ioner of Agriculture shows the gain and loss in all important crops for the year end. ing with October: Wheat.—Our returns for October contain local estimates of the amount of wheat yielded, in comparison with the crop of last year. They are made with due consideration of differences in acreage, in approximate the containing of the processing of the containing of th sideration of differences in acreage, in appearance at the time of harvesting, and in condition and yield of grain in threshing. Full returns from the Pacific coast, the Territories, and from some of the youngest of the border States have not yet come in; a final, definite estimate in bushels, therefore, will not be made until the issue of the next number. The result is gratifying to the farmers of the nation, and to consumers of flour generally. While few localities have exhibited large yields per acre, and some have caused comparative disappointment by an average product less than was confidently expected at harvesting, the sum total in bushels will exceed that of any harvest hitherto gathered in this country. It will surmount the figures of last year by forty to fifty millions; but will not reach forty to fifty millions; but will not rea the amount which should have been at tained, upon the ratio of increase made be tween 1850 and 1860, by twenty millions.— As an approximate estimate, upon present data, 220,000,000 to 225,000,000 bushels may be received as the crop of the entire country

be received as the crop of the entire country for 1867.
In some of the eastern States, in Texas, and Kansas, the figures scarcely equal those of last year; in Texas the reduction is fully half. In the northwestern the inrease is variable and moderate, as follows crease is variable and moderate, as follows: Illinois, 7 per cent.; Minnesota, 8 "ere cent.; Michigan, 13; Iowa, 15; Wisconsin, 16. The belt of States in the Ohio valley which suf-tered so unusually last year, and made but four, five, six, or eight-tenths of a crop re-spectively, and averaged together but half a crop have made a beaver increase upon crop, have made a heavy increase upon hose figures. The largest is made by Ohio, those figures. The largest is made by Ohio, 130 per cent, as might be expected, the deficiency having been greatest there; Indiana is placed at 85 per cent, increase, WestVirginia, 51; Kentucky, 38. In the Atlantic States, the greatest deficiency last year was in Pennsylvania, and the increase there this year is 57 per cent.

The Southern States show a material enlargement in the area of wheat, from an

enlargement in the area of wheat, from an evident intention to become more nearly self-supporting and independent than formerly. This is particularly noticeable in Virginia, Georgia, Alabama, Tennessee, and Arkansas. The great decline in Texas results from several causes, one of which is the neglected and weedy condition of lands which formerly yielded good crops. Our correspondent there writes that it has been continued in his region for five years; that "up to that date the prairie farms were almost entirely harvest fields yielding from 15 to 25 bushels per acre, and now the enlargement in the area of wheat, from an 15 to 25 bushels per acre, and now the average yield is about 4½ bushels per acre. The causes are no doubt various, some o The causes are no doubt various, some of which can be overcome, such as proper preparation of the land and selections of early seed from the Northern climates. All are convinced that the usual mode of seeding on fout land and bad ploughing will not do, and are now acting upon the belief."

The quality of wheat is greatly superior to that of last year: it is almost universally to that of last year; it is almost universally sound and dry, but in many localities there may -b∋ found from a-third to a half-defi-

may be found from a third to a half deficiency in weight, lacking in plumpness or slightly shrivelled, and passing as No. 2, being less than 58 pounds to the bushel. There is also a greater tendency to cleantiness and care in preparing the grain for the market. High prices and the marked discriminations of buyers are doing good service in this direction.

Outs—The yield of oats has proved less than was expected in Malne, Vermont, New York, Virginia, Mississippi, Texas, Tennessee, and Kentucky; in Michigan no increase over last year is reported, but most of the Western States have made a comparative gain. As in the case of corn no increase over last year 1s reported, but most of the Western States have made a comparative gain. As in the case of cogn and wheat, the majority of the Southern States added to their area in oats, and have a larger product. The quality and yield are a fair average in Ohio, Indiana and Illinois; in Wisconsin; Minnesota and Lowe they are generally of superior quality Iowa, they are generally of superior quality and have threshed out very satisfactorily. The aggregate estimate will exceed 280,-000,000 bushels—about three percent, above

