Mr. Hartman moved to adopt, as a whole, but modified his motion so far us to admit of S. A. Wylie, Esq., proposing to amend, by substituting a different division into districts from the one reported by the Committee. From a map prepared for the purpose, he claimed to mave demonstrated that his division of the county, while equitable as to mabbers, was superior to the other, from the foliolied together.

The first two to constitute the Pirst Senatotrial District.
The dense vote of the city was thus distributed among the four divisions, and its influence
not concentrated upon a single one; the division in the report, he thought, was confusion
worse confounded. He also objected strongly
to the fourth section of the report, as making
the County Committee man the judge of elections, with the power to appoint the cleries,
thus giving opportunities for stuffing boxes,
and altering papers, and afterwards (section
fifth) making thin as one of the return judges,
one of the judges of his own acts; under this
sort of a system be did not think it would beeven possible to prevent frauds.

Mr. Erb moved that the report be referred to even possible to provent frauds.

Mr. Erb moved that the report be referred to
a sub-committee of five, and that this committee adjourn, and re-assemble to hear the re-

tee adjourn, and re-assemble to hear the re-port.

Major R. W. Shenk objected, thinking that nothing would be gained by the reterence, and that it was better to decide the matter here and now. [Mr. Erb's motion was withdrawn, and Maj. 8, proceeded.] He thought that the divi-sion which Mr. Wylle proposed, would or at least might have the effect of keeping all the offices in Lancaster; under this division the city might have the whole four Representatives would be in common within more the one pro-All, Furniss offected, that under this system there thigh the combinations formed that would enable one district to settle Representatives to be voted for throughout the county, and to force upon the people of a district, as their Representative, a man who could not obtain a single vole within its limits. He thought there was not a single man in his district in layor of the plan as reported by the committee. In his opinion, each Representative district should select its own man, without reference to the others. should select its own man, without reference to the others.

John A. Hiestand, Esq., announced himself converted by the division shown upon the map. He lived in the city and thought we ought to take care of home, and under this the city of Lancaster might have all the Representatives and both Senators, therefore he expected vate for it.

sentatives and both schators, therefore he should vote for it.

Mr. Wylle rejoiced in the conversion they had made, and thought that cutting the LEGG votes of the city into quarters tended rather to weaken than to build up its influence—he couldn't see it in any other light, and he or the other gentleman must be obtuse. The division The Examiner says:

was made with a view of greene county to like it.

The Examiner says:

At this point of the proceedings Geo. Brubaker, who was a spectator, whispered something into the ear of a pony who crossed the room and whispered something in the ear of Mr. Houston, who, after a few preliminary remarks, developed the programme set up, by pulling from his pocket and reading to the committee the following resolutions:

Whereas, The adoption of the "Crawford County System" of nonlinating candidates for office is a complete and radical change from the system heretofore in use, and to which the people were accustomed; and,
Whereas, There has lately been very considerable discussion of it, and dissatisfaction with it among the Republican voters of the county, the question having been fairly or properly presented to them for their approval; and,
Whereas, The discussion just had shows that the members of the County Committee are very lar from agreeing in regard to the details of the system. Therefore be it.
Resolved, That in order to relieve the members of the committee from a responsibility not contemplated when they were appointed, and to allow the voidrs of the party to decide this question for themsalves, that the members of the Union Republican party of Lancaster county, are hereby requested to meet on Saturday the 24th day of August, at the usual phaces of holding dolegate meetings, in the several wards and boroughs, between the hours of a and 6 o'clock Y. M., and in the other districts, between the hours of 3 and 6 o'clock Y. M., and in the other districts, between the hours of 3 and 6 o'clock Y. M., Revolved, That the first question for rejection of the report of this special committee; if adopted, they shall arrange the details for patting the system in practice. If rejected they shall proceed to nominate rive vec a county ticket.

Mr. Hiestand moved to postpone the substitute indefinitely, and read, the resolution

thing the system in practice. If rejected they shall proceed to nominate rive rove a county teleket.

Mr. Hiestand moved to postpone the substitute indefinitely, and read the resolution adopted by the last County Convention, and argued that this body could do no more than to carry out it instructions.

