WM. A. MORTON, City. Our Last Appeal. We issue this number of the WEEKLY INTELLIGENCER, in advance. It will reach most of our readers before Tuesday. We have little more to say to them. The time for argument has passed. The hour of action has come.

All the signs point to a great victory. With a full poll of our vote we cannot be defeated. We believe the Democratic vote will be out in every county in the State. Believing that, we think we can safely promise that next Tuesday night will be a time of great rejoicing for us.

We are confident that the Democracy of Lancaster county will do their full share towards acchieving the coming triumph. If the different districts do as well as our friends promise the result will be a most agreeable surprise to all of us. We will greatly reduce the Republican majority. To that end let every Democrat labor

as he never did before. Make next Tuesday a holiday. Devote every hour of the day to the great work before you. Let not a single vote be left at home. Remember that every vote will help to swell our majority, and to make the great work of next year's all important campaign ensue...

The motives to exertion are so strong that we are sure no Democrat will falter, no one be negligent in duty. Believing that we expect to hear a good report from every township on next Tuesday night.

Bring in the Returns. Let our friends from the country districts bring in the returns as soon as counted. We expect good news from all quarters on Tuesday night.

Watch the Count. Democrats be sure to watch the count ing of the vote. Our opponents are desperate and will result to any means to swell their majority in the county, it hope thus to affect the State. Let'strice watch be kept on the ballot boxes until

the last vote is counted. See to Naturalization. The Court will sit on Monday, the day before the election, for the purpose of granting naturalization papers to all who may be entitled to them. Let our friends in every district see if some the matter carefully, and do not let a

sure, if there is a full vote. Vote Down the Disunionists. There is but one disunion party in the country. That is headed by Thad. Stevens, Charles Sumner and the radical leaders in and out of Congress. They refuse to permit any of the Southeru States to re-enter the Union unless the negroes are made supreme in them.-

Vote down these infamous disunionists and their negro empire on Tuesday next They Dare Not Deny It. Voters of Lancaster county, remember that not one of the Republican papers published in this city has denied that it is the intention of Congress to pass Sumner's Negro Equality Bill at

the next session of Congress: Remember that not one of them has dared to deney that Judge Williams is pledged to enforce such an enactment, and to make it a crime punishable by fine and imprisonment to attempt to hinder a negro from voting.

They can not, and dare not deny these charges. Remember that when you go to vote next Tuesday.

Work for Young Democrats.

Let the young men of the Democratic party show their strength in the present all important political contest. Let them lead in the fight. All their energies are needed now. Let them be active and untiring in their efforts to se. cure a full poll of the Democratic vote, and to them much of the glory of the coming victory will be due. Young men go to work with a will. You are a power in the State, and should make your full influence felt.

Lar the young men who cast their first vote this fall, vote for a restoration of the Union, for the preservation of the Constitution, and against the establishment of a negro empire on the ruins of the republic.

Ir business should compel you to leave home between this and Tuesday next, let nothing prevent you from returning in time to vote. Remember Pennsylvania and the whole country expects every Democrat to do his duty on that day.

LET the Democrats of Pennsylvania make a regular Gettysburg fight against the Radical Disunionists on next Tuesday. The leaders of that infamous party are the worst kind of rebels. They openly acknowledge that they are "outside of the Constitution." Down with the traitors!

THERE are Democrats who are disposed to say: "My vote is not going to turn the scale." So some will stay at home, even at so vitally important an election as the present. The Democrat who does not vote on next Tuesday will be recreant to true man 100d—a sluggard, or worse. Let no such man ever after make a claim to patriotism or profess to love his country.

