The "Grand Army of the Republic." The "Grand Army of the Republic."

The members of this Radical secret society may be interested in the perusal of the following extract from the records of a "loyal" Philadelphia court:

"DISTRICT COURT—Judge Sharswood.—
James Struthers vs. Louis Wagner. An action of trover. Before reported. Defendant was commander of Camp William Penn. A brother of plaintiff was put in the guard house by Colonel Wagner, and in doing so the Colonel, it is charged, took from him a gold watch and chain belonging to the plaintiff. When Struthers got out of the guard house he asked Colonel Wagner for the watch and chain, but that person or the watch and chain, but that person denied having received either. In defence it was attempted to be shown that Colonel Wagner was not at camp at the time the plaintiff alleges his articles were received by the defendant. Verdict for plaintiff, 330."

Louis Wagner is the "Grand Commander of the Grand Army of the Republic in Pennsylvania," and James Struthers is or was a negro soldier. Under the circumstances will the society retain the "Grand Commander," or will it repudiate the action of a "loyal" jury in a "loyal" court?—Patriot and Union.

nas ever been made to raise her, and as she now lies in French waters this could not be done without the permission of the French authorities. A short time ago this permission was applied for by a ship builder here, and his application being referred to the Minister of Marine, it was refused. It is doubtful, however, whether she could now be raised, and even more unlikely that it would pay to raise her, if she could be. All articles of value in her, including the large stock of chronometers, which Ceptain Semmes amused himself by keeping in sight and motion in his cabin as trophles of his prowess, were, it is well known, taken off the Aslabama on the night before the fight. Would it not be an interesting inatter for the United States government to trace up the progress and fate of these same chronometers plandered from her unprotected citizen sailors?

There was no one in the church at the time but the three men. As Kellen arose from his kneeling posture, the larger and stronger of the two rufflans soized him in the true garroting style, and in less time than it takes to tell it, he was robbed of his pocketbook, containing \$70, and passage-tickets on the steamer Rob up the river. A Fish bone in a Man's Neck for Tw. nty Years.

A few days since a laboring man, who works in Woodruff's plaster mill in this city, called upon one of our surgeons for the purpose of having a tumor upon the neck, just under the angle of the jaw bone, removed. The tumor was about the size of a large hen's egg, and had been there about ten years. After getting a history of the case, the surgeon suspected that the tumor had been occasioned by some toreign substance, such as a bone. Before attempting to remove the tumor it was laid open, and a fine bone, about three-quarters of an inch long and an eighth of an inch in diameter, of ir regular shape, was discovered and removed. The patient had attempted to swallow this bone over twenty years ago, but it had lodged in his throat, occasioning more or less trouble ever since. Nature had attempted to remove it, but had failed, as the bone had travelled through the neck about an inch in a direction, outwards, and documents. mested to copy the above advertisement.

Robert J. Walker.

A Washington correspondent of the Chicago Tribune (Radical) gives the following description of this distinguished character:

"Robert J. Walker, the associate counsel in this case, comes nearer filling my ideal of Martin Van Buren than any other man I ever suw. He seems the embodiment of graceful and cunning adroitness. Mere smartness is always more or less offensive, and Mr. Walker is always plausible and agreeable. He did us good service during the war; and I believe it to be the attorney, not the man, who puts in this plea to overthrow the will of loyalty. Personally, he is an old-looking, dapper little man, of five-feet-five, with a shining and squatty bald pate, and face and hands from whose flacting his sixty-six years, hops about as lively as a cricket, and is as airy and profuse in gesticulation as a French dancing-master. He has a thin border of white hair in his neck and over the ears, and a quaint white tuft under his chin. His eyes are cunning and his smile is such a hearty, and genial, and chatty, and well-informed geniteman, that you like him, in spite of eyes and smile, in spite of reason and judgment.

BY THE UNE OF CHASTELLAR WHITE LIQUID ENAMEL WHITE LIQUID ENAMEL, For improving and beautifying the complexion The most valuable and porfect preparation in use, for giving the skin a beautifut pearlike tint, that is only found in youth. It duck-ly removes Tan, Freckles, Plinples, Hotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin, kindly hearing the same, leaving the skin white and clear as alabaster. Its use can not be detected by the closest scrutny, and being a vegetable preparation is perfectly harmless. It is the only article of the kind used by the Fronch, and is considered by the Parisian as indispensable to a perfect toilet. Upwards of 30,000 bottles were sold during the past year, a sufficient guarantee of its efficacy. Price only 75 cents. TO THE CAPITALISTS OF LANCANTER COUNTY.—A rare opportunity will be at forded those who have money to invest, from now until the lat day of May.

