Wednesday Monning.—Com'th vis. A. V. Snyder, rape. Snyder is the party who, as the reader will recollect, obtained from the matron of the Home for Friendless Children a girl aged it years, daiming that he wished her for a nurse in his family. The girl was given to him, but was sent back in a day or two, because, as was alleged, she was not old enough for the work required of her. The matron soon ascertained nowever that Snyder had desired the girl for quite a different service from that which he had stated, and that he had committed a rape upon her. He was accordingly arrested and this morning plead guilty. His counsel was Mr. Leeds, from Urbana, Ohio, whom Snyder's father, a respectable gentleman residing there, had o attend to his son's interests. Mr. Leeds asked the court to be lenient as this was Snyder's first offence, and he thought it was committed under the influence of liquor. He also stated that Sny der's friends entertained great doubts as t his entire sanity. The court, however, did not seem to see many mitigating circumstances in the offence, as they sentenced

ARRESTED ON A CHARGE OF ROBBING THE MAIL.—On Sunday afternoon Levi Nixdorf, William Nixdorf and Henry Felter of this city were arrested by Officer Gundaker on complaint of J. J. Cochran Postmaster, charging them with robbing the United States mail. The facts as far a elicited up to the present time appear to be these: On Sunday morning George Hartman, who has the contract for carrying the mull between this place and Colebrook found twenty-three letters hid under rough in his livery stable. Two of the young men charged with the offence were t the time of their arrest in the employ of Mr. Hartman as mail carriers, the other had been a short time previously. The mail bag, when returned to the Post Office was locked as usual, and the letters had not been missed, although they appear to have been mailed on the 8th of last month When found the letters were open, and it is supposed they got but a small amount of money for their trouble. The persons charged with the offence had the mail-bag n their possession at the time the letters were taken, and it would seem incumber on them to account for their mysterious disappearance. His Honor, the Mavor ifter hearing the above facts, committe he Messrs. Nixdorf to prison, in default o \$2,000 each, for a further hearing on Mon lay, Feller giving security for the required

mount for his appearance. - A further hearing was had on Monda ifternoon before His Honor, the Mayor, who committed the three in default of \$2,000 ball o appear at the next term of the United States District Court.

HOME FOR FRIENDLESS CHILDREN—To the Humane and Chiertants Catagers of Lancaster City and County.—Light years ago the idea was conceived of founding au institution in which the poor and neglected children of the City of Lancaster could be cared for.—The plan was carried into effect, and for the space of six months accomplished much by way of ralleving the sufferings of many destitute and suffering children. In the year 1860, the laddes eigaged in this noble work determined to extend their charities to the suffering little ones in the county, and in order to make it a home for the needy and homeless ones in after years, applied to the Legislature for a Charter, which was obtained March 1st, 1860, giving it the title of "Home for Friendles Children for the City and County of Lancaster."

By the Act of Incorporation, the Managers are authorized to take under their guardianship, all vagrants whose parents cannot, or whose yices render them unfit to take care of them. They are also authorized to bind them out as apprentices to some useful trade eremployment. Another fact is, it is free from all sectarian influence, the managers being of all denominations. They strike at the beginning of evil, and by training these children for useful, respectable citizens, lessen the number who crowdour Prison and Alms House, and drain the public treasury. Providence the daily wants of the little inmates have been supplied. The building now occasion was prepagad when the "Home" supied was purchased when the

cupied was purchased when the "Home" was considered an experiment—but we now feel it is no longer such, but that the time has fully come when a permanent "Home" is absolutely necessary.

The Managers propose purchasing ground upon which to erect a building suitable for the purpose. They wish to have it large enough to accommodate as many of the friendless children of the city and county as are ever likely to be offered them, and to be so erected, finished and furnished, that it will not merely be a shelter, but a Home for the little ones, a place in all their after lives to be looked back upon with affection. To realize their plans, they need at least \$30,000; but they will begin operations as soon as \$15.000 are paid or pledged. They now appeal to the city and county to tions as soon as \$15.000 are paid or pledged. They now appeal to the city and county to furnish the means for this good work.

Let the rich give their hundreds, and the poor their lesser sums. They look to the widows for their mites, and to the children for their pennies; they desire particularly to have the children interested, and have concluded to send a copy of this circular to all the Public and Private School Teachers and Sunday School Superintendents in the

The names of all contributors will be printed, a copy will be filed in the Home, and a copy placed in the corner stone of the new building.