DEMOCRATS and Conservatives of Pennsylvania, the whole country ex. pects you to finish the great work so nobly begun in Connecticut, California. Maine and Maryland. Do not disappoint the eager and hopeful anticipations of patriotic men throughout the nation. Let a full vote be polled, and the Union will be restored and the Constitution of your fathers saved from further outrages. Work for a great victory on next Tuesday as you never

It was so in California and Maine, and it will be so in Pennsylvania. The people will not keep step to the music of negro melodies. The old national and patriotic airs are nearer to their hearts, and will win them back to the support of the Union and the Constitution. The Legislature of Pennsylvania has adopted the Radical amendment to the Constitution of the United States, which proves that if any race or color is denied the right of suffrage in a State, the people of that race or color shall not be counted in adjusting the representative population of the State. This deprives Pennsylvania of one Member of Congress. The amendment was adopted in the belief that the Radicals were sincere in supporting it, that it would be forced upon the South, and that as the Southern States would not permit negro suffrage, the Amendment would greatly reduce their representation in Congress. It was specially recommended to the people of Pennsylvania for that reason. But mark the result! Congress forces the Amendment and Negro Suffrage together upon the South at the the South will be added to the representative numbers, but the disfranchised negroes of Pennsylvania will not. THE Radicals of Philadelphia have advanced sufficiently in their ideas to admit negroes into their political procession. There were many in the line the other day. If Judge Williams is elected they will be admitted into the schools, will sit on juries, will vote and be declared qualified to hold office. The Radicals of Philadelphia are only Radicals of Philadelphia courting them in advance.

Thus the dog returns to his vomit, the Abolitionists having long since formally burnt that sacred document, having previously pronounced it 'a league with hell and a covenant with death."

Negroes in Public Schools.

In Springsboro', Warren County Ohio, where the school directors are all Radicals, seventeen negro children have been placed in the public schools, and sandwiched between the children of poor white parentage. The children of the directors and wealthy Radicals are sent to a select subscription school. The same thing will be attempted in Pennsylvania if the Radicals succeed, for it has been stated that should the next Legislature be Radical, a bill will be passed to make it compulsory upon all directors to admit negro children into the white free schools upon perfect equality with the white children. The Democrats of Pennsylvania should remember this threat when they are voting for members of the Legislature.

But is not their education far in advance of that of 'de Shuddrn bruddrn' who go for the Registration with bags and baskets to put it in, and who think the ob de NOO REBS.' Go to! as the men of Shinar used to say.

THE Philadelphia Inquirer says that Congress seems to have established the Department of Education as much for the purpose of creating new offices as anything else. The Inquirer is good Radical authority, and if it will only look sharp it will be able to discover that a similar game has been carried on by Congress to an extent which is costing the country many millions of dollars every year.

THE New York Tribine recently denounced the honest Germans of Pennsylvania as "THE SCHOOL-HAT-ING, RUM LOVING BREED OF LOW DUTCH." The Yankee Greeley is too ignorant to know that, being a Yankee drink, rum, NEW ENGLAND RUM as it was called forty years ago, is scarcely known in Pennsylvania, except among Yankee emigrants like Judge Williams.

All who do not stand on that platform will vote for Judge Sharswood next Tuesday.

vice without obtaining a discharge. In order to enforce their construction of this law, the Radicals last year distributed large printed volumes containing lists of alleged deserters, and most of their election officers refused the votes of all whose names appeared on those lists. Now, the Supreme Court of this State has decided that nothing short of the trial and conviction by a court martial, and the production of the record of such trial and conviction, will suffice to dis-

franchise a man as a deserter. We invite the attention of Radical election officers to this decision, because the Democracy mean to hold them to it. For disregard of its authority the Democracy will not seek redress in Criminal Courts, where Gov. Geary's pardon will relieve the offender .-But they will bring civil actions for damages, to teach some of our solid election judges how much it may cost them to reject a qualified freeman's vote. And in this connexion we remind these judges that our juries are about to be selected by an impartial board, to consist of a member of each party and the President Judge of our Courts. Here-

after partizan juries will not shelter disobedience of law. Last year a soldier who had served through the war and been wounded in the service, offered his ballot at an election district in this county, and the judge refused it, because his name appeared on the printed list of deserters. The soldier went home and brought his certificate of honorable discharge, and presented it to the judge. The latter still refused the vote. And it was only after the wounded veteran came to Lancaster, procured the written opinion of a Radical lawyer that he was entitled to yote, and carried it back to the judge, that he was permittéd to exercise the right of suffrage. If this performance is repeated by any of the judges of Laneaster county at the coming election, we promise that they shall sweat for it.

