It removes greese spots as if by magic, and softens the dirt by soaking, so that the rinsing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itsel; which is secured by Letters Fatent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used. Among the advantages claimed are the following, viz:

It saves all the expense of soap usually used on cotton and linen goods.

It saves most of the labor of rubbing, and wear and tear.

Also, for cleaning windows it is unsurpassed. With one-quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water require dexcept to moisten the powder.

What class of people will be most susceptible o attacks from Cholera? Evidently those affected with any disease of he stomach, liver, or any of the organs apper-

aining to digestion. This class of persons un-loubtedly will be more liable to contract this disease than those possessed of strong and healthy digestive organs.

The question then naturally arises, how

shall we restore and keep those organs in a healthy and normal condition? We answer, by attention to diet, avoiding all undue excite-
