the following series of resolutions, which were received with applause, and unani-mously adopted : RESOLUTIONS. Resolved, That the persistent efforts of the Radicals in Congress to provent a res-toration of the Union, and to establish negro domination and military despotism upon the runs of ten states, is a direct in-fought for the Union and the Constitution of our Fathers. Resolved, That the object for, which the war was carried on by the Union Soldiers, for was to preserve the Union of the States, to protect and defend a free Government, a wise system of laws and the guarantees of Civil and Religious liberty under the Con-stitution of the United States. Resolved, That the Government of our Fathers is a white man's Government, made by white men for white men, and, there-fore we are opposed to Congress forcing negro suffrage and negro equality upon any of the States North or South. Resolved, That the recent war has de-monstrated that the volunteer soldiery is amply sufficient for any emergency, and we, therefore, deprecate the idea that a large standing army is necessary in times of peace. Resolved, That the only security for our

Those Indraw CLAIMS, The following note has been sent to us, We are not booked up on this question of tille, and cannot give the information desired. We publish the communication as a matter of local name. publish the communication as a matter of local news: Editors of Intelligencer:-Considerable controversy, has arisen of late, as to the right of Mr. Chr'n. Shenk to 'claims' on certain lands, which he asserts that he holds jointly with the aboriginese of this State and which claims he has caused to be re-corded in the Recorder's office of this county. This of course has placed many of ns who hold lands on which these claims are made in a very embarrassing position, as we can-not until this question is settled dispose of our property--purchasers contending that we cannot give a clear title thereto. I have consulted with counsel in the matter, and they differ in their opinions with regard to the validity of these claims. Some persons have already made settle-

with regard to the validity of these claims. Some persons have already made settle-ments with Mr. Shenk, and I hear he has realized some thousand dollars; but myself being among the skeptical, with regard to these claims, and wishing to be perfectly astisfied as to the justice thereof-before compromising for them, I have taken the liberty of refering the subject to you, for our general information, believing that you possess both the historical and legal knowl-edge upon the subject and will doubtless enlighten your readers upon this vexed question. Kline, Franklin and Dickey for the Mandamus; Brown, S. H. Reynolds and Nauman for Select Council. A return was made to the Mandamus by the attor-nies for Select Council. An answer was filed by Nauman, Attor-ney for the Manyor, to the Bill for an in-junction against the Mayor, to prevent him from drawing any warrants jor the city funds. Dickey for injunction. The Attorney for the Mayor expressed his readiness to proceed with the argument but the counsel for t, eparties soliciting the mandamus were not prepared to proceed forthwith, so the whole affair was continued until Thursday morning next at 9 o'clock, when it is expected the matter will be fully argued before the Court. The Mayor ex-pressed an earnest desire that the marture be settled by the Court, as soon as possible, so that the upint he informed how to learly

pressed an enrnest desire that the matter be settled by the Court, as soon as possible, so that he might be informed how to legally act in the discharge of his official duties, as he did not wish to act contrary to what was lawful and right, provided the Court de-cided that he had no authority. The Mayor contended, however, that, under the Charter, he has the power to draw warrants on the Treasury, and that, in so doing, he has not acted contrary to law.

The congregation of St. Aloysius Catholic Church, Pottstown, in connection with the congregation of the Catholic Church neur Douglasville, Berks county, will hold a Grand Pic Nic in Starpson's Wood, near Pottstown, on the 4th of July. A large at-tendance and a pleasant time is expected. A recent meeting of journeuron bick A recent meeting of journeymen brick-makers held in Philadelphia, fixed the price of labor at three dollars and twentyive cents for bottom brick moulders, thr ifty for second class, and four dollars, three ifty for second class, and four dollars for inst-class moulders; the prices to go into effect on the 1st of July. A report was re-ceived from the negro brick-makers' asso-clation, in which they signified their inten-tion to abide by the decision of the white brick-makers, in reference to the scale of nrices.

# The Ashburn Murder-Harbarous Treat ment of Suspected Persons,

The New York Herald has the following among its special telegrams from Washing-

ton: The military commission for the trial of the persons accused of being implicated in the Ashburn murdler at columbus, Ga., will commence its session at Atlanta, in that State, to morrow. Several of the delegates from Georgia to Asoveral of the delegates from Georgia to

