Greider with stopping him while he was on horseback near Drytown, Raphe twp., and obtaining from him \$70, by presenting at his bead a pistol, and threatening him with instant death in case of refusal. All the parties had been at a sale in the neighborhood, but Greider had left an hour before the defendants. He acknowledge that he was very much terrified at the time of the occurrence, and that he did not see the faces of the parties. He claimed to identify them by their clothing. He told a witness, however, that he was so much alarmed that he hardly knew whether the weapon presented at his head was a pistol or a "chaw of tobacco." The defendant proved a very good character, and the District Attorney abandoned the case. Verdict not guilty. Dickey for defence.

EASTER.-Last Sunday was Easter, The celebration of the Jewish festival of he anniversary of our Lord's resurrection Passover or Pesach was commenced from the dead. This holiday is accounted Friday evening last, and will be celebrated one of the three great festivals of the Chris tlan year-the other two being Christma and Whitsuntide. From the earliest period of christianity down to the present day it has always been celebrated by believers with the greatest joy. The common name of this Festival in the East was the Paschal Feast, because kept at the same time as the Pascha, or Jewish passover, which commemorates the deliverance of the Israelite from bondage in Egypt. Though there has never been any difference of opinion in the christian church as to why Easter is kept, there has been a good deal as to when it ought to be kept. It is one of the movable feasts; that is, it is not fixed to one particular day like Christmas, which is always kept on the 25th of December-but moves backwards or forwards according as the full moon next after the vernal equinox falls earer or further from the equinox. It is well known to every reader of the

Bible, that during the last night spent by the Israelites in Egypt, an angel of the Bord went through all the land of Egypt at midlight, and smote the first born both of man and beast, so that in all the land of Egypt there was not a house found in which ther vas not one dead. The children of Israel, previously warned of this calamity, were lirected by Moses to take a lamb to each family of five, or if the family was larger, two lambs; this lamb they were directed to slay early in the evening and after it was dark, sprinkle the blood upon the door posts of their houses, and the flesh of the lamb they were to eat with certain ceremonies at midnight; none of the flesh was permitted to remain until the morning. At midnight the angel of the Lord went out and mote the first born throughout the whole land of Egypt, not passing by a as slain or even hurt.

single house unless he saw the blood upon the door posts; but where the blood was the destroying angel did not enter into tha ouse but passed over it. Thus the Israel ites, by obedience to the command of Moses were saved from the direful calamity by means of the blood of this lamb, called by them the Paschal lamb, which they had dain. In the morning, as soon as it was light, the Israelites were driven out of Egypt by the Egyptians; thus were they length delivered from their cruel bondage. For a full account of the Passover ee Exodus, chapters 11th and 12th; also Josephus, Book 2, chapter 14. This de iverance of the Israelites from bondage occurred about the time of the vernal cou nox. The Israelites throughout all their generations assembled annually at this festi-

val of the Passover in commemoration of their deliverance. Our Saviour was cruciled about the same time, when they wercelebrating this festival, and became the Paschal Lamb for the whole world; on the third day he rose from the grave. The day on which he rose was the first day of the week, which, in consequence of this event, ecame the Sabbath of the Christian Church. This memorable event, the resurrection of Christ, is celebrated by the Christian Church

and under the Gospel dispensation takes the place of the Passover under the Mosaic dispensation; it falls upon the same time in the year as the Passover formerly did. with this exception: The Passover was always celebrated at the time of full moon, while the festival held by the Christian Church is always celebrated on the first Sabbath after. If the vernal full moon falls on Sabbath, this festival is not unti-

EXECUTION OF ALHERT TEUFEL. THE JEWISH FESTIVAL OF PASSOVER .-Attempted Suicids of the Prisener-He

