WHAT DEEDS NEED NO STAMP .- It has been decided by the Commissioner of Internal Revenue, that for the purpose of transferring property from husband to wife, or from wife to husband, or from one of them to both jointly, deeds are made to a third party and then back from him to either or both, such instruments need not to be stamped as conveyances, as there i no sale, but only as agreements; but i they contain powers of attorney, these should have their appropriate stamps.

POCKETS PICKED, The light-fingered gentry have been about as usual on the 1st of April. John Grube, of Manor township, had his pocket picked of \$950, somewhere on Centre Square or North Queen street. The pocket was cut with some sharp instrument and the money taken out.

Another gentleman, Mr. Hertzler, from Salunga, had \$300 taken from him in front of Horting's Hotel, in North Queen street. The pocket was also cut.

IMPORTANT TO DRAFTED MEN-It will be remembered that act No. 56, approved Feb-28, 1867, provided for the relief of certain persons drufted into the military service under the calls of the President of the United States made February 1, 1864, and March 14, 1864, and who paid \$300 commutation, thus exempting them for one year and who were again drafted under the call of December 19, 1865, thus being again called upon to enter the service or furnish a sub stitute in less than one year from the time of their being first drafted. The intent of the fifth section of the amendatory enrolment act of February 24, 1864, being to exempt for one year all persons who had paid the \$300 commutation. Congress, therefore, enacted the law above mentioned authorizing and requiring the Secretary of War to refund to each person so drafted who paid commutation and was also required to enter the service or furnish substitute, the sum of \$300, being the sum of money paid by him.

The Secretary was also authorized and required by section 2 of the act to refund from the commutation money the amount (not exceeding three hundred dollars in any one case) paid by any person drafted during the late war who furnished a substitute or paid commutation money, whenever it shall appear that under the decisions and rules of the War Department governing at the time, the said person was entitled to discharge from the obligation to render personal service under the draft for which he paid money or furnished a substitute, and to refund, in like manner, in all cases where it shall appear that a person so having paid commutation money or furnished a substitute was not legally liable to draft. There is, however, to the latter section, a provision that it shall apply only to claims received at the War Department prior to its

Since the passage of the above act several claims for, the recovery of commutation under its provisions have been received by the second auditor, by whom they were referred to the War Department for information as to what officer of the government should attend to their settlement. The Secretary of War decided that all claims under the act of February 28th, 1867—where the claimants are alive will be settled by the direct action of the War Department payments made accordingly.

SALE OF VALUABLE STOCK .- The sale of blooded eattle on the 14th inst., at the farm of J. E. Kreybill, was largely attended, and the bidding quite spirited. The follow-

and the bidding quite spirited. The following is a list of the sales:

*Cook...—Lady Jane, \$105, Daniel Berger, purchaser; Lalla Rookh, \$16, Lyman Huff; Esterville, \$90, John P. Stehman; Young Lady, \$167, W. M. Ogiesby; Gulmare, \$110, Jacob Stehman; Astoria, \$210, Jacob Jl. Minsser; Minerya, \$81, Lyman Jacob H. Musser; Minerva, \$81, Lyman Huff; Isaoella, \$86, Jacob Stehman; Ma-rion, \$150, J. C. Kready; Sylph, \$132, J. Hildebrand; Rose, \$100,50, J. Gamber; Gar-land, \$100,50, J. Gamber; Belvidere, \$100, J. Gamber; Muy Flower, \$61, J. Gamber. J. Gamber; May Flower, \$61, J. Gamber, Heiflers - Rose Hamilton, \$80, J. P. Stehman; Laura, \$57,50, J. C. Sharpless; Marietta, \$70, J. C. Kready; Loha Montez, \$22, J. P. Stehman; Fountain Queen, \$14, B. M. Stauffer; Cinderella, \$88, W. M. Oglesby.

Bults-- Rover, \$61, C. Mumma; Reefer, \$4, A. Herr; Hendon, \$35, J. A. Gerber; Liberator, \$151, A. Herr; Avondale, \$54, David B. Brant; Prince Albert, \$180, A. Geiger; Messenger, \$200, J. H. Hershey; Albion, \$70, Tobias Herr.

Culres.—Azim, \$21, John Shenk; Red Rose, \$55, Tobias Herr; 3d Grand Duke, \$101, Wm. Oglesby; Oxford, \$85, J. C. Krendy. Grand Duke withdrawn at \$321.

contain a quart.

CANE PRESENTATION.—The other day Senator Lowrie of Erie was presented with n cane by John Burns, "the old hero of Gettysburg." The cane bears the following

The root of this stick was baptized by the blood of Gen. Reynolds, cut by the hands of John Burns, who presented it to

THE LUMBER TRADE BACKWARD,-The Mariettian says:

Thus far everything is quiet along the Susquehanna, we have had a great deal of rain and snow within the past three weeks and the river here is in good running condition, but we learn as yet there is no flood "up the river." The barber-shops, clothing stores, and all other traps pertaining to the season, are opening and waiting patiently for something to "turn up."

