Secretaries-Sam. Matt. Friday, E. E. Organization of the President P Servetaries-Sain, and, Francy, E. E. Snyder, M. L. Brosius, D. Bair, Jr. Samuel Evans, Esq., of Columbia, took the floor to offer the following resolution: Resolved, That this Convention do now adopt the system of popular nominations known as the Crawford County System, known as the Crawford County System, and adopted by the Republican County Convention in June last.

Col. Fisher obtained leave to make a statement which he knew would be satisfactory to the Convention; Mr. William Roberts had been announced as a candidate for County Treasurer, and no man had served the Republican party better or more successfully; but there is before us a soldler, crippled and with but one eye, and Mr. Rabeets is not the person to run against such Roberts is not the person to run against such a man when he comes before the people— and he was authorized to withdraw his

name from before the Convention, and re-quest Mr. 10s friends and all others who professed to be friends, of the soldiers to give their unanimous vote for this wounded confusion arose which we cannot fully de-scribe; a dozen or two of members claimed scribe; a dozen or two of members claimed the thoreat once, among them one Dr. Eshleman, of Strasburg, who yelled out a stream of outrageous profunity.

The President declared the resolution of Mr. Evans before the body, when Col. Fisher proposed the following amendment: Resolved, That a new County Committee be now appointed by the Convention, which is instructed to organize at once and prepare a plan by who is the Crawford County System of nomica ing candidates will be System of monitoring candidates will be enforced, to commute a tleket to be supported on the 24 Tuesday of October next The amendment was necepted by the mover, when Mr. Hustand offered a further amendment, which was also necepted, providing that the time for said nonlination be fixed on Saturday, the 14th day of September 1983. her next.

The yeas and mays were called upon the resolutions as amended, and Mr. George Brubaker took the thor, saying he was opposed to the Crayford County System upon arty at the coming election. If the ma-crity of this Convention are in favor of it,

ormelple, believing it would injure the Jority of this Convention are in favor of it, however, let us go into it unanimously; if not, he hoped there would be equal unanimity in supporting the ticket settled by the Convention.

Dr. Eshleman wanted to know whether one or two hundred men were to rule the 11,000 voters of this county—he wanted to see this Thougery and ring business put down. He was in favor of the Crawford County System; they say it will make more cheating, but it is not so; the people want a new system, and are not going to be ruled. cheating, but it is not so; the people want a new system, and are not going to be ruled any longer by Goorge Brubaker, the prophet; instead of voting by a set of corrupt delegates, the people want to vote directly for their candidates. He wanted to know whether one or two corrupt wire-pullers and degraded gambless could control the party. At this point he was interrupted by Mr. S. A. Wylie, who thought no man should be allowed to "blackguard men who are certainly his counts, and probably his ertainly his equals, and probably his Order being in some measure restored, the years and mays were taken upon the resolutions as follows:

Geo. W. Hensel, when voting for his district, (Eden) stated that he voted no because he believed the System would be detrimental to the interest of the party.

Much amusement was created when the 5th Ward was called, and Mr. Brubaker, rising to his feet, said that he had all along been opposed to the System, but as it was evident that a majority of the people of the county were in favor of it, he would vote ave.

when Warwick was called, one of the dolegation stated that they had been specially instructed against the System, and should therefore vote no.

Mr. Evans moved that each district now name its member for the new County Comittee, which was agreed to. Mr. Brubaker said he hoped that now the AIT. Brubaker said he hoped that how the System had been adopted, it would increase and not decrease the Republican majority. Mr. E. C. Reed said there was one man whom he hoped all the delegates would re-member when they returned home, and

support him at the primary elections—the one-legged soldier, Lieut. Thomas.

J. A. Hiestand offered the following resolution:

Resolved, That the Convention, appreciating the services of Lieut. Wm. Thomas, hereby recommend him to the Republican party for nomination for the office of Presenter.

Lancaster Oil. Works.—We would re-commend to all our friends who take any interest in such things, to pay a visit to the oil refinery which has, for some time, been in full operation in our city. The works are situated near the Lancaster Locomotive Works and immediately adjoining the Pennsylvania Railroad. The process by which the crude oil, which is a very dirty, thick substance. which the crude oil, which is a very dirty, thick substance, is converted into refined burning oil, is very interesting. The petroleum just from the wells is emptied into a retort, where it is subjected to intense heat, passing off in the form of vapor. This vapor is then condensed, the benzine first passing off and next the oil in a tolerable pure form. There are still several processes to which it is submitted, among which the treatment with subpurie acid, during which the whole body of oil is made to boil which the whole body of oil is made to boi up and surge like a whirlpool, by the intro up and surge like a whirlpool, by the intro-duction of a powerful current of air, is per-haps the most striking to the ordinary visitor. The works turn out a very supe-rior article of oil. They are under the im-mediate supervision of Hiram Stamm, Esq., one of the partners, who shows the utmost politeness to any one visiting their estab-lishment.

ACCIDENT NEAR PAOLI.—The Lancaste ACCIDENT NEAR PAOLI.—The Lancaster train from Philadelphia on Thursday afternoon stopped near Paoli to repair a brake; the fiagman was sent back but was recalled when the train was ready to start. Before the train had gathered full headway, a construction train came round the curve and ran into it. The engine of the construction train and the rear cur of the passenger train were considerably damaged. No one was seriously injured, although many passengers leaped from the windows of the rear car, when they saw the engine of the concar, when they saw the engine of the con struction train coming.

