CHRISTIAN WELTY. "Messra. Cloiworthy & Co., of Baltimoro, Md., have discovered a preparation which is a sure cure for almost all discases to which fowls, both young and old, are subject. The season for gapes is close at Jiand, and every poultry breeder who desires to have success with his young flocks, ought to procure one or two packages of the "Pooliterers' Friend" im-mediately. A preparation of this kind has been needel long since, for more chicks die annually than are raised. MISHLER'S

GREEN LABEL BITTERS to counteract and entirely eradicate the scroft ulous diathesis or the secondary and tertiary effects of delicate diseases. It will speedly cure any sores on any and every part of the body. It is the great Blood Purifier, where Mercury, Iodine of Potash and all other alteratives have failed in those offensive diseases which destroy the palate and bones of the nose, the Green Label Ritters act like magic.

The class of unfortunates referred to above should begin by taking the first week a table spoonful three times a day. The second week a tablespoonful and a half, and the third week ablespoonful every three hours, and thus continue to increase the dose until a very large dose has been taken when it should by gradually diminished for a week or two, and then again increase. When too liftige a dose is taken of the Green Label Bitters, or they have been too long continued, the throat will become somewhat irritated, and a little uncasiness fe In the stomach. The patient should at one rapidly diminish the dose when the above symptoms are experienced. As soon as they have passed off, begin again. There is no danger In taking the Green Label Bitters, if only as much is taken as will make the patient feel omfortable, neither will they intoxicate; but o the contrary, we will guarantee that if an abitual inebriate takes a winegla sful of it three times a day, he will acquire such a disgust for intoxicating drinks that in a short

time he could not be induced to taste it. If these Bitters are taken according to the above directions we will warrant a perfect cure in any form, stage or condition of Scrofulous ordelicate diseases. Old Sores, Swellings, &c., nside or outside of the body, no matter from, what cause, if curable at all.