Rye.—This grain has made a very uniform growth and yielded an average product, with few axceptions. The report indicates a larger total product than last year, and the quality is uniform in most of the States. Those which show a slight depre-mation or Maine. New Hampshire, Verciation are Maine, New Hampshire, Vermont, Rhode Island, Delaware, Virginia, essee and Nebraska. In the Southern States the crop is generally good. The esti-mate for all the States excepting those on the Pacific is 21,90,000 bushels. This is an increase of four per cent. over the product

ficient—about a half million bushels, or four per cent, as compared with the crop of last year. Illinois, Kansas, Pennsylvania, New York, and all of the eastern States except Massachusetts and Connecticut, share in the deficiency. New York being the printhe deficiency. New York being the prin-eipal grower, producing nearly forty per-cent, of the crop, a deficiency there of thir-teen per cent, is equivalent to half a million bushels. The comparative losses and gains of all the other States together will balance

some importance in the South costing little for labor, and furnishing yaluable aid in fattening domestic animals, particularly logs. It is gratifying to observe that this hogs. It is gratifying to observe that this interest has not been forgotten. In Georgia an increase of 35 per cent, is reported; in Alabama, 13 per cent,; and in South Carolina, 8 per cent. Texas, Tennessee, and Maryland, report an average. A slight deficiency is indicated in Mississippi, 30 per cent, in Louisiana, 25 in Florida. The bean error in New England is slightly deficient. crop in New England is slightly deticient, except in Vermont; in Virginia and Kentucky, and in most of the West, so far as it cultivated, it has proved better than an iverage crop.

Corn.—The final exhibit of the corn crop.

Was

Corn.—The final exhibit of the corn crop will be tabulated in November. West Virginia, Kentucky, Ohio, Indiana and Illinois, a belt which suffered last year by the winter killing of wheat, were affected by a drought of considerable severity, which will cause a heavy reduction of the general aggregate. The topon tion of the general aggregate. The tenor of the reports for this district differ little from those of September. To offset little from those of September. To offset this deficiency in part, an increase, ranging from 7 to 17 per cent., is reported for the States of Michigan, Wisconsin, Minnesota, Iowa and Kansas. Delaware, Virginia, and North Carolina have small crops, and Pennsylvania is slightly deficient. The States further north and east have generally shown a slight increase, and the South-rn States have made a comparatively heavy increase. The quality is uniformly good, leaving no doubt that the value of the entire crop, after deducting the deficiency in the Ohio valley, and allowing for an increase in almost all the other States, will be greater, not only in cash but in the intrinsic life-sustaining and pork-producing will be greater, not only in cash but in the intrinsic life-sustaining and pork-producing power, than that of ast year. As the deficiency occurs in the centre of the commercial pork-packing district, it will affect unduly the market, both forcorn and pork, making the scarcity more prominent, while the comparative abundance of the South will greatly reduce the demand upon the West. At the end of another season it wil be shown that there was corn enough for pork for beef, and a larger quantity of whiskey than the government will be able

whiskey than the government will be able to collect the tax upon.

Sorghum.—The sorghum interest has greatly declined. Frosts have injured the crop in many places, the acreage is much reduced, and despondency is evident in the teelings of many growers. It is to be hoped that greater success will be enjoyed next year, as the quality of the sirup is yearly improving.

Buckwheat.—This crop will scarcely equal that of last year. East and north of Penn that of last year. East and north of Penn-sylvania there is a deficiency, varying from 3 to 9 per cent. There is no deficit in Dela ware, Maryland, Missouri, Iowa, Kansas and Nebraska. In Ohio the decrease is and Nebraska. In Obio the decrease is reported at 29 per cent., Indiana 17, Illinois 9, Michigan 6 per cent.

Potatoes.—The potato crop is a poor one this year. The heavy summer rains of the eastern coast, from Maine to Virginia, have occasioned much loss. The decline from last year is stated at 27 per cent. in New Jersey 16 in Pennsylvania (much more in

Jersey, 16 in Pennsylvania, (much more in the eastern part of the State,) 17 in Delaware, 8 in New York, 9 in Massachusetts, 17 in New Hampshire and 40 in Maine. In the New Hampshire and 40 in Maine. In the West the crop has suffered in some places from drought; in others from the potato bug, the well-known 10-lined spearman. Tobacco.—A decline in the tobacco product is indicated in the principal tobacco-growing sections. For particulars see crop tables. Sugar.—Louisiana, the only State pro

ducing cane sugar to any extent, reports an increase of 20 per cent. over the small yield of last year.