Perchance our Radical election officers may expect protection under the seventh resolution of the Williamsport Convention, which proposes to place the Supreme Court "in harmony with the political opinions of a majority of the people." That the resolution of a partizan convention should encourage any such expectation is damning proof of the infamy of the convention and the party it represented. The people of Pennsylvania will spurn the candidate who was selected for the avowed purpose of converting the Supreme Court of the State into a political machine.-This resolution alone would defeat Judge Williams; and Radical lawbreakers are welcome to all consolation they can derive from the hope of elect ing him. They will realize the value

of the hope on Wednesday next. 300,000 Lives-\$3,000,000,000 of Treasure. Under the above heading the Harrisourg Telegraph begins an editorial as follows:

They did not make that last great sacrifice for the purpose of establishing a negro empire on the ruins of the republic. The people did not freely proffer all their treasure for any such base purpose. The honest masses of Northern white ien see how all the benefits which were expected to be derived from the war are being frittered away by a Radical Congress in their attempt to subject the country to the rule of Puritanical New England Yankees and barbarian Southern negroes. They did not give 300,000 precious lives and \$3,000,000,000 in treasure to enable the Radicals thus to maintain the power they have so shamefully abused.

On Tuesday next Pennsylvania will record her verdict, and by the election of Judge Sharswood will speak to the insolent Radical leaders in terms which they would do well to heed.

How Geary is Paying, Off the State Debt. "Bob, I have just paid off that note in bank, and I feel good." "Where did you raise the money?"

"Why, you see, I gave them a new note at ninety days, paid the discount, and lifted the old one." It is on that plan Geary is paying off

the State debt. He borrowed largely last spring, paying six per cent. interest in gold, and now he is paying off the bonds which only command five per cent. in paper with the money he thus raised. That is a fair specimen of Radical financiering, and the fuss that is being made over it shows that Radical newspapers consider their readers to be very stupid and ignorant.

The Public Debt Increased. The New York Tribune says the forthcoming statement of the public debt will show that it has been increased during the month of September. Do you hear that bondholders? The Currency of a Negro Republic. The news from Hayti by the Cuba Cable, states that commerce is utterly paralyzed in that model government and that the popular currency has fallen so low that forty Haytian dollars sell for one Spanish one. Here is food for Lancaster county bondholders. If the finances of Hayti are that low today, what will be the condition of ours after a few years of negro rule? Let every bondholder get out his favorite securities and try to cypher out that political problem on the back of them.

Shanks, a Republican member of Congress from Indiana, made a speech to the negroes in Richmond, and assured them that no Southern State would be readmitted to the Union, which did not fully recognize their political and social equality. That is the rule which is to be applied to Pennsylvania. Unless the Radicals are defeated on next Tuesday, our government will be reconstructed

by Congress. THE Radicals in the last Legislature refused to incorporate a German singing society, called the Mænnerchor, because the membership was confined to white citizens. This is a phase of fanaticism which the "stupid Dutch" (as the Radicals stigmatize our German fellow-citizens,) will be able to appre- ing increased. Let bondholders reciate at its full value.

What Does the Republican Party Do? Under the above heading the Harrisourg Telegraph attempts to defend the Republican party from the charges

Our opponents have no other attack to make upon the Republican party but such as charge it with being exclusively devoted to the interests of the negro. When such as these make this charge, let all Republicans reply that the Republican party has for its objects and its principles such measures as follows:

The answer to that is that the Repub ican party now constantly makes distinctions in favor of the negro and against the white man in every Southern State, and that during the war it deprived men in the North of both life and liberty without form or warrant of

It is opposed to discriminations at the ballot-box founded on property, birth-place, creed, or color. In every Southern State a vast majority of white men are disfranchised, while every ignorant negro votes.

It insists upon liberty of speech and of the press, as the best guarantees for the security of Republican institutions. It tore down Democratic presses in he North during the war, imprisoned Democratic editors, denied Democratic papers circulation in the mails, ordered Democratic newspaper offices to be closed, and since the war has repeatedly committed similar offenses in the South.

It is the friend of free schools, and earn estly urges the diffusion of intelligence among all classes of people.

That means it is in favor of annually expending several millions of the public money, on the pretense of educating the negroes of the South to vote the Radical ticket. It requires the just subordination of State and local authorities to the authorities and

It sustains the Congress of the nation b ause it is manifestly intended to establish he United States upon the enduring prin-siples of equal rights to all men. That means that Congress is expected to force negro equality upon all the States.

