Fraud and corruption has achieved a temporary triumph, but, so surely as truth is immortal and immutable, so surely will the great principles of the Democratic party triumph over all opposition, if ernment. Beconstruction to be Beconstructed | The Election -- No Change in Our Stand- | Painter, Capt. Thomas M. Church, William and States Senster Morton, in a United States Senator Morton, in recent speech in Indiana, says:

by hours of the day and the silent watches of the night; observing the sacred rest of no Christian Sabbath; relieved by the joyons welcome and focund shouts of no scelal, religious, or national holiday; stoady as the measured, unceasing beating of the chronometer.

One thousand dollars per minute! of a loyal Congress, which, I doubt not, it will receive. (Congress has the power to pro-tect new States. Reconstruction is not fin-ished until it is established."

The Senator but utters the lawless. reckless ideas of his party, which shows the Rump will never be done, but ever doing. The Reconstruction acts are here pronounced a failure, -as every Democrat in Congress foretold they would be,—and hence Senator Morton roposes to reconstruct reconstruction, But count the cost. At least 100,000 men in arms will be necessary for Congress, thus ever to be governing white men's States,-with negroes,-50,000 of them may, perhaps, be Southern negro militia, not the less to come out of the pockets of the people. Are we ready And such a debt! Its magnitude is for all that?

The theory of our Government is Selfalmost beyond the power of human government-State Government, Home Sovernment. The theory of Senator Morton, and all his party, is Congress Government,---foreign Government,and for the cost of all this, the people of the United States must pay. But how long do we Northern dupes deem that the Senator Mortons will be content with the Northern people govparty has subjected the country, by its erning themselves, and how long before they insist upon Congress governing us? Already, we are told by bills in Congress, Negro Suffrage is to be inflicted

upon the Northern and Western States by acts of Congress.

There is no "Peace" among the American people, but in Self-Government, Home Government, State Governments. Consolidation is perpetual restlessness and agitation, if not war. It is practically and utterly impossible to govern 40,000,000 of people by the means of a Congress in Washington.-Only the State Governments, the County and Town Governments, the Home Governments, know the real comes despotism and war. Was Lincoln a Traitor? We will leave the Radicals to answer that question. He, however, was opposed to their system of reconstruction Or at least he was opposed to negro sufffage, one of the leading features of reconstruction. The following will do to read to Radicals in this State, who are letermined to vote for negro suffrage. It is found in a speech of Mr. Lincoln: It is found in a speech of Mr. Lincoln:

"I will say, then, that I am not, nor ever
have been, in favor of bringing about, in
my way, the social and political equality of
the white and black races—that I am not
nor ever have been, in favor of making
voters or jurors out of negroes; nor of qualifying them to hold office; nor to intermarry with white people; and I will say
in addition to this that there is a physical
difference between the white and black
races, which I believe will forever forblid
the two races living together on terms of the two races living together on terms of political and social equality. And inasmuch as they cannot so live, while they do remain together there must be the position of superior and inferior, and I, as much as any other man, am in favor of having the position assigned to the white race."

The President's order to military commanders regarding elections in the so-called reconstructed States has caused quite a breeze in Radical quarters, where congratulations on the quiet attitude of the President have been of late so frequent. The strong array of congressional enactments against such a course as General Reynolds has pursued in issuing military edicts in Texas puzzles them not a little, but they threaten all manner of horrible things abould the people of the States in question attempt to vote at the presidential election.

They passed resolutions highly laudatory of General Grant, and declaring themselves to be in favor of his election. They also resolved to call present canvass. During the conference, Governor Seymour alluded to the suggestions made in certain quarters as to a change in the Presidential ticket, and said that any change which should be made must include his withdrawal; that he was not based as the wide and it would be made as the wide as the wide as the wide and it would be made as the wide as the wide as the wide and it would be made as the wide a National Convention of negroes to be vania negro. Enough is known of the result on Tuesday's election to enable us to make up an estimate of the State Legislature. It will stand as follows: i tion and wide correspondence, the members of the "Border State Convention" voted unanimously to issue a call for a Convention of the Colored Men of the Nation, to be held in the City of Washington, D. C., at 12 o'clock M., on the second Wednesday, 13th day, of January, 1889. The partial or total excussion of colored citizens from the exercise of the elective franchise and other citizen rights, in so many States of the Union, especially demands, and ought to receive, the continued consideration of every colored man, and of the Congress of the nation. Surely, the Fourteenth Amendment of the United States Constitution, recently adopted, does not justify such exclusion. Surely, citizenship, as declared by that Amendment, carries with it the rights of citizens; and the evident duty of a liberty-loving and a loyal Congress is to see that a republican form of government is guaranteed while any State is pormitted to withhold from citizens, on account of color merely, the rights of citizens, Whatever other subjects you may on account of color merely, the rights of citizens. He designated Margaret Ware as the thief, and she was committed. A complaint was then made by Captain Thorne, of the Fourth Ward Police, against Allen for keeping a disorderly house, whereupon the foliowing conversation ensued:

"When General Rosecrans' army was affilicted with scurey, an appeal was made to the Governors of the Northern States for fresh vegetables." All of them except Governor Seymour responded to the call by referring the subject to the several Sanitary and Christian Commissions. Governor Seymour sent one hundred and fifty barriels of potatoes raised on his own farm. They were the only vegetables received before the army marched."