By Telegraph to the Tribune.] DOVIESTOWN, Pa., April 18.—Albert Teu I was hung at this place to day at 12.20 P 4, for the murder of Capt. Wiley at Bris by Israelites throughout the world. The festival commences on the eve of the four-M. for the murder of Capt. Whey at Dia-tol. During the early part of last evening your correspondent, in company with the father and uncle of the condemned man, and the Rev. Measrs. George and Kopper-nigle, paid him a visit. He had been pre-viously visited by Kate Hunter, his Phila-delphie paramour L found Tarifel out teenth day of Nissan, and has its origin rom the departure of the children of Israel from Egypt. The eating of the Passover read or Mazzoth, is in commemoration of the Israelites to leaven their dough. The viously visited by Kate Hunter, his Phila-delphia paramour. I found Teufel quite talkative, and at once entered into conver-sation with him. He persistently asserted his innocence of the crime of which he was convicted, although acknowledging partici-pation in numerous other crimes. Among others, he said he was engaged in the rob-bery of the Mississipi steamer Mary E. Forsyth in 1862 or 1863; that he drug-ged the clerk of the steamer, and then robbed the office of \$15,000. Being asked where he spent the money, he Jewish class book says: "On the evening of the fourteenth day of Nissan the Passover (Pesach) begins and continues eight days. During these eight days no leaven of any kind is allowed to be eaten or used for any purpose. The festival of Passover is also called Hack Ha Mazzoth or feast of unleavened bread. Previous to the destruct then robbed the office of \$15,000. Being asked where he spent the money, he replied, "On drunks, oftentimes spending from \$200 to \$300 a night." He further stated that he was connected with the rob bery of one of Adams Express Company's cars in the State of Ohio some time slace. That he was not directly in the robbery, but had a share of the proceeds. That the some \$2,000 in greenbacks was divided. There were four engaged in the robbery. Of these three had been caught, but one was yet loose. Teufel's statements were quite disconnected, and apparently much exaggerated. He seemed inclined to boast of his participation in a large number of robberies. Stated thet he hold been mixed tion of the Holy Temple in Jerusalem the Passover lamb was offered up in the after-noon of Erev or Eve Pesach with much joy and gladness, and it was eaten in the eve ing in each family. The first two and las two days of the festival must be kept holy and sacred to the Lord. On these days ther must be no work performed nor any busi ness transacted, and should be kept a strictly as the Sabbath. The four middle days are called Choul Hamoed. On these days we are allowed to work and follow our isual occupations, restricting ourselves of his particle pation in a large number of robberles. He also acknowledged participating in various minor robberies, and stated that he always escaped detection by traveling alone and trusting no one. Respecting his parents he the cries of the children of Israel when cruelly persecuted by the Egyptians. Or the eve of Passover (Erev Pesach) every first born son must fast in gratitude to the Almighty, who when he slew all the first oorn of the Egyptians on the night that our forefathers left Egypt, passed over all the iouses of the Israelites, and not one of them trusting no one. He said he had been in the army at times during the war; that he first enlisted in the lo2d New York tiegiment, but deserted and engaged in the bounty-jumping business; that immedi-ately prior to the murder of Capt. Wiley his business had been stealing mules and everything he could. Throughout the in-terview the prisoner steadily denied parti-cipation in the murder of Wiley, and charged the same upon the boy Rick, the chief wit-'assover, termed Seder, is as follows: On the first two nights of Passover, th

