SUPPOSED ATTEMPT AT MAIL ROBBERY. -When the early mail train from Philadelphia arrived at the depot on Saturday morning last, the mail car was found to be locked up, and no noise which could be made was sufficient to elicit any answer from the occupant. The train passed on to Harrisburg without leaving any mail matter for this office. The pouch or hox containing the mail matter for Lancaster was returned to this office from Harrisburg and the hasp of the lock was found to be filed through. Whether any letters were removed is not known. Business letters came safe to hand, as we are informed by some of our bankers and others, without any appearance of having been tampered with. The whole affair looks mysterious, and the conjecture has been started that some one obtained admittance to the mail car and drugged the route agent so that when the train stopped at Lancaster he was in an insensible condition. The matter is undergoing investigation and will no doubt be cleared up in a day or two.

Supposed Horse THIEF ARRESTED. On Monday a man arrived in this city about 8 o'clock and put up for the night at Victor Kasser's, in East King street, He was driving a dark bay mare about six years old, and had a double seated carriage silver mounted, with oil cloth curtains, which were lined with green cloth. He had also two sets of carriage harness, one light and the other very heavy. It was discovered shortly after his arrival, that the silve plate, on which was inscribed the name of he manufacturer, had been broken off, and that the man was very tired. Officer Baker, who had been investigating the matter, went to Kasser's yesterday morning at 4 o'clock, arrested the suspected party and immediately took him before Alderman Wiley. He there stated that his name was Henry Reckin; that he had been employed as a barber at 2,003 Callowhill street, Philadelphia, with a man named Petins that he was out on a spree on Sunday night when he took the II o'clock train going west. After riding some distance, he left the train; was overtaken by a man unknown to him, with the horse and carriage referred to, who requested him to ride along, which he did for several miles, when the man left, stating he would meet him in Columbia. He also alleged that it was his intention to leave the carriage here, ride the horse to York, and from there he intended going to Norfolk. He had told different stories to other parties last night, and the Alderman not believing all he said, committed him to jail for a further hearing. He is a young man, rather tall, and of good personal appearance. The horse and carringe are at Mr. Lechler's Hotel, in East King street, where those interested can see the same.

DISABLED VOLUNTEERS,-The Board of Managers of the National Asylum for Disabled Volunteer Soldiers have given notice that they are now prepared to receive beneficiaries into either branch near Augusta Me., Milwaukee, Wis., or at the Central Asylum, near Columbus, Ohio. Volunteer soldiers are admitted upon application by letter to either of the managers, or at the branch asylum nearest to their place of residence; whereupon blank applications will be sent to the applicant, and, it duly qualified, transportation will be furnished The requirements for candidates are:

First, An honorable discharge from the volunteer service, Second, Disability by wounds received

or sickness contracted in the line of duty. If the applicant is unable to travel or for other sufficient cause, relief will be furnished under the direction of the managers, to whom application is made. The overseers of all almshouses charity hospitals having disabled soldiers subsisting upon private beneficence are respectfully urged to report such cases to either of the managers, as it is not fit that meritorious disabled soldiers of the nation should be supported by private or public charity. Soldiers are especially informed that the asylums are neither hospitals nor almshouses, but homes where subsistence. care, education, religious instructions, and employment are provided for disabled soldiers by the Congress of the United States, to be paid for from the forfeitures and fines of deserters from the army. The provision is not a charity. It is a contribution by the bounty-jumpers and bad soldiers to the brave and deserving, and is their right. Soldiers having a wife, child or parent

dependent upon them, are not required to give up their pensions upon coming to the asylum. Other soldiers are required to assign their pensions to the asylum in special cases only, to be determined by the board. Suitable compensation will be given to

profitable labor in the asylum. Good beavior will insure the kindest treatment Wives and children will not be cared for at the asylum, until after the soldier has shown by his a lity to aid himself and them in part, by his labor and steadiness, that taking his family in charge will not increase his expenses to the asylum above the cost of other helpless beneficiaries, in which cases provision will hereafter be made General Benj. F. Butler is the president of the board of managers.