Col. J. W. Fisher followed. He said that at the delegate election for the convention in June, not 1000 voted, probably not more than 500; and should we make this radical change without consulting the people? He did not know one man beside hinself in his ward who was in lavor of this plan, and could not lind more than 500; and should we make this radical change without consulting the people? He did not know one who opposed the county were of the blanker in the throughout the dark of the first than 100 in the throughout of the dark; let the people want to take a leap want the change let them should graves, and if they want the change let them should graves, and in the one that provide the continuous should be recommended any of the members who wanted a grave to call at the sheep always and he recommended any of the members who wanted a grave to call at the sheep always and the commended any of the members who wanted a grave to call at the sheep always and the commended any of the continuous sheep and the four the division proposed by the committee, Lancaster, Columbia and Marrietta unit; under the division proposed by the committee, Lancaster, Columbia and Marrietta might be did not believe a single man who to the convention in June instructed to make this change; Mai, Shenk—I was; perhaps one of two wards in the city did so; perhaps the chemo was concocted there.

Major Shenk said that none of the speakers had attempted to show that the proposed change could on any harm; it simply distributed among 15,000 persons the power now delegated to 200; where was the injury to the people? Some gentlemen might see it, but he could not; the objection might be that this ring would be too large to "set up," and there might be

to set aside the action of the June Convention, the members of which were just as responsihe members of which were just as responsi-le as the goalleman who nined the resolu-ions or the gentlemen from Columbia; they ad deliberately passed the resolution directing tions or the gentlemen from Columbia; they had deliberately passed the resolution directing this committee to adopt the Crawford County System. The Committee had no choice and ought to have no interest except in carrying out those instructions; and, he said, that convention must be obeyed! Like was here interrupted by several members, one exclaiming that it should not be obeyed, which was applicated. He proceeded, saying that he was not to be builled out of his position, and closed by reading the following correspondence which explains itself:

LANCASTER, July 20, 1857.

Hon. Thaddeus Stevens:

DEAR SIR: Has the County Committee, which meets to-day, the power to reject the instructions of the June Convention, directing the adoption of the "Crawford County System," in the nomination of candidates"

Respectfully, your obedient servant,
R. W. SHENK.

July 29, 1867.

DEAR SIR. In answer to your letter of this day, I have to say that the committee have but one duty—to obey the instructions of the County Convention, and carry out the Crawford County System. Any other course would be rebellion, and destroy the party. I think such rebellion aught to destroy its authors.

MAJ. R. W. SHENK.

sol received, and destroy the party. Ithink such reboilton ought to destroy its authors.

MAJ. R. W. SHENK.

This communication excited considerable laughter and some attempts at ridicule.

Mr. Houston, after complimenting the character of Mr. Stevens and doing justice to the value of his exertions in the Republican cause, proceeded to say that it seemed to him that the convention had asked this committee to perform an impossibility; the convention referred the matter to us, and if we fail to agree upon the plan reported by our special committee, he could not see any robellion; he wanted to take the question back to the source of all power the people—who had made both the June Convention and this Committee.

Mr. Compton said that this matter had been pressed through the June Convention by a few meet, and where was the voice of the people in the matter? The Convention which made this Committee did not contemplate any such possibility as an intermediate Convention undertaking to regulate and direct our action. He wanted the question to go before the people themselves, but it seemed as if the genilement who invored the system were afraid to let the people decide upon it.

The question was then called and put upon the postponement, and the voice taken, by districts, at autows:

neople decide upon it.

The question was then called and put upon the postponement, and the vote taken, by discrete the content of the postponement, and the vote taken, by discrete the follows.

The Surrate Trial. The Washington correspondent of the Baltimore Sun gives the following account rogressing:

of the manner in which the Surratt trial is progressing:

It is by no means clear, now that the evidence is all in, that this whole trial was not gotten up as much for the purpose of shielding the Arsenal Military Commission, and demonstrating that Mrs. Surratt was justly hung, as it was to try John H. Surratt for Mr. Lincoln's murder. The whole ground gone over at what was called the conspiracy trial was retraced, and the evidence in this case will, when published, make a larger volume than that of the military commission trial. In this last trial the United States seemed to have no end of counsel; whether more volunteers or not, has not transpired. Mr. Pierrepont had the entire conduct of the case for the prosecution, Mr. Carrington and Mr. Wilson assisting him. In the background were Mr. Bingham, Mr. Riddle, Col. Foster and others as advisory counsel; while Mr. Montgomery, who injured at the conspiracy trial in connection with Conover, seemed to be the sergeant at arms of the concern, and was engaged in hunting up testimony to meet the points made by the defense. Latterly Dr. McMillian and the patriotic Welchman seemed to be added to the advisory force of the prosecution. It seemed to be all right and proper for any and all persons to advise counsel or aid the prosecution, while a suggestion to the counsel for the defense, a word spoken to the prisoner, an expression of dissent from any one witness for the defense could tell the truth was at once pronounced treason and sympathy with the conspirators, and the rudleal papers took up the hue and cry and proclaimed as copperheads all who did not believe in advance that Surratt should be hung whether or no. In this same spirit the very jurors have been attacked, and it

not believe in advance that Surrat should be hung whether or no. In this same spirit the very jurors have been attacked, and it has been published to the country in advance that Surratt will not be convicted. By what right is this prophecy made? The jurors were selected by the prosecution and defense allke; there was not one of them who did not her to be excused, but judge who did not beg to be excused, but judge prosecution and defense insisted that they were the right men in the right place. When were the right men in the right place. When the vordict is rendered, it is time enough to comment upon it. This much it is proper to say, however, that the Surratt jury is composed of men who represent, to a great extent, the wealth, intelligence, honor and respectability of Washington. There is not one among them who is not well known to our citizens to be men of undoubted charour citizens to be men of undoubted char-acter for truth and honor, who will decide without fear, favor or affection, and where ever they are known their recorded verdict whatever it may be, will stand as the hon sit, conscientious judgment of houset men At the present rate of progress specula-ions are all at fault, and it is impossible to the progress of the progress of the pronons are all at fault, and it is impossible t any exactly when the case will be closed Mr. Carrington does not seem to be nor han about half through and if other coun-

TO OUR CUSTOMERS. We take pleasure in announcing to Dealers in Fertalizers, and the Agricultural public, that we have within the past year increased our facilities for the manufacture of our Raw Boxe Phospharts, to an extent unequalled by any other House in the United States or Europe. These facilities not only include the chargement of our old established works to Philadelphia, known as the DELAWARE RIVER AGRICULTURAL CHEMICAL WORKS, but also the purchase of extensive and well-stocked works at Chicago, Ill., with all the necessary machinery, cars, &c., to conduct the business. This establishment alone has produced, annually, over 5,000 tons of dried

NEW FASHIONS FOR 1867. SHERMAN'S NEW PATENT AS YOU LIKE IT SKIRT

35 North 8th St., corner of Filbert. 33 This is not only a new fashion, but a new article of SKIRT, made on an entirely new principle, so novel and yet so perfect the ladies contend it should be called Perfection.

We would here call particular attention to the AS YOU LIKE IT, or flexible joint, extending down the front of the skirt; it is so constructed that the springs fold inwardly, but not outwardly, and readily yield to the slightest pressure, thus allowing them to collapse, so that the skirt occupies the smallest possible space whilst sitting, riding, or in passing through a crowd, and yet the moment the pressure is removed, the skirt resumes its original and beautiful shape.

The novelty and utility of this contrivance need but be seen to be appreciated.

But for want of space we might here publish thousands of extracts from letters, we are duily receiving, speaking in the highest praise of these Skirts.

These machines are made at our new and spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company, Elias Howe, Jr., the original inventor of the Sewing Machine.

They are adapted to all kinds of Family Sowing, and tothe use of Seamstresses, Dress Makers, Tailors, Mannfacturers of Shirts, Collars, Skirts, Cloaks, Mantilias, Clothing, Hats, Caps, Corsets, Boots, Shoes, Harness, Saddles, Linen Goods, Umbrellas, Parasols, etc. They work equally well upon silk, linen, woolen, and cotton goods, with silk, cotton or linen thread. They will seam, quilt, gather, hem, fell, cord, brid, bind, and perform every species of sewing, making a beautiful and perfect stich, allice on both sides of the articles sewed.

The Stitch invented by Mr. Howe, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him.