And it asserts the rights of all men, re gardless to color or previous condition of servitude, to participate in all the political rights that are now enjoyed by white men, because it is a right founded in human nature and in Christianity. That is a more general and still

proader assertion of the doctrine of negro equality, as the great fundamental principle of the Republican party. We have thus very briefly viewed very claim for the Republican party as put forward by its central organ in this State. We ask no one to regard our comments. Let any one take the assertions of the Telegraph and examine them for himself. Some of them are slightly disguised, but most of them are plain; and if the negro is not the most prominent object throughout, we can not understand the English language. If. according to the Telegraph itself, the object is not to place this country under regro domination we cannot tell what

the Republican party proposes to do. Legislative Corruption and Meanness. Last year's corruption at Harrisburg s acknowledged to have exceeded anything that ever preceded it, even among Republican Legislatures. Every office. rom United States Senator down to elerks and pages, was sold to the highest bidder. Every charter, from grants to the incorporation of hospitals and churches, was made matter of merchandise. Every salary, from that of the members themselves down to the lowest employees, was increased. Under this system of Republican plunder, the expenses of the State government have een augmented from two to three fold within the last six years. While thus plundering the people,

this Legislature, under the pretence of economy, committed a deed of ineffable meanness. It repealed the trifling pentions of the aged and infirm veterans of the war of 1812, amounting altogether to but \$7,000 per annum. Shame that a mighty State, which prides itself in generosity to its defenders, should thus be disgraced by the miserable creatures that infest its capital! The pensioners of 1812 were robbed of their pittance, so that there might be a few more dollars in the treasury for the Legislature to steal.

THE Harrisburg Telegraph, the central organ of the Republican party in Pennsylvania says:

The great question before the people this year is the Congressional plan of reconstruction. There is no other question afoot. That is a plain avowal that the party has but one object in view, and that the establishment of a negro empire on the ruins of the republic. This appeal should address itself with persuasive power to every man who is willing to vote for the Radical candidates at the coming election. If they are honest in their convictions they ought to be willing to aid, by a contribution of money, in establishing negro suffrage in Kansas. Some of them may hesitate about conferring the same privileges upon white women which they would rejoice to see granted to negroes; but we can ease their consciences on that point by assuring them that in Kansas it is regarded as certain that the woman suffrage amendment will receive very few votes, while there is every prospect that negro suffrage will be adopted. Every Republican in Pennsylvania, and especially every Republican in Lancaster county, who has voted for Thaddeus Stevens, ought to contribute something to the cause in Kansas. The principles of the party are the same everywhere, and the defeat of negro suffrage in any State is a

virtual defeat of the Republican party. We shall send a copy of our paper to 'The American Equal Rights Association," and we hope the officers will let us know how much they receive from Lancaster county to aid the cause of negro suffrage in Kansas. Come, shell out gentlemen, Republicans!

Brownlow in a Bad Box. Brownlow seems to have got himself into a bad box with his horde of barbarian negro voters. He has disfranchised the great body of the white men of Tennessee, only to find himself unable to manage the blacks. In the recent trying to count out the Democratic municipal election at Nashville, a Northern adventurer, who had not been | maid, Gorilla-owning opponent. Each in the State of Tennessee two years, set of these curiosities is known to be himself up as a candidate for Mayor against the regular Radical nominee. He and his friends appealed to the negroes, telling them that it was to Northern men they owed their freedom. The darkies deserted the brimstone parsons candidate on the regular Radical ticket went over to the standard of the Northern adventurer; and the result was he was elected. Brownlow and the native Radicals are consequently in a bad way. The whites to the number 90,000 are disfranchised, and even if their disabilities were removed. Brownlow and his faction could expect no aid from them. If the ex-rebels are not enfranchised the negroes will form a party all over the State similar to that in Nashville, and will elect blacks or Northern adventurers to office, thus bursting up Brownlow and his gang. ing discordinstead of peace—the supremacy On the other hand, if the disabilities of the ex-rebels are removed, they will sweep from power the negroes and both classes of Radicals. Here is a nice fix, to be sure. It is a specimen of what may be expected as the fruit of the mad schemes of conferring the right of suf- | poll of the Democratic vote. frage on the ignorant black barbarians of the South. On Tuesday next the white men of Pennsylvania are to say

whether they are willing to commit the destinies of one-third of the States to such hands. The Cost of Radicalism.

