for our readers the Herald's report of the proceedings of a meeting of the chizens of columbia, called for the purpose of taking Solumbia, called for the purpose of taking the necessary steps for the formation of a new county out of parts of Lancaster and York counties, with Columbia as the county seat. The new county is to be some forty miles in length, by twonty in breadth, with the Columbia and Port Deposit Railroad passing lengthwise through its centre. The meeting assembled in the Town Hull, on Saurday evening.

A. S. Green was chosen President.

H. B. Essick, W. W. Upp. Col. C. S. Kauffman and Geo. Young, Jr., were chosen Vice Presidents.

W. Hayes Grier, H. S. Hershey, and Chas, H. Pfabler were elected Secretaries. Addresses upon the proposed formation were delivered by several gentlemen.

On motion of Col. Kauffman, a committee of five were appointed by the President,

All present seem-ed to feel that the time had arrived, whon a new county, the richest in the state in mineral products, was about to be formed.

THE COLUMBIA AND PORT DEPOSIT RAIL-ROAD.—The Columbia Herald states that work has been commenced on the uncompleted sections of this road, situated between Port Deposit and the Octoraro creek. This portion of the road, according to contract, must be completed by the 15th of next June. This, with what has been previously built, will complete abouts it miles of the lower end of the road, forming a connection at the month of Octoraro creek with the Baltimore and Philadelphia Central Railroad, thus giving to said road a Southern outlet, by way of Port Deposit. When the Columbia and Port Deposit Railroad is completed it will open a market for the lumber interest of Columbia, which is now supplied by way of Philadelphia. Lime is extensively used in the neighborhood of Port Deposit for fertilizing purposes, and it is shipped from this section in large quantities by the Tide Water Canal. On the completion of this railroad, lime will be furnished with speedy and convenient transportation to all points along the Southwastern portion of this county, and the farmers of that section wik be furnished with this important fertilizer at very convenient distances from their farms. On Monday Inspector Leonard seized twenty barrels of whiskey, which was con-cealed in Jacob Riestand's grist mill, near he borough of Marietta.

SAD.—A little son of Robert Harrop, re-siding at Davis' paper mill, on the Brandy-wine, about two miles below Chadd's Ford, was lost in December last, and on Monday of last week his body was discovered become boys hunting muskrats, imbedded i a cake of floating ice, near Dupont's powder mills, about three miles lower down the stream. Its appearance was quite lifelike every lineament and feature perfect—its clothes all the same as on the every incoment and tenure periect—as othes all the same as on the day it disapeared—striped stockings, shoes and little ums over them. There is a splendid tract of land containing seven hundred acres, and \$20 per acre. There is a splendid tract of land, containing seven hundred acres, and lying on both sides of the Virginia and Tennessee Railroad, a little over three miles from this town, which is advertised by our General Land Agents for Southwest Virginia, at \$38 per acre, with liberal time allowed upon three-fourths of the purchase money. Every acre of this large tract is arable, and the soil is hardly surpassed in fertility anywhere. The same parties have advertised an extensive area of pasture land, twelve miles north of Bristol, (a rail and, twelve miles north of Bristol, (a rail road town built at the termini of three roals) at \$3 per acre. These are fair samples of the prices of farms placed in the hands of those gentlemen to be sold, if sales can possibly be made without ruining the present owners.

From the sales of real estate noticed by the press of your State, I think I could safely affirm that hands, equal in fertility and convenience to market, are sold in Southwest Virginia for one fifth of the prices they command in Pennsylvania.—This cannot long continue to be the case. This caunot long continue to be the case. As soon as the people of the South and immigrants from Europe come to understandthat society here was never in a more peaceful condition, and that our land-holders and other citizens are anxious to have them among us, and are universally extending the utmost courtesy to all people who move into our midst for the purpose of pursuing some legitimate vocation, there will be inaugurated a tide of immigration that will never cease till the fortile valleys of Virginia become as populous, as the most

The following gentlemen are urged by their respective friends for the nomination: Henry S Evans, Col. J. C. Dickey, Dr. D. W. Anderson the Betrayed Showman. A few days ago the report went the round that the wife of the magician, Anderson, had eloped with one Norris, the showman's agent, and taken along \$3,000 of the Professor's funds. It was added that the abandoned magician had killed his child and committed suicide. It since turns out that the latter report was one of Anderson's slight-of-hand performances to entrap the fugitives. The Meadville, (Pa.) Republican

fugitives. The Meadville, "(Pa.) Republican says:

"On Tuesday we reported the news of the elopement of Professor Anderson's wife with a man named Norris, and the telegraphic statement that Anderson had killed his child and committed suicide at Covington, Kentucky. By later advices, it appears that Professor Anderson is not the "dead duck". that the telegraph made him out to be. The message was only a ruse to decoy the happy "birds" into the hands of the "fowler" and it did. The guilty "twain" took the back track and at Middletown, Ohio, behold I the unfortunate husband who had (by report) murdered his little child and blown out his own brains, appeared be fore the astonished couple, and took a sent in the omnibus opposite them.

"The scene can be better imagined than described. Suffice that the Professor's wouldbe-successor to fork over what stamps he might have belonging to the late Mr. A., whereupon, as report has it, he shelled out some \$3.500. The Professor seems to be quite satisfied with the blood already shed, as he did not proceed to blow out the brains of the man who had runaway with his wife. The unfortunate woman passed through this city going East on her way home, we hope a wiser and better woman. As for the Professor, the has performed a little piece of slight of hand which cellpsed anything laid down in this 'posture.'

"John Norris, or 'Johnny,' as he is called by his chums, is trom Williamsport, Pa. He has been travelling with Anderson ever since he last performed in this city. The engagement was made here, and Johnny resigned a position on the Philadelphia and Erle Raliread to accept a place with the magician. His family owns a fine property opposite the Herdick House, Williamsport, and are among the most respectable people of that town. But Johnny is rather inclined to fast life, and managed to persuade Mrs. Anderson and \$3,600 more of her hustand's personal property to abandon the Mrs. Anderson and \$3,500 more of her hustand's personal property to abandon the fortunes of the handsome showman.

Mrs. Anderson is quite good looking and young. She sppeared greatly dejected when the news reached her of the death of her husband and child and as she returned on her way East she was a forlorn object. She is cast off by her husband, and has been abandoned by the graceless scamp that allured her away." Steamboat Explosion—Terrible Loss of Life.

The boat took fire immediately after the boilers exploded, and after the remaining upper works were destroyed, some powder in the magazine expleded, destroying everything but the huil, which sunk.
