LINDEN HALL.—The 83rd annual term of this Seminary closed Thursday with the usual exercises. Litiz was crowded with the friends of the young ladies who had arrived to witness the closing ceremonies of the session and to take their young lady friends and relatives home for the summer vacation. During the afternoon the school was filled with visitors examining the elegant needlework, embroidery and drawngs, executed by the fair hands of the students. In the evening the beautifully decorated church was crowded with those anxious to hear the brilliant musical entertainment given by the young ladies, who arrayed in spotless white occupied the spacious platform. The programme was long one, occupying from 7 to 11 o'clock in its execution, and consisted of Recitations, Instrumental Music, Solos, Duetts, Choruses, &c.; we need not say to our readers, who are acquainted with this annual entertainment, that it was listened to throughout with delighted attention.

After the performance many of the young ladies repaired to the Hotel with their friends, and enjoyed themselves until the midnight hour in walking along its ample corridors, while a few enthusiastic devotees of Terpsichore danced in the parlor to the music of an ancient plane, and by the light of a solitary candle; no doubt finding the dimness of the light, after the glare of the church, to be an enhancement of the pleasure of the occasion.

On Friday the cars at Litiz were crowded with crinoline and trunks, accompany ing the fair owners to their homes. Our oest wishes attend them; may they have a pleasant sojourn in the midst of their friends out let them not stay away from us longer than the 20th day of August, when the 84th term of the School commences, for several of them took our hearts by storm, and we pray them when they return to bring their big brothers with them, strictly enjoining them to seek us out and bring us to their presence. We want to be introduced. Let is be gratified.

THE 4TH AT LITIZ .- Every body is go ing to Litiz on the 4th. The preparations made for the celebration of the day are more complete than they have ever been before. Nothing will be left undone to enhance the pleasure of all who go. The illumination of the grounds in the evening wid surpass anything of the kind ever before gotten up. Everybody, and everybody's wife and children and sweet heart, is going to Litiz.

ELECTION OF SCHOOL DIRECTORS,-At the election for School Directors, held in the city yesterday afternoon the full Democratic ticket was elected. It will be seen that the majorities are unprecedentedly large. The following is the vote receive by the several candidates:

CHURCH EDIFICE REPAIRED,-Old Lea cock Church, a well known Presbyterian schouse of worship in Leacock township, is being handsomely repaired and fitted up under the superintendence of George I Eckert, Esq., S. R. Sample, M. D., and A. P. Mellvaine, Committee of the Congrega tion. A sufficient sum has been subscribed to complete the stone wall around the gravevard of the Church, which, when finished will add greatly to its appearance, and serve more effectually to protect the remains of the honored dead, the former builders and supporters of the Church who sleep their last sleep there.

A marble slab with the date of the erec tion of the wall has been presented to the Church by Mr. J. B. Storb, Marble Mason of New Holland, for which the committee on behalf of the Congregation desire to tender their heartfelt thanks.

THE RED WEEVIL .- The wheat and ofte crops in this county are looking very finely, although we regret to learn that the red weevil is found in the wheat and is giving our farmers someanxiety. Some fields are very seriously injured by the ravages of this pest, while others are but slightly if at all, affected. The grain of the wheat is now, however, hardening rapidly, so that very little further damage can be inflicted upon it by the weevil, which, as our readers doubtless know, is a small red worm about a tenth of an inch in length, which gets into the soft wheat grain and sucks out its sub-

Sketch of Maximilian.

Sketch of Maximilian.