REPUBLICAN COUNTY CONVENTION.—The Republican County Convention assembled in the Court House at 111 o'clock on Wednesday last. E. Billingfelt, Esq., Chairman of the County Committee, called the Convention to order. The following gentlemen ere elected temporary Secretaries-E. E Enyder, B. F. Rowe, Sam. Mat. Friday and

J. H. Gilbert. For President of the Convention Dr. John Houston, of Salisbury, and Col. D. W. Paterson, were put in nomination.

The list of Delegates being called over the

county was found to be quite fully reprenantad, most of the districts answering when called. Some half dozen or so were unreresented. The first fight between the con tending factions was made upon the election of permanent President of the Convention, Dr. John Houston being the Thug or Brubaker candidate, and Col. D. W. Patterson the candidate of the legitimate o

Examiner party.
On motion of Gen. J. W. Fisher, the dele gates present from each district were au thorized to cast the vote of the district as if fully represented.

During the taking of the vote there was considerable excitement in the Convention, a grey-headed and obstinate delegate from erain persisting in making a speech at several points. He declared he was resolv-" to stand by the laws and the constitution of his country," but was politely informed that he had got into the wrong party for that sort of thing.

The Secretaries reported that they agreed n their tallies and the result was announced o be for Patterson 119, for Houston 73, Col. D. W. Patterson was thereupon declared o be the permanent President of the Convention. On taking the Chair Col. Patterson made a few brief remarks, congratu lating the Convention on the harmonious manner in which the result had been atined, and expressing a bope that harmony and good feeling might prevail throughout The Secretaries named were continued as ermanent officers of the Convention, and the following gentlemen were chosen Vice Presidents:

Isaac Bushong, Jonas Lauber, Amos Ienderson, Capt. Evans, George Fownall, 'Fancis Shroder and Benjamin Erben. On motion of Elwood Greist a committee nine was appointed to draft resolutions, N. A. Major R. W. Shenk opposed this motion and contended that the Convention itself, representing the party as it did, was the proper place to settle the question.

He was replied to by S. A. Wylie, who contended that the present Convention being called for a specific purpose had no anthority delegated to it by the people to do anything more than to select delegates to the coming State Convention. Hon, Esnias Billingfelt replied, defend

ing the resolution, of which he acknowledged himself to be the author. He contented that the delegates present, coming as they did direct from the people, had the right to direct to County Committee to change the system of selecting candidates He charged that the old system had been corrupted until it had come to pass that a ew tricksters and wire pullers controlled

the nominations of the party. At the conclusion of Mr. Billingfelt's peech, there was considerable excitement, several delegates insisting upon speaking tonce, and the grey headed Scotch Irish nan from Colerain, holding forth on his own hook to the amusement of all hands. There being no prospect of an immediate settlement of the disorder, on motion of R. W. Shenk, Esq., the Convention adjourned to meet at 21 o'clock.

FARMERS' TAKE NOTICE.—An intelligent armer in the neighborhood of Paradise informs us that he has been carefully noticing the movements of a certain insect which abounds in the wheat fields this year .-About twenty minutes before sundown, a small orange-colored fly may be seen rising up by myriads all through the wheat fields. It is about one quarter of an inch in length. and shaped much like the dragon fly. It settles upon the heads of the wheat, and can be seen piercing the chaff with its extremity, which is shaped something like that of a locust. For a second or so it remains stationary, as if laying an egg.— Whether it is the insect which deposits the egg which produces the red weevil or wheat midge is a question of much interest to farmers. Let them keep a look-out for these insects, and note their habits. It would be well for scientific agriculturists to examine the matter carefully.

Outrages in North Carolina.

An atrocious murder was committed in Lenoir county, N. C., on Thursday last, by a party of eight or ten men, supposed to be negroes. They went to the house of Mr. J. T. Miller, and finding Mrs. Miller in the room adjoining the kitchen, ordered her to go into the house, which she refused to do, whereupon she was shot in the head by one of the party and instantly killed. They then went into a field where Miller was ploughing and bound him with the plough lines, took him to the house to see the dead body of his wlie, then carried him into the woods, a distance of about half a mile, and hung him to a tree, where his body was found the next day. No cause is assigned for this diabolical deed, and no arrests have been made that we have heard of. Miller lehves seven children.