Let every child in the city and county feel that he or she, no matter how young or old, should give enough to put at least one brick in the new Home. Come forward children and take a share of stock in the Home—stock ten cents a share. The Managers also desire the ladies in all the towns in the county to take an interest and be repin the county to take an interest and be represented in the Institution. It is hoped that this appeal will be the means of drawing the attention of benevolent women throughout the county. They appeal to the public spirited men of the city and county to make this institution a success. Of all the charities presented to the consideration of a people, there are none which should touch the heart so quickly as those which relate to the support and welfare of friendless children. Mr. Mishler—Dear Str. For the last year or two I have been very much afflicted; my liver was badly disordered, and my kidneys and spleen scting in sympathy with my liver were also much affected; my lungs also appeared to be giving away. I had a violent pain near the region of the heart and also in the head, to-spather with gatherings in my ears. The pain I suffered was very great, and I became so reduced in flesh that I was unable to work. I had a vory bad cough, night and day, and I thought I would splt up my lungs. UNSOLICITED TESTIMONY. From Rev. Francis Lobdell, Fastor of the South Congregational Church, Bridgeport, Conn.
"I consider it a duty which I owe to suffering humanity to bear testimony to the virtues of Dr. Wistark's Baltsan of Willo Chirax." I have used it—when I have had occasion for any remedy for Coughs, Colds or Sore Throat—for many years, and never in a single instance has it failed to relieve and cure me. I have frequently been very hoarse on Saturday, and looked forward to the delivery of two sermons on the following day with sad misglvings, but by a liberal use of the Balsam my hoarseness has invariably been removed, and I have preached without difficulty.

I commend it to my brethren in the ministry and to pupile speakers generally, as a certain remedy for the broughlid iroubles to which we are peculiarly exposed."

**E-Schenck's Seaweed Tonic.

This medicine, invented by Dr. J. H. Schenck, of Philadelphia, is Intended to dissolve the food and make it into chyme, the first process of digestion. By cleansing the stomach with Schenck's Mandrake Pilis, the Tonic soon restores the appetite, and food that could not be eaten before using it will be easily digested.

Consumption cannot be cured by Schenck's Pulmonic Syrup unless the stomach and liver is made healthy and the appetite restored, hence the Tonic and Pilis are required in nearly every case of consumption. A half dozen bottles of the Seaweed Tonic and three or four boxes of the Mandrake Pills will cure any ordinary case of Dyspepsis.

Dr. Schenck makes professional visits in New York, Boston, and at the principal Office in Philadelphia every week. 22 A Young Lady returning to her ountry home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the Circassian Ball, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. As a Self-Rake, the Marsh Rake was the only one out of 20 Machines that was marked perfect (No. 40) in catting lodged wheat on the "Sheldon Lot," and but one other Machine in the list that was marked even to No. 33 in the test, all the rest being below that number. This was regarded as the great test of the trial in Resping and Raking. See pages 41, 42 and 43 of the Report. The entire Report may be seen at our office.

Having just put up one of BARKER'S GAB-OMETERS of largest size, manufactured by Rubencame & Stockton, with all the latest improvements, he invites the attention of all parties interested, believing it to be the only first-class meter in Lancaster city or vicinity, By the use of this apparatus the gas is obtained in absolute purity; and it is administered directly from the meter, through a flexible tube, without the intervention of gas bag or any other cumbersome piece of spaparatus. The patient sits down, takes the polis ed mouthpiece, breathes deeply and deliberately of the sweet-tasted gas, passes rapidly under its exhiliarating influence, and in a few moments is ready for the patiless operation. NEW FASHIONS FOR 1867. SHERMAN'S NEW PATENT AS YOU LIKE IT SKIRT.

35 North 8th St., corner of Filbert. 35 This is not only a new fashion, but a new article of SKIRT, made on an entirely new article so novel and yet so perfect the ladies This is not only a new lishion, but it hew article of SKIRT, made on an entirely new principle, so novel and yet so perfect the ladies contend it should be called Perfection.

We would here call particular attention to the AS YOU LIKE IT, or fexible joint, extending down the front of the skirt; it is so constructed that the springs fold inwardly, but not outwardly, and readily yield to the slightest pressure, thus allowing them to collapse, so that the skirt occupies the smallest possible space whilst sitting, riding, or in passing through a crowd, and yet the moment the pressure is removed, the skirt resumes its original and beautint shape.

The novelty and utility of this contrivance need but be seen to be appreciated.

But for want of space we might here publish thousands of extracts from letters, we are daily receiving, speaking in the highest praise of these Skirts.

OUR CORSEIS. Are now so well known for their superior SHAPE, MATERIAL and WORKMANSHIP that it is perhaps unnecessary for us to speak of them, further than to say that we have greatly enlarged our assortment of Styles, both of our own make and importation, and can pow setly defy competition. We ask but a trial and are sure of your future patronage.