THE NUMBER OF SNOWS .- Somebody sometime last Fall, published to the world that, during the winter of '66-67, there would be forty one falls of snow. This prediction was founded upon some satisfactory phenomena-satisfactory to the party prophesying-but we are now unable to say what particular star or planet was to be in conjunction was some other particular star or planet-whether Mars and Venus were to be united-whether the Great Bear traversed the Milky Way-whether the Sun forgot to rise or set within the thousandth part of a second, as set down in the almanacs, or the axle of the earth was out of order, and the repairs could not be made by reason of the strike among the mechanicsbut this we do know, that there has been a fall of snow on forty-one different days of

FREDERICK SENER .- Our readers may perhaps remember that some time since our friend Mr. Frederick Sener, one of the most extensive distillers in the county, was charged by a local detective with defrauding the revenue. Mr. Brooks, the chief of the Internal Revenue detectives at Washington, was sent on to investigate the matter, and we are pleased to learn from a cotemporary, that after the most thorough investigation, Mr. Sener was honorably acquitted of any fraudulent intention. Mr Sener has paid tax to the government during the past year amounting to over \$82,-900, and was complimented by Mr. Brooks upon the honesty of his transactions. S. H. Reynolds and J. B. Amwake, Esq's. represented Mr. Sener in the investigation

A BOLD ROBBERY .- Mr. H. M. Brubaker of Rapho township, had his pocket picked on Saturday, in front of the Court House steps in this city, and his port mannaie containing \$500 taken. The money was in his pantaloons pocket, and the thief obtained was a crowd on the pavement at the time, and the scoundrel, who appears to have been an expert at the business, took that opportunity to commit the robbery.

satellites which revolve around it in the shape of Coughs, Colds, Bronchitis, Sore Throat, Influenza, &c. The remedy we allude to is Dr. Wistar's Balsam of Wild Cherry, prepared by Seth W. Fowle & Son, but had nothing to do with the rising in Ireland.

FATAL ACCIDENT A sad accident oc curred on Tuesday afternoon between four and five o'clock in Manhelm township which resulted in the death of one young man and the severe injury of two others.

It appears that Joseph C. Buckwalter, esiding on the Old Manheim road, midway between Petersburg and Litiz, was tearing down an old barn on his place and about 40 of his neighbors were present assisting him. They were engaged in un-dermining one of the gable end walls, which was about 40 feet in height, and having fastened a rope around the wall, had at tempted to pull it over. The wall, however esisted their efforts, and four young men get to work to still further weaken it; no sooner, however, had they commenced to work than the wall suddenly fell inwards on the side on which the work was being done. One of the young men, named Gamber, succeeded in escaping entirely; another, Reuben J. Erb, being near the corner of the wall, avoided the great mass of the stone, but was severely bruised in the back and legs, by a portion of the corner wall, which fell upon him; the third the boss carpenter, Samuel Kreider, had his leg very badly mashed, probably requiring amputation, and was also hurt in the back and in the head; the fourth man, Jacob Longenecker, a nephew of Emanue Longenecker, the horse-dealer, who resides in this city, who was but 23 years old, was instantly killed, his body being most cruel ly and horribly mutilated.

We have seldom been called upon to record so harrowing an accident as this, and trust it may be long before we are again called upon to fulfil so sad a duty.

PUTTING TAX-PAYERS TO SERIOUS IN-CONVENIENCE.—Almost every day there are omplaints made to us about the former nismanagement of the Collector's Office A large number of persons who have paid their revenue taxes to Mr. Hood, and who have his receipts for the same, are now, and have been, receiving from his successor notices to pay the same taxes again by a certain day, or ten per cent will be added to the amount, as well as twenty cents for the notice. These tax payers are thus induced to drive from one to thirty miles through mud and storm, only to produce heir receipts and thus prove that their taxes have been paid. We know that the Government is strong, yet we do not believe that its officials have any legal right to en force such an imposition as this upon the tax-payers of this district, and we advise such of our rural friends as have receipts to show that their taxes have been paid, to ive no attention whatever to these notices f the books of the former Collector are in uch a condition that no one can ascertai such a condition that no one can ascertain who have, or who have not paid their taxes, then let the Collector employ persons to go to the parties thus erroneously charged, and not compel hundreds of persons to come here when one person could determine the matter by going to them. We understand the Collector has full power to act as we have suggested have suggested.

SERIOUS ACCIDENT.-A little boy, son o Silas Rambo, proprietor of the Peques flouring mills, this county, fell down the natchway of the mill, a short time since,-His right arm was broken in two places and he also received a severe contusion on the head. He was attended by Dr. Wallace, who pronounced his injuries severe but not dangerous.

