Attempted Murder in Lebanon County A terrible outrage, and probable murder, took place at the farm of Mr. Michael Dutweller, on the road leading from Annville weller, on the road leading from Annville to Campbellstown, in South Annville township, on last Sunday morning. From the confused reports, we gather that the family went to church, leaving the premises in charge of a servant girl named Grunten, and a German. The latter had been in the family but a short time. He had attempted some time ago to make love to the girl, and been repulsed. On Sanday morning he entered the kitchen, and asked the girl if she was still cross. She told-him to clear out, that she didn't want to have anything to do with him, when he struck her on the head with a hummer. He repeated the blows several times, and then left her for dead. She revived, when he repeated the blows until he had struck her no less than nine times on the head, broke her chin and jaw-hones, and several fingers on her hand. He then took a hat and coat of Mr. Dutwoller's and managed to reach a neighbor's house, (Mr. Kreider's), where she was cared for, and steps taken to arrest the brute. He is described as about five feet seven melies high, 22 years old, with thick sandy been repulsed. NAILS, HINGES,

A REAL SAFETY BRIDLE!!

Can be used on Single or Double Harness, or a single line; is durable, there being no gum to break in cold weather; is simple, it not requiring a Saddler to apply it; can be arranged in five minutes by any person; cannot get out of order; costs no more than an ordinary bridle, and, to sum up. is the most effectual Safety Strap and Spring in use, it being impossible for a horse, when driven with it, to either kick, shy or run off, the Springs being Medic Encased, cannot break under any strain put on it, but is a tways to be relied upon; does not choke a horse when applied as some others do, but from the fact that simply drawing hard upon the reins applies the leverage from the top of the head and draws the hit to the top; of the horse's mouth, it thus places the most victous kicker under the bomplete control of the driver. This most complete "Safety Bridle" was patented November 27th, 1800.