Cotton.—Complete estimates will be made Cotton.—Complete estimates will be made on the receipts of the November returns. The returns of October indicate a considerable increase in South Carolina, Georgia, and Alabama; about the same yield as last year in Mississippi, Arkansas, and Tennessee, and a marked diminution in Texas and Louisiana. All estimates below 2,000,000 bales of 400 pounds are decidedly fallacious, while present indications favor an approximation to 2,500,000 bales.

Futtening Cattle.—There appears to be a small deficiency of fattening cattle in Ken-Fattening Cattle.—There appears to be a small deficiency of fattening cattle in Kentucky, Ohio, Indiana and Illinois, the centre of eastern supplies. Further west and northwest the supply is generally quite as good as last year. In those States that report a reduced supply, there is also a reduction in condition; in all of the other States the reports upon condition are quite favorable.

News Items. The election in North Carolina indicate hat the Radicals have carried the State. The recent hurricane at St. Thomas, and other parts of the West Indies, caused the loss of 79 vessels and 600 lives. The carpenter and blacksmith shops of

Canada, were burned on Thursday night-The Spanish Government is reported to have recalled its Admiral and greater part of its fleet from South American waters. bts amounted to thirty-eight dollars, and hirty-one cents. Several revolts occurred at different

A CROSS THE SIERRA NEVADAS. THE CENTRAL PACIFIC RAILROAD. THE WESTERN HALF OF THE

Great National Trunk Line Across the Being constructed with the AED AND SUPERVISION OF THE UNITEDSTATES GOVERNMENT, is destined to be one of the MoST INFORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the sole link between the Pacific Coast and the Great Interior Bas over which the immense Overland travel must pass, and the

over which the immense Overland travel must pass, and the

Principal Portion of the Main Stem Line

between the Two Overans.

Its line extends from sacramento, on the tidal waters of the Paclife, eastward across the richest and most populous parts of california. Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 mires are now build, equipped and in running operation to the summit of the Sierrs Nevatia. Within a few days 35 miles, now graded, will be added, and the track curried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all orevious estimate. The figures for the quarter ending August 31 are as follows in GOLD:

Cross Operating Net

8487,579 64 ,886,548 47 8401,031 17 or at the rate of two millions per annum, of which more than three-fourths are net profit on less than 189 mile worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.

The Company's interest limbilities during the same period yere less than \$125,000.

Add to this an ever-expanding through traffic and the proportions of the road.

The Comp my are authorized to continue Add to this an ever-expanding through traffic and the proportions of the tuture business become immense.

The Comp by are authorized to continue their line eastward until it shait in et and connect with the roads now building cast of the Rocky Mountain ranges. Assuming that they will build and courrol haif the entire distance between San Francisc and the Missouri river, as now seems probable, the United States will have invested in the completions of 865 miles 828,592,000, or at the average rate of 835,000 per mile—not including an absolute grant of 10,000,000 acress of the public lands. By brooming a joint to vistor in the magnifice, it enterprise, and by waving its first ilen in lavor of the First Morigage Bondholders, rile General Advisor of the First Morigage Bondholders, the General Real Government, in effect, invites the Cooperation of Privates Cooperations of Privates Cooperations, and has carefully guarded their interests against all ordinary contingencies.

The Company offer or sale, through us, their

Dentistry.

DR. J. B. McCASKEY, SURGEON DENTIST. Continues the practice of his profession at his office in Ever King Street, near Centres Square, and over the First National Bank, Lamaster.
While in Operative Dentistry he yields the while in operative Dentistry he yields the palm to none, in the particular department of Artificial Work, he challenges the profession—whether for artistic finish and substantial excellence of workmanship, natural appearance of teeth, perfect adaptation of plateto the mouth, or the moderate character of his charges.