Indian Doctor!—A. F. La Fontaine will continue to prescribe at his Room, Sprecher's Leopard Hotel, Lancaster city, Pa. Having for many years given his whole time to the treatment and investigation of Chronic Diseases more expecially of the Liver, Lungs, and Blood and having been long and favorably known in every State and Territory in the Union as the most skillful and successful physician in the cure of Chronic diseases, being formerly Professor of Materia Medica, Therapeutics, Pharmacy Medical Botany, and Diseases of Women and Children, in Central Medical College, also, in the New York College of Health, and the Central City Hospital, &c., and has placed opportunities within his reach of no mean importance, and have added largely to his skill and experience.

tance, and have added largely to his skill and experience.

Remember that Dr. La Fontaine is the only physicin in the world that has made Liver, Lung, and Blood Diseases a speciality for whole life time, and the only one who has discovered a full and true theory of the origin and certain cure-of such complaints. Dr. La Fontaine has now perfected a New Specific Remedy, that does not fail to cure specifiy and permanently.

To the Afflicted—We hereby notify the public that Prof. A. F. La Fontaine, the most celebrated Liver, Lung and Blood Physician of this or any age, has, after an experience and success unparalleled in the history of medicine, for over a quarter of a century, demonstrated the fact that the Liver is the main purifier or strainer through which the blood and fluids of the body are cleansed from all poisonous qualities; and that obstructions and derangements in the natural action of this vital organ, is the first and primary cause of nearly all abnormal conditions of the system of a general nature. Office hours from 8 A. M. to 8 P. M. Consultations free.

Details of the Killing of George Rolfe by a Madman.

PORTLAND, Me., March 26.—The particu-lars which have been developed upon in-vestigation into the murder, by a raving maniac, in the neighboring town of Fal-mouth, show it to be one of the most borrible nouth, show it to be one of the most horrible

vestigation into the murder, by a raving maniac, in the neighboring town of Falmouth, show it to be one of the most horrible ever committed in this section of the country. The whole community is convulsed with excitement and indignation, and notwithstanding the assassin is a lunatic from misfortune sustained by the Portland fire, there is a manifest feeling of revenge towards him on the part of many, while all are talking in bitter terms against those who permitted such a dangerous man to have his liberty in the community.

The victim of this terrible tragedy is George Rolfe, and the lunatic murderer is a young man named Ebenezer Williams. He is a minor, and, previous to the confiagration, was occasionally insane; but his disease was greatly aggravated by his pecuniary losses. After the fire he went to Falmouth and resided with his uncle, John Williams, until several weeks since, when, though worth some twenty-five thousand dollars, he declared that he must economize and make up his losses by the fire. Accordingly he went to live alone in an old building or shanty. There he lived peacefully enough, though he always kept firearms to protet himself from robbers, as he said. Although he had once raised his gun at his uncle, he was not regarded as dangerous.

On Sunday morning last the report of a gun from the vicinity of the shanty was heard. The neighbors conjectured that something was wrong, but dare not go near for fear of being fired upon. At about dark Williams appeared at his uncle's house, with the horrible statement that he had killed George Ralfe, a young man who had been stopping with him. He was much pleased at what he had done, saying that he had killed George, and that, as he talked afterwards, he had cut off his head and put it in a dish, but that the head was still talking. The madman was not credited at first, but finally parties proceeded to the old house, where they learned that the maniac's statement was too true.

it in a dish, but that the head was still talking. The madman was not credited at first, but finally parties proceeded to the old house, where they learned that the maniac's statement was too true.

The headless corpse of Rolfe was laid out upon a buffalo robe in the front room, arrayed in full suit of new and clean clothes, which Williams had evidently put upon it after cutting off the head, as there was no blood upon the garments. The head was after cutting off the head, as there was no blood upon the garments. The head was found in another room in a pail of water, the eyes open and the lips parted, and presenting a terribly ghastly spectacle. Williams had evidently been busy with the body all day, washing it, dressing it, &c., as if to prepare it for burial.

The axe with which the head was severed was also found, covered with blood and hair. On examination of the body a bullet hole was found in the left breast just over the heart.

the heart.
The unfortunate victim was between

The unfortunate victim was between thirty-five and forty years of age. The insanity of the murderer is hereditary, his father having committed suicide while laboring under the same disease. He is now under arrest and confined in the county jail. A coroner's inquest has been held, which developed the facts here stated.

----Found at last, a remedy that not only round at last, a remedy that not only relieves, but cures that enemy of mankind, Consumption, as well as the numerous satellites which revolve around it in the shape of Coughs, Colds, Bronchitis, Sore Throat, Influenza, &c. The remedy we allude to is Dr. Wistar's Balsam of Wild The Ceiled Terrifory.

