A New Southern Staple A New Southern Staple.

A new plant has been added to the resources of our tropical and semi-tropical regions—a new textile, which will furnish the world with clothing and the means of knowledge. We have seen, within a few days, long skeins of cotton-like fibre, cotton-like in whiteness, softness, and fine ness, but much stronger, which is now produced at the rate of five crops per year, in the State of Vera Oruz, Mexico, where it has been cultivated for five years by a Bel gian naturalist and botanist, who went there to pursue his favorite studies and occupations in a soil and climate which favor them.

them.
This plant, called the ramie, is a native of Java, was introduced thence into the Jardin des Plantes, at Paris, by some French savant, in 1844; was regarded then as simply exhibiting the wonderful advantages of the (ropics, being too delicate for open air cul-ture in cold climates. But having been planted and tried in warmer climates that

them.
It is due to M. Benito Roezl, formerly chief of the Horticultural Institute of Belgium, now of Santocomapran, San Andres Tustla, State of Vera Cruz, Mexico, that we Tustla, State of Vera Cruz, Mexico, that we can now pronounce it a naturalized plant of this continent, and to his present visit to this city will speedily owe its introduction into the field culture of the Gulf States, to which it will permanently pertain.

Thramice (its Juvanese name) is a plant like hemp, contains in its stalk the fibre for which it is raised, and which is grown like the sugarcaue, from being planted in lengths or from its stubble; with this advantage over the stubble of the cane, that each sucover the stubble of the cane, that each st ceeding year it grows better, and that in Cuba and Lower Mexico it will furnish five and here at least three cuttings in the year and here at least three cuttings in the year.
By a new process and some simple machinery invented by Mr. R., the lint can be
prepared from the stalks, taken fresh from
the ground, in twenty-four hours. We all
know that months of labor and the entire
discoloring of the fibre follows the treatment by the ordinary proces of flax and ment by the ordinary proces of flax and hemp, while the ramie comes out white, clean, pure and unhurt.

Eight hundred pounds of lint to the acre is to be expected from each cutting of full growth, in fair land. The culture is similar to that of cane; but as the plant, when once set, is hard to eradicate, grows vigorously, and defies the influence of grass or rival plants, cultivation is only needed to promote its growth. When ripe, it should be cut; but neglect to do this causes no special damage, so that it may wait days or special damage, so that it may wait days or weeks the will of the free republicans of Mexico and the Union. The fibre is long, mexice and the thion. The hore is long, the and strong; the plant easy to raise, and hardy in a southern latitude; its preparation for market is simple and cheap in cost. Under these circumstances, we may safely pronounce that it will at an early day take high rank among our staples.—N. O. Pronums.

Interesting Legal Decision. The case of M. J. Sinsebiglu vs. George A. Gourley, which has just been decided in favor of the defendant by the Court of Com A. Gourley, which has just been decided in avor of the defendant by the Courtof Common Pleas of Armstrong county, has been one of unusual interest, and created considerable excitement and sympathy in the neligiborhood. B. F. Gourley, after having paid his addresses to the pl.intiff for some considerable time, enlisted in the Sixty-second Pennsylvania Regiment, in this city, in 1841, and died after serving a few months. Before leaving home, Gourley sent two notes, amounting to \$500, to the plaintiff, with the request that in case he nover got back she should use them. After his death, his brother, G. A. Gourley, became his administrator, and had the body embained and brought home for interment at considerable expense, and also paid several debts, using the money for that purpose which the notes called for. The plaintiff then entered suit for the value of the notes, claiming them as donationes mortalis notes, claiming them as donationes mortals causa, while the defendant alleged that they should be devoted to the payment of the funeral expenses and debts in the first place, and the balance go to his mother. At the first trial before Judge Buffington, the plaintiff obtained a verdict for the amount of the notes, when the defendant's counsel sued out a writ of error, and upon the case being argued before the Supreme Court, the judgment was reversed and avenire de novo awarded. The record, however, remained in the Supreme Court for a year, when a re-argument was granted, which resulted in remitting the case for a new trial. The otes, claiming them as donationes mortuis

re-argiment was granted, which resulted in remitting the case for a new trial. The case was tried again before Judge Buffington, last week, and resulted in a verdict for defendant. The verdict appears to give general satisfaction to the citizens of Armstrong county. The Crimes of the Late Burglar Monzan Crimes greater than those previously alleged against the burglar Monzani, who was shot in his tracks in Brooklyn, N. Y., on Sunday morning last, have been developed. It is now believed that he murdered his first wife and child, by drowning them in Newtown Craek. The story is common, that wife and child, by drowning them in New-town Creek. The story is common in that township, that a few years ago be took them out on the creek in a small boat and return-ed some time afterward, saying that the boat upset and they were both drowned, which appeared a very improbable story at the time, and more improbable now that his bad character has been revealed. It is also believed by Mr. Francis Smith, who was shot in his bed-room at his residence South First street, during the small hours of the morn-ing of a Sunday in December, 1865, and ing of a Sunday in December, 1865, and robbed of \$1,200, that Monzani committed the deed. Mr. Smith examined the body of the deed. Mr. Smith examined the body of the criminal after his death, and expressed the belief that he was the man. The fact that Monzani deposited a large sum of money in the Kings County Savings bank about this time is additional proof against him in this matter. That he assassinated officer John Hinwell it is firmly believed will be fully proved at the inquest on Friday night. The right name of the monster was Thodaldi H. Monzani. He had accumulated considerable real estate by his villainies, and owned property in Kings and Queens Counties. and Queens Counties Congressman Morrissey.