The subscriber has for sale the Bonds of the Leavenworth Branch of the Union Pacific Railrad, each Bond being for \$1,000, and bearing? per cent, interest per annum, payable semi-annually, viz.: ist of May and lat of November, in New York, in legal tender money. The first coupon on these bonds will be paid on the lst of May next, 3 weeks only from now, being \$3,350-100 on each Hundred Dollars, or \$35 on each Thousand Dollar Bond, and the Bond can be purchased, accrued interest included, for Eight Hundred and Fifty Dollars, which leaves the Bond on the first day of May to cost but \$315, or \$1½ per cent. of its par value; and if purchasers desire it, I will cut off the list coupon due May lst, and allow them the full value thereof in payment for the Bond, thus leaving the buyer but \$1½ Dollars on the Hundre 1 to pay for the Bond.

The perfect safety of these Bonds will be readily seen, when it is understood that these Bonds are a first mortgage upon all the stock, road, telegruph and every other franchise which the Company possesses, and that the Government of the United States loan its credit to the same company for an equal amount, and took a second mortgage on the same property which is the best of evidence that the Government would not take a second mortgage on property where the first mortgage is not good.

In addition, let it be borne in mind that the land granted this Company is considered worth far more than all the bonds issued or to be issued by the Company, Railroads having received land grants, as for instance the Illinois Central, have always proved to be the strongest, and offering the best of securities for investment.

son the second securities of the second securities of the second person present bonds can have the same on the Union Pacific Railroad, first mortgage, (security the same) at 19 per cent.

OF THE

ENTRAL PACIFIC R. R. CO. This Company is constructing under the pa-conage of the

UNITED STATES GOVERNMENT, the Western and of the GREAT NATIONAL RAILWAY ACROSS THE CONTINENT, Their line will extend from Sacramento, California, across the Sierra Nevadas to the California State line, traversing the richest and most populous section of California, and thence through the great mining regions of the Territories, to the vicinity of Sait Lake City.

It forms the sole Western link of the only route to the Pacific which is adopted by Congress and alded by the issue of the United States Bonds. Their road is already completed, equipped and running for 94 inlies from Sacramonto to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunneling, &c., beyond that point has been accomplished. The First Mortgage Bonds of this Company fford unusual Inducements of Safety and Profits to Investors, for the following among other reasons, viz:

First. The rate of Interests is SIX PER CENT, IN GOLD, payable semi-annually in the City of New York.

Second. The PRINCIPAL is payable in Gold at d. The cost of the Bonds. NINETY-FIVE PER CENT, and accrued interest, is Tkn PER CENT, less than that of the chenpest Six per Cent. Gold Bearing Bonds of the Government.

burth. The United States Government pro-vides nearly half the amount necessary to build the entire road, and looks main-ly to a small per contage on the future traffic for re-payment. Owing to this liberal provision, accompanied with Extensive Grants of Public Lands, by which the Government fosters this great national enterprise, its success is rendered certain, and its financial stability is altogether independent of the contingencies which attend ordinary Railroad enterprises.

zth. The Security of its First Mortgage Bonds is therefore ample, and their character for safety and reliability is equalled only by that of the obligations of the Govern-ment, list! nth. The net earnings of the comp'eted portion are already largely in excess of the interest obligations which the Company will incur on twice the distance, and are steadily increasing, rendering the uninterrupted payment of the Interest absolutely certain.

The Bonds are issued in denominations of \$1,000 with semi-annual Gold Coupons attached payable in New York, and are offered for the present at \$5 per cent and accrued interest (in currency) from January 1st. Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention. FISK & HATCH, Bankers & Dealers in Government Securities No. 5 Nassau Street, New York.

REPARATOR CAPILLI. Throw away your false frizzes, your switches your wig—

Destructive of comfort, and not worth a fig;

Come aged, come youthful, come ugly and fair

And rejoice in your own luxuriant hair. REPARATOR CAPILLI.

For restoring hair upon baid heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon baid heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurions? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Cappilli it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entite satisfaction is not given.
