Adjourned Court of Quarter Sessions Tuesday Afternoon,-Lewis Suter plead guilty to an indictment for assault and battery committed on John Kautz, and was sentenced to pay \$10 fine and costs.

Wednesday Morning,--Com'th vs. Wm. Baney, Selling unwholesome beet, This colobrated case, of which our readers proably recollect something, as a full account of it was published in the papers at the time or its occurrence, was attached this morning. Baney is a butcher at Bainbridge, and sometime last summer purchased from a neighboring farmer an ox, which had a large lump on its neck that became at times a running sore. A Winebrennarian camp meeting was being held near Bainbridge a the time, and Baney being an adherent of that Church, the contractor for furnishing food to the camp meeting was required to purchase his meat from him. Most of this x was disposed of in this way. Numerous witnesses were examined for the prosecution this morning. The question in the case is, as to whether this sore on the neck rened the meat unwholesome, and the tes-

timony will doubtless be very conflicting. Thursday Morning. Com'th vs. Baney, The jury in this case-an indictment for solling diseased meat went out last evening about six o'clock, and remained out until two o'clock A, M, This morning they brought in a sealed verdict, acquitting Baney, but directing him to pay one third of the costs, and the complainant to pay the remaining two-thirds. Smith and Dickey were for the defense, and W. A. Wilson, with the District Attorney, for the Commonwealth.

Com'th vs. Henry Rambo, (colored.) The defendant lives in Marietta, and is charged with malicious mischief by Mr. Grier, another colored gentleman, in cutting off with an axe the wooden pillars upon which rested the palace in which said Grier resided, in that lovely borough.

The difficulty arose out of a dispute as to the title to the elegant mansion upon which the damage was inflicted. An honest old darkey named Emanuel Kane, a veritable Uncle Tom" in appearance, and a hominy manufacturer by profession, testified that he bought the property some 20 years ago from Dr. Houston, Sr., but afterwards be coming embarrassed by reason of the failure of certain extensive business enterprises in which he had engaged, he gave a deed for the house to Dr. Cushman, as collateral security for the payment to him of some \$80, which security was afterwards transferred to a Mr. Whipper, of Columbia. Grier rented half of the house from Kane in 1861, agreeing to pay as rent \$20 per annum, and to have transferred to himself Kane's obligation to Whipper. In 1864 Kane wanted a settlement with Grier, which he does not seem to have got; but Grier then got a lease of the house from Whipper, In 1865 Kane sold half of the house to Rambow, a returned soldier, and offered to pay Grier the amount of his indebtedness, which he refused to take. Recourse was then had to Souire Brown. The Souire testified that he could make nothing out of Grier; that "he would neither lead nor drive," and he therefore, under a recent act of Assembly, which he somewhat astonished the Court and the District Attorney by calling to their attention, issued his warrant to the con-

THE NEW PATENT COOK STOVE .- The attention of those interested in procuring the best Cook Stove in the market, is directed to the advertisement of Marshbank & Mar tin, Iron Founders and Stove Manufacturers of this city, Their new Patent Nimrod Cook Stove, after a fair test, is now admitted by all who have practically tested its adantages, to be superior to anything in that line heretofore known in the market. But one fault has been found with it. and, we o be very superior. suppose this will be regarded as a good fault The objection to all other flat-top Cook stoves of which we have any practical know-ledge, has been the difficulty of maintaining a uniform heat in the oven-the degree of heat which would bake a loaf of bread or pie properly on the bottom scorching the top crust. This objection is entirely overcome by Mr. Marshbank's patent cut-off

flues. which hold the heat in the bottom of the oven, baking the bottom of a pie as quickly and as uniformly as the top. The "good fault" we speak of, is its extraordinary draft. Where other cook stoves required all the power of a good chimney to get even a tolerable heat in the oven, th "Nimrod" has to be bridled down with closed dampers to keep it under control. The advantages of this will be apparent to any one who has any experience in working steam boilers. It is to gain a similar result that such immense stacks are built for steam manufacturers-to give the engineer com-

plete control of his fires. This great advan age is secured to the cook in the use of the Nimrod Cooking Stove, and we are confi. dent when this peculiarity is once under stood the Nimrod will rule the market. There are many other modern improvenents in this stove, which are set forth in the advertisement, and to which we direct the attention of the reader. MORAVIAN AFFAIRS .- The catalogue of

Linden Hall, the Moravian Seminary for young Ludies at Litiz, Pa., has been issued t affords gratifying evidence of the continued prosperity of the Institution, and o ts popular sympathy and support under ts present able and gentlemanly Principal. It ranks among the foremost educational institutes of the country. The Moravian congregation at Bethlehem

uve decided to remodel and transform the nterior of their large ancient church edifice, and carpenters have already commenced apon the work of improvement. The old

style benches are to give way to pews, the doors to be shifted to more convenient positions, and other modern improvements both in regard to style, and comfort, and convenience, introduced. The pews will not, however, be rented, the old regulation regarding the seats to remain in force. The stimated cost of the alteration in the build ng is **8**15,000.

