Prepare for the Presidential Campaign

The Intelligencer for 1868. On the first of January next, we will greatly enlarge the WEEKLY INTELLIGEN. CER, making it a nine column paper. It will then be the largest Democratic Journal published in Pennsylvania.

As we publish an evening daily paper. we possess facilities for making up a first class Weekly Journal, superior to those of any other Democratic office in Pennsylva nia. With the proposed enlargement we shall be able to give a very large amount, and a very great variety of reading matter; and we confidently anticipate a largely increased circulation.

Our subscription price is already low, but, as a special inducement, we now offer to furnish the WEEKLY INTELLIGENCER to new subscribers, from this time until Jan uary 1st, 1869, for two dollars.

We hope every reader of the INTELLIGEN CER will exert himself to increase our sub scription list. The all important campaign of 1868 is already open. It will be the mos exciting contest the country has ever wit nessed, and the most potent agency to be employed is the Democratic press. It is the bounden duty of every Democrat to help us fight this great battle Let every one of our readers do his utmost to increas

our circulation.

COMPLETE official returns show the Ohio Legislature to stand thus: Senate, 18 Republicans and 19 Democrats; House, 49 Republicans and 56 Demoerats; showing seven Democratic majority on joint ballot.

THE Tennessee Legislature has passed a law making it a criminal offence to make any distinction between negroes and white people in public conveyances. With the Radicals everywhere the ne gro is the chief object of concern.

A LADY remarked that, after reading of the proceedings of Mrs. Lincoln in the matter of her wardrobe and jewelry, she thought that even the Democrats would not deny that the husband of such a woman was "Our Martyr President."

OF the sixty Radicals elected to the Virginia Convention twenty-five are negroes; a majority of them very ignorant, and some of them notorious criminals. That is a fair specimen of the sort of Republican government for which the Radicals are so loudly clamoring.

EVERY few days the papers announce a small addition to the Conscience Fund. The penitent thieves are all insignificant rascals. The fellows who stole by thousands and tens of thousands are not troubled with any qualms of conscience. Their time for repentance has not come

Almost from the creation of the Republic down to the election of Abraham Lin coln, it ruled the nation. The Election to be Treated as it it had They have had an election in Old Virginia, not an election conducted as such important affairs should be in a Republic, but on the new patent plan of the Radicals. For the last twenty years certain newspapers in the North have made it a point to publish the most extravagant stories in regard to the treatment of negroes in the South. They have not large only exaggerated occurrences in the grossest manner, distorting facts until they could no losger be recognized, but when material for feeding the pas sions of their readers grew scarce they deliberately invented falsehoods. Many a picture of cruelty which appeared in Abolition journals was a lie manufactured out of the whole cloth, with not even a fragment of truth on which to rest.

During the war this thing was kept up on the most gigantic scale, and Northern newspaper correspondents continually taxed their ingenuity to invent exciting stories with which to stir up the bitter passions of their readers. Since the conclusion of the strife the same system has been employed. The New York Tribune, Forney's Press and other papers of that class have constantly exaggerated every little difficulty between the whites and the blacks of the South, habitually laying all the blame on the former, and invariably inventing excuses for the latter, even when the negroes were unquestionably in the wrong.

This has been done with the deliber ate purpose of bolstering up the infamous attempt to destroy ten States of the Union for the purpose of erecting a Negro Empire on their ruins. No doubt many honest people have implicitly believed the majority of the

improbable stories which were circulated throughout almost the entire thus that a Radical victory has been Republican newspaper press of the country. The Democratic press has repeatedly exposed many of these lies. but, acting with a deliberate intention to deceive, Republican journals have almost invariably refused to make any retraction. At best truth travels but

slowly on foot, while lies fly with wing-We ask Northern men of all parties ed rapidity. Within a few days past the country

has had another instance of the brazenfaced mendacity of Radical newspapers, A few nights since a band of negroes who had organized themselves into a military company, were parading through the streets of Baltimore, when they deliberately fired a number of shots into a crowd of whites, killing one man and wounding others. No paper in that city, not even the organs of the bitter and unrelenting Radicals of Maryland, dared to charge that any provocation had been given, and the commander of the negroes testified at he coroner's inquest that he "hcard no noise and witnessed no interference preious to the firing."

Yet with these facts all before them, newspapers, such as the New York Tribune and Forney's two dailies, are found exculpating the black murderers white vote was cast for these vagabonds and villifying and abusing the white population of Baltimore. It is dated a short time after the assurgmation of Mr. Lincoln, and endorses Mr. Johnson's course at that time very carnestly. THE New York Herald in annound ing the fact that handbills have been found lying about the streets of Richmond, offering a reward for the assassi nation of Hunnicutt and Underwood, says it is generally believed that they were gotten up by the Radicals them selves, as an excuse for the organization of the Negro Vigilance Committee which has been ordering white men to leave the city for speaking disrespectfully of Hunnicutt and company. That is the most reasonable explanation of the story.

No political organization except one founded on the rock of immutable political truth could ever have withstood the assaults made upon the

Democratic party during that period. It never despaired, not even in the darkest hour. Knowing that the very existence of the Republic depended upon the ultimate triumph of the great principles it advocated, it bore defeat without despairing and battled manfully and hopefully against error. The hour of triumph seemed long in coming. Some tew grew weary, and here and there a despairing straggler folded his hands and refused to make another effort. It is especially and distinctively national. It knows no North, no South, no East, no West. It never did, except during the war, and it never will in future, so long as the people of the South

abide by the terms given to Lee by Grant. His last encounter was with Mr. Simington, the Manager of the Associated Press News Agency. J. W. F. One of the prisoners named Weaver, being a locksmith by trade, took an imprint of the lock on his cell door, and one day when visited by a friend, gave it to him with instructions to have four keys made to fit it.
