and would commit some violence, seized hold of him with a view of disarming him. Among those who were active in the at-tempt to restrain him were D. S. Norville and his brother Ell. Marshall became furi-ous at this, and succeeded in drawing a common pocket knife, with which he stab-bed D. S. Norville to the heart, and wounded, perhaps fatally. Ell Norvill before he could be overpowered. The scene, as the now-raging maniac was secured, after this bloody encounter, can be better imagined than described. The partles are all citizens of Union county. D. S. Norville has held the office of Justice of the Peace in said county for many years, and served as Captain with the "hundred days men" during the war. It is said there has been bad feeling be-tween Marshall and Norville for some time past, and we are told Marshall has recently made threats against the life of Norville. Whether this was the case, or whether the excitement developed homicidal mania in Marshall, we are not in a position to say. It is expected that nearly every Council in the eastern section of Pennsyl-yania will be ropresented. We have our information this time from an official source, and we can therefore assure out readers that the parade will certainly take place at the time above stated.

MEETING OF GRAND LODGE.—The Grand Lodge of the Knights of Pythias held their quarterly meeting at Carlisle during the present wook, and adjourned to meet in Philadolphia on the third Tuesday of Au-gust. This organization is said to be very popular, and is meeting with favor wherever it has instituted logges. On the evening of the 21st inst., the members of The Friend's Lodge, No. 50, of Carlisic, entertained the offleers and members of the Grand Lodge with an elegant banquet. We undersfand that the two lodges of this Society, in our city, are in a very flour-ishing condition, and that they have now a membership of over four bundred. The or-ganization is said to have already nearly one hundred lodges in Pennaylvania. It is stated that another new lodge will soon be instituted in Lancaster.

THE USE OF TEA.—The Boston Journal of Okenistry publishes a lengthy article on the properties of tea, in the course of which the writer says that it is no matter of won-der with him that the brain workers, in all the years since tea was introduced, have regarded it with the bighest favor. It has power to subdue irritability, refresh the splrits, and renew the energies, such as is possessed by no other agent. When the system of man is exhausted by labor or study a cup of tea re-invigorates and re-stores it as no other form of food or bever-age can. Het binks it promotive of longevity and adds:

Tea saves food by lessening the waste "Tea saves lood by lessening the waste of the body, soothes the vascular system, and affords stimulus to the brain. The young do not need it, and it is worthy of note that they do not crave or like it. Chil-dren will frequently ask for coffee, but sel-dom for tea. To aged people whose powers of digestion and whose bodily substance have to fall together, it is almost a ne-cessity."

Dated at Langaster, 'the Yith casy of July, NEW PATENT.—Michael G. Groff, of Vo-gansville, this county, has received letters patent dated July 21, 1863; for an improved Horse Power. The novelty consists in bringing the gear not only in a horizontal position, but so arranged that the horses at-tached by pulling on one lever-arm also push the other, applying the same leverage twofold, by having two pinions on the shaft of the main wheel and jack operating obliquely on both sides of the same wheel, thereby greatly (if not fully one half) les-sening the power, as well as to divide the friction and consequent wear, counter-poise the pressure and increase the durability of the machine. Being now fairly tasted, it meets with universal fayor. Obtained through the agency of J. Stauffer, of this oity.
