THE NEW HOSPITAL BUILDING .- WE publish herewith a detailed statement of he expenditures for erecting the new Hospital by the Board of Poor Directors. The cost it will be seen is less than one-half the estimate made by the County Commissioners, which we understand was something like seventy thousand dollars, for which amount a tax was levied and is being now collected. This speaks well for the honesty and economy of the Board, and is an evidence of faithfulness in the discharge of their duties which is highly creditable to them. Here are the figures:

JUPITER'S MOONS .- Our readers should remember that on the 21st inst., a celestial phenomenon will be witnessed which has only twice before been recorded in history. The planet Jupiter will at that date be seen unaccompanied by her satellites for nearly two hours. Of her four moons, three will invisible on account of their passing simultaneously over Jupiter's disc, and the fourth will be immersed in the shadow o the planet.

SHAD DYING, - The Wrightsville Star SEAD DYING.—The Wrightsville Starsays:
We learn that very many dead shad have lately been seen floating on the water above the dam, and others with scarcely life sufficient to propel their bodies, making their way down the river. We presume this will be considered sufficient evidence of the efficiency and success of the fish "wier" placed in the dam during the past summer, and that our up river friends are much delighted with the prospects of having mer, and that our up river friends are much delighted with the prospects of having a plentitul supply of shad the next senson. If they have, we rejoice with them, but to our mind it does not prove conclusively the success of this contrivance, as the means by which a more plentiful supply of the firmy tribe may be obtained in the upper waters of our river. The many breaks in the dam afforded much better passages for fish, and which, when repaired, will somewhat curtail the supplies so gladly anticipated.

QUACKENBOS' ARITHMETICS.-Quacken bos' new arithmetics claim to be the best in the field, and we think not without reason. Why? Because their rules and analyse are admirably condensed. Because in num ber and variety of examples they are unequalled. Because in interest and all othe business operations (on which they are particularly full) they teach the methods actually used by business men. Because, being written since the war, they are up to the times (which none of the old text-books are-)give present prices, teach that there is a difference between gold and currency, describe Government securities, and show how to find the comparative results of invest ments in them. New York, Brooklyn, Jersey City, &c., have adopted them for their Common Schools, and we think their merits have only to be known to introduce

them generally. OUGHT TO STOP.—The good old Rain God Jupiter Pluvius has favored us for the last few days with rain enough, and it is time now that he should desist for a while. The danger now is, if he keeps on, that the potato crop will be a failure owing to the rot, and that whatever of the oat crop still remains uncut will be destroyed. Hold off now old God for a while and let us have some fine

ACCIDENTATE ALMOUTH - Levi Schaeffer tenant living on Col. Greenawalt's Island and his hired man, were fishing on Thursday on the Conewago Creek. Returning home last night, as they were crossing the Railroad at Falmouth they were caught by two trains approaching from opposite directions. Schaeffer had his leg cut off above the knee and is not expected to live: his companion had his hand cut off. Mr. Schaeffer is very industrious man, a good citizen, and much beloved by his acquaintances. We are indebted to Abraham Collins, Esq., of Falmouth, for these particulars.

NEW PATENT. Samuel L. Weisey, of West Donegal township, this county, has received letters patent dated August 6, 1867, for an improvement on cultivators, in facilitating the turning at the end of the furrows and relieve the horses as well as the strain on the pole and shovels. Obtained through 1,743 31 the agency of J. Stauffer.

USEFUL INFORMATION FOR FARMERS. The Uniontown Standard gives the follow ing important information for wool growers: "If sheep are kept in the same lo with cows or fat cattle, no dogs will disturb them. As soon as the dogs approach then they run to the cattle, who drive off the logs. A farmer of thirty years, in Selby, 36 25 by adopting this plan, never lost a sheep by dogs, although in the neighborhood th dogs killed sheep to the north and south of bim.

ACCIDENT ON THE RAILROAD.—The pas senger train, usually known as the "Day Express," which left the depot on Tuesday at 3.20 P. M., ran off the track near the bridge across the Pequea Creek, near Leman l'lace, about 4 o'clock. Several trucks or the hind cars were destroyed, and the two last cars very much injured. None of the assengers were hurt. All were placed in he uninjured cars, and after a delay of about an hour the train was again started. Hon. James Buchanan was in one of the cars which suffered most. His numerous friends will be glad to learn that he escaped inharmed.

SHERMAN'S NEW PATENT AS YOU LIKE IT SKIRT 35 North 8th St., corner of Filbert, 35

This is not only a new fashion, but a new article of SKIRT, made on an entirely new principle, so novel and yet so perfect the ladies contend it should be called Perfection.

We would here call particular attention to the AS YOU LIKE IT, or flexible joint, extending down the front of the skirt; it is so constructed that the springs fold inwardly, but not outwardly, and readily yield to the slightest pressure, thus allowing them to collapse, so that the skirt occupies the smallest possible space whitst sitting, riding, or in pussing through a crowd, and yet the moment the pressure is removed, the skirt resumes its original and beautiful shape.

The novelty and utility of this contrivance need but be seen to be appreciated.

But for want of space we might here publish thousands of extracts from letters, we are daily receiving, speaking in the highest praise of these Skirts.

OUR CORSETS Are now so well known for their superior SHAPE, MATERIAL and WORKMANSHIE that it is perhaps unnecessary for us to speak of them, in ther than to say that we have greatly enlarged our assortment of Styles, both of our own make and importation, and can now safely defy competition.

We ask but a trial and are sure of your future materials. patronage.

NOTICE TO THE PUBLIC. I have removed my place of business from church street to the corner of Water and Lemon streets, formerly Shirk & Royer's, Warehouse, on the Railroad near Ranngardner's Coal Yard, and two squares west from the Railroad Depot, where I manufacture the latest improved GRAIN DRILLS, ROUKAWAY, FANS, CIDER, MILLS, CRUSHERS, AND GRATERS, for horse or hand power, which will grind a bushel of apples per minute by horse power, and are warranted to do it well.

Well.

I would inform Coachmakers in general that I have put up in my shop two of the latest improved SPOKE MACHINES, or Lathes, manufactured, and am prepared to furnish the best quality of Spokes of all kinds, and of all sizes, dry or part dry, and warranted to be a good article. I huy none but the best split spokes, and have now on hand 100,000 Spokes. Bent Felloes of all sizes, Shaft and Carriage Poles, Bows, &c., of seasoned staff constantly on hand.

I would also inform my old customers that I am prepared to do all kinds of SAWING, such as scroll sawing and ripping lumber of all kinds, having lately put up one of the latest improved Scroll Saws, with Gig attachment. Planing of all kinds done, and stuff called for and delivered free of charge, and satisfaction guaranteed to all who favor me with their ware bown here in this business 16 or 18 years

We take pleasure in announcing to Dealers in Fertalizers, and the Agricultural public, that we have within the past year increased our facilities for the manufacture of our RAW BONE PHOSPHATE, to an extent unequalled by any other House in the United States or Europe. These facilities not only include the enlargement of our old established works in Philadelphia, known as the DELAWARE RIVER AGRICULTURAL CHEMICAL WORKS, but also the purchase of extensive and well-stocked works at Chicago, Ill., with all the necessary machinery, cars, &c., to conduct the business. This establishment alone has produced, annually, over 5,000 tons of dried Bones and Meat, and is capable of being largely increased. We desire, by the closest supervision, to conduct these two concerns so that our customers will derive a practical benefit from their consolidation, in obtaining a MANURE which shall maintain a standard and uniform quality, and at the lowest possible price.
