Com'th vs. Albert White.—Fornication and bastardy. The District Attorney took a verdict of not guilty.

Com'th vs. Jacob Nixdorf, --- Adultery, The fact of Nixdorf's dwelling with and marketing for another lady than his lawful wise, was clearly proved. SNOW IN CITIES, -The Pittsburg Com mercial thinks snow is a nuisance in a city, at least in such a city as Pittsburg. It says it is neither a convenience nor a beauty-That is no doubt true of Pittsburg, where not a single one of the beautiful flakes which leaves the clouds in such spotless purity can ever reach the earth without assing through an atmosphere rendered nack by soot and coal dust. But in Lancaster the snow sometimes wraps the whole town in a robe of spotless purity. All day vosterday and last night our streets were arrested by a covering of spotless white. The fierce storm which prevailed kept the country tolks at home, and only here and there was some one found hardy enough to venture out. As we looked out through an

atmosphere thick with the driving snow up and down the almost deserted streets the city wore an arctic look. There was a sort of beauty in the scene, but it was not suffl ciently attractive to make us wish for a continuance of such weather. We welcome the sunshine, even with the assurance that the snow sprend covering of our streets will soon cease to be an emblem of purity, that it will be all soiled and stained, neither ar object of pleasure or profit.

THE LECTURE AT THE COURT HOUSE,-We are sorry that J. R. G. Pitkin, called : Judge, hailing from New Orleans, and boasting to be excessively loyal, was invited o andress the Soldiers' and Sailors' Union of this city. If we understand the objects f this association, it is not political in its character. We published a local notice, ulling attention to the meritorious objecor which a sories of lectures, was being insituted, (the erection of a monument to the leceased soldiers of Lancaster county) and orging our readers to attend. We did not say what we were confident would be the ourse pursued by the lecturer. We knew nothing of him except what we gath ered from his name and character amounced; but we supposed he would urn out to be, what he proved himself to

The subject chosen by the lecturer was

The Puritans," That is a suggestive subper in those days. The speaker shower hat he understood how to treat it according o the extremest doctrines of Radical belief, From his subject he undertook to adduce orguments in favor of negro suffrage, unqualified, universal, and without any retrictions. He even went so far as to con down Summer and Stevens for not being sufficiently Radical. He favored not only the annihilation of all the Southern States, but the reduction of the whole region to onis Congress might dictate. He held up Ben Butler as the great type of Puritan charac ters, extolled him as the greatest living mn and nominated him for President. So extremely violent was his harangue, that the more respectable portion of his audince were completely disgusted, and leadng Republicans were heard to denounce his ecture as vulgar balderdash. We are sorry such a fellow was brought to our city. His lecture must injure the good cause which ose who employed him have at heart. We are sure if they were to employ som well known lecturer, that the people of all parties would turn out en masse. Let them

The friends of Cameron and Stevens returning from the inaugura tion and Senatorial election, during the interval amused themselves too frequently by looking into the mouths of numerous lack bottles on board the train, and th onsequence was that they got up a firsthas fisticulf entertainment among them selves. Peter Smith vs. The Mayor, Aldermen and Citizens of Laucaster—Suit for \$300 Bounty. Judge Hayes delivered the fol-

owing opinion, giving judgment for the plaintiff on the case stated. Judge Long stated that he had himself grave doubts as to the constitutionality of the Law; but curred in the opinion, so that the case ght be taken to the Supreme Court for concurred in the opinion, and in inight be taken to the Supreme Court for final adjudication.

The proper decision of this case depends upon the Act of the 25th of March, 1864, P.

Wesley Brahaling to payment of L. 85 (No. 88) "relating to payment of bounties to volunteers;" and the Act of the 1st of May, 1866, P. L. 144, "Relating to the

oxyment of bounties to the veteran volum These acts, provide, for the case of Peter Smith, the plaintiff, and unless they be unconstitutional and void, he is entitled to recover. With respect to the first of these acts, the objection to it as unconstitutional is not insisted on; but it is said that the plaintiff on the 23d of December, 1863, was re-enlisted as a private and veteran volui eer to serve 3 years, and the credit was assigned to Lancaster City; and that this assigned to Lancaster City; and that this said city under the call of March 14th, 1864, eleven days before the passage of the act of 1861; therefore his case is not within the provisions of that act, because he was at the time of its passage credited to the city, whereas, if he had been credited, after the massage of the act its provision. "That in