TEETH EXTRACTED WITHOUT PAIN BY THE USE OF NIAROUS OXIDE GAS. Having just put up one of BARKER'S GASOM-TELES of largest size, manuactured by
kubencame & Stockton, with all the latest improvements, be invites the attention of all
parties interested, believing it to be the only
first-class meter in Lancaster city or vicinity,
by the use of this apparatus the gas is obtained
in absolute purity; and it is adminis cred directly from the meter, through a flexible tube,
without the intervention of gas bag or any
other cumbersome piece of apparatus. The
patient sits down, takes the polished monthpiece, breathes deeply and deilberately of the
sweet-tasted gas, passes rapidly under its exbilerating influence, and in a few moments is
ready for the paintess operation. Its inhalation
is much more pieasant than that of Ether or
Chloroform, and its influence passes off almost
instantaneously. No one need longer dread
the operation of extracting decayed teeth.
SCHEDLEE OF CHARGES: Artificial Teeth on
Gold plat, full set, \$80.0; Full upper set, \$10.00;
Sliver plate or Vulcauized Rubber, full set, \$10;
Full upper set, \$1.00 to \$300; Silver gloud or silver. Gold
fillings, \$1.00 to \$300; Silver fillings, 50c to \$1.00;
Cleansing Teeth, \$1.00; Extracting Teeth, each
25c., or with Nitrous Uxide Gas, \$100; for first
tooth and fifty cents for each additional toothwhich latter charge is

A REDUCTION OF 50 PER CENT.

upon the charges heretofore made in this city.
A turnier liberal reduction upon these last named rates when artificial teeth are to be inserted.
Satisfaction is guaranteed in all cases, and all work is varranted. His patrons may therefore rely upon obtaining the best of work at the very lowest rates.

As Cut this out. [je 5 6mw 23]

DR. J. M. CLEMENT,

DENTIST, Graduate of the University of Pennsylvania and graduate of the Pennsylvania College of Bental Surgery. OFFICE ON THIRD STREET.

OXFORD, PENNA.

Teeth extracted without pain by Nitrous Dxide Gas, Ether and Local Anesthesia. All diseases of the Teeth and Mouth successfully treated—such as irregularities of children's Teeth; filling of carious Teeth and preserving the natural organs; Artificial Teeth inserted from one to a full set; all kinds of Teeth repair-cal and remodeled to fit the mouth. from one to a full set; all kinds of Teeth repaired and remodeled to fit the mouth.

Persons having difficult teeth and roots to extract are invlied to call.

All operations in the dental profession performed in the best manner, and warranted to give sati-faction.

THE REAL VELPAU FEMALE PILLS!

WARRANTED FRENCH.

These Pills, so celebrated many years ago in Paris, for the relief of remaie irregularities, and afterwards for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the originator, Mr Ve pau, is a physician in Paris, of great wealth, and strict conscientious principles, and has withheld them from general use, lest trey should be employed for unlawful purposes.

In overcoming Female Obstructions, Nervous and Spinal Affections, Pains in the Back and Limbs, Farigue on slight exertion, Paipit attoin of the Heart, Hysterics, &c., and will effect a circ when all other means have falled; and, although a powerful remedy, do not contain calomel, antimony, or anything burtful to the constitution.

To married ladies and young girls who have never been r, gulated, they are peculiarly suited. They still, in a short time, bring on the mannibly period with regularity.

Caution.—Married Ladies should never take them when there is any reason to believe themselves preguant. WARRANTED FRENCH. nem when there is any reason to believe hemiselves preguant. Ladies can procure a box, sealed from the ves of the curious, by enclosing one dollar and six postage stamps to M. W. MACOMBER, beneral Agent for United States and Canadas, t. Albany, N. Y., or to any authorized Agent. Or. D. MCCORMICK, Agent, Laucaster.

MARRIAGE GUIDE.

Myoung's great Physiology work, of every one his own boctor—Being a Private Instructor for Married Persons or those about to Marry, both male and female, in everything concerning the physiology and relations of our Sexual System, and the Production or Prevention of Offsprine, including all the new discoveries never before given in the English language, by Wm. Young, M. D. This is really a vanuable and interesting work. It is written in plain language for the general reader, and is illustrated with upwards of fold, engravings. All young married people, or those contemplating married life, should read this book. It discovers that every one should be acquainted with. Still it is a book that must be locked up, and not to lie about the house. It will be sent to any one on the receipt of Fifty Cents. Address Dr. Wm. Young, No. 416 Spruce st., above Fourth, Philadelphia.

NEW FASHION FOR 1868. SHERMAN'S NEW PATENT AS YOU LIKE IT SKIRT.

35 N. EIGHTH ST., COR. FILBERT. 35 This is not only a new fashion, but a new article of skirt made on an entirely new principle, so novel and yetso perfect the ladies contend it should be called Perfection.