On the first two nights of Passover, the table being prepared as usual on the Sab-bath and festivals, three plates are put thereon. On one are placed three Mozzoth (Passover cakes); in another the shank bone of the shoulder of a lamb, and an egg ronsted; and on the third is put some che-ville or parsley and horse radish; as also a on of vibeers or solt water. ilkewise a roisted; and on the third is put sould cherry ville or parsley and horse radish; as also a compound formed of apples, almonds, cla-namon, &c., worked up to the consistence of mortar, which is called charouses. The bone of the lamb is in memory of the Kor-ban Pesach, "Passover offering;" the egg is to remind us of the Korban Cheniga, the offer in honor of the festivals; the bitter herbs are eaten because the Egyptians em-bittered the lives of our ancestors by slayery; the charouses is in memory of the brick and mortar used by the people in Egypt. The table being then laid, every one of the family is souted and each has a ghass of wine before him.— The master of the house then begins re-citing the Hagadah, which relates to the redemption of our iorefathers from Egypt and contains praise and thanksgivings to the gracious God for his kindness and mercy. On these two nights all Hebrew servants are allowed to sit at table during the ceremony, because we were all equally he same upon the boy Rick, the chief wit less against him on his trial, and a persor ness against him on his triat, and a person whose name he would not give. He said that on the Thursday preceding the murder be was at Trenton, N. J., on a drunk, and that he could easily, if allowed, on his trial have proved an altibl. He dwelt particularly on the heinousness of the murder, the murder-ed man having first been shot, and then streageled by means of a rose, and theal strangled by means of a rope, and finally had his mouth and throat filled with old had fits mouth and throat filled with old rags. Said that if he had been going to commit murder he would not have doue it in that way. Of himself and family rela-tions he stated that he had been married three or four times, and had two or three children; was 23 years of age, and born at Philadelphia. Had forgotton the name of his first wife, exceep that it was Mary. That he attended Wood's school, corner of Twenty-third and Lombard streets, Phila-delphia, until he was 11 years of age, and servinits are allowed to sit at table during the ceremony, because we were all equally in bondage, and therefore it is proper that every one of us should return thanks to God for his goodness in delivering us from a state of shavery. During the time the holy temple stood in Jerusalem a sheat of the first ripe corn was offered up to the Lord on the sixteenth day of the month Nissan, which is the second day of the Passover, and from that day fifty days were ordered to be counted until the festival of Pentecost, or feast of weeks, delphia, until he was 11 years of age, and then went to work on the Lehigh and Del-aware Canal. State Robbery. Under this startling head the Pittsbur Jazette of the 10th inst., a Radical journal publishes the following expose of the doings of the last Legislature of our State:

Talking a few years ago with a noted lobbyist at Harrisburg, he frankly con-lessed that he and his kind had relieved the Commonwealth of pretty much all the property it had worth plundering. During he past session a systematic effort has been made to gather up and carry off the frag-ments that remained, and this endeavor bas ments that remained, and this endeavor has been crowned with a large measure of success. If the accounts are true, and we think they are, the bot-tom of the Treasury has been cleaned out, and a round deficit left. Nor is this all. An attempt was made to rob the Sinking Fund of \$300,000, for preventing which the people are indebted to Mr. Wai-lace, Chairman of the Democratic State Committee. He raised the point that by the plain words of the Constitution the revenues derived from certain sources were pledged to the liquidation of the public in-debtedness, and could not be applied to general purposes. This compelled a cutting down of the fiuancial budget, which looked to the ex-penditure of \$1,000,000 more than the esti-mated income; and this, notwithstanding

penditure of \$1,000,000 more than the esti-mated income; and this, notwithstanding what the Chinese call "a squeeze" of at least \$700,000, had been made on the four or five New York Coal Companies operat-ing in Luzerne county. The slashing commenced on the penal and chari-table institutions. Dixmont was low-ered from \$85,000 to \$60,000, which sig-nifies that the new wing may wait nifies that the new wing may wai for completion. All the other establish ments were cut down in a similar propor-tion. We do not hear that the \$500,000 tion. We do not hear that the \$500,000, given to certain border counties, as indem-nity for losses by rebel raids, was recanted. There was said to be \$100,000 stealings in that arrangement. But the members got conscientious, or something else, over their salaries. Having voted themselves more wages than the law sallowed they concluded not to take it, be-

merce replies: "This is the theory of the law, as the re-quirement is positively binding upon each individual. It is practically of no effect, however, inasmuch as the assessor must give ten days notice to each tax-payer be-fore taking any other proceedings. The practice has been for the assessors to fur-nish blank returns, addressed to each per-son on their list, and then to wait a reason-able time for the itax-payer to fill up and present the return. We presume that this will be the practice this year, but the changes in the law required a new set of forum, and the act was not passed until have been distributed. This has caused some delay, but with a disposition to mu-tual accommodation on the part of both the officials and the people, there will be no occasion for trouble."

