We take pleasure in announcing to Dealers in Fertalizers, and the Agricultural public, that we have within the past year increased our facilities for the manufacture of our RAW BONE PHOSPHATE, to an extent unequalled by any other House in the United States or Europe. These facilities not only include the enlargement of our old ostablished works in Philadelphia, known as the DELAWARE RIVER AGRICULTURAL CHEMICA, but also the purchase of extensive and well-stocked works at Chicago, Ill., with all the necessary machinery, cars, &c., to conduct the business. This establishment alone has produced, annually, over 5,000 tons of dried Bones and Ment, and is capable of being largely increased. We desire, by the closest supervision, to conduct those two concerns so that our customers will derive a practical benefit from their consolidation, in obtaining a MANURE which shall maintain a standard and uniform quality, and at the lowest possible price.