The following suggestive compilation of figures is taken from Hunt's Merchant's Magazine-a standard authority:

\$14,833,472 48 87,683,195 These figures show an increase of \$342,849,723—nearly aninc-fold increase of expenses over 1860, the last year of Democratic administration. The Magazinc remarks that the sum for 1866 is exclusive of the extra expenditures caused by the war; that is, they are simply the ordinary expenses. From this the people may judge of the economy of the Radical party, and behold

what negro "reconstruction" is costing

them.

Some one who signs himself "A Laborer" has been writing an article for the Express. We should judge from the tenor of the production that it is from the pen of a certain very youthful and not very sensible limb of the law. We know one who talks in that very style. The working men of Lancaster will be surprised to find that the article advo- negro equality. Longstreet became a cates negro suffrage and negro equality in all the States; and, quite as strongly pronounces a paper currency and high prices especially beneficial to the working classes. No working man of ordinary intellect would be guilty of penning such arrant nonsense. No sensible working man believes any such stuff. It is only hair brained politicians who indulge in such silly cant.

Voters! remember that fourteen thousand graves of Union soldiers dot the ground about Andersonville--graves of men starved o death &c.-- Express YES VOTERS! and remember that

they were sacrificed by Stanton, because the rebels refused to recognize the odious doctrine of negro equality. That is history, and can not be successfully contradicted. The Radicals who sacrifixed the soldiers to their theory of negro equality, now say the Union shall never his defeat by at least fifty thousand. be restored until that doctrine is fully recognized. They are consistent in their devotion to this one idea of their party. In every community there are some

individuals who are disposed to under

value their personal influence and force. They do not labor in elections because they imagine they can do little or nothing. That is a great mistake. Every Democrat can help the good cause, and in such a contest as the present it is the duty of every one to put forth all his energies. Let each labor diligently until the sun sets on next Tuesday, and he will have the proud consciousness of having done something to win the

victory. YESTERDAY we heard a prominent Radical denounce the German citizens of Lancaster as less fit to vote than so

The Intelligence of Negro Voters. The New York Herald has grouped various evidences of the utter unfitness of negroes of the South to exercise the elective franchise. The following facts are worth considering:

The workings of negro suffrage in the Southern States are exceedingly curious, and if the parties who made the right of the negro to vote a part of the law of the land had not self-interest at the bottom of it, they would be heartily ashamed of the ridiculous results which have accrued. The latest opportunity which the negroes had to cast a vote was on the convention in Lonisiana, where they exercised the franchise for the first time during the past two days. The negroes do not appear to have days. The negroes do not appear to have come up to the polls, and fears were entertained by the Radical leaders that a sufficient vote would not be cast to make the call for a convention legal. The fact is that the poor negroes cannot be made to understand the purpose of their newly acquired lege. Their Radical masters are lege. Their Radical masters are put to wits' end to get it into the wooly heads of their colored allies that the franchise is a right to be exercised and not a material thing to be sold. Many of the negroes in some of the late Southern elections brought baskets to the polls to carry home the "elective franchise" which their instructors told them they were contributed to Source of "elective franchise" which their instructors told them they were entitled to. Some of them brought bags which they thought were capacious enough to hold the precious franchise. Hundreds of them, who found that the inestimable elective franchise had no substantial or marketable form, absolutely refused either to register or to vote without being paid for it. They were curring enough to know that they were without being paid for it. They were cunning enough to know that they were entitled to claim pay for the labor which "massa" asked them to perform, and they were not going to register or to cast a vote without an equivalent in cash. The registry process was a stumbling block in the Raddeal path. A man must have a name to register, and tow of these poor fellows had a patronymic. Jim, and Tom, and Sambo, and Cuffee, and Pompey, and Casar were thereby the thousand—entirely too numerous 'o mention; but a distinctive Casar were there by the thousand—entirely too numerous to mention; but a distinctive name not one in a thousand could boast of; so Smiths, Browns, Joneses and Robinsons were supplied ad libitum to get over the difficulty. This was an easy matter; so when a rollicking nugger came along to the polls with his basket slung on his arm to take home his "elective franchise" to Dmah, here was a fix! And just this fix occurred in Louisiana, "No money, no vote," said Sambo, "Where is the elective franchise you promised us?" said Pompey, flourishing his basket, "Me no vote till get that." Not less radiculous is the condition of things all over the South. The negroes in the mass have no more idea of the privilego bestowed up a them than so many cattle; yet Radical madness has made them masiers in the South. A few intelligent colored was in the first privilego the condition of the privilego of the condition of the privilego ters in the South. A few intelligent col ters in the South. A few intelligent col-ored men in the principal cities in the South are paraded by Radical politicians as examples of negro intelligence, but we see by present as by past experience that they are not types of the race to whom the gov-ernment of ten States of the Union has been handed over.

