Mr. John F. Brehm, a well-known store-keeper and butcher of Manadaville, and who also has a stand on market days in front of Wyeth's building in this city, left home as noon on Friday to go to Hecker's Gap, below Linglestown, to purchase cattle. He arrived at the Gap, but does not appear to have made any purchases, and from there went to Benjamin Geesey's tavern in Linglestown, leaving there about S.P. M., for Harrisburg. At the tavern he tavere in Langlestown, leaving there about 8 P. M., for Hurrisburg. At the tavern he stated that he had about \$1,000 about his person. He then came on to the tavern on the Jongstown road, about two miles from this city, kept by Samuel Lutz, and left there affoot for Harrisburg about 10 P. M., leaving his buggy, and as he expressed some fears of traveling about 60 persons the fact that he had left his pistol at home. Mr. Lutz lont him a walking stick. His desire to come on that night was prompted by the fact that he had promised one of his employees to be here and assist him in cutting up half a beef for market. He has not been heard from since he left the tavern, and suspecting foul play, Mr. Landis, his brother-in-law, and Mr. David Koefer deemingt to investigate the matter, and late and suspecting fout pluy, Mr. Landis, his brother-in-law, and Mr. David Koefer determined to investigate the matter, and late yesterday afternoon discovered on the Jonestown road, about one and a half miles from this city, a large po i of blood and an envelope therein which had been addressed to Mr. Brebm on Thursday last by Robert A. Lamberton, Esq. Senreh was madous far as possible qualif dark, when the aid of the Shoriff and Mayor were invoked, and this morning the country will be scoured with the hopes of discovering the victim of what has evidently been an unproveded and bloody murder.

We are requested to unnounce that a reward of one hundred dollars will be paid for the recovery of the body, and it it to be hoped and expected that farmers and citizens will turn out and thoroughly investigate every bush and retreat in the locality of the murder, and assist the authorities in obtaining a clue to this mysterious murder, Mr. Brehm was twenty-six years of age, and leaves a wife, who resides in Manada Hill.

New Presidential Mansion.

It is probably generally known that grounds have been selected for a new Presidential mansion. They are just west of the Columbian Colleges in the northern suburbs near Fourteenth street. The grounds are very extensive and overlook the entire city. With the White House there located, the Presidency would be far more desirable, and perhaps candidates might multiply in proportion. But appropriations must be inade before costly buildings can be erected. The West, with a dim hope of some time removing the Capitol to some of its own bread prairies, may feel called upon to object to any further action which shall serve to fix more indissolubly its present location. Some suggest both an Eastern and a Western Capitol, the government authorities vibrating between the two. NOTICE.—All persons doing business should recollect that all Sinte licenses must be taken out before the first of next month, (July). Those remaining unpaid after that time will be placed by the County Treasurer, in the hands of an alderman for collection according to law.

A Fatal Sequel to an Elopement.

A few weeks since we published the particulars of a man named Lowis, cloping with the daughter of Mr. Jesse, who lives near-shelbyville. As the sequel to this we have to publish a terrible murder. The man Lowis, it seems, has been in the neighborhood of Shelbyville ever since the occurronce, and as Mr. Jesse was returning home on Wednesday evening, at the toll-gate two and a half miles this side of Shelbyville, he espled Lewis sitting in the house. He immediately commenced shooting at him through the window, and it is supposed that Lowis came out of the house and ran, pursued by Jesse, up the turnpike, where he was afterward found with his skull, completely crushed. IMPORTANT TO FARMERS, -The following

IMPORTANT TO FARMERS.—The following points of law relative to a tenant of a farm were recently settled by a decision of the Supreme Court of this state:

A tonant of a farm, under a lease from year to year for agricultural purposes, entitled to the way-going crop, and such letting must be presumed to have been made, if nothing to the contrary be said. This implication cannot be robusted by implication of bad husbandry, and a trospass by the landlord in destroying the tenants' crop, after the expiration of the lease cannot be justified by an alleged breach of contract. If there be bad husbandry, the remedy is by suit, and not by confiscation of the tenants' rights. There being a crop in the ground whether good or bad, the tenants had a right to it, and to take it away when it ripened. The opinion of the Court, delivered by Judge Thompson, was as follows: By the custom, or as it has been called, the common law of Pennsylvania, the tenant of a farm under a lease from year to year for agricultural purposes, is entitled to the way-going crop. This is the law in view of which such letting must be presumed to have been made, if nothing to the contrary be said. In the case before us this implication was attempted to be rebutted by proof of had husbandry in the case, the redress for that was by suit, and not by confiscation of the tenant's rights. The jury have found that the plaintiffs left a fail crop in the ground when they left the premises, and have estimated its value in the damages given. There being a crop in the ground, therefore, whether good or bad, the plaintiffs had a right to it, and to take it away when it ripened; and this being found by the verdict, and that the defendant destroyed it, there was an end of the matter.

COMMITTEE LANCASTER, June 12, 1808.

LANGASTER, June 12, 1808.