itye and Ward nominations will be found under their appropriate heads. **Rite in Monstein, Texas.** On Sunday night, the 14th inst., says *The Houston Telegraph*, a negro inving shot a inan in a dance house, and having been committed to the Bell-Tower Prison, agang of filteen or twenty of his comrades went to the calaboase and demanded the prisoner of the jailer. He replied that they could not have him, and that they must disporse, or they should be arrested. They then dis-persed. Immediately after the occurence above related, the colored people began to pour into the market square from every di-rection, many of them armed, and those who were unarmed ran in every direction seeking arms: Many of the women incited the men to speech and action. Vengenneo upon the prisoner, Noble, was the generally expressed object, and bitter hostility and threats toward the white people were gen-erally manifested and uttered. At thus time the city bell begain to ring to call the citi-zons together, and they also came pouring in, a great many of them armed, and as the two races mingled together, a bloody colli-sion seemed for a short time unavoldable. After a time however, then egrees dispersed, and in a little while the news spread rapid-ly that over firso hundred of them were as-sembled at the colored Methodist Church, and that they opelly proposed to march down Main St., seize all the arms they could arm the blook population generally, attack the whites, and inth the unarmed onesamong them would assist by firing the city. This the New York Convention are here. They represent the conduct of the military au-thorities in that State as intolerable to the hast degree. In the case of hunting up evi-dence concorning the assassination of Ash-burn, several other persons, both white and black, have been arrested, one of them being a white woman. All of them are held as whitesses and coglinoid in narrow cells at Fort Pulaski. The military au-thoritor here offered a wared of \$200 for held as witnesses and cognined in narrow cells at Fort Pulask. The military an-thorities have offered a reward of \$2,000 for the arrest and conviction of the ringleader of the attack on Ashburn and \$1,000 for of the attack on Ashburn and \$1,000 for the arrest and conviction of each of the other parties concerned. The preliminary investigations, it is said, implicate upwards of forty persons in the inurder, which makes the amount of the reward a rather respectable sum to incite the detectives on-gaged in ferroting out the evidence to an energetic discharge of their duties. As the murder was committed in a low uegro brothel a large number of negroes are sup-posed to have wincessed it, and the detect-iyes have, therefore, arrested many negroes, and, having full liberty to use every means and, having full liberty to use every means in their power to extract the truth, have in their power to extract the truth, have been practising upon them the greatest severities to force them, as they say, to tell the truth. These gentlemen state that one of the methods recently employed on the reticent colored witnesses was confinement in the sweat box, au instrument of tor-ture so contrived us to exert a constant pressure upon the chest by the working of a screw. The sides of this box are gradu-ally pressed against the lungs until there is no longer room for the least expansion; then the victim is placed in a room heated with steam or hot air, where the oppression upon the lungs is so great that the exertion with steam or not air, where the oppression upon the lungs is so great that the exertion to breathe amounts to indescribable agony. These methods, the delegates think, are well chloulated to earn the forty thousand dollars, if they do not elicit the truth.

## Another Seduction Case

Another Seduction Case. There is a strong probability that the Circuit Court of Harrison County will be called upon at its next term to render a de-cision in a seduction case, in which the plaintiff is a handsome young lady, form-erly occupying a respectable position in society, and the defondant a preacher. The case is said to be an aggravated one, involv-ing breach of marriage was set; by the villeinous seducer, and the young lady's perents, went to much expense to purchase her wedding outift. ACCIDENT.—Two painters, named Amos Kauffman and James Black, in the employ of Major Wm. Poole, who were engaged in painting the outside of the house owned by Jacob Sener, situated ou the corner of West Orange and North Water streets opposite I rout's Hotel, met with a painful accident last woek. They had placed stages out of the windows of the second story, and as is usual with painters, they had a ladder resting upon them and a board upon the ladder upon which they stood to paint. It appears that the two men having approach-ed too nearly the center of the ladder, both it and the board broks under their united weight and precipitated them to the pave-ment. Kauffman was injured some but is able to walk about; black having been struck on the cheek and side of the head by a part of the Sixth Ward in an omnibus. The injured man was attended by Dr. Mub-leuburg, who pronounced him not to be dangerously hurt. The distance the men foll was about filten feet. Democratic Nominations in Philadel-phin That well known ho party paper, the Ledger thus speaks of the Democrat nomi-nees in Philadelphia: The pressure of public opinion in favor of good nominations by the party conven-tions has had a wholesome effect on the Democratic Conventions. For District Attorney there was but one ballot, which resulted in the choice of Furman Sheppard, Esq., who is so well known as a member of the bar of the high-est ability and as a citizen of unblomished character, that no further description is needed. New FOUNDAY.—The Oxford Press states that the new foundry of John Springer, which is being erected in Oxford is nearing completion. Mr. S. has erected a building 22 by 65 feet, and is putting up his furnace. He has upon the ground a twelve horse power engine and one of Alden's patent blowers, which will be put into position in a short time, and Mr. S. expects to com-mence casting in a few weeks. The prosmence casting in a few weeks. The pros-pects for business are very flattering and the enterprising proprietor ought to meet with full success.