At an election in Charleston not long

At an election in Charleston since, the Postoffice boxes were found to be filled with ballots, deposited by the negroes who had been supplied with them by Radical agents, but knew not how to dispose of them better than by dropping them into the Postoffice. To such a measure of intolligence it is that the affairs of the South are entrusted, and this the people are asked to endorse as one of the most efficient modes of reconstruction according to the Radical plan. We are disposed to think that the intelligent American people do not see it in that light. nce, the Postoffice boxes were found to be that light.

Barnum's Show.

The showman Barnum has two great curiosities on exhibition at present. The one is a real live African Gorilla the largest and most ferocious of the monkey kind; the other is a committee of our Africanized Congress, which is Barnum, and count in his Feice Merclosely allied to the negro. It remains to be seen which of the shows will pay the great P. T. best.

The Political Prospect. A correspondent of the N. Y. Herald writing to that paper from Harrisburg

The political excitement in this State is alm and subdued, but there is an under current, which on the second Tucsday in betober will well up into an expression of pinion that cannot be mistaken. The peoe eschew meetings and harangues, for it ese days of intelligence att have formed an opinion, and the ballot-box will confirm it. There is no enthusiasm, and Congresit. There is no enthrished, and Congressional exhorters are surprised at what they term "extreme lethargy" of the Pennsylvania Dutch. "Rum loving" and "school hating," as they are called in New England, they are nevertheless capable of understanding the principles of right and justice. THE Radicals throughout the State are wonderfully disturbed by the able and convincing letters of the celebrated criminal lawyer David Paul Brown.-The newspapers of that party are abusing him in unmerciful terms. If they did but know it the sentiments of Mr. Brown are echeed by thousands of Republican lawyers in the State. W heard one of the ablest Republican Judges in the State declare that Judge Sharswood was of all men he knew, the one best fitted for the position of the Supreme Court. That opinion prevails almost universally among intelligent members of the bar, irrespective of

party. GREELEY was not aware when he denounced German speaking Americans as "THE SCHOOL-HATING, RUM-LOVING BREED OF LOW DUTCH," that these excellent citizens constitute the most sober class of our population, although they distrust Yankee temperance lecturers who talk-

about the Yankee beverage, RUM. All any rebel need do to become a here in Radical estimation is to endorse pet with them at once, when he did that. We heard nothing but the most fulsome eulogies of him. If Jeff. Davis would take the same ground, he would be a popular idol with them. They might nominate him for President as they are now urging the election of Longstreet to the U.S. Senate.

GALUSHA A. GROW said in a recent speech :

It has been said by an old writer, "Let me write the songs of a nation, and I care not who makes their laws." so, I say to you, let me appoint your judges, and I care not who frames your laws! That is an infamous sentiment. It means, in plain terms, that Radical judges will construe the law to suit their party. The fact that Judge Williams consents to run on a platform with such a plank in it ought to insure

Appeal to him by his patriotism, his interest, his manhood, his love of liberty, his pride of race, to aid in averting the deep degradation that threatens the American people. Strain every nerve to poll the full Democratic vote, and if you succeed, depend upon it, you will achieve a splendid victory. Even in Lancaster county you will make an impression that will surprise yourselves. In the city we are ready. Old Lancaster will speak through the ballot box, as she has not spoken for years before. An election was recently held in Richmond to decide whether the city should subscribe two millions of dollars to the Chesapeake and Ohio Railroad Company.