one of the leading papers of Chinada on this subject: Most of our readers have no doubt read some of the numerous advertisements of Gitt Enter-prises, Gitt Concerts, &c., which appear from time to time in the public prints, offering most tempting bargains to those who will patronize them. In most cases these are genuine hum-bugs. But there are a few respectable firms who do business in this manner, and they do it as a means of increasing their wholesaie busi-ness, and not to make money. From such firms, it is true, handsome and valuable atti-cles are procured tor a very small sum, and what is more important, no one is ever cheated. Every person gets good value for his dollar; because, as we have stated, it is intended to set as an advertisement to increase their ordi-atty business.

Tragic Affair in Tennessee. Arthur Reeves was, on Saturday last, killed at Somerville, Tennessee, by Morris Mosby. They were mere boys—one thir-teen and the other fourteen. They had an altercation, when Reeves caught Mosby by the collar with his left hand and was about striking him with the right, when the lat-ter drew a revolver, and placing it against Arthur's breast, fired. The ball passed through the breast, and it is supposed through his heart, lodging under the skin in the back. He fell immediately, exclaim-ing, "I am shot!" and died within a few minutes. Young Mosby was arrested, and had a hearing on Monday before Justices Cox, Tucker and George. The South Carolinian. A correspondent of the New York Herald

says: The Daily South Carolinian, published at Columbia. S. C., has been sold by Mr. F. G. De Fontaine, and is to be changed to the Freedman's Journal, devoted to the ad-vancement of the interests and education of the colored race. It is said that the cap-ital for the purchase of the paper has been mainly raised with the assistance of Gen. Wade Hampton, who will be one of the chief contributors to its columns. The general management of this new organ, it is understood, will be under the consersays:

America. An expedition to Russian America. An expedition to Russian America is now being organized by the Department of State for the purpose of making thorough scien-tific explorations of that region. It is thought that the expedition will be ready to start about the first week in May. The gentlemen to compose the scientific corps have not all been designated; but it is said that Professor Bard, of the Smithsonian Institute, will be of the number. The members of the corps are to assemble at San Francisco, where they will take the revenue cutter Lincoln and sail for Sitka, from which point the expedition will start on its investigations.

on its investigations. The Swedenborgians.

(The Swedenborgians. Mr. White's new biography of Emanuel Swedenborg, just published in London, sums up the history of Swedenborgianism during the last hundred years. Of its pre-sent condition, as regards religious opinion and spirit, Mr. White does not think very well, and of professed followers he shows that it has but few, three, thousand six hundred and five members being divided into fifty societies in England. The num-ber of worshippers in seventy-four Ameri-can communities is stated at three thousand seven hundred. But of the partial believer in Swedenborg the number is very great

and seems to be growing rapidly.

were first used in private practice in 1825. They were introduced to, the public in 1835, since which time their reputation has extended, until they have a sul

mary business. We have seen numbers of prizes sent out in this way by SHERMAN, WATSON & COMPANY, of Nassan Street, N. Y., and there is no doubt that some of the articles are worth eight or ten times the money paid for them, while we have not seen or heard of a single article which was not fully worth the dollar which it cost. But this is only one of the exceptions of this rule, for as a general thing the parties engaged in this business are nothing but clever swindlers. -Saturday Reader, Montreal, C. God spared her life long enough to see her sur-viving children grown to manhood and woman-hood, with a prospect of becoming useful mem-bers of society. She had no dread of death, always exhibiting a serne trust in the good-ness of God, as well as an abiding faith in the glories of a future life. Her funeral was at-tended by a large assembly of people, her rei-atives and friends, who feit that in her death they had all been bereaved, and manifested the tenderest sympathy with her sorrowing family.
