THE GREAT GRAF FORTUNE .-- Just a THE GREAT GRAF FORTUNE.—Just at the close of the Gubernatoral campaign in 1860, we addressed a Democratic meeting on Saturday afternoon in the lower end of Falton county, this State, within a mile of the Maryland line. There was a similar meeting advertised for the evening at Hangock, just over the border. By invita-tion we attended that, and made a speech. After we had concluded a Mr. Ewing was introduced, who proceeded to advocate the claims of Bell and Everent. He announced himself as the editor of the Norfolk *Ex-aniner*, and proceeded to advocate the plaims of Bell and Everent. We saw nothing of Mr. Ewing, and heard nothing of him until, happening to mention the circumstance to a party of friends m a Baltimore hotel, during the McClellan campaign, we were somewhat surprised to see the quondam Bell-Everett orator start out of a scat and approach us. We had not been speaking of him m very complimentary terms, but he was as pleas-ant and smilling as if our intercourse had always been of the most intimate and friendly character. He informed us that he had been rained by the war, and his paper di-continued, and that he was forced to emigrate to the city of Baltimore. The next time we set eyes on him was in our office here in Lancester. A plausible, well dressed gentleman bowed himself into our sumctim one fine morning last summer, and proceeded to detail to us his plan for securing an immense fortune for the Graff, Graff, Grave, Grove, Groff or Grave faulty, which was onty availing their claim somewhere in Germany. We heard him for some time. Beenring an immerse for the to the training an immerse for the to the training of the training their claim somewhere in Germany. We heard him for some time, he not recognizing us. At last we called his attention to our former meetings and he was decaylated, apparently, to renew the requantance. He proposed that we should get up an editorial on the subject of the Graf fortune, assuring us, with altgravity, that we should be remembered in a sub-stantial manaer. He informed us that it was his purpose to go to Europe to see about the matter as soon as a sum sufficient to defray expenses had been realized, and according to his statement, be had already been quite successful in obtaining money from parties who supposed they were in the regular time of descent. We could not exactly see it as the hoys say, and no line ever appeared in the *Intelligencer* favoring Mr. Ewing's project.

on the eve of the celebrated gathering of the Hans Graf Association in this county we accelerately passed through the parlor of the Calwell Hense in this city, when, of the Calwell H use in this city, when, here was M assieur Tonson come again. Mr. Ewing was on hand, explaining to a select gathering of the Graf's all about the seventy five unlines of dottars to which they were the beginnetic and hawful heirs. He knew us this time, and was, as usual, most cordiat in his greeting. He insisted upon our being search, introduced us to the assentisty, and urged us to remain as a spectator and listener. Fearing we might be considered *de trop*, in spite of his protes-tations we howed ourselves out of the room. What was done at the meeting the next day. What was done at the meeting the next day What was done at the meeting the next day, and how much makey was subscribed to pay the expenses of Mr. Ewing on his trip to For ope we know not. Whether he has satiled or is still an Baltimore we are unable to say; but an offend announcement dis-poses of the great Graf fortune bubble offectually and forever. EXHIBITION OF THE HORTICULTURAL SocIETY.—For many years there has been no exhibition held in this county, of the various fruits which can be produced in our midst. This is much to be regretted, as these exhibitions cause our citizens to turn their attention to such matters, and by the stimulus of competition and the desire which is produced to exhibit fine specimens, the cultivation of luscious and rare fruits is much promoted. It is said that the pro-duction of flowers is one of the surest tests of a kindly and gentle nature, and we think that the same may be said of the cultivation of fruit. The exhibition in the Orphans' Court Room at the Court House, on Satur-day, was very largely attended during the unfavorableness of the season, the display of grapes was very fine. There were many very fine specimens of the pear, and we were glad to see so much success in the cultivation of this noble fruit. The show of apples was rather inferior. SHERMAN'S NEW PATENT AS YOU LIKE IT SKIRT

35 N. EIGHTH ST., COR. FILBERT. 35

This is not only a new fashion, but a new article of skirt made on an entirely new prin-ciple, so novel and yet so perfect the ladles con-tend it should be called *Perfection*. We would here call particular attention to the AS YOU LIKE IT, or flexible joint, extend-ing down the front of the skirt; it is so con-structed that the spring sloid inwardly, but not outwardly, and readily yield to the slightest pressure, thus allowing them to collapse so that the skirt occupies the smallest possible space while sitting, riding, or in passing tarough a cr.wd, and yet the moment the pres-sure is removed, the skirt fesumes its original and beautiful singe. The novelty and utility of this contrivance need but be seen to be apprecized. Ask for the AS YOU LIKE IT SKIRT, and take no other. WESTILL LIVE! A Landlords Meeting at Lincoln.

A Landbord's Meeting at Lincoln. There are no meetings being held in the county this full by the Republican party, except such as are gotten up by the band-lords at different holes in the country dis-triets. At Kaffroth's hetel, in New Ephra-ia, lately dubbed Lincoln, there was a meeting of that kind on Saturday evening lost at which all hold there may have been Presbyterian Church, in Leucock town-ship, now under the pastoral charge of the Rev. John Effiott, having been thoroughly Interning of the Kristick constraints and the term of the second some fifty radical volters present. There was quite an array of speakers on hand. The editor of the *Laquicer*, who holds the office of County Trensurer, and is a big-bug Thug, first attempted to enlighten the diminitive crowd on the issues of the day. Having been in the army as a suffer, be pluned himself wonder-fully on the great sacrifices he had made for his country. and told the story, with tears in his eyes, of having been captured by the Johnson He second Bull Run battle. He did not inform his andence that he had been engaged in the furnitive business of selling commissary whiskey, seatch herring, state cheese, bad tobacco and worse segars; to the soluters when he was goblied up by Stonewall Jackson's toot cavalry. last at which, all told, there may have beet segars, to the solutions when he was gobbled up by Stonewalt Jackson's toot cavalry. On the centrary he let on to be a *lown jide* soldier, a genuine loy in blue, one of the brave defenders of the nation, and a possi-ble applicant for offlice under the Crawford county system, which he opposed so bit-terly. The is a low speaker, and if, noise could be taken for sense, and assertions pass muster for argument, these who heard hum might have mustaken him for an indim might have mustaken him for an indi-