His figure is very large and imposing, and I doubt not there are several eminently respectable legislators of untrustworthy phsique, who would be willing to change records with him if his superb chest and shoulders could be thrown into the bargain. His complexion is particularly delicate, with no traces of hard usage or high living in the smooth white cheeks, with their suggestions of scopic examiners may say what they pleas hard usage or high living in the smooth white cheeks, with their suggestions of pink. He wears a full though not long beard, which looks at a distance very soft and silky; and his hair, not yet beginning to thin out as in the case of nine Congressmen out of ten, has that intense curliness, coiling up in ten thousand little ringlets without a suspicion of wooliness, which is very rarely seen in Americans. His injured nose hardly amounts to a disfigurement.

Fenian Planes.

A Maione (N. It is suggested that perhaps their music is about to be heard elsewhere."

Fashionable Drosset. The skirt of a fashionable dress is made rither short in front and at the sides, so tight in front as o show the condour of the stomach—false stomachs, of India rubber, are actually worn by thin women! and just behind, becomes immensely long, streaming out for three-quarters of a yard, or more than double that length, according to the vanity and bad taste of the wearer. If half a dozen ladies sporting trains of this description could have a drawing-room all to themselves, the effect of spreading draperies would be pretty enough, especially if they would consent to stand still all the evening so as to allow their skirts to retain the fanshaped flow imparted to them by the final fling of the soubrette as she concludes the complicated task of beautifying her "lady." But as the fashi-nable gatherings, in view of which these elaborate toolets have been of which these elaborate toilets have been prepared, are esteemed successful according to the intensity of the crowding which takes to the intensity of the crowding which takes place in them, the streaming tails of the ladies are soon twisted into rolls which produce, whenever their wearer makes a turn, the most comic effect. The train, in fact, behaves just as does the tail of a fine Angora cat, or any other animal whose caudal appendage is too long for the rest of its bedy.—Paris Corres.

A distressing case of foolish yielding to the dictates of vanity occurred at Dayton last week. A young lady had been in the habit of lacing very tightly for a long while, and had caused a hook to be placed in the wall of her room, and she would fasten her corset-strings to it to enable her to draw her corset tighter. She had done it so long with impunity that she grew careless, and the other day, in repeating the torture, she threw herself too heavily on the corset strings and broke a blood vessel, from which she died in a few hours. Escape of a Murderer.

HUDSON, N. It is supposed they must have had a false key or invented an instrument to unlock the door. The turnkey entered the jail about 7 o'clock, and found everything all right; he re-entered again about 8 o'clock to lock the prisoners in their cells, and on going to the cell of Welch found it vacant. Thinking he might be in Hagadorn's cell, he proceeded there and found that vacant also. A thorough search was then made, and it was ascertained they had both fled. A REAL SAFETY BRIDLE!!

Can be used on Single or Double Harness, or a single line; is durable, there being no gum to break in cold weather; is simple, it not requiring a Sadder to apply it; can be arranged in five minutes by any person; cannot get out of order; costs no more than an ordinary bridle, and, to sum up is the most effectual Safety Strap and Spring in use, it being impossible for a horse, when driven with it, to either kick, sny or run off, the Springs being Medic Encased, cannot break under any strain put on it, but is always to be relied upon; does not choke a horse when applied as some others do, but from the fact that simply drawing hard upon the reins applies the leverage from the top of the head and draws the bit to the top; of the horse's mouth, it thus places the most victous kicker under the complete control of the driver. This most complete is Safety Bridle's was patented November 7th, 1866.

THE WORLD ASTONISHED AT THE WONDERFUL REVELATIONS
MADE BY THE GREAT ASTROLOGIST, MADAME H. A. PERRIGO.

She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmanent—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fall not to consult the greatest. Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, \$1. Parties living at a distance can consult the Madame by mail with eousl sefety and satisable an opportunity. Consultation fee, with likeness and all desired information, \$1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of price above mentioned. The strictest secresy will be maintained, and all correspondence returned or destroyed.—References of the highest order furnished those desiring them. REPARATOR CAPILLI. hrow away y ur false frizzes, your switches your wig— your wig— Destructive of comfort, and not worth a fig; lome aged, come youthful, come ugly and fair And rejoice in your own luxuriant hair. REPARATOR CAPILLI. REPARATOR CAPILLI.

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living will nesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the soners of camillity tryll each you hablest have already thrown away large amounts in their purchase. To such we would say, try the Reparator Cappilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given.