The cession of Russian North America to the United States, if consummated, will be the most important international event affecting this continent which has occurred in

nany years. Such an unimportant part indeed has Russian-America played in the indeed has Russian-America played in the affairs of nations and of men that, when an offer for its cession from one Power to another is made known, the announcement conjures up in the mind of nearly every one visions of a cold, barren, and uninhabited region, conversing about Behrings Straits, and celebrated only because Capt. Beechy and Sir John Franklin voyaged on its coasts. But, in this resuscitation of school-day memories, or even in a cassal clause at coasts. But, in this resuscitation of schoolday memories, or even in a casual glance at
the map of the continent itself, the most
important parts of the territory would mest
likely escape notice. These are the Peninsula of Alaske and the archipelagoes known
as George III. and Prince of Wales, rather
peculiar names for a series of Islands forming part of the possessions of the Russian
Bear. It is noticeable, however, that the
Russians know the islands by other names,
and the one named George III. by Vancouvor, forming part of the archipelago generally known by the name of that monarch,
is by them called Baranov. These islands

vor, forming part of the archipelago generally known by the name of that monarch, is by them called Baranov. These islands are formed by inlets of the ocean, and are more properly a narrow strip of land extending for nearly 400 miles along the coast of the Pacific, broken by n-rrow causeways and arms of the sea extending in every-direction.

The principal settlements are in these islands, the largest town being New Archangel, on the island of Stka, which has a population of only 1,000. On the island called George III, or Baranov, is the seat of the Governor of all the establishments of Russian America. It has a Governor's residence and fortifications, and magazines built of wood, and on its coasts is usually a fleet of two frigates and two corvettes. The whole region along these coasts, including the archipelago of Kodiac and the peninsula of Alaska, is exceedingly mountainous, being a succession of lofty peaks, most of them volcanic, upon them reaching and sula of Alaska, is exceedingly mountainous, being a succession of iofty peaks, most of them volcanic, one of them reaching nearly 15,000 feet in height, and another being little inferior in altitude. The part of the mainland south of Mt. St. Elias, one of the volcanic peaks before referred to, and the loftiest summit on the continent, is nowhere more than 33 miles wide. The islands and coasts of the mainland have generally been well explored, but the interior of the country, which looms up prominently on the map, is almost entirely unknown. The estimated area of the whole territory is about 394,000 square miles. It has an average length and breadth of 600 miles. The longest line that can be drawn across the length and breadth of 600 miles. The longest line that can be drawn across the country, from C.pe Prince of Wales on Bebrings Straits through the narrow strip bordering on British Columbia and the Pacific Ocean, to the extreme southern point of the Russian possessions, is 1,600 miles. But it will be seen from its average length and breadth that the mass of the country is tolerably compact. From several expeditions that have been projected into the interior, it seems that the western into the interior, it seems that the western part of the territory is elevated and uneven

into the interior, it seems thatthe western part of the territory is elevated and uneven, while the part extending alone the Arctic Ocean is generally flat. The north coast was discovered early in the present century, Capt. Cook having previously, as early as 1778, penetrated as far north as Icy Cape. In 1826 Capt. Beechy reached Point Barrow, and at the same time the lamented Sir John Franklin, then Capt. Franklin, traced the coast from the mouth of the Mackenzie River to Tekturn Reef.

The population of Russian America is about 60,000, of whom at least 50,000 are Esquimaux. The remaining portion of the inhabitants are Russians, Creoles, Kodiaks and Aleotos. The principal pursuits and chief dependence of the inhabitants are the fisheries and fur-hunting. Little attention is given to agricultural pursuits; but to view this vast territory as wholly forbidding and barren is to full into a grave error For its shores being washed by the warm Pacific stream, which sweeps up from the China Sea and breaks near the extreme northwest point of the continent, its atmosthers. northwest point of the continent, its atmos-phere is toned down to the salubrity of phere is toned down to the salubrity of points on the Atlantic coast, which are many degrees further from the pole. Far inland there is a region of almost perpetual snow; but on the coast, and as far inland as the breezes from off the China Sea current may reach and modify the rigors of the climate, the land is fruitful and the country inviting.

The fur product of the country has for many years been made a monopoly by the

The fur product of the country has for many years been made a monopoly by the Russian Government, but the United States and Great Britain succeeded in obtaining a lease for the territory from 50° 40° north latitude to 58° 13°, and the exclusive privilege of supplying the Russians with agricultural produce and provisions was granted to the Hudson's Bay Company. The monopoly of the other territory remains with the Russian American Company. It is noticeable that, by the treaties with the United States and Great Britain made in 1824, the late Russian possessions comprehend all the American coast of the Pacific, and the adjacent islands north of the parallel of 54° 40° north latitude, and the whole of the mainland west of the meridian whole of the mainland west of the meridian of 141° west longitude, which passes through Mount St. Elias. This boundary treaty

Accident on the Eric Railroad The express mail train of the Erie Rail minutes past two o'clock yesterday after noon, and was due here at seven o'cloc

noon, and was due here at seven o'clock this morning, met with a very serious accident at two o'clock this morning near Mast Hope, on the Delawa e division of the road, about a hundred miles from New York.

Trackmen were, previous to the time of the accident, endeavoring to replace a broken rail; and when the train was expected a flagman was sent out to stop it.