A company of cavalry has been ordered from Wilmington, N. C., to proceed into Lenoir and Green counties for the purpose of arresting outrages on persons and property in that part of the State. Several atrocious murders have occurred there lately, and no protection for property exists.

The follow ng is somewhat judicrous, calculated on the idea that there is one rat and ten mice per acre in this country. The vermin amounts thus to 91,416,000,000, which would consume 182,225 bushels of corn daily, or 4,116,168 quarters of four bushels in the half year, namely 1823 days; and thus would supply 5,831,413 people with a two-pound loaf each day for six months, or 3,915,713 people daily, with a two-pound loaf each the year round.

The Trial of John H. Surratt, for the WARHISGTON, June 17.

The Court met at 10 c'lock, Judge Fisher being partially relieved from his illness, presiding. Chief Justice Carter was also on the bench. Fending the call of the Jury, which had been completed on Saturday, John H. Surratt came info Court and zook a seat beside his counsel. He looks about as he has been described, and appeared to be quite cheerful. The jury all answered to their names. The counsel for the prisoner stated to the Court that Surratt had exhausted all the means at his command in preparing for his trial,

his command in preparing for his trial and asked that he now be allowed to proand asked that he now be allowed to pro-cure necessary witnesses at the cost of the United States, in accordance with the statute in such cases made and provided. The argument on this motion was post-poned until later in the progress of the case. The prisoner having been formally ar-raigned on Saturday afternoon, when he put in the plea of "Not guilty," Nathaniel Wilson, Esq., Assistant District At-torney, opened the case for the pros-ceution. His statement of what the ecution. His statement of what the prosecution expected to prove was lengthy, but the main points were that Surratt was present at Ford's theatre, aiding and abetting Booth in the murder; that he was seen with Booth in front of the theatre only a few moments before the crime was com mitted; that he was the friend and habitua companion of Booth; that he was a traitor to his country and a spy upon the Government, travelling regularly between Washington and Canada; that he made his home in Washington the rendezvous for the assassins; that he it was who left the arms at Surrativille, of which Booth took possession in his flight; that on the 10th of April, being then in Montreal he started on his return to Washington in compliance with a letter from Booth; that he was in Washington on the fatal Friday, walking through Pennsylvania Avenue, booted and spurred, that he bought the disguises in which Booth and Harold escaped; and that not until the fatal blow was struck did he take to flight. Mr. Wilson also said they would trace the prisoner step by step, from the hour of his flight until the hour of his arrest; and would prove that he had expressed companion of Booth; that he was a traite might until the hour of his arrest; and would prove that he had expressed a wish that he could return and serve Andrew Johnson as Abraham Lincoln had been served; and that he had said to a companion, "I have done the Yankees as much harm as I could. We have killed Lincoln, the negroes' friend."

Mr. Bradley. Sr., one of the counsel for

Mr. Bradley, Sr., one of the counsel for the prisoner, said the defence would reserve their opening remarks to the jury. He called upon the prosecution to jurnish him with a list of witnesses summoned by them. To this the prosecution objected, and without the question being decided by the court the examination of witnesses for the prosscution was begun.
Surgeon General Burnes testified that he attended Mr. Lincoln professionally on the night of the 14th of April, 1865, and remained with him until he died. He recognized

a fragment of bone taken from the President's head; also testified that a ball shown tion resembled that taken from the head of the deceased. It was a ball for a pistol of the size shown. He at the time made a cut on the ball, but did not recognize it now

on the ball, but did not recognize it now (the ball being much discolored).

James W. Wright, Chief Clork in the Bureau of Military Justice, testified to the identity of the ball, pistol and a package of parers handed to him by Judge Holt.

Lieut. Col. Rathbun, of Albany, who accompanied President Lincoln to the theatre on the night of April 14, 1865, testified to the circumstances of the assassination.

Col. Jos. B. Stewart also testified in regard to the incidents of the assassination. gard to the incidents of the assassination Joseph Dye, a recruiting officer, testifie that John Surratt, on the night of the 14th of April, 1865, was with Booth in front of Ford's Theatre, and three times hurried up Booth, saying the third time that it was ten minutes past 10 o'clock. ten minutes past 10 o'clock.

The witness recognized the prisoner at the bar. Booth went into the theatre, and the witnessjoined Sergt. Robert H. Cooper.

