usuccessiul. The Radical State Officials have post poned making the Extra (or Swindle) Tax demands upon the several counties until after the election, and refuse to furnish a ujter the election, and refuse to furnish a list of the assessments upon the counties yet to be notified. The people of those counties may, however, judge of the amounts to be collected from them after ex-aming the following list of counties already notified:

Assessed Tax Extra Demanded 856,865 81 \$36,836 93

The assessed and already paid tax of 1867, for the above counties, was about the same as for 1866, and the extra tax demanded is the same in amount as above, viz: \$56,865.81. Upon the extra tax demanded for 1866 and 1867, interest is charged from the second Tuesday in January, 1867.

The total real and personal tax raid by all the counties of the State in 1867 was \$919,258, consequently the proportion of extra tax required of all the counties for 1867 (according to the average levied upon the six above-named counties) will be \$1,419,117, and the same amount for 1866. This aggregate of \$2,838,234 is bearing interest from January last. If this vast sum shall remain unpaid this year it will be added to the ordinary and extra tax next year, (still bearing interest, making the total aggregate to be paid in 1868 at least \$5,846,903, as will beseen by the following exhibit: Ordinary tax for 1868.

The Cotton Crop for 1866-67.

The Commercial and Financial Chronicle, of New York, gives a statement of the cotton crop of the United States for the year ending September 1, 1867. It says: ending September 1, 1867. It says:

We are now able to give our figures showing the total crop and movement of cotton in the United States for the year ending Septumber 1, 1867. The receipts, as will be seen, very nearly approximate those of last year, the total reaching 2,019,271 bates, against 2,123,987 bates for the previous twelve months, indicating a decrease in the receipts this year of only 174,746 bates. It would be impossible to state with accuracy could be impossible to state with accuracy what proportion of this aggregate was the product of the last year, estimates differing product of the last year, estimates differing so widely with regard to the amount of the old crop not brought forward at the close of 1855 6. We think, however, we may safely take this old surplus at 300,000 bales, and shall then have left about 1,700,000 bales as the total product of the past season. The new year begins with an unusually small stock in the interior, and we must therefore look almostehtirely to the new crop for our receipts during the coming twelve months

receipts during the coming twelve months A Family Broken up by Death in a Single Night. on Saturday there lived a happy family On Saturday there lived a happy family in 1207 South Soventh street, consisting of Mr. Hussman, tobacconist, his wife, Barbara, and three children—August, aged eight years, Emmu, two, and Robert four years. During the evening Mrs. Hussman was suddenly taken sick, and died during the night. Subsequently the children were taken iil, and by Sunday at noon the mother and her three children were dead.

Mr. Hussman, was also attacked, but is mother and her three children were dead. Mr. Hussman was also attacked, but is still alive, and will probably recover. These sudden deaths created considerable excitement in the neighborhood, and it was first reported that poison had been the agent in some mysterious way, but there was no foundation for the report. Drs. Smith and Fisher attended the family, and from their testinony, and that of two other physicians who also visited the house, cholera morbus was the cause of death.—

Diabolical Outrage by a Negro.

On last Friday evening a negro, named John Brown, made an assault upon Miss Nora Feller, daughter of Capt. Jos. Feller, of Bedford. It was just dusk, and Miss Feller was returning from a visit to the country. The negro seized her, at an unfrequented spot, threw her to the ground, tried to gag her, drew a knife and swore he would cut her heart out unless she submitted, and that he would shoot her if she said a word about the matter. Though terribly alarmed, she managed to keep her assatiant at bay for a short time, when the unexpected appearance of a couple of white men caused him to flee. Miss Feller was much bruised and was cut and scratched about the face and neck. The negro has not been the face and neck. The negro has not been arrested, and a reward is offered for him. arrested, and a reward is offered for Imperent of the Phese outrages are becoming alarmingly frequent in this State, and we have no doubt they are partly owing to the advocacy of negro equality.

We learn that negro children are now admitted into the public schools of Middletown, and enjoy equal privileges with white pupils. This will soon be the case everywhere if the negro-loving Radicals are not checked in their fanatical career. Negroes will be thrust into the public schools, into the jury boxes, into the halls of legislation, and upon the benches of our courts, as is now the case in some of the Southern States. If the people want such a state of affairs here, they can accomplish it by voting to retain the Radical revolutionists in power—Patriot and Union.

NTEW FASHION FOR 1868. SHERMAN'S NEW PATENT AS YOU LIKE IT SKIR

35 N. EIGHTH ST., COR. FILBERT. 35

This is not only a new fashion, but a new article of skirt made on an entirely new principle, so novel and yet so perfect the ladies contend it should be called Perfection.

We would here call particular attention to the AS YOU LIKE IT, or fiex blejoint, extending down the front of the skirt; it is so constructed that the springs told inwardly, but not outwardly, and readily yield to the slightest pressure, thus allowing them to collapse so that the skirt occupies the smallest possible space while slitting, riding, or in passing through a cr.wd, and yet the moment the pressure is removed, the skirt resumes its original and beautiful shape.

The novelty and utility of this contrivance need but be seen to be appreciated.

Ask for the AS YOU LIKE IT SKIRT, and take no other.

OUR CORSETS

Are so well known for their superior SHAPE, MATERIAL and WORKMANSHIP, that it is perhaps unnecessary for us to speak of them further than to say that we have greatly enlarged our assortment of styles, both of our own make and importation, and can now safely defy competition. It may well be said that In Mas. Sherman's Consers, ladies find The laws of Heath with Fashion's taste combined; Supporting equally each separate part, They cramp no action of the longs or heart, And no in jurious ligature is placed.

They crame no action of the lungs or heart, and no injurious ligature is paced. To mar the flexure of the natural waist. Their fit is certain—and what's sure to please, In all positions there is perfect ease; The figures of the young they help to form, Alding and not repressing every charm; Irregularities of shape they hide, so that by none can slight defects be spied, While e'en a figure, which is understood. As being 'bad,' may by their nelp seem good; And matrons wearing them a boon will gain, Their early symmetr, they'll long retain.