The engineer, named George Elwood, and the fireman were both on the lookout, but the night was dark, and they did not see the signal of danger.

the night was dark, and they did not see the signal of danger.

The result was, that the engine, which, according to the statement of one of the persons employed on the train, was running at the rate of from thirty-five to forty miles an hour, went at full speed upon the bare ties, breaking the trucks and causing terrible injury to the train.

There were nine cars in all. Three express freight cars followed the tender; then a baggage car, a postal car, a smoking car, and three passenger cars, of which two were slieping cars.

were sheping cars.
Six of these cars—the express, baggage, postal and smoking cars—were all more or less broken up, but none of the persons on them were killed. Some were considerably engineer, Mr. Elwood, lost his life, ne fireman was scalded, but will re-

cover.

The fact that the passengers escaped with so little injury is considered very remarkso little injury is considered very remarkable.

A new train was made up at Deposit, and the passengers, &c., brought to this city at

Death from Trichina Spira is.

It is stated that six cases of trichina spiralis have occurred in Springfield, Massachusetts—all in the family of Ransley Hall—from the eating of ham, and a daughter of Mr. H. died on Monday from the terrible disease. Mrs. Hall is in a critical condition. The ham was purchased about a week ago, and was eaten without being cooked. The whole family, six in number, became sick in a few days, but all except Mrs. Hall are considered out of danger. The Springfield Republican gives the following as the characteristics of the disease:

The symptoms were quite uniform, varying only in degree or intensity. The first one was a violent pain through the eyes, which soon became swollen and bloody. This was followed by pains in the stomach and bowels, with vomiting and a very offensive bilious and mucous diarrhe. There was at the same time and subsequently the most profuse perspiration and urination, and the face and limbs became badly swollen. After the swelling and bloody appearance in the eyes had disappeared, which occurred at about the end of the third day, the limbs began to be rigid. When lying perfectly at ease, the patient would feel no pain, but the least movement of the limbs would cause terrible agony, and touching them in certain places would also cause great pain. Ida, the young lady who died, could only lie with her lower limbs perfectly straight; the least change from that position caused her dreadful suffering. During all her illiness her pulse was never slewer thau 130 or 140 a minute, while during the first part of that time her hands and feet were cold and clammy, while the rest of her body retained its natural warmth. At six o'clook yesterday morning she fell asleep, and never woke." norning she fell asleep, and never

A Revivalist runs off with one of the Sisters. The Keokuk (Iowa) Constitution, states that the Rev. J. Petty, who resided about twelve miles from that city, has lately been holding a revival meeting at which many converts were made, and who were to be buptized next Sabbath, provided all things had gone along smoothly. But, on Wednesday last, the Rev. Pastor of the String Prairie flock took into his head to run off with one of the lambs—a Mrs. Freeman a Prairie flock took into his head to run off with one of the lambs—a Mrs. Freeman, a married sister—who left behind her husband and three children. The Rev. Petty had a wife also and five children, whom he has left in destitute circumstances, On Wednesday last the preacher arrived in Keokuk in company with the guilty woman in a buggy, and soon after disposed of the team to a citizen of that place.

Later in the day Mrs. Petty arrived in search of her runaway husband, and the

Later in the day Mrs. Petty arrived in search of her runawey husband, and the officers of the law were out hunting him all Wednesday night. Early next morning it was ascertained that he and Mrs. Freeman had gone off together on the steamer Sucker State. This Petty, like his apostate brother, Ballinger, is a ranting member of the Godand-humanity party, and wanted all Democratis to be hanged who refused to vote the Radical ticket and to acknowledge his miscegenation preaching as pure gospel.

TUESDAY, March 26. In the U. S. Senate, yesterday, the bull relating to payments of Northern creditors from an ex-rebel fund taken from the New Orleans banks was reported with amendments and passed. It goes back to the House. Mr. Sumner, of Mass., introduced a bill, which was ordered to be printed, securing the franchise to colored persons in securing the franchise to colored persons in all the States. The bill restraining the issue of Agricultural College Scrip to States late-ly in rebellion was passed, and goes to the President. The bill to fix the 1st of June as ly in rebellion was passed, and goes to the President. The bill to fix the 1st of June as the day for the Bankrupt act to take effect was called up by Mr. Sprague, of Rhode Island, and referred. The House adjournment resolution was reported from the Judiciary Committee, with a substitute providing simply for an adjournment of Congress on Thursday. Mr. Trumbull, who reported the substitute, said it was deemed best to adjourn without day, as the Constitution provided for the meeting of Congress in December. After some discussion the substitute was adopted—yeas 21, nays 17—and goes to the House for concurrence. The Senate then went int Executive session, and soon after adjourned. In the House, Messrs. Holman, of Indiana, and Griswold, of New York, offered resolutions in reference to taxation and the currency, but Mr. Broomall, of Pennsylvania, objecting, they were not received. A joint resolution was passed for surveys for a ship canal around the Falls of the Ohio river. The Senate bill authorizing the occupation of a portion of Long Island, in Boston harbor, was concurred in. Mr. Buller, of Massachusetts, made a "personal explanation," in the course of which he attacked the evidence on which Mrs. Surratt was convicted, and asked why Booth's diary was not produced in evidence at the assassination trial. He further