Carnival of Blood in Cincinnati. CINCINNATI, June 17—8 P. M.—There has been a high carnival of blood in this city and vicinity during yesterday and to-day —three suicides and two terrible murders —three suicides and two terrible murders. Back of Newport, in Campbell county, Ky., yesterday afternoon two brothers-in-law, Wm. Pyles and James Shaw, met in the saloon of Valentine Ribaldt and renewed an old quarrel that had been brought about by Pyle's calling his wife and Shaw's sister a prostitute. Snaw struck Pyles, and Pyles drew a revolver and fired five shots, three without effect, but the 4th and 5th striking Shaw in the bowels and brains, killing him instantly.

striking Shaw in the bowels and brains, killing him instantly.
Pyles was arrested about 8 miles west of this city. Last evening a young man named John Betz, shot and killed a young woman of 18 years, named Sarah Klein, to whom he was engaged to be married. Betz was jealous and insulting in asking why another young man was permitted to visit. The girl became frightened and fled from him instantly from the yard to the house. He fired three shots at her as she ran, then pursued her into the house, and shot her fatally as she stood there by the side of her mother. The wretch then left the house, mother. The wretch then left the house, and with the remaining cartridge blew out his own brains. A German 52 years old, named T. Blei.

A German 52 years old, named T. Biei, hanged himself to a bed post with two silk handkerchiefs last night, at his house on Findlay street, breaking his neck. Difficulty with his wife is supposed to have led to the suicide.

So Consumption Curable by Doctor SCHENCK'S MEDICINES.—To cure Consumption, the system must be prepared so that the langs will heal. To accomplish this, the liver and stomach must first be cleaned and an appetite created for good wholesome food, which, by these medicines will be digested properly, and good healthy blood made; thus building up the constitution. Schanck's Mandrake Pills cleanes the stomach of all billous or mucuous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

SCHENCK'S PULMONIC SYRUP is nutritious as well as medicinal, and, by using the three romedies, well as medicinal, and, by using the three romedies, SCHENCE'S FULMONIC SYRUP is nutritious as well as medicinal, and, by using the three remedies, all impurities are explied from the system, and good, wholesome blood made, which will repei all disease. If patients will kike these medicines according to directions, Consumption very frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhoas they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the rooms as much as possible, eat all the richest food—fat ment, game, and, in fact, anything the est food—fat meat, game, and, in fact, anything the appetite craves; but be particular and masticate well

Dr. Schenck's Pulmonic Syrup, This great medicine cured Dr. J. H. Schenck, th Proprietor, of Pulmonary Consumption, when it has assumed its most formidable aspect, and whon speed proprietor, of rumonary consumption, when it massumed its most formflable aspect, and whon speedy death appeared to be inevitable. His physicians pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weightioner than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. Schenck makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astou ishing to see poor consumptives that have to be lifted out of their carriages, and in a few months holathy robust persons. Dr. Schenck's Emimonic Syrup, Seawed Tonic, and Mandrake Pills are generally all required in curing Consumption. It is warranted to do what it save every time.

Mofint's Life Pills and Phoenix' Bitters, were first used in private practice in 1825. They were introduced to the public in 1835, since which time their reputation has extended, until they have a sale in excess of all other Cathartic and Purifying Medicines. There is hardity a family among civilized nations who have not personal evidence of their beneficial effects. Their great success is owing to their uniform reliability in cases of Constipation, Billous and Stomachic diseases, whether of long or short daration. They are entirely vegetable in their composition, and harmless to the gentlest infant. One ingredient opens the pores of the skin; another is diuretic, and stimulates proper action of the kidneys; a third is emoilient, loosening philegm and humor from the lungs; other properties are warming and cathartic, and cleanse thestomach and bowels from unhealthy sceretions. Their combined effect is, to regulate the impaired functions of the system, and to produce health. It is not asserted Mofiat's Pills are a cure all—that they will cure all complaints—but under ordinary circumstances they may be relied upon to cure Nervous and Sick Headache Costiveness, Dyspepsia, Indigestion, Jaundice, Liver and Billous Complaints—tony ande for these diseases. Millions upon millions of cures can be cited. In no single instance has a complaint ever come to our knowledge, where they have not operated as recommended.
