THE AGRICULTURAL COLLEGE.—A meeting of the trustees of the Agricultural College of Pennsylvania was held at the office of the State Society at Harrisburg, on Wednesday, March 13, 1887, Present Magara F. Watts, John W. Geary, Francis Jordan, A. Boyd Hamilton, H. N. McAllister, Jas. Miles, A. O. Hiester, Moses Thompson and John Fraser. During the session it was decided to publish a monthly journal of agriculture, to be edited by the faculty of the

college, the grant by the State of the United States Land Scrip was accepted, and after some debate, during which remarks were made by Governor Geary, Judge Hiester, Colonel Jordan, Mr. McAllister and Gen Fraser, a plan was decided upon for the west of the mountains and one east of Harrisburg, to be cultivated as model and experimental farms under the care of the nstitution, as provided for in the recent act of the Legislature; the farms so purchase or obtained to consist of about one hundred acres each. Motions for a smaller minimum area were ost. It was agreed that the affairs of the

college are now placed upon a permanent foundation, and with the enlarged and capable faculty promises as high a degree of success as has ever been claimed for it by its warmest friends. The improvement of the magnificent farm around the college claimed the attention of the board, and measures were adopted to insure its future improvement and productiveness. If any of our renders wish to see the mountain country of Pennsylvania in all its grandeur a trip to the college, in Centre county, will afford an opportunity to do so, and at the same time he will traverse some of the mos peautiful valleys of Pennsylvania.

There is hardly a family among civilized nations who have not personal evidence of their beneficial effects. Their great success is owing to their uniform reliability in cases of Constipation, Billious and Stomachie diseases, whether of long or short duration, They are entirely regetable in their composition, and harmless to the gentiest infant. One ingredient opens the pores of the skin; another is diuretic, and stimulates proper action of the kidneys; a third is emollient, loosening phlegm and humor from the lungs; other properties are warming and cathartic, and cleanse the stomach and bowels from unhealthy secretions. Their combined effect is, to regulate the impaired functions of the system, and to produce health. It is not asserted Moffat's Pills are a cure all—that they will cure all complaints—but under ordinary circumstances they may be relied upon to cure Nervicus and Sick Headache Costivoness, Dysapesia, Indigestion, Jaundlee, Liver and Billous Complaints, Colds, Scurvy, General Weakness, ac. They are expressly made for these diseases. Millions upon millions of curse can be cited. In no single instance has a complaint ever come to our knowledge, where they have not operated as recommended.

The printed circular around each box fully exp'sins the symptoms and effects of each disease, specifics treatment, furnishes evidence, ac.

The printed circular around each box fully exp'ains the symptoms and effects of each disease, specifies treatment, furnishes evidence, ac. We briefly refer to Rev. David Elder, Franklin, N. one of the leading papers of Canada on this subject;

Most of our readers have no doubt read some of the numerous advertisements of Gift Enterprises, Gift Concerts, &c., which appear from time to the subject of the manner, and they do it tempting barselines in this manner, and they do it as a means of measing their wholesale business, and not no make money. From such an example, it is true, handsome and valuable articles are prompt handsome

act as an advertisement to increase their ordinary business.

We have seen numbers of prizes sent out in this way by SHERMAN, WATSON & COMPANY, of Nassau street, N. Y., and there is no doubt that some of the articles are worth eight or ten times the money paid for them, while we have not seen or heard of a single article which was not fully worth the dollar with it cost. But this is only one of the exceptions of this rule, for as a general thing the parties eugaged in this business are nothing but clever swindlers.

THE HOWE LOCK STITCH.

THESE WORLD-RENOWNED SEWING MACHINES.

MACHINES.

Were awarded the highest premium at the World's Fair in London, and six first premiums at the New York State Fair of 1866, and are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduction of the most approved machinery, we are

now able to supply the very best machines in the world.

These machines are made at our new and spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company, Elias Howe, Jr., the original inventor of the Sewing Machine.

They are adapted to all kinds of Family Sewing, and to the use of Seamstresses, IDre s Makers, Tailors, Manufactur rs of shirts, Collars, Skirirs, Colass, Manufactur rs of shirts, Collars, Skirirs, Coaks, Manufactur rs of shirts, Collars, Skirirs, Coaks, Manufactur rs of shirts, Collars, Corseta, Boots, Shoes, Harness, Saddles, Linen, Goods, Umbrellas, Parasols, etc. They work equally well upon silk, linen, woolen, and corlong goods, with silk cotton or linen thread. They will seam quift, gather, hem, felt, cord, brid, bind, and perform every species of sewing, making a beautiful and perfect such, alike on both sides of the articles sewed.

The Stitch invented by Mr. Howe, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him.

TEN YEARS experience in selling Reaping and Mowing Machines enables me to offer you for the harvest of 1867, the only two-wheeled Self-Rake Reaping Machine that has proved successful in doing the work better in down tangled grain than can be done by hand.

With this Machine, one man or boy, with a good steady pair of horses, can do as much work in a day, and do it better, than two men can do with the best combined hand machine from in use. This has been our experience and that of many of our best Farmers who have used them the last three seasons. Take off your lake and Platform and you have one of the very best Mowers in use; in cutting down tangled grain or grass with this Machine, you can drop your cutter bar allow as you may desire without stopping your team; you can raise or lower it with all ease while it is immotion.