diary was not produced in evidence at the assassination trial. He further at the assassination trial. He further said that eighteen pages of entries in the diary had been torn out, and intimated that this was done for a purpose. Mr. Bingham made a speech in reply to Mr. Butler, efter which Mr. Ward, of New York, offered a resolution directing the Judiciary Committee to inquire into the case of Mrs. Surratt, but objectien being made, it was not received. The Senate amendments to the bill increasing the force of the Patent Office were concurred in. The Senate amendments to the bill relative to payment of Northern creditors were referred; also the Northern creditors were referred : also the Senate bill to pay claims of loyal Choctawa and Chickasaws. The House then ad-

In the U. S. Senate, the annual report of the New York Bank of Commerce of 1865, in which it is stated that Mr. Thomas, of Maryland, when Secretary of the Treasury in 1860, withdrew moneys from the bank, leaving interest on U. S. stocks unprovided for, was referred to the Judiciary Committee. A joint resolution was passed transferring \$50,000 from the Freedmen's transferring \$30,000 from the Freedmen's Bureau to the Agricultural Department to buy seeds for the South: A bill was reported guaranteeing \$5,000,000 for construction of levees on the Mississippi. The bill to prohibit the removal of Indian tribes, or expenditures of trust funds, without special subportation was reported and passed authorization, was reported and passed The Deficiency Lill was passed with amendments, and goes back to the House. The Judiciary Committee made a report upon the testimony concerning Senators Doolittle

ments, and goes back to the House. The Judiciary Committee made a report upon the testimony concerning Senators Doolittle and Patterson, exonerating those gentleman from the charges against them. The Senate went into Executive session, and soon after adjourned.

In the House, Mr. Stevens, of Pa., offered a resolution, which was passed, reappointing the Select Committee on Southern Railroads. The Senate bill making Chester a port of delivery was passed. The Senate amendments to the bill relating to Northern creditors were laid on the table—a defeat of the bill. Mr. Poland, of Vermont, introduced a bill, which was referred, repealing the provisions of the Internal Revenue law, which prevents the Courts from restraining tax assessments and collections. The Senate resolution of adjournment was received, and Mr. Schenck, of Ohio, offered an amendment, providing for a meeting on the first Wednesday in June, and another on the first Wednesday in September, unless the presiding officers declar such meetings unnecessary. The resolution, as thus amended, was concurred in. Mr. Banks, from the Foreign Committee, reported a a joint resolution declaring against the Canadian confederation scheme, which was passed; also a resolution of sympathy for Ireland and Canada in their efforts for liberty. This was unanimously adopted. Mr. Hulburd, of New York, from the Committee on Expenditures, reported a resolution asking for the removal of Collector Smythe. The resolution was adopted—yeas 68, nays 38. A committee of conference on the Senate Deficiency bill was appointed, and the House soon after adjourned.

In the U. S. Senate, the adjournmen In the U. S. Senate, the adjournment question was debated, and a resolution finally passed, providing for an adjournment until the first Wednesday in July. A conference committee on the sucject was afterwards appointed. The Falls of the Objo Ship Cotal Statuta hill your pared. Ohio Ship Canal Survey bill was passed. Very little other business was transacted. In the House, the resolutions of the Maryland Republican Convention, about the condition of that State, were presented, and gave rise to a long debate. They were, however, finally received and referred. The adjournment question was debated, and a resolution passed for adjournment from to-day until June 5th. A committee of conference was appointed. A resolution was passed making eight hours a lawful day's work in Government workshops.

In the U.S. Sanata Mr. Desirata.

In the U. S. Senste, Mr. Davis, of Ky., offered a resolution directing the Judiciary Committee to inquire into and rep.rt upon the circumstances of the erection of West Virginia into a State. The resolution was referred. Mr. Sprague, of R. I., called up the bill making the Bankrupt act go into effect on the 1st of June, but the Senste refused to order a third reading. A conferfused to order a third reading. A conference report on the Contingent Deficiency bill of the Senate was agreed to. Mr. Edmunds, from the committee of conference on adjournment, reported that the conference could not agree, and moved an adjournment from to-day noon to the first Wednesday in July, when, if either House wanted a quorum, there should be a further adjournment. Mr. Edmund's proposition was adopted, yeas 28—nays 12, and the Senate soon after adjourned.

In the House, the Senate resolution relating to payment of claims of colored soldiers was concurred in; also, the Senate fused to order a third reading. A confe

lating to payment of claims of colored soldiers was concurred in; also, the Senate bill in reference to the American Atlantic Telegraph Company, Mr. Clarke, of Kansas, offered a resolution for an adjournment from to-day until the first Monday in June. The Senate adjournment resolution was finally concurred in. Mr. Clarke, of Kansas, offered a resolution, which was adopted, directing the Judiciary Committee to report on impeachment on the first day of the adjourned session. The House then adjourned session.