The stated Triennial meeting of the Provincial Synod of this Church has been appointed to take place at Litiz. Lancaste ounty, on the 22d day of May next.

REJECTED.-Mathew M. Strickler, Collecor, and Davis A. Brown, Assessor of Internal Revenue for the Lancaster district were rejected by the United States Senate on Saturday. A number of other Collectors and Assessors were rejected at the same time-among them Major Grant Weidman, Assessor at Lebanon, who served gallantly under the Union flag during the rebellion. CORONER'S INQUEST .- Deputy Coroner

Bigler held an inquest on the body of a colored child found on last Thursday in the barn of Jacob Leid, in East Cocalico town ship. It was wrapped in some old clothing and hid in the hay. The verdict was, that it came to its death by force and violence by some person or persons unknown to th jury.

PAY TO OFFICERS FOR SERVANTS' HIRE -We clip the following in regard to the pay o officers for servants' hire from the Na tional Intelligencer, presuming it may con ern some of our ex-volunteer officers:

PAYMASTER GENERAL'S OFFICE, WASHINGTON, Feb. 21, 1867. 5 The action of the Court of Claims allow The action of the Court of Claims allow-ing difference in pay to officers for their servants between May 1, 1861, and March 3, 1865, is not final. Should it be decided that the Department is to act on this class of claims, the public will be advised through the press. Until then no claim will be en-tertained. B. W. BRICE, Paymaster General.

It is well to state in connection with the above, that the proper accounting officer, whose decisions on this subject the Court of Claims has overruled, has ordered an appeal to be taken to the Supreme Court.

SOMETHING FOR THE LADIES .- Here is recipe which our lady readers will find really the thing, and quite delightful. It is called "Apple Snow." Try it: Put twelve good tart apples in cold water, and set them on a slow fire. When soft, drain off the water, strip the skins from the apples, core and lay them in a large glass dish. Beat the whites of twelve eggs to a stiff frost, put a half a pound of powdered white sugar to the apples; beat them, and then add the eggs. Beat the whole to a stiff snow, and turn them into a dessert dish

A thorough test of Luis improvement as ap-plied to this stove, proves as a Baker superior to any other before the public. This Stove also combines all the modern im-provements, such as Reversible Cross Pieces, allowing the Wash Boller toset in any position on the top, and when the Cross Pieces are ro-moved leaves a largo opening to admit a Wash Ket. le or Cauldron on the top. The Anti-Dust arrangement is cast iron in-stead of wire, as most of the Anti-Dusters are -therefore not liable to burs and rust out like wire. It can be used in warm weather, or at any time to Roast or Broil ou with charcoal or chips, which cannot be done sately where wire instead of cast-iron is used. All the Cross Pieces of this Stove are extra heavy, double lined, and all the other Piats extra heavy; the Front Fire Doors silde in-stead of swinging as ordinary Stoves do, there-fore can be opened or closen at pleasure with-iout removing any vessel setting on the hearth. torney, for the Commonwealth. Thursday Afternoon.-Com'th vs. Levi Miller. Resisting a tax collector. The dependant was the tenant on the farm of John Erb in the northern part of the county. Erb had removed out of the State and demand was made by the tax collector, Mellinger, on the tenant for the amount of tax, some \$400 due by Erb. Miller refused to pay any more than the tax due upon the farm, some \$27 which alone he could be compelled to pay. This Mellinger refused to take and tinally proceeded to make a levy upon Miller's cattle. Miller brought out his gun and told him that if he took any of his property there would be blood spilled. Mellinger desisted but afterwards returned with a small army of six, the second in command, being armed with a latest improved repeat ing Spencer cavalry carbine, bayonetted which he bore at a carry arms; Mellinger himself flourished a revolver, while the privates relied upon the virtues of dungforks and shillelahs. Arrived upon the scene of action the enemy was observed armed with a musket, occupying a com-manding position on the barn floor. Capain Mellinger, having posted a detachment of his forces to cover his flank and observe the enemy's movements, entered the stable and led forth a horse Miller, seeing that the time for action had arrived, charged down upon him, but was intercepted by the corps of observation and overthrown; in the shock of meeting, his musket was discharged, putting an abrupt terminution to the life of the barnyard rooster, who was observing the conflict from a neighboring perch. Prostrate upon the ground, the Lieutenant's bayonet to his breast, Miller surrendered. By the terms of the capitulation (modeled after those of Grant to Lee.) upon payment of the tax de manded, he was permitted to retain his side arms and his horses and to return to the bosom of his family. The tax gatherer's party, however like the Radicals in Con gress, in violation of their faith, are now attempting to deprive Miller of his liberty

and his property for the acts of war by his .committed. The Jury found the defendant not guilty

but directed him to pay the costs. Hiese for defence.

