\$200 Per Month Sure. In common with other physicians, Dr. Hari-mun keenly feit the want of this general remu-dy in his practice, Always noted for his liberal and independent views, he although a graduate of Jetierson College of Hulideiphia, one of the best schools in the world would not permit himself to be trammeled by the strict lines that are drawn around the various schools of medi-cine. Practicing and occupying a high position ins a physician, he was not content with what Allopathy taught him, but earnestly and thoroughly investigated Homepathy, Hydro-pathy, Electropathy and other 'systems of medicines, selecting from each what be found to be good, effective and reliable, and discard-ing what, upon actual experience, he proved to be traneous. And will present to any person sending us ciub in our Great ONE DOLLAR SALE of DRY AND FANCY GOODS, a Vatch, Piece of Sheeting, Silk Dref 3 Patern, &c., FREE OF COST. GEO, M. FRANKLIN. "WHAT IS IT?"-Certain indications of the presence of seme wild animal have con-siderably aikmed and excited the citizent of Martie and Providence townships in this of Martie and Providence townships in this of Martie and Providence township; they were traced from thence to the Martie thills, which are but sparsely inhabited and are mostly covered with a thick growth of Ghestont timber. We learn from reliable to be trammeli as physician, he was Allopathy taught hill thoroughly investigat between the second and the second and the second second and the second second and the second second second and the second is track is small and resembles that of a mule. A little girl about eight years of age, on her return from school in that neighbor-hood, met with an animal differing in ap-pearance from any she had ever seen be-fore, and which was doubtless the sume that muld the tracks. Other parties have shot at it, but on necount of its rapid move-ments could not discover its irne chiracter. It has lately been tracked near the village of New Providence; its tracks are said to be in a direct line, one succeeding the other, and its locomotion is very rapid. It is most probably one of the wild animals belonging to a menagerle, several of which succeeded in making their escape from the cars dur-ing a recent accident that occurred on the Philadelphia and Baltimore Railroad.

A NEW COUNTY PROPOSED .- We see by

the Oxford Press that it is proposed to make a new county out of the southeastern por-tion of this county, and the southeastern portion of Chester county. The new county tion of this county, and the southwestern ip portion of Chester county. The new county it will embrace the townships of Fulton, Lir-ide Brithin, Drumore, Colerain, and parts of Sadsbury, Bart and Providence, in this county, together with the townships of East and West Nottingham, Upper and Lower Oxford, West Fallowfield, Highland, Lon-tdonderry, Penn, New London, Franklin, London Britain and Eik, in Chester county, The objection to the project on the part of the tax-payers is methy the argument that many persons in Oxford and its vicinity, will contribute fractly, both land and money, toward the erection of sultable county build-ings. It is assorted that half the necessary in the immediate vicinity of county towns is an additional inducement for the dilzens of that section to favor the project. It is thought that sufficient territory to measure four hundred square miles, and yet not em-trace one-tenth of the sould on ether Chester or Lancaster county, can be ob-tained; and it this should be the cuse, the question need not be submitted to a vote of question need not be submitted to a vote of the whole of said counties, but only to a vote of the inhabitants of the territory out of which the new county is to be erected ; and in this event it is thought the measure will be adopted.

will be adopted. STORE ROMED.—The store of Dr. H. B. Bowman at Neffsville, in Manheim town-shlp, was robbed on Thesday night of \$12 in change; of this amount \$3.50 was in 3, 5 and 10 cent silver pieces. No goods have as yet been missed. The burglars tried in the first place to get in at a window, by breaking open the shutter, but did not suc-ceed. In their endenvors to open the shut-ter they made a hole in the wall by tearing out some bricks, in order to get the shutter pin loose. They afterwards succeeded in prying open the door, and in this manner effecting an entrance. They let a butcher knife behind them. A roward of \$25 is of-fered for their arrest.

Horse Stolen, A valuable more was stolen on Wednesday from Messrs, Gross & Stongh, of the borough of York, York coun-ty. No trace of the thief has as yet been discovered. The mare is of a dark brown color, 15 hands in height. A reward of \$50 is offered for the detection of the thief and recovery of the animal. We notice quite a number of horses have been stolen this season, some of them being very valuable. Farmers should be cureful in properly se-ouring their stables, as no doubt well organized bands of horse bleves infest the rural districts. organized band rural districts. Jan 25

COLUMBIA NEWS .- We clip the following news items from the Herald of this morn-

Ing: The Columbia and Port Deposit Railroad is now receiving proposals for building five miles of the road at the lower end, and the whole will be put under contract at an early date.

Services will be held in the German Reformed Church on next Sunday morning and evening. Rev. D. Gerhard, of New Holland, will be present. The public are invited to attend.

Invited to attend. It appears to be a settled question that the Bridge Company will commence vigor-ous operations in the spring for the con-struction of a bridge at this place across the Susquehanna, which will give employ-ment to a large number of mon for about eighteen months.

MACHINES. Were awarded the highest premium at the World's Fairin London, and air first premiums at the New York Blate Fair of 1886, and are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduc-tion of the most approved machinery, we are now able to supply the very best machines in the world. These machines are made at our own and specious Factory at Bridgeport, our new and We again caution the public against those many concerns that have spring up the past few years, that imitate our name in part and style of doing business. We have no connec-tion with any other house and we feel asurred that the broad principles of commerce upon which we continue to transact business will be acceptable to the public and advantageous to ourselves. Those desirons of gotting up Club Orders (Lalce sepecially), who have few hours

These inachines are made at our new and epacious Factory at Bridgeport, Conn. under the immediate supervision of the Freatdent of the Company, Elias Howe, Jr., the original in-ventor of the Sowing Machine. They are adapted to all kinds of Yamily Sew-ing, and to the use of Seamstresses, IDre s Ma-kerst, aliors, Manufacturers of Shirk, Collars, Skirts, Cloaks, Mantlins, Clothing, Hats, Caps, Corstei, Boots, Shoes, Harness, Saddles, Linen Goods, Umbrelias, Parasols, etc. They work equally well upon silk, linen, woolen, and cot-ton goods, with silk, cotton or linen thread, they will seam, quilt, gaitart, hem, fell, cord, brid, bind, and perform every species of sew-ing, making a beautiful and perfect stich, alike on both sides of the articles sewed. The Stitch invented by Mr. Howe, and made on this Machine, is the most popular and dur-able, and all Sewing Machines are subject to the principie invented by him. Orders (Ladies especially), who have few hour each day to spare can realize havd some re-muneration as we give highest rate of com-mission. Parties can save from 50c to \$1 per pound, by Furchasing Our Teas which we con-linus to sell at the following we have the second

Idi, cord, sed of sew-tich, alike and made subject to subject to gents, a. iyw 11 subject to subje send for circular.