Congress adjourned on Saturday at noon Congress adjourned on Saturday at noon until the first Wednesday in July. An extra session of the Senate has been called to attend to the confirmation of appointments. In the U.S. Senate, on Saturday, a resolution was offered by Mr. Saulsbury, extending the session of Congress until 3 o'clock, that notice might be taken of the death of Senator Riddle. The resolution was not received. On motion, the War Department was requested to give information as to the payment of money by the Government to the Baltimore and Ohio, Northern Central and Pennsylvania Rail-Northern Central and Pennsylvania Rail roads during the war. On motion of Mr. Sherman, nominations now pending in Executive session were allowed to be con-Executive session were allowed to be continued until acted upon. The House resolution for a joint standing Committee control of the standing Committee control of the standing Committee as special one, and passed. A resolution was agreed to for a joint committee to escort the remains of Senator Riddle home. Mr. Sumner gave notice that he would call up his Universal Suffrage bill on the first day of the adjourned session. The Senate was declared adjourned at noon. In the House a memorial was presented from the Mayor and City Council of Baltimore, asking Congressional assistance in from the Mayor and City Council of Balti-more, asking Congressional assistance in forming a Republican government for Maryland. Mr. Benton, of New Hamp-shire, offered a resolution of thanks to Gen. Sheridan for removing certain officials in Louisiana, but Mr. Wood, of N. Y., object-ing, it was not received. A number of Senate bills were concurred in, as follows: Authorizing traders to remain at certain posts on the plains; for a committee to accompany the remains of Senator Riddle company the remains of Senator Riddle; amendment to the Ordnance Committee resolution. The Senate resolution in reference to removals of Indian tribes was tabled; the resolution relating to transportation of troops by the Isthmus was referred. The Senate bill in relation to sales made by the Commissioner of Direct Taxes in South Carolina was reterred. was presented from the President approving the resolution appropriating \$500,000 for expenses of the Reconstruction act. At 12 o'clock, Speaker Colfax declared the House adjourned.

Fatal Shooting Accident. A distressing and fatal accident occurred near Cogan Station, near Williamsport, on Friday of last week. Elias Hayes, aged about 18 years, son of Ambrose Hayes, of about 18 years, son of Ambrose Hayes, of Cogan Station, was duck hunting on Lycoming creek. From the position in which he was found, it is supposed that in stepping into, or moving about in his boat, he slipped and fell, and in some way his gun was discharged, the contents entering his side, producing a wound which proved fatal in a short time.

Officer Thomas Scott, of the Brooklyn,
N. Y., police, saw a man with a basket, under suspicious circumstances, on the corner
of South Ninth and First streets, early on
Sunday morning, and halled him, whereupon the suspected burglar fired upon him,
the ball grazing his cap. The officer immediately fired back and killed the thief almost instantly. The deceased proved to be
Henry Monzane, a noted burglar, and it is
reported that he is the same individual who
killed Officer Hipwell in Williamsburg last
fall.

** Schenek's Seaweed Tonic.

This medicine, invented by Dr. J. H. Sche
Philadelphia, is intended to dissolve the for o chyme, the first process of digestion. By the stomach with Schenck's Mandrake

digested.

Consumption cannot be cured by Schenck's Pulmonic Syrup unless the stomach and liver is made healthy and the specific restuded, hence the Tonic and Pills are required in nearity every case of con sumption. A half dozen bottles of the Seaweed Tonic and three or four boxes of the Mandrake Pills will cure any ordinary case of Dyspepsis.

Dr. Schenck makes professional visits in New York, Boston, and at his principal Office in Philadelphia every week. See daily maners of each piace, or his Boston, and at his principal Office in Frinancepuis every week. See daily papers of each place, or his pamphlet on consumption for his days for visitation Please observe, when purchasing, that the two like nesses of the Doctor, one when in the last stage of Consumption, and the other as he now is, in perfect health,

sumption, and the other as he now is, in perfect health, are on the Government stamps.

Sold by all druggists and dealers, price \$1.50 per bothe, or \$7.56 the half dozen. All letters for advice should be addressed to Dr Schenck's Principal Office No. 15 North 6th street, Philadelphia, Pa. General Wholesale Agents: Demas, Barnes & Co N. Y.; S. S. Wistar's Balsam of Wild Cherry. Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the Throat. Chest and Lungs, prevail in our changeable climate at all seasons of the year; few are fortunate enough to escape their baneful influence. How important then to have at hand a certain antidote to all these complaints. Experience proves that this exists in Wistar's Balsam to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease and restores the sufferer to wonted health. MR. JOHN BUNTO,

MR. JOHN BUNTO.