We would here call particular atten ion to the AS YOU LIKE IT, or flexible joint, extending down the front of the skirt; it is so constructed that the springs iold inwardly, but not outwardly, and resultly yield to the slightest pressure, thus allowing them to collapse so that the skirt occupies the smallest possible space while sitting, riding, or in passing turough a cr. wd, and yet the moment the pressure is removed, the skirt resumes its original and beautiful shape.

The novelty and utility of this contrivance need but be seen to be appreciated.

Ask for the AS YOU LIKE IT SKIRT, and take no other.

OUR CORSETS Are so well known for their superior SHAPE, MATERIAL and WORK MANSHIP, that it is perhaps unnecessary for us to speak of them further than to say that we have greatly enlarged our assortment of styles, both of our own make and importation, and can now safely defy competition. defy competition.
It may well be said that
In Mrs. Shehman's Cohbets, ladies find
The laws of Heath with Fushion's taste com-

The laws of Health with Pushion's taste combined;
Supporting equally each separate part,
They cramp no action of the longs or heart,
And no injurious ligature is p aced
To may the flexure of the natural walst.
Their fit is cert. in—and what's sure to please,
In all positions there is perfect case;
The figures of the young they nelp to form,
Aiding and not repressing every charm;
Irregularities of snape they hide,
so that by none can alight actects be spied,
While et an figure, which is understood
As being 'bad,' may by their neip seem good;
Ano matrons wearing them a boon will gain,
Their early symmetr, they'il long retain.

3m w 39 нос. вкіктві 628. WILLIAM T. HOPKINS, "OUR OWN MAKE." After more than FIVE YEARS experience and experimenting in the manufacture of STRICT-IX FIRST QUALITY 1100 P SKIRTS, we offer our justly celebrated goods to merchants and the public by full confidence of their superiority over all others in the American market, and they are so acknowledged by all who wear or deal in them, as they give more satisfaction than any other Skirt, and recommend themselves in every respect. Dealers in 1000 Skirts should make a note of this fact, EVERY LADY WHO HAS NOT GIVEN THEM A TRIAL, SHOULD DO SO WITHOUT FURTHER DELAY. Our assortment embraces every style, length and size for Ladics, Misses and Children, Also, Skirts MADE TO ORDER, Altered and Repaired. After more than FIVE YEARS experience and parren.

Ask for "Hopkin's Own Make," and be not deceived. See that the letter "H" is woven on

deceived. See that the letter "H" is wosen on the Tapes between each Hoop, and that they are stamped "W.T. HOPKIN'S MANUFACTURER, 628 ARCH ST., PHILAD'A," upon each tape. No others are genuine.

Also, constantly on hand a Inil line of good New York and Lastern made Skiris, at very low prices, Wholesade and Ketait, at the PHILADELPHIA HOOP SKIRT Manufactory and Emportum, No. 628 ARCH STREET, PHILADELPHIA.

THE HOWE MACHINE CO.S. SEWING MACHINES,

FOR FAMILIES AND MANUFACTURERS. THE HOWE LOCK STITCH. THE HOWE LOCK STITCH.

THESE WORLD-RENOWNED SEWING MACHINES.

Were awarded the highest premium at the World's Fair in London, and six first premiums at the New York State Fair of 1866, and are celebrated for doin; the best work, using a much smaller needle for the same thread than any other machine, and by the Introduction of the most approved machinery, we are now able to supply the very best machines in the world. tion of the most approved machinery, we are now able to supply the very best machines in the world.

These machines are made at our new and spacious Factory at Br.dgeport, Conn., under the immediate supervision of the President of the Company, Elbas Howe, Jr., the original fusentor of the Sewing Machine.

They are adapted to all Rinds of Family Sewing, and to the use of Seamstresses, Ibre s Makers, allors, Manuhacturers of Shirts, Collars, Skirts, Clonks, Manthias, Clothing, Hats, Caps, Coracts, Boots, Shoes, Harness, Saddles, Linen Goods, Umbrellas, Parasols, etc. They work equally well upon slik, linen, woolen, and cotton goods, with slik, cotton or linen thread. They will seam, quilt, gather, hem, fell, cord, braid, blud, and perform every species of sewing, making a beautiful and perfect stich, alike on both sides of the articles sewed.

The Stitch invented by Mr. Howe, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him.