Ferdinand Maximilian Joseph, Archduke of Austria, and brother of the reigning Emperor Francis Joseph, was born July 6, 1832, and consequently was nearly thirty-five years of age at the time of his tragic death. Little known even outside of European aristocratic circles, the people of this Continent would have taken but slight inferest in the career of this Austrian Prince, but for the exciting events which, during the last four years, brought Maximilian so prominently before the American public as Emperor of Mexico. The troubles of that country are of too recent date, and are even continuing at this writing, that their successive recital in this instance would be entirely superfluous.—As a matter of record, however, it should be stated here that it was under the immediate direction of the French Commander, acting under especial orders of Napoleon, that the Assembly of Mexican notables sent, in 1833, a deputation of their number to offer the Mexican crown to the Archduke Maximilian, then chief in command of the Austrian navy. Their address was presented to him on the 3d of September, 1863, to which he replied on the 3d of the succeeding month, accepting the crown upon condition that the people of Mexico should express their willingness to acknowledge him as their Emperor by giving him a majority of their votes, which should be cast for that purpose. On the 10th/of April, 1865, Prince Maximilian again received the Mexican deputation at Miramar, and formally accepted the crown of Mexico. Full of hope, and determined to raise the fallen fortunes of that unhappy country, Maximilian, and his wife Carlotta, daughter of Leopold II., King of Belgium, soon set sail for their new empire, and after a brief interval the little fleet reached Vera Cruz towards the end of May. It was, however, not before the 2d of June that the Emperor formally made his entry into the capital of Mexico. The successes and reverses of the French army, while battling with the numerous bands of dissidents, who never ceased t

Abandoned by France—or rather by Napoleon—Maximilian bravely, but recklessly, endeavored with his small band of warriors to oppose the constantly increasing Liberal army, until finally, through the treachery of a man named Lopez, whom he had laden with honors, the City of Queretaro, which he was valiantly defending, fell into the hands of Escobedo, and he himself was made a prisoner of war, subsequently "tried" by court-martial, and, as the telegraph announces, found guilty, and executed on the lith of Love Michael without the lith of Love Michael and the suiters. graph announces, found guilty, and execu-ted on the 19th of June. This estimate also leaves out of view the contingency that Senator Guthrie, of Kentucky, who was not present at all at the last session, may continue indisposed, and the further contingency that Reverdy Johnson, who voted for the reconstruction bill over the President's objections, may continue of the same mind to the end.

Damage to the Crops in the South by the Recent Rains.

Information received from Richmond states that the recent tremendous rains in North Carolina have produced an unprecedented amout of damage in the agricultural districts. Hyde county is said to be, as it were, one broad field of water, and some of the finest plantations in Edgecombe are reported to be from one to two feet under water. In Brunswick the damage is feurful. The rice plantations have suffered seriously, part of the crop having been washed entirely away. Several large rice fields near Wilmington are several feet deep in water. The latest accounts state that the damage done to the planting interest throughout the State is fearful to contemplate. The cotton crop is almost entirely annihilated, fertilizers and manures having been completely washed is almost entirely annihilated, fertilizers and manures having been completely washed out, while the corn crop has sustained very serious injury. The consequences of this fearful disaster to the agricultural interest will be most terrible, the energy of the farmers having been directed to bring about an abundant yield this year. The only course left to pursue is to push ahead and plaugh up the remnants of the danaged plough up the remnants of the damaged crops, and endeavor to replant as far as possible with corn. At best it is a very great risk, and the yield will depend entirely on

The Convocation in Rome. By Special Telegram to the N. Y. Herald. ROME, June 27, 1867. ROME, June 27, 1867.
His Holiness Pope Pius the Ninth held a public Consistory this day, Thursday, at which there were over four hundred Catholic bishops, coming from every part of the world.

The Pope delivered an allocution to the assembled prelates, in the course of which he praised their great zeal in coming to Rome from such distances and thus evincing their attachment and devotional obe cing their attachment and devotional obe-dience to the Holy See. He said that the example shown to the world by the union of the Church at large in its celebration of the eighteenth centenary anniversary of St. Peter's martyrdom, would show forth to the enemies of the chair of Peter the immense power which the Church wields on earth. His Hollness confirmed the Papal con-demnation of the errors of the act of October 29, 1865. The Committee of the New York Constitutional Convention to whom was referred the question of suffrage, have made majority and minority reports—the former by Mr. Greeley. They are at variance on many points of the suffrage question. The majority proposes to confine suffrage to males without distinction of color. It proposes the following qualifications: 1. Adult rational manhood. 2. Citizenship of the United States of not less than thirty days' standing. 3. Residence in the State for the year preceding. 4. Residence in the election district for the last thirty days. 5. Freedom from crime. 6. Exemption from dependence through pauperism or guardianship. The following is what it says on female suffrage: The Suffrage Question in New York. dianship. The following is what it says on female suffrage: Your committee does not recommend an Your committee does not recommend an extension of the elective franchise to women. However defensible in theory, we are satisfied that public sentiment does not demand, and would not sustain, an innoyation so revolutionary and sweeping—so openly at war with a distribution of duties and functions between the sexes, as venerable and pervading as government itself, and involving transformation so radical in social and domestic life.

ocial and domestic life.