The Congressional Convention mass and to nominate candidates for Mayor, City So-licitor and City Controller. The Congressional Conventions made the following nominations: First District, Hon, Samuel J. Randall, the present member; Second District, Hon, Thomas B. Florence, who for many years represented a part of the same First District; Third District, Dr. J no. Moffett, an esteemed practising physi-cian of the Northern Liberties; Fourth Dis-trict, Mr. James B. Nicholson, a highly re-spected mechanics and manufacturor, well known among the benevolent and bonefi-cial societies of Philadelphia. The Legisla-tive and Ward nominations will be found under their appropriate heads. A NEW WARE HOUSE.—The Pennsylva-nia Railroad Company have found it ne-cessary to eroct a new Wure-house at Coats-ville, Chester county, in addition to the one now in use, for the accommodation of shippers; this new building is to be 104 feet.

WONDERFUL ESCAPE.— The Express, states that a boy, son of George Borman, residing in Pequea township was struck by lightning on Thursday morning. The boy, who was driving cattle to pasture, went under a tree during a shower of rain, when a current of electricity passed down along his body, tearing his puntalcons, and knock-ing the sole from one of his bödis. The lad received only slight injury. He had with him at the time of the occurence, a hay fork. ork.

-----A Good FARMER AND A GOOD JUDGE, The Mariettian has the following notice of one who is both a good farmer and a good

one who is both a good farmer and a good Judge: We were quite amused on Monday last, at seeing Judge Libhart shoulder a new soythe at Patterson & Co's store, next door to our office, and wend his way to-ward one of his hay fields, adjoining town. We suppose he made the grass fly. Every bench cannot boast a Judge who can lay aside the ernine and take up the scythe and be equally learned and useful in either position.

HELD TO ANSWER.—Conrad Soubers, who was arrested on Sunday last by Offi-cers Flory and Shroad, and was charged with having stolen certain kipp-skins from Bitner & Bro's warehouse, this city, the particulars of which larceny were publish-ed in yesterday's INTELIDENOER, had a hearing this morning, before Alderman Wiley, and was held in the sum of \$500 to appear at the next Court of Quarter Ses-sions, to answer the charge preferred against him.

arm the black population generally, attack the whites, and that the unarmed onesamong them would assist by firing the city. This turned out to have been very nearly correct. But better counsels at length prevalled. While all this had been going on, the citi-zens had been organizing and arming both in independent companies and aspecial po-lice force. This work continued the whole day, and until after dark. The whole city was full of armed men and men arming. Thus were the evening and night passed, until the next morning dawned on the city. The patrol went through every part of the city during the whole night, and strange to say, hardly app colored men could be found The women and children were all alone. The men had evacuated the city entirely. LANCASTER COUNTY IRON.—A portion of the Philadelphia, Wilmington, and Balti-more railroad is now being relaid with steel rails, made in this county, from metal made by mixing the ores of that locality with magnetic iron ore from New York. The metal thus made issaid to wear very slowly, is not liable to mash, and is of great strength. he most of them however returned in the norning.

is not liable to mash, and is of great strength. IRON IN THE BLOOD.—When the blood is well supplied with its iron element, we feel vigorous and full of animation. It is an insufficiency of this vital element that makes us feel weak and low spirited; all such, by taking the Peruvian Syrup, (a protoxide of Iron) can supply this defic-lency, and will be wonderfully invigorated. --Communicated.

A DAY'S WORK.—Our readers will recol-lect that during the recent session of the Legislature of this State what is known as the Eight Hour Law was passed, and was subsequently approved by Governor Genry. The act limits the hours of labor constitu-ling a day's work in Pennsylvania to eight hours, and goes into effect on to-day, (Wednesday,) July ist. It will be seen by the provisions of the law which we publish, that eight hours, between sunrise and sun-set, will hereafter constitute a day's work, unless the contrary be agreed upon by the employer and employee, The following are the provisions of the act: BEC. 1. Bet it enacted, dc. That on and af-ter the first of July, eighten hundred and sixty-eight, eight hours of labor between the rises of labor and service by the day, where there is no contract or agreement to the contrary. Objections are sometimes raised against certain medicines on the ground that it is claim-ed they will cure so many different diseases.

A moment's reflection will expose the shallow ness of such an argument, for there is scarcely a medicinal drug of any kind that is not used

r more than one disease. The reason why

strengthens all the nervous fibres, elevates the

tandard of all the vital forces, and sustains a

healthy tone of man's organism. Medicine that will do this will cure any disease for the

imple reason that nature will do the rest. low, the vital principle of life is always and everywhere in danger, and it suffers continu-ally from the successful attacks of diseases.

Hence, it has become a question of very grave importance as to what is the true course to be ursued in fortifying this vital principle gainst disease. Enlightened judgement as he result of long experience, and aided by the light of practical science teaches us that the old methods of the medical faculty are not only
