.111) Miscellaneous. Radicals as Seen by Badicals. We publish the following ci from Republican speeches, newspapers and etters, showing the opinion which the members of the party of great moral ideas have of seach other. We have never esteemed Bethel-Fisher-Butler very highly, but the following extracts from Senator nderson's speech delivered on last Sunday would hardly tend to elevate our opinion of that great General. Speaking of the report of the Smelling Committee, made by Butler alone, Henderson says:

Union. Gen. Gordon neuvered a spiendid oration, appealing to the people to stand by their country, the Union and Constitution, as handed down by Washington and the heroes of Valley Forge, Yorktown and Monmonth report of the Smelling Committee, made by

Butler alone, Henderson says:

He insimates that this note, taken in connection with the testimony, proves something injurious to me. Why does he not publish the testimony? Cooper, Craig and Lacy all testified before the committee. I charge that he suppressed their testimony explanatory of the note, and published the note, not in connection with the testimony, but without the testimony. This, of course, was done with the single purpose of injuring my character. This fact contains

was done with the single phryose of injuring my character. This fact contains
within itself both species of lying known to
the law—the suppression of truth and the
suggestion of falsehood. I cannot conceive
what good purpose this conduct can accomplish. If it were a larceny of my property
I could littribute it to a well known infirmity of its author and suffer the veil of charity
to be drawn over it, but it manifests a degree
of obliquity and devilish malice indicating
total depravity. The implication here is not obliquity and devilish matter national tail depravity. The implication here is not aly against myself, but equally strong gainst Messrs. Evarts, Lacy, Cooper, raig and the President, with no one of thom, up to the date of this note, had I whom, up to the date of this note, had I ever one word of conversation upon the subject of impenchment. Mr. Henderson here read letters from Messrs. Evarts, Craig and Lacy, denying the allegations and explaining the circumstances alluded to in the report. On page sixteen of the report a part of the testimony of Mr. Lacy is introduced for another purpose, and it will be part of the testimony of Mr. Lacy is introduced for another purpose, and it will be seen by his testimony that Mr. Craig, having heard that I was going to resign, called on me on the 13th of May to advise me against it. I quote from the questions and answers of Mr. Lacy: answers of Mr. Lacy:

Q. Was it the day you told the fact to Mr.
Cooper? A. Yes.

Q. Craig did go to see H.? A. Hetold me he
did that night or the next fay. I got the information from Silas Woodson. When I returned from the post officel met Milas Woodson from Missouri, and he said, "H. is going
to stick; he is not going to resign."

Testend therefore of the testimony having

Instead, therefore, of the testimony having the true meaning of this note in obscurity it the true meaning of the house the strip the explains it in such a manner as to strip the insimuations of all plausibility and to stamp the author as a bold, wilful and intentional Usifier of the truth. He then quotes Mr. Crounse's opinion o Butler as follows: I must refer to one other statement con-ained in this document intended to affect

me injuriously. On page eighteen appears the following telegram: WASHINGTON, May 15, 1868.

JOHN R. GARLAND, New York:

Senator Henderson says conviction will fail by two votes. LOCK WOOD.

Then follows the insinuation, "So the gold room had the benefit of Senator Henderson's knowledge." At another place we are told that "Lockwood" is Mr. L. L. Crounse, the intelligent and gentlemanly Washington correspondent of the New York Times.

I now send to the desk the letter of Mr. Crounse, with whom I had not the pleasure of a personal acquaintance until since the publication of this report:

Hon. Joins B. Henderson:—

Dean Sir—Your note of the 20th inst. is received. In reply I have to say that the despatch in question was not founded upon any conversation had with you, and farther, that I never had any communication with you directly or indirectly on the subject of impeachment. The information on which I based this and other despatches, public and private, came to me in such a positive manner from members of the Missoni delegation that I felt warranted in putting it in such brief and positive terms; but the assumption of Butler that Henderson told Crounse what is contained in this despatch or anything else is wholly any other evidence in or sut of Butler's possession, and, I may add, is simply mother evidence in or out of Butler's possession, and, I may add, is simply mother which that denilemen has achieved a reputation which none can desire or hope to appreach. macopœla prescriptions and take a course of m desire or hope to approach. I am, sir, very respectfully, your obedient BETVIER,

L. L. CROUNSE.
N. Y. TIMES OFFICE, WASHINGTON, D. C., July

The following is his opinion of the Smell-

ing Committee, its report and the author of

that report: that report:

Mr. President, one or two general remarks and I am done. I forbear to characterize the whole proceeding as history must receive it. For selfish and maticious purposes the whole power of this government has poses the whole power of this government has neen given for fifty days. Telegraph offices have been ransacked and the operators have been ransacked and the operators dragged before a secret committe and subjected to a species of examination unknown in this country. Private letters have been surreptitiously taken from the desks of the writers; the officers of banks have been compelled to expose the accounts of their customers, and, to their utter astonials. customers, and, to their utter astonishment, have been interrogated as to the corruption of men whose characters were previously without a stain. Men have been subjected to imprisonment and insult such as illustrated the days of the base, contemptible and cowardly Jeffries. After all temptible and cowardly Jeffries. After all this work of inquiry a cunning, perverted statement is made, suppressing the ontire mass of testimony taken, which statement contains nothing except such miserable assaults as I have referred to. I cannot close without an allusion to what seems to be the strong point in this report. The writer seems determined in some way to bring suspicion upon the seven republican Senators who voted for the acquitat. The President is lost sight of. The report is the work of vengennee. It is not to vindicate the truth. It is the punishment malice uses to soothe disappointment.

