Heavy on Its Friends. The Harrisburg Telegraph, which is in-tensely Radical, thus refers to the murderous assault which resulted in the killing of Colonel Riddle by Ovens and his friends.-The strictures of the "Hessian" journal, as it is called in Harrisburg, are eminently just, but the editor has barked up the wrong

The killing of Colonel Riddle, in one of the assessor's offices in the city of Philadel-phia, is calling forth much comment on the character of some of the men now engaged in the public sortion. There is no destinate phia, is calling forth much comment on the character of some of the men now engaged in the public service. There is no denying the fact that in many parts of the country the Democracy have entrusted the public service to a class of men not only ignorant of the manner of discharging its duties, but by education, habit, and nature unit for its responsibilities and gentlemanly courtesies. The assessor's office in which Colonel Riddle was assassinated was in the control of rowdies and drunkards, men infuriated with liquor, men bloated with the pride of temporary power, and, as the case proved, ready to kill any citizen who dured to engage in a contest for his rights. Surely such a condition of affairs is the legitimate fruit of that kind of partisanship which opposes the restriction of the liquor traffic, and which upholds the rum interest as a power worth courting in politics.

power worth courting in politics. Ovens is a Radical of the first water, a are all his friends who assisted in the murder of Riddle. His tavern is a Radical ward headquarters, and he was elected as sessor of the ward by that party. At the last session of the Radical Legislature of our State. Ovens was elected sergeant-atarms of the House of Representatives, and is altogether a "big toad" in the Radical puddle. It is rather a singular fact that four out of five of the murders that have been committed in and about Philadelphia, within the last two years, have been by persons who were affiliated

with the party of "new moral ideas."-

REPARATOR CAPILLI.

For restoring hair upon baid heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon baid heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing miless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entite satisfaction is not given. As a Reaper and Self-Rake it has no equal in the field, and its claims to public attention are being appreciated by experience and trial. At the great trial of Reapers and Mowers and Self-Rakes at Auburn, New York, in July, 1866, the "VALLEY CHIEF" MOWER AND REAPER, and MARSH'S SELF-RAKE proved worthy of the highest commendation and received the favorable report of the Judges. As a Self-Rake, the Marsh Rake was the only one out of 20 Machines that was marked perfect (No. 40,1 in cutting lodged wheat on the "Sheldon Lot," and but one other Machine in the list that was marked even to No. 38 in the test, all the rest being below that number.—This was regarded as the great test of the trial in Reaping and Raking. Farmers! Look to your Interest! Buy the Best Self-Rake Machine in Market.

the Best Self-Rake Machine in Market.

TEN YEARS experience in selling Reaping and Mowing Machines enables me to offer you for the harvest of 1867, the only two-wheeled Self-Rake Reaping Machine that has proved successful in doing the work better in down tangled grain than can be done by hand.

With this Machine, one man or boy, with a good steady pair of horses, can do as much work in a day, and do it better, than two men can do with the best combined hand machine now in use. This has been our experience and that of many of our best Farmers who have used them the last three seasons. Take off your Rake and Platform and you have one of the very best Mowers in use; in outting down tangled grain or grass with this Machine, you can drop your cutter bar as low as you may desire without stopping your team; you can raise or lower it with all ease while it is in motion.

large Kitchen of four rooms, a smoke House,
Corn House, and Stable. This farm contains
635 ACRES OF LAND,
130 Acres of which is in Timber. It has plenty
of running water upon it; every field can be
made accessible to water, and the most of them
have it. All of the fencing upon this farm was
destroyed by the war, but there is now two
hundred acres under fence, and the land is
adapted to all kinds of grain and grasses. I
have one of the best farms in Jefferson county,
but it possesses no advantages over my farm in
Culpeper. This land lies within four mites of
Brandy Station, upon the Alexandria and
orange Ralirond, and within five miles of Culpeper Court House. The land is clear of rocks
of any kind, and all kinds of farming implements can be used to great advantage upon it;
in fact this farm can be farmed at one-half the
cost of any other land in Jefferson or any
other county in the valley of Virginia, and
labor can be gotten at one-half the price, and
much better labor than we have in the valley.
This farm also has a fine Apple and Peach

If not sold, the subscriber will rent the farm

NEW FASHIONS FOR 1867. SHERMAN'S NEW PATENT AS YOU LIKE IT SKIRT

This is not only a new fashion, but a new article of SKIRT, made on an entirely new principle, so novel and yet so perfect the ladies contend it should be called Perfection.

We would here call particular attention to the AS YOU LIKE IT, or fexible joint, extending down the front of the skirt; it is so constructed that the springs fold inwardly, but not outwardly, and readily yield to the slightest pressure, thus allowing them to collapse, so that the skirt occupies the smallest possible space whits sitting, riding, or in passing through a crowd, and yet the moment the pressure is removed, the skirt resumes its original and beautiful shape.

The novelty and utility of this contrivance need but be seen to be appreciated.
But for want of space we might here publish thousands of extracts from letters, we are daily receiving, speaking in the highest purise