whereas, if he had been credited, after the case any veteran soldiers who have enlisted and have not been credited to any special toadily shall hereafter be credited to any special toadily, shall hereafter be credited on the present draft to the locality from which they originally volunteered, such volunteers shall be paid by the local authorities &c.," would clearly have embraced it. Because no recovery could be had under this act, it is said, the Act of 1868 was passed. And the preumble of the inter act shows that it was in fact, because many of the said veteran volunteers who had re-enlisted for three years after serving from the beginning of years after serving from the beginning he rebellion, were not able to secure loca counties, that the Legislature deemed i bounties, that the Legislature deemed it their duty to interfere, and emed "that all veteran volunteers who have regularly re-enlisted and re-mustered under general orders, &c., and who have not received any local bounty, &c., shall be paid a local bounty of \$300, which shall be paid by the proper authorities of such counties, cities &c. as received the credit of such veteran

proper authorities of such counties, ones &c., as received the credit of such veteran volunteers., The language of the 3d clause of the preamble indicates the opinion of the Legislature, that the former act was mis-understood; and so unquestionably it was in its spirit and reason; since, if it was the in its spirit and reason; since, if it was the duty of the local authority to pay the bounty where the veteran had re-enlisted before, though he was not credited until after the law was passed, it was as clearly its duty to pay where he was both re-enlisted and credited before. By adhering to the letter, justice in this instance as in many others, was defended, varifying the marking and vas defeated; verifying the maxim, qu

But this act of 1866 it is argued, is uncon stitutional. The question was well argued on both sides, but neither the ingenuity of counsel nor the authorities cited have convinced the Court that there is any conflict between these acts, (the latter in regard to the payment of such claims us the plaintiff's being merely explanatory of the former,) and the Constitution; and we are of opinion that the plaintiff is entitled to recover. Let judgment be entered in his favor for \$300.

PRINTING OFFICE DESTROYED BY FIRE On Sunday morning about 3 o'clock the watchman at the Laucaster County Bank iscovered a smoke issuing from the Print ing establishment of Stuart A. Wylie. ocated in the rear of Yecker's Saddlery, and fronting on the alley leading from East King street to Orange. Soon after the alarm was given the firemen repaired promptly to the scene of the disaster, but the water place being frozen it was some time before the engines could get into play. The building was of brick, three stories high and covered with slate. Smoke was issuing from all the crevices in the building, and when the doors were broken in the interior of the whole

building was in flames. The firemen worked manfully, but failed to save any of the contents. It was a sad yet novel sight - the coldness of the weather freezing the water almost nstantly, which gave the firemen the apannance of walking icebergs.

The building with all its contents, including six printing presses, steam engine, hree hundred reams of paper, &c., &c., were elther irreparably damaged or totally de stroved.

We understand Mr. Wylie's loss is estlmated at \$14,000, on which there is an insurance of \$8,000, The origin of the fire is not positively known, but is supposed to be the work of

"Never," says this veteran Journalist, "buy goods of those who don't advertise. They sell so little that they have to sell dear." Any one who will take the trouble can easily scertain for himself that such is the invariable rule. It holds good in Lancaster. The merchants who adventure most liberally invariably offer the best bargains to purchasers. Look over the columns of th aper you take when you want anything. and go right to those who advertise liber ally. You will be sure to get better goods at lower prices than you can of those who

do not advertise.

THE SNOW STORM .- A heavy snow storm visited us on Sunday, and the snow continued falling all night long. A high wine accompanied it, and the consequence is that to-day all the roads leading into the city, which run North and South, are drifted full of snow, even with the fences on each side. The country folks who succeed ing in getting through, say that they had terrible time of it. The people living along the Willow Street turnpike and some other of the roads, turned out early this morning and shoveled a track along the middle of the roads, or there would have been no getting over them at all. The Criminal Court of the county meeting to-day, a large number of persons are inconvenienced by this state of things, and the business of the

Court was very much embarrassed. Mr. A. J. HINDEMYER.-Formerly o Columbia, who recently made the discovery of a method by which steel plates are per manently welded upon the face of railro bars, has, we learn, been entirely successful in the practical application of his invention Having secured letters patent, he has now certain fortune within his grasp.
