

Our Jobbing Department. The Job Office of the INTELLIGENCER is one of the most complete in the State. We are prepared to do every description of job work at the shortest notice and in the highest style of work.

The Famishing Cry for Food. As a people, we have always shown ourselves to be charitable. Never yet did a tale of real distress fall upon American ears without eliciting a generous response.

Protection to Capital not to Labor. It has been well said by some one that our tariff system is "a protection to capital and not to industry." The remark has much truth in it, and is proven by the scene which we can witness any one of these days at Washington.

Do the Gaited Jined? The County Commissioners, it seems, were greatly enraged by our exposure of their financial malversations, and after turning their wrath against us, they resolved to interfere with the publication of our paper.

The County Commissioners on the Rampage. As a specimen of literary elegance and grammatical correctness, we are sure you will enjoy the reading of the following remarkable production.

Legislature Reform—It Must be Fundamental. The people can no longer close their eyes to the fact that the hideous cancer of legislative corruption has spread its deadly pollution over the State.

THE IMPENDING COUP D'ETAT. Starting from Washington. The New York Times on the Situation. A Voice of Warning from the Appalachians.

NORTHERN RELIEF. Great Meeting at Cooper Institute, New York. Appalling Description of the South. Speeches by Henry Ward Beecher, Horace Greeley, and others.

How to Remedy the Disgraceful Corruption of our Legislature. We publish elsewhere a remarkable editorial from the Chambersburg Patriot, which is regarded as one of the most prominent Republican newspapers in Pennsylvania.

A Sensible Speech from a Republican Congressman. On Monday last, Thaddeus Stevens' infamous Reconstruction Bill being under consideration in the House.

Radical Corruption. A telegram from Indianapolis to the Cincinnati Gazette, a Radical paper, asserts that all the subordinate officers of the Indiana Legislature were sold out by the Radical majority for consideration.

Will the Democracy warn the people of Pennsylvania that the election of George W. Fox, a negro, to the office of Governor, would be a disgraceful and unwelcome addition to the list of disgraces which have befallen the State?

Free Maryland. The Italianists made the air tingling with the shout of "Free Maryland!" when African slaves were abolished there; but we remember, as we listened to their jubilant cry, that the white citizens of that State had been enslaved.

The Hagerstown Mail. The Hagerstown Mail, which has always ranked among the best of our Maryland exchanges, is now more ably conducted than ever.
