the Best Self-Rake Machine in Market. TEN YEARS experience in selling Reaping and Mowing Machines enables me to offer you for the harvest of 1857, the only two-wheeled Self-Rake Reaping Machine that has proved successful in doing the work better in down tangled grain than can be done by hand. With this Machine, one man or boy' with a good steady pair of horses, can do as much work in a day, and do it better, than two men can do with the best combined hand machine now in use. This has been our experience and that of many of our best Farmers who have used them the last three seasons. Take off your Rake and Platform and you have one of the very best Mowers in use ; in cutting down tan-gied grain or grass with this Machine, you can relate Mowers in use ; in cutting down tan-gied grain or grass with this Machine, while or lower't with all ease while it is in motion. <u>REFERENCES</u>.
