that we can say is to marantee that we will pledge ourselves to furish article PURE AND UNADULTERATED.
It has been given to little children suffering from weakness and weak lungs with most happy effect. One little girl in particular, with ain in her head, loss of appetite and daily vasting consumption, on v wasting consumption, on whom all medical skill had been exhausted, has been entirely restored. She began with but a teaspoonful a day. Her appetite and strength rapidly in-creased, and she is now well.

Miscellaueous.