OF BALDWIN, CHEMUNG COUNTY, N. Y., writes:

"I was urged by a neighbor to get one bottle
of the Balsam for my wife, being assured by
him that in case it did not produce good effects,
he would pay for the bottle himself. On the
strength of such practical evidence of its merits,
I procured a bottle. My wife at this time was
so low with what the Physicians termed SEATED CONSUMPTION 3 sto be unable to raise herself from the bed, coughing constantly and
raising more or less blood. I commenced siv-ED CONSUMPTION 33 to be unable to raise herself from the bed, conghing constantly and raising more or less blood. I commenced giving the Balsam as directed, and was so much pleased with its operation that I obtained another bottle, and continued giving it. Before this bottlewas entirely used, she ceased coughing and was strong enough to sit up. The fifth bottle entirely restored here to head the long that which several Physicians had tried do but had failed." Prepared by SETH W. FOWLE & SON, 18 Tremont street, Boston, and for sale by Druggists generally.

MADANE REMINSTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and lifelike picture of the future husband or wife of the applicant, with date of marriage, eccupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and erclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with the desired information.

**AA AYOUNG Lady Peturning to her

N. Y. feb 18 2tawd lyalyw

13. A Young Lady returning to her ountry home, aiter a sojourn of a few months in the City, was hardly recognized by her irlends. In place of a coarse, rustic, fiushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIR-CASSIAN BALM, and considered it an invaluable acquisition to any Lady's tollet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also heading, cleansing and beautifying the skin and complexion. By its direct action on the culcle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. Distributions.

We would call attention to the opinion come of the leading papers of Canada on this subject: one of the leading papers of Canada on this subject:

Most of our readers have no doubt read some of the numerous advertisements of Gift Enterprises, Gift Concerts, &c., which appear from time to time in the public prints, offering most tempting bargains to those who will patronize them. In most cases these are genuine humbugs. But there are a few respectable firms who do business in this manner, and they do it as a means of increasing their wholesale business, and not to make money. From such firms, it is true, handsome and valuable articles are procured, for a very small sum, and what is more important, no one is ever cheated. Every person gets good value for his dollar; because, as we have stated, it is intended to act as an advertisement to increase their ordinary business.

We have seen numbers of prizes sent out to act as an advertisement to increase their ordinary business.

We have seen numbers of prizes sent out in this way by SHERMAN, WATSON & COMPANY, of Nassau street, N. Y., and there is no doubt that some of the articles are worth eight or ten times the money paid for them, while we have not seen or heard of a single article which was not fully worth the dollar with it cost. But this is only one of the exceptions of this rule for as a general thing the parties engaged in this business are nothing but clever swindlers.

— Saturday Reader, Montreal, C. E., Jan. 13, 1856.

Jan 13

MOFFAT'S LIFE FILLS AND PHŒNIX BITTERS,
The wonderful effects of Moffat's Life Pills in cases
of mental depression or physical weakness, proceeding from indigestion, costiveness, or billous secretions are certified to by millions of persons who have
been benefitted by them. They are the most effective
cathartic and purifier ever before the public and have
ever been in use since 1252. They are cheap, safe and
reliable. Sold by all respectable dealers everywhere.

CLIMAX.

A plain statement of facts. I inherited Scrofula, and many of my relations have died of it. In 1839 my case was frightful. Tumors and ulcers spread until in 1812, under the advice of my physicians I went to Avon Springs. I received no benefit—tried every medicine and did everything I could: I had to rest my arm on a cushion, and had not been able to raise it to my head for over a year. The discharge from two ulcers was nearly a pint a day. Amputation was recommended; but pronounced dangerous. I could not sleep, and my sufferings were intolerable. A friend brought me an English physician who applied a salve with which he said he had accomplished extraordinary cures in the hospitals in England. It commenced to relieve; persisted in its use; it finally effected a perfect and entire cure. It is now 1818. It is five years since I had the appearance of a scrofulous sore, and my health has been good ever since. I procured the receipt of his wonderful article—this blessing of humanity—and have called it "PADE'S CLIMAX SALVE," and allow the public to use it or not as they choose. This is a brief but candid statement, given more fully in my circular.

GENEVA, New York, December, 1818. J. M. PAGE.

"I have known J. M. Page, Esq. of Geneva, N. Y., for many years. He is one of the first citizens of Western New York. I saw him has tweek in good health. His case was a most remarkable one, but actually true in every particular.

(Signed.)

We have watched the unaided but growing favor of "PADE'S CLIMAX SALVE," and availing ourselves of the knowledge of its wonderful curative powers, have become proprietors of the same.

It is sure cure for Burns, Scalds, Scrofula, Salt Rheum, Fever Sorts, Broken Breasts, Frost Bites, Chilbiains, Sings, Bruises, Cuts, Swellings, &c., whether upon man or beast, It subdues pain and infiammation with surprising celerity, and heals burns without a scar. No family should be without it. It is always wanted, and is always ready. We