IMPORTANT INVENTION BY A LANGASTERIAN.—The Harrisburg Telegraph states that an oxcellent invention was on exhibition at the State Capitol in that city, during the recent seasion of the State Medical Society, which consisted of a matress on an iron bedstead, for the use of sick or disabled prosons. It is so arranged that the patient may be placed either at length or in a reclining position, without being burt, the bed being raised or lowered at the head or fest without difficulty. If required, the foot of the bed may be detached, when the remainder forms a large and comfortable chair. This bod is more especially useful in cases of such severe injury as to preven the person from being moved, being so arranged that no removal is necessary, while at the same time it is very comfortable. It is most admirably adapted to the use of hospitals, more especially in the army, or where persons are suffering from broken bones. It was invented by Mr. Anthony Iske, of Lancaster. It was highly compilmented by the physicians at the Convention. They believed it to be just the article wanted for the sick.

Mr. Jacob Conrad, for sixteen years believed it to be just the article wanted for the sick.

Mr. Jacob Conrad, for sixteen years Steward of the Berks County Almshouse, declares that this bed is the only complete thing of the kind he has ever seen. He has traveled through many hospitals, in search of something of the kind, but without success. He declares this bed to be the exact thing which has been so long needed by invalids.

Agents for patent rights would do well to call and examine this bed, as it is destined to become extremely popular. It would be a good thing if there was one of these beds in every family 1: the country, and we predict for the new hypertical and examine this bed as the country, and success the search of t

A LARGE WAREHOUSE.—A COTTESTO A LARGE WAREHOUSE.—A correspondent of the Inquirer wites the following in reference to the new Warehouse now being erected at the Gap station, this county:

The Pennsylvania Railroad Company have commenced the erection of their new warehouse at this point. The citizens of the Gap purchased a lot of nearly three acres, which they donated to the Company. Upon one end of this the new building is being erected. It is 100 ft.long, by 32 ft. wide, with a porch of eight feet wide extending along both sides and one end. The building is to be of brick, two stories high, and will when completed, be one of the best upon the road. The bulance of the lot will divided into cattle pens, and a sideling running the whole length of it will give unusual facilities for loading stock. There has been considerable contention as to the location of this warshouse, and its perhaps due to Messrs. Joseph C Walker and H. S. Kerns that the Gap has finally secured it.

BIG CATTLE.—Henry Kurtz, Esq., of Mt. Joy, shipped on Saturday morning, via the Pennsylvania Raliroad, one hundred and twenty head of cattle to the Philadelphia market. They are part of a lot of three hundred and twenty which he has fattened himself during the past winter, and are considered the best lot of cattle ever shipped from Lancaster county. One pair of them, being twins, weigh 4,460 pounds.

A Former Resident of Lancattin Shot at Pitthaung.—The Pittaburg Commercial contains the following account of the accidental shooting of a lady in that city, who formerly resided in this piace. The deceased's maiden name was Ellien Hanlen; she was married to Michael Hook of Columbia, where her husband dled, after which event she moved to Pittaburg. Mrs. Hook died from the effects of her wound on Saturday. The statement of the Commercial is as follows:

"On Thursday morning, about half-past seven o'clock, Mrs Ellen Hook, cupper and loccher, and nurse, residing at No. 148 Grant St., was accidently shot by a boy, and probably fatally injured. She had left her own house and gone into the back yard attached to the next dwelling, for the purpose of searching for a Mailesse at which had strayed away from her. In the yard adjoining wore three boys, named George and William Walsh and William McAuliff amusing themselves shooting at a mark placed to ask the boys if they had seen her cat. Just then one of them, (said to be William Walsh) fired the pistol, and the slug passed through the fence and entered the right side of the woman, just below the ribs. Dr. Mc. Meal, whose office is just by, rendered prompt assistance, but has little hopes of the woman just below the ribs. Dr. Mc. Meal, whose office is just by, rendered prompt assistance, but has little hopes of the woman just below the ribs. Dr. Mc. Meal, whose office is just by, rendered the lung and caused profuse internal bleeding. The boys were arrested and looked up to await the result of her injuries. She is a widew, has four young sons, and has been very industrious and useful in her way, being highly esteemed by a large number of citizens who; has four young sons, and has been every industrious and useful in her daire that the boys shall not be punished, as she knows they had no intention of injuring her.

SAVETIME! SAVE MONEY! SAVE LABOR!

By using Tombinson & Co.'s (Lincoln England) Celebrated Butter Powder, By the use of this inexpensive Powder, churning for hours is reduced to minutes, and is applicable to the making of Butter at all seasons of the year. A small quantity added to the milk or cream at the (time of churning will produce Butter in much less time, in larger quantity, and of a superior quality, flavor and consistency: It removes the unpleasant flavor caused by the cows feeding on turnips, garlio, weeds, de; and prevents all rancidity peculiar to butter; also makes it firmer and sweeter even in the holiest weather.

This Powder, now being introduced into this country, has long been in use throughout Europe and the Cauadas, and Butter made with the sinvariably taken the prize at all Agricultural Shows, whenever exhibited.