Mr. Opdike has introduced as an inde-Mr. Opdike has introduced as an independent proposition, that the future qualification of impartial suffrageshall be ability to read and write—the only basis at all consistent with the stability and enduring character of our Government. The whole subject will come up for discussion in the Convention at an early day. The main points of the majority report will be adopted.—Pittsburg Commercial.

ed.—Putsburg Commercial.

We have another batch of rumors about Mr. Stanton. Some say that he will resign, others that he will be removed. We discredit them. Mr. Stanton belongs to the class that rarely die, and never resign. As to his political sympathies, they may be expressed by saying that there are three parties in the country now—the Democrats, the Republicans, and Mr. Stanton.—N. Y. Tribune.

A Woman Sentenced to Death. Lena Miller, lately convicted of poisoning her husband in Clearfield county, was sentenced to death on last Saturday. The Republican says she showed no emotion under the circumstances.

Radical Portrafture. The Washington correspondent o The Washington correspondent of the St. Louis Times favors the readers of that paper with the following sketches of the great Impeacher Ashley, and the Old Confiscator Stevens:
Several Radical Congressmen are already here preparing work for the session of Congress, which it is now thought certain will convene on the 3d new thought certain will convene on the 3d new terms.

of Congress, which it is now thought certain will convene on the 3d proximo. Asnley, the pompous, can be seen daily on the avenue, his ample stomach projecting forward, airing himself for the benefit and admiration of numerous Yankee school marms and other female Radicals, who have come hither with a prospect of teaching the young nigger "idea how to shook" Ashley is becoming a bright and shining light in the Radical firmament. Amongst the female Radicals "the great impeacher" ing light in the Radical firmament. A mongst the female Radicals "the great impeacher" is facile princeps. His Hyperian locks, smooth fat face, square built shoulders, and the killing manner in which he runs his plump fingers through his ample and glossy curls, are sufficient of themselves to carry captive the heart of the most venerable virgin in Yankee-land.

With the sterner and less susceptible sex, the "Lucifer of Lancaster" is the great

the "Lucifer of Lancaster" is the grea

the "Lucifer of Lancaster" is the great Mogul. He is the very impersonification of bate and deformity. Could mankind be at present assembled in some convenient Jehosaphat, I doubt if a homelier sinner than Thad. Stevens could be found amongst them, or one in whose countenance and figure God has so plainly stamped monster. From the top of his ugly, tawdry wig to the soles of his misshapen and hornd feet there is not a human snot in him. He looks the is not a human spot in him. He looks the is not a human spot in him. He looks the very incarnation of malice—a male harpie, whose words are scorpions, and whose breath is poison. Those acquainted with the physiognomy and history of Mr. Thaddeus Stevens will recognize this as a highly colored, but not overdrawn, portrait of the man who, more than any other, is dragging the United States to perdition. His theories of confiscation and division of the southern farm and plantations amongst the negroes lately and plantations amongst the negroes lately made free, could only emanate from a brain brimful of bate and malice. Nothing good can come from measures proposed and fathered by this bad old man, whose near approach to the grave seems only to have added to the accumulated vindictiveness which he has ever fostered toward the people of the South. Is it wrong to pray a merciful Providence to remove people in the south. Providence to remove peacefully and with-out pain from our midst, the Hon. Thaddeus Stevens, and transfer him to a happier and more blessed country, whose citizens may not be cursed with his legislation, nor in-