This case closed the business of the week and the Court adjourned.

is the story: (*Examiner.*) Strange as it may seem, but nevertheless it is true, that the wild beasts of the forest still infest our county. Our friend, Mr. Henry Hambright, who resides some six-teen miles from the city, near Creve Cour lake, has, during the past winter, lost quite a number of sheep, pigs, chickens, &c., and has been suspecting some of our people for stealing his stock. Just previous to the last fall of snow, he missed in one night seven

He saw the track of some ereof, and the missionaries sent there Sheep were gone. He saw the frack of some animal in the snow, but could not determine the naime of the animal, and his suspicions went to fasten the theft on a negro who live da few miles off -the tracks resembling a man's foot with a stocking drawn over it. He forthwith summoned Judge Phil, Lan-ham and George Lunham, and the three could not decipher the tracks, but they all armed themselves with guns und rifles, and with four fine dogs started on the trail, and followed it to the "horse shoe" of the lake-into a deep cave. The dogs told there was something in it from the manner in which they went in and backed out. A fire was built in the month of the cave, and with their hats they blew the smoke in. It was not long before the party was surprised by the appearance of a huge black bear rushing out at them. The dogs grappled him, and the huning party fied in double quick. Old "Bruin" soon took to a big black-jack, but not until he had killed one of the dogs and severely wounded another. Indian fashion, Ham-bright, Phil. They took the prize away, and returned a few hours after to dig out the cave, but they were soon driven back by the growls of more bears. They then re-sorted to smoke again, which brought forth three fine cubs, weighing a hundred pounds each. The dogs fought them for some time, and they, too, took to the trees, and in this manner were shot and captured by the party. On examining their nest, they found seven sheep, three pigs, one small dog, a cat, six or eight chickens, nuts, corn, &c., in abundance. In place of a coarse, rustic, fushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three he really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the Cra-cassia, Mark, and considered it an invalua-ble accusition, as Nature herself is simple in its combination, as Nature herself is simple yet nasurpassed in its efficacy in drawing im-purities irom, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cutlet it draws from it all its impurities, kindly healing the same, and direct action on the cuticle it draws from it all its impurities, kindly bealing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful, Price \$1, sent by Mail or Express, on receipt of an order by

Mofilat's Life Pills and Phœnix Bitters. were first used in pirvate practice in 1825. They were introduced to, the public in 1835, since which time their reputation has extended, until they have a sale in excess of all other Cathartic and Purlying Medi-cines. There is hardly a family among civilized na-tions who have not personal evidence of their bened-cial effects. Their great success is owing to their uni-form reliability in cuses of Constipation, Billows and Stomachic diseases, whether of long or short duration. They are entirely vegetable in their composition, and harmless to the geniteer linhart. One ingredientopens the porce of the skin is nother is diuretic, and stimu-lates proper action of the kidneys; a third is senol-lient, loosening pilegm and humor from the lungs; other properties are warming and cathartic, and cleanse thestomach and bowels from unhealthy secre-tions. Their combined effect is, to regulate the imp paired functions of the system, and to produce health. It is not asserted offait's Pills are a cure all-that they will cure all complainte-but under ordinary circumstances they may be relied upon to cure Ner-yous and Sick Headache Costiveness, Dryspesia, Indigestion, Jaundice, Liver and Billous Complaints, Colds, Scurvy, General Weakness, ac. They are ex-pressiy made for these diseases. Illions upon millions of cures can be cited. In no single instance has a complaint ever come to our knowledge, where they have not operated as recommended. The printed circular around each bor fully exp inns the symptoms and effects of each disease, specifies treatment, furnishes evidence, ac. We briefly refer to Bay. Janet. Jaker, Streyer and Ague. It is runnored that the rresident will nominate to the Senate a negro for an im-portant office. The runnor grows out of the fact that a petition has been presented to the President asking him to appoint Fred. Douglass, Commissioner of the Freedmen's Burean. The President has said that it would be a good opportunity to test the would be a good opportunity to test the sincerity of the Radical affection for the negro, by submitting his name to the Senate. But it is hardly probable that it will be