But in the absence of all testimony against the seven, either from honorable or dishonorable witnesses, why should aspersions be cast upon them and the records of the country be polluted by the ravings of the reckless falsifier?

Enough of Butler. We next publish the views of the State Change with the state of the State Change with the State Change with the State Change with the state of the State Change with the state of the State Change with the state of the State Change with t views of the State Guard with reference to the United States Senate. It will be remembered that the State Guard is a "trooly oil" sheet published at Harrisburg. It will also be remembered that the Senate is composed of ten carpet-bagger Radicals, forty-four Northern Radicals, and twelve

hardly be responsible for the following remarkable condition of the Senate. markable condition of the Senate.

It is the unanimous testimony of newspaper correspondents, corroborated by observers who go to Washington to study the machinery of our Gouernment and gain a proper knowledge of the system of national legislation, that of the two bodies comal legislation, that of the two nones com-posing Congress the Senate is the most cor-rupt, most tractable to undue and criminal influences, easiest approached by men in quest of jobbing legislation.

Democrats. The twelve Democrats can

advocates and most ardent defenders in the Sonate. There is no concealment made of the fact in Washington, that United States Sonators engaged in speculations of all kinds by which the national treasury suffered. Truly these are humiliating declarations, and yet when we remember how Benators are elected, we need not be surprised at the logical result of frauds which follow.

ome will declare that the assention is sweeping, and that we should individual-ize. Let such us those take the impeach-ment trial for their guide. We give our impressions derived from reading the rement trial for their guide. We give our impressions derived from reading the reports of parties who are on the ground at Washington, most of whom agree that the United States Senate, as a body, is as corrupt to-day as was the Senate of Rome when its members made open prostitution of their official power and sold their votes, as they did their slaves, in the public market pince. The people have themselves to blame for this condition of public affairs. We all know that honorable, pure, patricits and Christian men are debarred from reaching the Senate, for the simple reason that honorable, pure, patricits and Christian men will not interest themselves in the initial proceedings for the election of United States Senator, leaving those grave duties to the discharge of the corrupt, the incompetent and debased. Need we wonder, then, that fraud is rampant in the Senate Chumber? God save the Republic from the increase of this fraud!

We close with the following letter of Thaddeus Stevens', giving his opinion of the Radicals, who have recently attacked

him:

House of Rephesentatives, \\
Washington, D. C., July 23, 1868. \\
Dear Sh: I have not declared for Reymour and Blair, and never expect to. I have only declared against fools and swindlers, who have fabricated the most atroclous falsehoods as to my position upon the currency question. When I am a little stronger I shall give a full history of this matter, which will put the fellows to shame, if they are capacie of blushing. I shall take care and protect the taxpayers from usurers, by making every man pay and receive just according to his contract. Yours, &c.,

Thadbeus Stevenson.

Fools and swindlers! delicate language, but saddy appropriate.

Such is the Radical party on Radical authority. Is it not time we were rid of it?

Two Democratic Sensiors from Georgia
The telegraph brings us the glad tidings that the rebel, Joe. Brown, and his carpetbag ally, Blodget, have been beaten in the Georgia Legislature, and Joshua Hill and H. V. Miller, Democrats, elected to the U.I.
I. S. Senste. A grand demonstration was held in Atlanta on the result by the Democracy. The city was splendidly illuminated and an immense gathering is in front of the United States Hotel. The concourse was addressed by several speakers. Miller came out in a fine speech for Seymour and Blair, constitutionality, liberty and the Union, Gen. Gordon delivered a splendid oration, appealing to the people to stand by

heroes of valuey roles, formation and the paid a splendid tribute to Seymour as a pure and the most gifted statesman of the country, and Blair the people's soldier, who at the close of the war laid his head as ascrifice on the altor of civil law, and lauded the Democratic platform adopted at New York as broadly Catholic in principle and christian in spirit.

Pimps and gamblers try to look honest, but folks can read the face too pialnly. Some try to persuade the ignorant that pills, physic, &c., cleanse the blood, purge the system, and do a hundred other things equally absurd.—Everybody knows that it is false, and that not medicine can purify or increase a drop of blood. Food makes blood, bone and mass, and is the Stati of Life. Every bone and mass, and is the Stati of Life. Every hone and mass, and is the Stati of Life. Every hone and mass, and is the Stati of Life. Every hone and mass, and we stream and leading the stomach. The living system has equically foe. Consulpation, ill however, and we streams, are the result of dosing, dosing the stomach. The living system has enough to do without working herself to death in expelling and kicking out the pernicuous nostrums poured down the throat.—Food she welcomes when she needs it; yea, asks for it. Let pill-makers and physic venders stop eating food, and see how long they can subsist on their blood-purifying, invitial acting, health-giving medicintal part of the stomach of the stom 7.—A CAPITALSTOCK SUBSCRIPTION from the stockholders, of which over Eight Million Dollars have been paid in upon the work already done, and which will be increased as the wants of the Company require.