BARN STRUCK BY LIGHTNING.—Last Wednesday the barn of Abraham Rohrer, in Manheim township, about three miles from town, was struck by lightning and burnt to the ground. All of this year's crops were burnt, consisting of a lot of hay, wheat and oats. Before the fire had made much progress he was enabled to remove all the gress, he was enabled to remove all th cattle and other stock that were in it. The barn was insured for but \$600.

Mr. Dickey opposed the motion. He thought the County Committee itself could settle the matter. By the appointment of such a committe as was proposed the whole trouble would be re-opened.

Mr. J. A. Hiestand said he had a plan which he would submit to the Committee.

Mr. Dickey suggested that if any members had any plans they should be submitted. Let us have all the propositions at once. The "Crawford County System" is a very simple one. It means that every is a very simple one. It means that every man votes for the candidates of his choice man votes for the candidates of his choice direct. It is the duty of the Committee to carry out the details—to tell how the voting can be done.

The parade which came off in Harrisburg at 10 o'clock in the morning was perhaps the largest and finest ever seen Harrisburg at 10 o'clock in the morning was perhaps the largest and finest ever seen in this State, outside of Philadelphia or Pittsburg. Besides the seven companies of Harrisburg, there were present and in line the Sun of Lancaster, marshaled by John M. Amweg, Esq., and the Washington, marshaled by Samuel H. Reynolds and John I. Hartman, Esqs.; the Union of Lebanon, Philip McCaley marshal, and the Perseverance, Adam Rice marshal; also the Good Will Company of Carlisle. All the companies present were handsomely equipped, and several of them

handsomely equipped, and several of them had fine brass bands with them. The parade was made on a well-selected route through the principal streets of the State capital, and was witnessed by thousands of people, many being present from the surrounding towns and the rural districts.

The Patriot and Union concludes its report is follows: On the arrival of the procession at the

On the arrival of the procession at the Paxton engine house the presentation and reception ceremonles took place. Robert L. Muench, Esq., representing the city authorities, and Wim. H. At the close of these ceremonies, the visiting firemen were invited to partake of a At the close of these ceremonies, the visiting firemen were invited to partake of a collation served up for them by the Paxton company. The tables were abundantly supplied with provisions of every kind, and the guests did ample justice to the good things so temptingly spread before them. All the visitors expressed themselves highly pleased with the manner in which the Paxton company and our firemen generally received and entertained them. A trial of the new steamer took place in the afternoon, in presence of hundreds of

Some members of the company professed to be satisfied, while many others were evidently disappointed in the working capacity and power of the steamer. The best throw, made with one stream and an inch and a quarter nozzle, was two handred and sixty-two feet. This does not equal throws made by the Hope and Citizen steamers, both of which are only second-class machines of Button's and Citizen steamers, both of which are only second-class machines of Button's munifacture. For a first-class engine, the "John Harris" ought to do much better work than she did on Saturday, and the probability is that she will after being in use for a short time. The backers of Button claim decided superiority for his machines, and are willing to risk their "piles" on a trial of Button and Amoskeag machines of the same class.

On the return of the Sun and Washington they were tendered a very handsome escort by the Empire Hook and Ladder and the Shiffler Fire Companies. They arrived at 103 o'clock at the depot, when the line of parade was formed. The Empire headed the line, and the Shiffler occupied the second place. The Sun and Washington brought up the rear of the procession. They marched down North Queen street to Centre Square, out East King to Duke, down Duke to Vine and out Vine to the Sun Hose house. Here the Sun left the ranks and the Washington was escorted to their house. The parade was witnessed by a large, number of our clitzens along the route. Thus ended a most pleasant execursion. CLIMAX.

A plain statement of facts. I inherited Scrofula, and many of my relations have died of it. In 1839 my case was trightful. Tomors and ulcers spread until in 1812, under the advice of my physicians I went to Avon Springs. I received no benefit-tried every medicine and did everything I could I had to rest my arm on a cushion, and had not been able to raise it to my head for over a year. The discharge from two ulcers was mearly a pint a day. Amputation was recommended; but pronounced dangerous. I could not sleep, and my sufferings were intolerable. A friend brought me an English physician who applied a salve with which he said he had accomplished extraordinary cores in the hospitals in Empland. It is five years since I had the appearance of a scrofulous sore, and my health has been good ever since. I Procured the receipt of his wonderful article—this blessing of humanity—and have called it "PAGE'S CLIMAN SALVE," and allow the public to usel for not as they choose. This is a brief but candid statement given more fully in my circular.

on ADY KUETISING AGENCIES.

"Mr. Pettingill spoke in opposition to that plan from the publisher's stand point alone. He showed the publisher's stand point alone. He showed the publisher's stand point alone of contracting they were giving lower rates than they gave their own home customers or others equally as prompt and good customers that they were selling one pertion of their paper to be used to compete with and undershift the other columns; that the owner of the space thus sold cauld come right in and beat the publisher's prices and take his business away from him; that if the publishers, fully understanding this, still wished to continue so irregular and unbusiness-like a system, he Pettingil a Co.) should of course reaso trying to get advertising for the papers at their regular rates, and go into the other system of contracting—which he could stand, if the printers could." The anxiety on the account of newspapers is incalled for. There is not one in twenty which would not prefer to receive all their for-

eign patronage on this plan, when it is fully understood. It is too generally recognized as thoroughly beneficial to all partles concerned to be injured in the least by any thing which may be said against it by interested parties. Advertisers should send for a circular giving full explanations.