him night have mistaken him for an indi-viduatof some intelligence. As it was, a soldier pricked the bubble of his loyality by immouncing that he had only been in the army as a money-making sutler, and the growd soon disappeared into the bar room, needing s anothing to most in the dryness of his randing him angule. When Greist subsided, and Andy Arm-strong got up to speak, there were not half a dozen of the fujbled within the sound of his voice. Andy like Steaey, is a Methodist, and the pet candidate of the Temperanee-men, but the situation was too much for him; and hefore entering fairly upon his speech he got down from the stand, enter-ed the bar room where the erowd were, the bar room, where the crowd were ated all round, and then asked them t treated all round, and then asked them to come out and hear what be had to say. A few went, but the majority scened to think the arguments inside were stronger than any which could be advanced on the out-side, and Armstrong was left to drawl out-his state abuse to a dozenor so of stragglers. The soldier candidate for the Legislature was most unfortunate. The had lost his

was most unfortunate. He had lost his speech out of his pocket, and after fumbling around in his coattail for some time without recapturing the manuscript, he said a few words by way of apology and left the stand, evidently much discontined and disgusted. The committee of arrangements, think-ing a speech must be had from a soldier, other than the sutier of the *Laquirer*, " he Major" was called on; but he was too much affected by cleaning wild outs, or sow-ing it, to be able to proceed. He was worse of than the here who had lost his manu-serrot. ound in his coat tail for some time withou

Beript. Determined to have at least one speech,

bettermined to have at tend one speech, they called on "Little Tobyc," the village schoolmaster. Fearing he too might fail in English, as all the rest had done, he haunched out into Lancaster County Dutch. He was a candidate for the Legislature, but the people couldn't see it under the Crawford county system, and the burthen of his speech was the story of his own wrongs. Zahm:

Big Bill, the Squire, attempted to mend matters, but he too having been a candidate for the Legislature under the Crawford County System, could do nothing but

scratch his own sores, Martin Fry wanted to be heard, but the audience called on the band to play "Home Sweet Home," and to the dulcet airs of that bothing melody the diminutive crowd di

persed. Little Jako, the landlord, who is a clever intue sixte, the induced, who is a clever fellow, counted up his gains, and concluded that he had done very well, considering it was not much of a meeting. He thinks it is a decided advantage to have poor speak-ers at a political meeting. The crowd drank more.

A "LOCAL'S" FIRST EFFORT .--- A Chicago paper says: We took a new reporter on trial yesterday

We took a new reporter on trial yesterday-Ile went out to hunt items, and after being away all day, returned with the following, which he said was the best he could do: " Yesterday we saw a sight which frozeour muscles with horror. A hackman driving down Clark street at a rapid pace, came near running over a nurse and two children. There would have been one of the most heat-rendang catastrophes ever recorded, had not the nurse, with wonderful fore-thought, left the children at home before the wet out, and providentially stepped his cures. It allays inflammation, subdues pain, an heats without a scar. It is worth its weight in gold it any family, and should always be on hand. It warranted to do what it says every time. she went out, and providentially stepped into drug store just before the hack passed. Moffat's Life Pills and Phœnix Bitters into drug store just before the hnek passed. Then, too, the backman, just before reach-ing the crossing, thought of something he had lorgotten, and turning about, drove in the opposite direction. Had it not been for this wonderful concurrence of hyoring cir-cumstances adoting father, a loving mother, and affectionate brothers and sisters, would have been plunged into the deepest woe, and most unitterable function expenses." Moffict's Life Pitils and Pheenix Bitters. were first used in private practice in 155. They were introduced to the public in 155, since which time their reputation has extended, until they have a said in excess of all other Cathartic and Purifying Medi-cines. There is hardly a family among civilized na-tions who have not personal evidence of their benefi-cial effects. Their great success is owing to their benefi-cial effects. Their great success is owing to their mon-form reliability in cases of Constipation, Milious and Stomachic diseases, whether of long or short duration. They are entirely vegatable in their composition, and harmless to the gentlest infant. One ingredient opens the pores of the skin is nother is diaretic, and stimu-lates proper action of the kidneys; a third is emol-ilent, loosening pheem and humor from the lungs; other properties are warming and cathartic, and cleans of the skin as system, and to produce health. It is not asserted Moffat's Pills area care all—that they will care all complaints—but under ordinary circumstances they may be relied upon to cure Ner-vous and Sick Hondache Costiveness, Dyspessa Indigestion, Jaundie, Liver and Billous Complaints Colds, Scurvy, General Weakness, & C. They are ex-pressing made for these diseases. Millious upon millions of cures can be cited. In no single instance they have not operated as recommended. The printed creating around each **box fully** explains the symptoms and effects of each bisease, specifies treatment, furnishes evidence, ed. From BENJAMIN WHEELER, F.SG., Depot Mas-ter at South Royalston, Mass.