Statistics of the Wheat Crop. Complete returns for the month of June to the Statistical Division of the Agricultural Department corroborate and the statements relative to wheat prospects the statements relative to wheat prospects, which we have heretolore given. A careful analysis of information from all the States show that the total acreage in wheat is 10 to 15 per cent, greater than last year. In a majority of the States the breadth of winter wheat is quite as wide as usual, and that of spring wheat much greater. In the Obic spring wheat much greater. In the Ohio Valley the acreage of winter wheat is less by 12 or 15 per cent., with a very heavy inby 12 or 15 per cent., with a very heavy in-crease of spring sowing. The States show-ing any material decrease of acreage of winter wheat are Ohio, Indiana, Kansas, and Texas. A large increase is indicated in Virginia, Georgia, Arkansas and Ten-nessee, and in the South generally, and a slight advance is shown in the New Eng-and Middle States. The increase in breadth of spring wheat in certain States. of spring wheat in certain States is as

The facts indicating the condition of the crop are still more encouraging. The folcrop are still more encouraging. The fol-lowing table shows the average improvement upon last year:

The other States, excepting Texas, makes favorable comparison with last year. It is too early to estimate the final result of is too early to estimate the final result of the harvest; but with average success in ripening, the crop ought not to be less than 200,000,000 bushels. An average acreage of Winter barley has been sown in a majority of the States. A decrease of five per cent is estimated for New York, Ohio, eight per cent; Indiana, three per cent: an increase in Tennessee of 10 per cent, and in Arkansas of 25 per cent. On the whole there is a very of 25 per cent. On the whole, there is a very slightly diminished breadth of Winter bar ley, but the increase of the spring sowing will compensate for the deficiency. The condicompensate for the deficiency. The condi-tion of clover is good throughout the country—unusually fine in Ohlo and the Middle and New England States. In Pennsylvania it is somewhat better than in New York, and in Maineaud Massachusetts more, comparatively, flourishing as com-pared with last year, than in the remainder only State which cannot show an increas The crop is somewhat variable in conditio

The crop is somewhat variable in condition; in the South far above an average; in New York, 10 per cent below; in Pennsylvania, 6 per cent; in Kentucky, 14 per cent. In the West, generally, the prospect is better than last year. Views of a Well-Known Confederate. Raphaei Semmes, ex-Confederate admiral presented a set of Union colors to the steamer Commercial, at Memphis, last week, and made a speech, winding up as follows:
"We were beaten in the war, and the flag of the conqueror became our flag. Take, then, these colors, captain; they are the then, these colors, captain; they are the colors of our common country, whatover may be their present signification. We can all feel an honest pride in their more ancient history, as I trust we shall be enabled to do in their future history. With regard to what I may call their especial history—that is, the history which covers the four years of our internecine war—It is our duty, both as Christians and brethren, to lorget it. That war has left many and ghastly wounds. Let us, of the South, do our part by closing Let us, of the South, do our part by closing them with a tender and gentle hand, so that no scars may remain to remind us of the conflict. And let us endeavor also to convert this new flag into the old flag again that we may love it as of yore."

A Southern poet has been recently paying his respects to Underwood, as fol lows:

It is warranted to do what it says everytime.

Moffat's Life Pills and Phœnix; Bitters, were first used in private practice in 1825. They were introduced to, the public in 1835, since which time their reputation has extended, until they have a sale in excess of all other Cathartic and Purifying Medicines. There is hardly a family among civilized nations who have not personal evidence of their beneficial effects. Their great success is owing to their uniform reliability in cases of Constipation, Bilious and Stomachic diseases, whether of long or short duration. They are entirely vegetable in their composition, and harmless to the gentless infant. One ingredient opens harmless to the gentlest infant. One ingredient opens the pores of the skin; another is diuretic, and stimulates proper action of the kidneys; a third is emolient, loosening phierm and humor from the lungs other properties are warming and cathartic, and cleanse the stomach and bowels from unhealthy secretions. Their combined effect is, to regulate the impaired functions of the system, and to produce health. It is not asserted Monar's Pills are a cure all—that they will cure all complaints—but under ordinary circumstances they may be relied upon to cure Nervous and Sick Headache Costiveness, Dyspepsia Indigestion, Jaundice, Liver and Billous Complaints harmless to the gentlest infant. One ingredient oper vous and Sick Headache Costiveness, Dyspepsia Indigestion, Jaundice, Liver and Billious Compilants Colds, Scurvy, General Weakness, ac. They are expressly made for these diseases. Millions upon millions of cures can be cited. In no single instance has a complaint ever come to our knowledge, where they have not operated as recommended.
